Issue of CACIB USD95,000,000 Callable Zero Coupon Notes due January 2062

(CACIB USD95,000,000 Callable Zero Coupon Notes due January 2062, or the "Notes")

under the €50,000,000,000

Structured Debt Instruments Issuance Programme

Issue Price: 100 per cent. of the aggregate nominal amount

Issue Date: 26 January 2022

This information package includes (i) the Base Prospectus pertaining to the €50,000,000,000 Structured Debt Instruments Issuance Programme dated 7 May 2021 as supplemented by the supplements dated 12 July 2021 and 2 December 2021 (collectively, the **Base Prospectus**) and (ii) the final terms dated 26 January 2022 in respect of the Notes (the **Final Terms**). The Final Terms together with the Base Prospectus, are hereinafter referred to as the "Information Package".

The Notes will be issued by Crédit Agricole Corporate and Investment Bank (the **Issuer**).

Application will be made by the Issuer for the Notes to be listed on the Taipei Exchange in the Republic of China (the **ROC**).

The Notes will be traded on the Taipei Exchange pursuant to the applicable rules of the Taipei Exchange. Effective date of listing and trading of the Notes is on or about 26 January 2022.

For the avoidance of doubt, the Dealer, Crédit Agricole Corporate and Investment Bank, is not a licensed underwriter in the ROC, and the Dealer has not offered, sold or resold, or will not offer, sell or re-sell, directly or indirectly, any Notes as a part of the offering of the Notes in the ROC. Accordingly, the Dealer has procured Crédit Agricole Corporate and Investment Bank, Taipei Branch, Yuanta Securities Co., Ltd. and Taishin International Bank Co., Ltd. to be appointed by the Issuer as the underwriters for the purposes of distribution of the Notes to the "professional investors" (as defined under Article 2-1 of the Taipei Exchange Rules Governing Management of Foreign Currency Denominated International Bonds) in the ROC.

The Taipei Exchange is not responsible for the content of the Information Package and no representation is made by the Taipei Exchange to the accuracy or completeness of the Information Package. The Taipei Exchange expressly disclaims any and all liability for any losses arising from, or as a result of the reliance on, all or part of the contents of this Information Package. Admission to the listing and trading of the Notes on the Taipei Exchange shall not be taken as an indication of the merits of the Issuer or the Notes.

The Notes have not been, and shall not be, offered, sold or re-sold, directly or indirectly, in the ROC, to investors other than "professional investors" as defined under Article 2-1 of the Taipei Exchange Rules Governing Management of Foreign Currency Denominated International Bonds. Purchasers of the Notes are not permitted to sell or otherwise dispose of the Notes except by transfer to a professional investor.

ROC SETTLEMENT AND TRADING

Investors with a securities book-entry account with an ROC securities broker and a foreign currency deposit account with an ROC bank, may request the approval of the Taiwan Depository & Clearing

Corporation (the **TDCC**) for the settlement of the Notes through the account of TDCC with Euroclear or Clearstream, Luxembourg and if such approval is granted by TDCC, the Notes may be so cleared and settled. In such circumstances, TDCC will allocate the respective book-entry interest of such investor in the Notes position to the securities book-entry account designated by such investor in the ROC. The Notes will be traded and settled pursuant to the applicable rules and operating procedures of TDCC and the TPEX as domestic bonds.

In addition, an investor may apply to TDCC (by filing in a prescribed form) to transfer the Notes in its own account with Euroclear or Clearstream, Luxembourg to the TDCC account with Euroclear or Clearstream, Luxembourg for trading in the domestic market or vice versa for trading in overseas markets.

For such investors who hold their interest in the Notes through an account opened and held by TDCC with Euroclear or Clearstream, Luxembourg, distributions of principal and/or interest for the Notes to such holders may be made by payment services banks whose systems are connected to TDCC to the foreign currency deposit accounts of the holders. Such payment is expected to be made on the second Taiwanese business day following TDCC's receipt of such payment (due to time difference, the payment is expected to be received by TDCC one Taiwanese business day after the distribution date). However, when the holders will actually receive such distributions may vary depending upon the daily operations of the ROC banks with which the holder has the foreign currency deposit account.

TAXATION IN THE ROC

Interest on the Notes

As the Issuer of the Notes is not an ROC statutory tax withholder, there is no ROC withholding tax on the interest or deemed interest to be paid by the Issuer on the Notes.

