This Supplement has been produced to amend the Base Prospectus according to the below:

A. In page 1203 of the Base Prospectus in the section “Recent Developments”, the following paragraphs shall be added:

2. “Comprehensive Assessment: asset quality review and stress tests of European banks by the European Central Bank: As part of the implementation of the European Single Supervisory Mechanism (SSM), Crédit Agricole Group was involved in the asset quality review exercises (AQR) and forward-looking stress tests of the 130 largest European banks. These exercises, carried out by the European Central Bank (ECB), were based on the financial statements at 31 December 2013. The ECB's conclusions were published on 26 October 2014. The assessment was performed under the current EU Capital Requirements Regulation and Directive (CRR/CRD IV). It was aimed at strengthening banks' balance sheets, enhancing transparency and building confidence. The review provided the ECB with substantial information on the banks that fall under its direct supervision and furthers its efforts to create a level playing field for supervision. The results of the stress tests and asset quality review for Crédit Agricole S.A. group are available on the websites of the ACPR (<https://acpr.banque-france.fr/international/les-grands-enjeux/stress-tests.html>) and ECB (<http://www.ecb.europa.eu/ssm/assessment/html/index.en.html>). For Crédit Agricole Group, the asset quality review covered all significant portfolios both in France and abroad, and confirmed the robustness of its financial structure. The stress tests found that Crédit Agricole Group is able to absorb severe stress without additional capital requirements; the capital surplus compared with the threshold defined by the ECB puts it in the top tier of eurozone banks. The asset quality review performed by the ECB was basically a regulatory exercise. However, the Group has taken the appropriate decisions with regard to the potential impact on the financial statements, in accordance with current accounting standards. The impacts are not material in terms of amount and presentation of Crédit Agricole S.A.'s and Crédit Agricole CIB's consolidated financial statements.”

3. “Crédit Agricole confirms that it has reached a settlement with U.S. and New York authorities concerning sanctions compliance and U.S. dollar payment practices.

Crédit Agricole SA (CASA) and its subsidiary Crédit Agricole Corporate and Investment Bank (CACIB) have reached agreements with the U.S. and New York authorities that have been conducting investigations regarding U.S. dollar transactions between 2003 and 2008 subject to U.S. economic sanctions and certain related New York state laws.

CACIB and CASA, which cooperated with the U.S. and New York authorities in connection with their investigations, have agreed to pay a total penalty amount of \$787.3MM (i.e. €692.7MM). The payment of this penalty will be allocated to the pre-existing reserve that has already been taken and

will not affect the accounts for the second half of 2015.

The agreements with the Board of Governors of the Federal Reserve System (Federal Reserve) and the New York State Department of Financial Services (NYDFS) are with CASA and CACIB. The agreement with the Office of Foreign Assets Control (OFAC) of the U.S. Department of the Treasury is with CACIB. CACIB also entered into separate deferred prosecution agreements (DPAs) with the United States Attorney's Office for the District of Columbia (USAO) and the District Attorney of the County of New York (DANY), the terms of which are three years. The USAO and DANY have agreed to take no further action against CACIB, CASA, or any of CACIB's subsidiaries or affiliates regarding the conduct subject to this investigation if CACIB complies with its obligations under the DPAs.

Crédit Agricole is committed to continue to strengthen its internal procedures and compliance programs regarding sanctions laws and will continue to cooperate fully with the U.S. and New York authorities regarding this matter, with its home regulators, the European Central Bank and the Autorité de Contrôle Prudentiel et de Résolution, and with the other regulators across its worldwide network.

Over the years, Crédit Agricole has undertaken important voluntary steps to develop and implement measures to prevent and detect non-compliance with sanctions laws and to identify related risks. It will continue to make improvements to its procedures and controls that are necessary to ensure strict compliance with applicable sanctions regulations.”

B. For the avoidance of doubt, the section “Recent Developments should be now read as follows (for ease of reference, the insertion is in bold):

RECENT DEVELOPMENTS

This section sets out recent developments with respect to the Issuers.