Payments of interest or deemed interest under the Notes to an ROC individual holder are not subject to ROC income tax as such payments received by him/her are not considered to be ROC-sourced income. However, such holder must include the interest or deemed interest received in calculating his/her basic income for the purpose of calculating his/her alternative minimum tax (the **AMT**), unless the sum of the interest or deemed interest and other non- ROC-sourced income received by such holder and the person(s) who is(are) required to jointly file the tax return in a calendar year is below NTD1 million. If the amount of the AMT exceeds the ordinary income tax calculated pursuant to the ROC Income Basic Tax Act (also known as the AMT Act), the excess becomes such holder's AMT payable.

ROC corporate holders must include any interest or deemed interest receivable under the Notes as part of their taxable income and pay income tax at a flat rate of 20 per cent. (unless the total taxable income for a fiscal year is NTD120,000 or under), as they are subject to income tax on their worldwide income on an accrual basis. The AMT is not applicable.

Sale of the Notes

In general, the sale of corporate bonds or financial bonds is subject to 0.1 per cent. securities transaction tax (the **STT**) on the transaction price. However, Article 2-1 of the Securities Transaction Tax Act prescribes that STT will cease to be levied on the sale of corporate bonds and financial bonds from 1 January 2010 to 31 December 2026. Therefore, the sale of the Notes will be exempt from STT if the sale is conducted on or before 31 December 2026. Starting from 1 January 2027, any sale of the Notes will be subject to STT at 0.1 per cent. of the transaction price, unless otherwise provided by the tax laws that may be in force at that time.

Capital gains generated from the sale of bonds are exempt from income tax. Accordingly, ROC individual and corporate holders are not subject to income tax on any capital gains generated from the sale of the Notes. In addition, ROC individual holders are not subject to AMT on any capital gains generated from the sale of the Notes. However, ROC corporate holders should include the capital gains in calculating their basic income for the purpose of calculating their AMT. If the amount of the AMT

exceeds the annual income tax calculated pursuant to the ROC Income Basic Tax Act, the excess becomes the ROC corporate holders' AMT payable. Capital losses, if any, incurred by such holders could be carried over 5 years to offset against capital gains of same category of income for the purposes of calculating their AMT.

The above information is a general description of the principal ROC tax consequences for investors receiving interest in respect of, or disposing of, the Notes and is of a general nature based on the Issuers' understanding of current law and practice. It does not purport to be comprehensive and does not constitute legal or tax advice.

This general description is based upon the law as in effect on the date hereof and that the Notes will be issued, offered, sold and re-sold, directly or indirectly, in the ROC, to professional investors as defined under the Taipei Exchange Rules Governing Management of Foreign Currency Denominated International Bonds only. This description is subject to change potentially with retroactive effect. Investors should appreciate that, as a result of changing law or practice, the tax consequences may be otherwise than as stated below.

Investors should consult their professional advisers on the possible tax consequences of subscribing for, purchasing, holding or selling the Notes.

Securities may be redeemed at a fixed amount, including at par value, or at an amount linked to an underlying asset class, which may in some cases be zero. or a basket and/or combination of the above.

Specific provisions apply to Italian Securities and Italian Listed Securities (both as defined below), when specified in this Base Prospectus.

Securities may be denominated in any currency.

The amount payable (if any) as interest and/or on redemption in respect of a Security may be dependent upon whether certain events in respect of one or more issuers of bonds, or one or more bonds issued by such entities occur (a **Bond Linked Security**).

Securities may also be secured by the relevant Issuer, or one of its affiliates, in favour of holders of the Securities by a segregated pool of collateral assets, which will be identified in the applicable Final Terms (**Secured Securities**).

Subject to restrictions arising as a matter of law, there is no general restriction on the category of potential investors to which Securities may be offered under this Programme. In particular, there are restrictions on the distribution of this Base Prospectus and the offer or sale of Securities in the United States, the United Kingdom and the European Economic Area (including Luxembourg, Belgium, France, Germany, Ireland, Italy, Norway, Portugal, The Netherlands, Finland, Sweden and Spain) (see "*Subscription and Sale*").

Any person (an **Investor**) purchasing the Securities under the Programme is solely responsible for ensuring that any offer or resale of the Securities it purchased under the Programme occurs in compliance with applicable laws and regulations.

The information on the websites or URLs to which this Base Prospectus refers does not form part of this Base Prospectus, unless that information is incorporated by reference into the Base Prospectus (see "*Documents Incorporated by Reference*"), and has not been scrutinised or approved by the CSSF.

This Base Prospectus has been prepared on the basis that, except to the extent sub-paragraph (ii) below may apply, any offer of Securities in any Member State of the European Economic Area (each, a **Relevant State**) will be

made pursuant to an exemption under the Prospectus Regulation, from the requirement to publish a prospectus for offers of Securities. Accordingly any person making or intending to make an offer in that Relevant State of Securities which are the subject of an offering contemplated in this Base Prospectus as completed by final terms in relation to the offer of those Securities may only do so (i) in circumstances in which no obligation arises for the relevant Issuer or any Dealer to publish a prospectus pursuant to Article 1 of the Prospectus Regulation or supplement a prospectus pursuant to Article 23 of the Prospectus Regulation, in each case, in relation to such offer, or (ii) if a prospectus for such offer has been approved by the competent authority in that Relevant State or, where appropriate, approved in another Relevant State and notified to the competent authority in that Relevant State and (in either case) published, all in accordance with the Prospectus Regulation, provided that any such prospectus has subsequently been completed by final terms which specify that offers may be made other than pursuant to Article 1(4) of the Prospectus Regulation in that Relevant State, such offer is made in the period beginning and ending on the dates specified for such purpose in such prospectus or final terms, as applicable and the relevant Issuer has consented in writing to its use for the purpose of such offer. Except to the extent sub-paragraph (ii) above may apply, neither the relevant Issuer nor any Dealer have authorised, nor do they authorise, the making of any offer of Securities in circumstances in which an obligation arises for the relevant Issuer or any Dealer to publish or supplement a prospectus for such offer.

EEA MiFID II product governance / target market – The Final Terms in respect of any Securities will include a legend entitled "EEA MiFID II Product Governance" which will outline the target market assessment in respect of the Securities, taking into account the five (5) categories referred to in item 18 of the Guidelines published by the European Securities and Markets Authority (**ESMA**) on 5 February 2018, and which channels for distribution of the Securities are appropriate. Any person subsequently offering, selling or recommending the Securities (a "**Distributor**" as defined in MiFID II) should take into consideration the target market assessment; however, a Distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Securities (by either adopting or refining the target market assessment) and determining appropriate distribution channels.

A determination will be made in relation to each issue about whether, for the purpose of the MiFID product governance rules under EU Delegated Directive 2017/593 (the **MiFID Product Governance Rules**), any Dealer subscribing for any Securities is a manufacturer as defined in MiFID II in respect of such Securities, but otherwise none of the Arranger, the Dealers or any of their respective affiliates will be a manufacturer for the purpose of the MiFID Product Governance Rules.

PRIIPs / IMPORTANT – EEA RETAIL INVESTORS - If the Final Terms in respect of any Securities includes a legend entitled "Prohibition of Sales to EEA Retail Investors", the Securities are not intended to be offered, sold or otherwise made available to, and should not be offered, sold or otherwise made available to, any retail investor in the European Economic Area (**EEA**). Consequently no key information document required by Regulation (EU) No 1286/2014 (as amended, the **PRIIPs Regulation**) for offering or selling the Securities or otherwise making them available to retail investors in the EEA (a **Key Information Document**) has been prepared and therefore offering or selling the Securities or otherwise making them available to any retail investor in the EEA may be unlawful under the PRIIPs Regulation. If the Final Terms in respect of any Securities includes a legend entitled "Prohibition of Sales to EEA Retail Investors Without KID", the Securities are not intended to be offered, sold or otherwise made available to, and should not be offered, sold or otherwise made available, to any retail investor in the EEA without an updated Key Information Document. For these purposes, a **retail investor** means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of MiFID II; (ii) a customer within the meaning of Directive (EU) 2016/97, as amended, where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or (iii) not a qualified investor as defined in the Prospectus Regulation.

PRIIPs / IMPORTANT – UK RETAIL INVESTORS - If the Final Terms in respect of any Securities includes a legend entitled "Prohibition of Sales to UK Retail Investors", the Securities are not intended to be offered, sold or otherwise made available to, and should not be offered, sold or otherwise made available to, any retail investor in the United Kingdom (**UK**). Consequently no key information document required by Regulation (EU) No 1286/2014 as it forms part of domestic law by virtue of the European Union (Withdrawal) Act 2018 (**EUWA**) (as amended, the **UK PRIIPs Regulation**) for offering or selling the Securities or otherwise making them available to retail investors in the UK (a **Key Information Document**) has been prepared and therefore offering or selling the Securities or otherwise making them available to any retail investor in the UK may be unlawful under the UK