1. Sale of Newedge: The sale of 50% of Newedge to Société Générale was completed on 6 May 2014. The loss resulting from the fair value measurement of the assets held for sale was recorded in 2013 financial year for an amount of -€162 million. B.13	Recent events materially relevant to evaluation of Issuer's solvency⁸	<p>[1/Sale of Newedge: The sale of 50% of Newedge to Société Générale was completed on 6 May 2014. The loss resulting from the fair value measurement of the assets held for sale was recorded in 2013 financial year for an amount of -€162 million. In 2014, the completion of the sale generated no significant impact on Crédit Agricole CIB's financial statements.</p> <p>2/Comprehensive Assessment: asset quality review and stress tests of European banks by the European Central Bank: As part of the implementation of the European Single Supervisory Mechanism (SSM), Crédit Agricole Group was involved in the asset quality review exercises (AQR) and forward-looking stress tests of the 130 largest European banks. These exercises, carried out by the European Central Bank (ECB), were based on the financial statements at 31 December 2013. The ECB's conclusions were published on 26 October 2014. The assessment was performed under the current EU Capital Requirements Regulation and Directive (CRR/CRD IV). It was aimed at strengthening banks' balance sheets, enhancing transparency and building confidence. The review provided the ECB with substantial information on the banks that fall under its direct supervision and furthers its efforts to create a level playing field for supervision. The results of the stress tests and asset quality review for Crédit Agricole S.A. group are available on the websites of the ACPR (https://acpr.banque-france.fr/international/les-grands-enjeux/stress-tests.html) and ECB (http://www.ecb.europa.eu/ssm/assessment/html/index.en.html). For Crédit Agricole Group, the asset quality review covered all significant portfolios both in France and abroad, and confirmed the robustness of its financial structure. The stress tests found that Crédit Agricole Group is able to absorb severe stress without additional capital requirements; the capital surplus compared with the threshold defined by the ECB puts it in the top tier of eurozone banks. The asset quality review performed by the ECB was basically a regulatory exercise. However, the Group has taken the appropriate decisions with regard to the potential impact on the financial statements, in accordance with current accounting standards. The impacts are not material in terms of amount and presentation of Crédit Agricole S.A.'s and Crédit Agricole CIB's consolidated financial statements.</p> <p>3/ Crédit Agricole confirms that it has reached a settlement with U.S. and New York authorities concerning sanctions compliance and U.S. dollar payment practices.</p>

[The Certificates are not subject to **Collateral Monitoring** which means that [the] [neither the][Issuer][nor the][Third Party Chargor] is [not] obliged to deliver, or procure delivery of, additional or replacement Collateral Assets to or from the Collateral Account following any change to the value of the Collateral Assets.]

The security over the Collateral Assets may only be enforced in accordance with the terms and conditions applicable to the Secured Certificates (the **Secured Certificate Conditions**), following a Secured Certificate Event of Default (as defined below) and following service by a Certificateholder of a notice specifying that the Certificates [are immediately due and repayable at their Early Redemption Amount][that such Certificates will be subject to physical settlement in accordance with the Secured Certificate Conditions] (a **Secured Certificate Acceleration Event**). Security

The security created in respect of the Certificates is primarily a security interest over the Collateral Account in which the Collateral Assets are held. Where Collateral Assets are held through a clearing system (either directly or through a sub-custodian), the interests which the Custodian will hold and which are traded in the clearing system are not the physical Collateral Assets themselves but a series of contractual rights against such clearing system. As a result, where the Collateral Assets are held in a clearing system, the security in respect of the Certificates may take the form of an assignment of the Issuer's rights against the Custodian under a custodian agreement rather than a charge over the Collateral Assets themselves.

It will not necessarily be the case that the Collateral Assets will be sufficient to satisfy the claims of a Certificateholder in respect of the Certificates following the occurrence of a Secured Certificate Event of Default and in such circumstances, investors may lose all or a substantial portion of their investment. Similarly, certain events or circumstances, such as an insolvency in respect of any of the relevant parties, may lead to a delay in realisation of the Collateral Assets and payment [or delivery] of any related amounts to investors.]

[The capital invested in the Certificates is at risk. Consequently, the amount a prospective investor may receive on redemption of its Certificates may be less than the amount invested by it and may be zero (0).]