PRIIPS Regulation. If the Final Terms in respect of any Securities includes a legend entitled "Prohibition of Sales to UK Retail Investors Without KID", the Securities are not intended to be offered, sold or otherwise made available to, and should not be offered, sold or otherwise made available, to any retail investor in the UK without an updated Key Information Document. For these purposes, a **retail investor** means a person who is one (or more) of: (i) a retail client, as defined in point (8) of Article 2 of Regulation (EU) No 2017/565 as it forms part of domestic law by virtue of the EUWA; (ii) a customer within the meaning of the provisions of the FSMA and any rules or regulations made under the FSMA to implement Directive (EU) 2016/97, where that customer would not qualify as a professional client, as defined in point (8) of Article 2(1) of Regulation (EU) No 600/2014 as it forms part of domestic law by virtue of the EUWA; or (iii) not a qualified investor as defined in Article 2 of the Prospectus Regulation as it forms part of domestic law by virtue of the EUWA.

This Base Prospectus may be submitted on a confidential basis in the United States to a limited number of QIBs (as defined under "*Form of the Securities*") for informational use solely in connection with the consideration of the purchase of the U.S. Securities being offered hereby. For the avoidance of doubt, references herein to the Securities, including the U.S. Securities, include the Guarantee, where applicable.

The Securities in bearer form are subject to U.S. tax law requirements. Subject to certain exceptions, Securities in bearer form may not be offered, sold or delivered within the United States or its possessions or to, or for the account or benefit of, U.S. persons, except in certain transactions permitted by U.S. tax regulations. Terms used in this paragraph have the meanings given to them by the U.S. Internal Revenue Code of 1986, as amended and the regulations promulgated thereunder.

THE SECURITIES OFFERED HEREBY HAVE NOT BEEN AND WILL NOT BE REGISTERED WITH, OR APPROVED BY, THE U.S. SECURITIES AND EXCHANGE COMMISSION OR ANY SECURITIES REGULATORY AUTHORITY OF ANY STATE OR OTHER JURISDICTION OF THE UNITED STATES. Certain U.S. Securities may be offered or sold within the United States only to QIBs in transactions exempt from, or not subject to, registration under the Securities Act. Further, U.S. Securities issued by Crédit Agricole CIB FS and Crédit Agricole CIB FL may also be restricted to being offered or sold within the United States only to QIBs who are also QPs (as defined under "*Form of the Securities*") in transactions exempt from registration under the Securities Act that will not cause Crédit Agricole CIB FS and Crédit Agricole CIB FL, as applicable to become required to register as an "investment company" under the Investment Company Act. Each purchaser of U.S. Securities is hereby notified that the offer and sale of any U.S. Securities to it may be made in reliance upon the exemption from the registration requirements of the Securities Act provided by Rule 144A under the Securities Act (**Rule 144A**).

The Securities have not been approved or disapproved by the United States Securities and Exchange Commission (the **SEC**) or any other regulatory agency in the United States, nor has the SEC or any other regulatory agency in the United States passed upon the accuracy or adequacy of this document or the merits of the Securities. Any representation to the contrary is a criminal offence. Each purchaser or holder of U.S. Securities represented by Rule 144A Global Securities or any Securities issued in definitive form in exchange or substitution for Rule 144A Global Securities (together **Rule 144A Securities**) will be deemed, by its acceptance or purchase of any such Rule 144A Securities, to have made certain representations and agreements intended to restrict the resale or other transfer of such Securities as set out in "*Subscription and Sale*". SERVICE OF PROCESS AND ENFORCEMENT OF CIVIL LIABILITIES

Crédit Agricole CIB and Crédit Agricole CIB FS are corporations organised under the laws of France. Crédit Agricole CIB FL is a corporation organised under the laws of Luxembourg. All of the officers and directors named herein reside outside the United States and all or a substantial portion of the assets of the Issuers and the Guarantor and of such officers and directors are located outside the United States. As a result, it may not be possible for investors to effect service of process outside France or Luxembourg, as the case may be, upon the Issuers, the Guarantor or such persons, or to enforce judgments against them obtained in courts outside France or Luxembourg, as the case may be, predicated upon civil liabilities of the Issuers, the Guarantor or such directors and officers under laws other than the laws of France or Luxembourg, as the case may be, including any judgment predicated upon United States federal securities laws.

In an original action brought in France or Luxembourg predicated solely upon the U.S. federal securities laws, French courts or Luxembourg courts may not have the requisite jurisdiction to adjudicate such action. Actions for enforcement of judgments of U.S. courts rendered against the French persons or Luxembourgish persons referred to in the preceding paragraph would require such French persons or Luxembourgish persons to waive their right under Article 15 of the French *Code civil* or Article 15 of the Luxembourg *Code civil* to be sued in France or Luxembourg only. Crédit Agricole CIB and Crédit Agricole CIB FL respectively believe that no such French or Luxembourg persons have waived such right with respect to actions predicated solely upon U.S. federal securities laws.

In relation to investors in the Kingdom of Bahrain, the Securities issued in connection with this Base Prospectus and related offering documents may only be offered in registered form to existing account holders and accredited investors as defined by the Central Bank of Bahrain (the **CBB**) in the Kingdom of Bahrain where such investors make a minimum investment of at least U.S.\$100,000.

This offer does not constitute an offer of securities in the Kingdom of Bahrain in terms of Article (81) of the Central Bank of Bahrain and Financial Institutions Law 2006 (Decree Law No. 64 of 2006). This Base Prospectus and related offering documents have not been and will not be registered as a prospectus with the CBB.

Accordingly, no Securities may be offered, sold or made the subject of an invitation for subscription or purchase nor will this Base Prospectus or any other related document or material be used in connection with any offer, sale or invitation to subscribe or purchase Securities, whether directly or indirectly, to persons in the Kingdom of Bahrain.

BENCHMARKS REGULATION

Amounts payable under the Securities or assets deliverable under the Securities may be calculated or otherwise determined by reference to an index, a rate or a combination of indices or rates. Any such index or rate may constitute a benchmark for the purposes of Regulation (EU) 2016/1011 (the **Benchmarks Regulation**) published in the Official Journal of the European Union on 29 June 2016 and applied since 1 January 2018. If any such index or rate does constitute such a benchmark, the applicable Final Terms will indicate whether or not the benchmark is provided by an administrator included in the register of administrators and benchmarks established and maintained by the ESMA (the **Register**) pursuant to article 36 of the Benchmarks Regulation. Not every index or rate will fall within the scope of the Benchmarks Regulation. Furthermore, transitional provisions in the Benchmarks Regulation may have the result that the administrator of a particular benchmark is not required to appear in the Register at the date of the applicable Final Terms. The registration status of any administrator under the Benchmarks Regulation is a matter of public record and, save where required by applicable law, the relevant Issuer does not intend to update the applicable Final Terms to reflect any change in the registration status of the relevant administrator.

STABILISATION

In connection with the issue of any Tranche of Securities, the Dealer or Dealers (if any) named as the Stabilising Manager(s) (or persons acting on behalf of any Stabilising Manager(s)) in the applicable Final Terms may over-allot Securities or effect transactions with a view to supporting the market price of the Securities at a level higher than that which might otherwise prevail. However, there is no assurance that the Stabilising Manager(s) (or persons acting on behalf of a Stabilising Manager) will undertake stabilisation action. Any stabilisation action may begin on or after the date on which adequate public disclosure of the terms of the offer of the relevant Tranche of Securities is made and, if begun, may be ended at any time, but it must end no later than the earlier of 30 days after the issue date of the relevant Tranche of Securities and 60 days after the date of the allotment of the relevant Tranche of Securities. Any stabilisation action or over-allotment must be conducted by the relevant Stabilising Manager(s) (or persons acting on behalf of any Stabilising Manager(s)) in accordance with all applicable laws and rules.

RISK FACTORS

This section sets out the risks inherent in investing in Securities issued under the Programme.

Any investment in the Securities is subject to a number of risks. Prior to investing in the Securities, prospective investors should consider carefully the factors and risks associated with any investment in the Securities, the Issuers, and the Guarantor's business and the industry in which it operates, together with all other information contained in this Base Prospectus including, in particular, the risk factors described below.

Each of the Issuers and the Guarantor believes that the following factors may affect its ability to fulfil its obligations under Securities issued under the Programme. In each category below the Issuers set out first the most material risk, in their assessment, taking into account the expected magnitude of their negative impact and the probability of their occurrence.

Prospective investors should also read the detailed information set out elsewhere in this Base Prospectus and reach their own views prior to making any investment decision. Prospective investors should consider carefully whether an investment in the Securities is suitable for them in the light of the information in this Base Prospectus and their personal circumstances.

Capitalised terms not defined in this section have the meanings given to them in the Terms and Conditions of the Securities.

The Risk Factors are set out as follows:

1 FACTORS THAT MAY AFFECT EACH ISSUER'S ABILITY TO FULFIL ITS OBLIGATIONS UNDER SECURITIES ISSUED UNDER THE PROGRAMME OR, AS THE CASE MAY BE, TO FULFIL ITS OBLIGATIONS UNDER THE GUARANTEE

1.1 RISKS RELATED TO CRÉDIT AGRICOLE CIB

Such factors are set out at pages 144 to 152 of the 2020 Universal Registration Document incorporated herein by reference (see "*Documents Incorporated by Reference*").

1.2 RISKS RELATED TO CRÉDIT AGRICOLE CIB FS OR CRÉDIT AGRICOLE CIB FL

(a) Credit risk on Crédit Agricole CIB

The sole activity of CRÉDIT AGRICOLE CIB FS and CRÉDIT AGRICOLE CIB FL is to issue debt securities in order to raise cash to finance the activity of the Crédit Agricole CIB Group.

Due to the structure of the transactions carried out, CRÉDIT AGRICOLE CIB FS and CRÉDIT AGRICOLE CIB FL are, in the context of their activities, mainly subject to a credit risk vis-à-vis Crédit Agricole CIB, their parent company.

Crédit Agricole CIB unconditionally guarantees the immediate payment of all obligations and debts owed by CRÉDIT AGRICOLE CIB FS and CRÉDIT AGRICOLE CIB FL in respect of the issues.

In addition, the securities thus issued are underwritten by Crédit Agricole CIB and the funds collected by CRÉDIT AGRICOLE CIB FS and CRÉDIT AGRICOLE CIB FL are systematically deposited with Crédit Agricole CIB in the form of either term loans or derivatives with an exchange of par value.

Finally, derivatives such as swaps are systematically contracted by CRÉDIT AGRICOLE CIB FS and CRÉDIT AGRICOLE CIB FL with Crédit Agricole CIB in order to economically hedge debt securities and loans.

In this context, CRÉDIT AGRICOLE CIB FS and CRÉDIT AGRICOLE CIB FL do not bear, in the context of their activities, any liquidity and cash flow risk or net market risk.

However, credit risk remains. This credit risk corresponds to the risk that Crédit Agricole CIB, which is the sole counterparty in the financial transactions of CRÉDIT AGRICOLE CIB FS and CRÉDIT AGRICOLE CIB FL, does not meet its obligations under these transactions.

The probability of this risk occurring is considered low by CRÉDIT AGRICOLE CIB FS and CRÉDIT AGRICOLE CIB FL. However, in the event of realization, CRÉDIT AGRICOLE CIB FS and CRÉDIT AGRICOLE CIB FL would not be able to continue their operations.

(b) Crédit Agricole CIB Group's Resolution Risk

CRÉDIT AGRICOLE CIB FS and CRÉDIT AGRICOLE CIB FL could suffer losses if a resolution procedure were to be initiated or if the Group's financial situation were to deteriorate significantly.

The European banking crisis resolution framework has introduced a mechanism for the prevention and resolution of banking crises and has given the European resolution authorities, including the Single Resolution Board, very extensive powers to take any measure necessary for the resolution of all or part of a credit institution or the group to which it belongs. Such procedures are initiated when the Resolution Authority (as the case may be, the ACPR or the SRB) considers that:

- the failure of the institution or group to which it belongs is proven or foreseeable,

- there is no reasonable prospect that any other measure will prevent the default within a reasonable time,
- a winding-up procedure would be inadequate to preserve financial stability. The Resolution Authority considers that the single entry point strategy is the most appropriate for the Crédit Agricole Group. Pursuant to this strategy, Crédit Agricole S.A., in its capacity as the central body and parent company of its subsidiaries, would be the single entry point in the event that the Crédit Agricole Group were to be wound up. Whenever the Group's failure is proven or foreseeable and there is no reasonable prospect that another measure would prevent such failure within a reasonable period of time and/or the Group's situation requires exceptional financial support from the public authorities, the Resolution Authority must, before initiating a resolution procedure or if recourse to it is necessary to preserve the Group's viability, reduce the nominal value of the equity instruments (i.e. equity securities such as shares, units, CCIs and CCAs, as well as additional Tier 1 capital and Tier 2 capital) issued by the institutions concerned or convert these equity instruments (excluding equity securities) into equity securities or other instruments, after reduction of reserves.

If necessary, the Resolution Authority could go further and decide to implement the internal bail-in facility on the remaining equity instruments (i.e. decide on the total or partial depreciation of their nominal value or their conversion into equity securities or other instruments) as well as on eligible commitments issued by the institutions concerned from the most junior to the most senior level, excluding certain limited categories of liabilities, in accordance with the terms and conditions provided for by law and the applicable contractual provisions.

In the event of implementation of a bank resolution procedure at the Crédit Agricole Group level, the guarantee provided by Crédit Agricole CIB to CRÉDIT AGRICOLE CIB FS and CRÉDIT AGRICOLE CIB FL could be subject to such an internal bail-in and no longer cover all or part of the commitments of CRÉDIT AGRICOLE CIB FS and CRÉDIT AGRICOLE CIB FL.

The Resolution Authority may also implement other resolution measures, in particular: the total or partial sale of the business of a relevant institution to a third party or a bridge institution, the separation of the assets of that institution and the modification of the terms and conditions of the financial instruments issued by that institution (including the modification of their maturity, the amount of interest payable and/or a temporary suspension of any payment obligation under such instruments).

(c) **Risks related to dependence on Crédit Agricole CIB**

CRÉDIT AGRICOLE CIB FS and CRÉDIT AGRICOLE CIB FL are dependent on their parent company, Crédit Agricole CIB, in the conduct of their business, in particular due to:

- (i) The structure of the transactions carried out by CRÉDIT AGRICOLE CIB FS and CRÉDIT AGRICOLE CIB FL which requires:
 - the guarantee of Crédit Agricole CIB,
 - the subscription of securities issued by CRÉDIT AGRICOLE CIB FS and CRÉDIT AGRICOLE CIB FL by Crédit Agricole CIB,
 - the deposit of funds raised by Crédit Agricole CIB,
 - and the coverage of market risks of CRÉDIT AGRICOLE CIB FS and CRÉDIT AGRICOLE CIB FL by Crédit Agricole CIB,
- (ii) The strong financial exposure of CRÉDIT AGRICOLE CIB FS and CRÉDIT AGRICOLE CIB FL to Crédit Agricole CIB

Due to this strong dependence, Crédit Agricole CIB's risk factors contained in Crédit Agricole CIB's 2020 Universal Registration Document and incorporated by reference

are relevant to understand the main risks and uncertainties facing CRÉDIT AGRICOLE CIB FS and CRÉDIT AGRICOLE CIB FL.

2 RISKS RELATED TO THE SECURITIES ISSUED UNDER THE PROGRAMME

2.1 RISKS RELATED TO THE MARKET OF THE SECURITIES

(a) Market value of the Securities

An application may be made to admit the Securities to trading on the Luxembourg Stock Exchange's regulated market and to list them on the Official List of the Luxembourg Stock Exchange and/or any other regulated market or multilateral trading facility. The market value of the Securities will be affected by the creditworthiness of the relevant Issuer the value of the relevant Underlying(s) (which in turn will depend on the volatility of the relevant Underlying(s), or the dividend on the securities comprised in any Index that is an Underlying, market interest and yield rates and the time remaining to the redemption date) and, as the case may be, the financial condition and creditworthiness of any applicable Reference Entity or Bond Issuer.

The value of the Securities and the relevant Underlying(s) or, as the case may be, the likelihood of a Credit Event or Bond Event occurring, depends on a number of interrelated factors, including economic, financial and political events in France, Luxembourg or elsewhere, including factors affecting capital markets generally, the Luxembourg Stock Exchange and/or any other the stock exchanges on which the Securities, the Underlying(s) or the securities comprised in any Index that is an Underlying are traded. The price at which a Securityholder will be able to sell the Securities prior to maturity may be at a discount, which could be substantial, from the issue price or the purchase price paid by such Securityholder.

The trading price of Securities may fall in value as rapidly as it may rise and Securityholders may sustain a total loss of their investment.

Assuming all other factors are held constant, the more a Security is "out-of-the-money" and the shorter its remaining term to maturity, the greater the risk that purchasers of such Securities will lose all or part of their investment.

Accordingly, all or part of the capital invested by the Securityholder may be lost upon any transfer of the Security, so that the Securityholder in such case would receive significantly less than the total amount of capital invested.

(b) The secondary market

Securities may have no established trading market when issued, and one may never develop. If a market does develop, it may not be very liquid. This is particularly the case if the Securities are not listed or traded on any exchange market or trading venue (whether regulated or not) since pricing information for the Securities may be more difficult to obtain and the liquidity of the Securities may be adversely affected. Therefore, Securityholders may not be able to sell their Securities easily or at prices that will provide them with a yield comparable to similar investments that have a developed secondary market. This is particularly the case for Securities that are especially sensitive to interest rate, currency or market risks, are designed for specific investment objectives or strategies or have been structured to meet the investment requirements of limited categories of investors. These types of Securities generally would have a more limited secondary market and more price volatility than conventional debt securities.

Although application has been made for the Securities issued under the Programme to be admitted to trading on the Luxembourg Stock Exchange's regulated market and to be listed on the Official List of the Luxembourg Stock Exchange, and/or any other regulated market or multilateral trading facility in the European Economic Area, there is no assurance that any particular Tranche of Securities will be so admitted or that an active trading market will develop. Accordingly, there is no assurance as to the development or liquidity of any trading market for

any particular Tranche of Securities. Illiquidity may have an adverse effect on the market value of the Securities.

(c) **Exchange rate risks and exchange controls**

The relevant Issuer will pay nominal and interest (if applicable) on the Securities and the Guarantor will make any payments under the Guarantee in the Specified Currency. This presents certain risks relating to currency conversions if a Securityholder's financial activities are denominated principally in a currency or currency unit (the **Securityholder's Currency**) other than the Specified Currency. These include the risk that exchange rates may significantly change (including changes due to devaluation of the Specified Currency or revaluation of the Securityholder's Currency) and the risk that authorities with jurisdiction over the Securityholder's Currency may impose or modify exchange controls. An appreciation in the value of the Securityholder's Currency relative to the Specified Currency would decrease (1) the Securityholder's Currency-equivalent yield on the Securities, (2) the Securityholder's Currency-equivalent value of amounts payable in respect of the Securities and (3) the Securityholder's Currency-equivalent market value of the Securities.

Government and monetary authorities may impose (as some have done in the past) exchange controls that could adversely affect an applicable exchange rate. As a result, Securityholders may receive less interest (if applicable) or principal than expected. This may result in a significant loss on any capital invested from the perspective of a Securityholder whose domestic currency is not the Specified Currency.

2.2 RISKS RELATED TO LEGAL ISSUES REGARDING THE SECURITIES

(a) **The implementation in France of the EU Bank Recovery and Resolution Directive could materially affect the Securities**

Directive 2014/59/EU provides for the establishment of an EU-wide framework for the recovery and resolution of credit institutions and investment firms, as amended by Directive (EU) 2019/879 of the European Parliament and of the Council of 20 May 2019 (the **Bank Recovery and Resolution Directive** or **BRRD**), implemented in France by several legislative texts, to provide authorities with a credible set of tools to intervene sufficiently early and quickly in an unsound or failing relevant entity.

If Crédit Agricole CIB is determined to be failing or likely to fail within the meaning of, and under the conditions set by BRRD, and the relevant resolution authority applies any, or a combination, of the BRRD resolution tools (e.g. sale of business, creation of a bridge institution, asset separation or bail-in), any shortfall from the sale of Crédit Agricole CIB's assets may lead to a partial reduction in the outstanding amount of certain claims of unsecured creditors of that entity (including, as the case may be, the Securities), or, in a worst case scenario, a reduction to zero. The unsecured debt claims of Crédit Agricole CIB (including, as the case may be, the Securities) might also be converted into equity or other instruments of ownership, in accordance with the hierarchy of claims in normal insolvency proceedings, which equity or other instruments could also be subject to any future cancellation, transfer or dilution (such reduction or cancellation being first on common equity tier one instruments, thereafter the reduction, cancellation or conversion being on additional tier one instruments, then tier two instruments and other subordinated debts, then other eligible liabilities). The relevant resolution authority may also seek to amend the terms (such as variation of the maturity) of any outstanding unsecured debt securities (including, as the case may be, the Securities).

Public financial support to resolve Crédit Agricole CIB where there is a risk of failure will only be used as a last resort, after having assessed and exploited the above resolution tools, including the bail-in tool, to the maximum extent possible whilst maintaining financial stability.

As a result, the exercise of any power under the BRRD or any suggestion of such exercise could materially adversely affect the rights of the Securityholders, the price or value of their investment

in the Securities and/or the ability of Crédit Agricole CIB to satisfy its obligations under the Securities.

(b) **Insolvency laws**

Insolvency proceedings with respect to an Issuer may proceed under, and be governed by, Luxembourg or French insolvency laws, as applicable. The rights of Securityholders and the responsibilities of the relevant Issuer to the Securityholders under the aforementioned laws may be materially different from those with regard to equivalent instruments under the laws of the jurisdiction in which the Securities are offered. Additionally, the insolvency laws applicable to the relevant Issuer may not be as favourable to Securityholders as the insolvency laws of jurisdictions with which investors may be familiar.

More specifically, as *société anonyme* incorporated in France, French insolvency law applies to Crédit Agricole CIB and Crédit Agricole CIB FS. However, under French insolvency law holders of debt securities are automatically grouped into a single assembly of holders (the **Assembly**) in order to defend their common interests if a safeguard procedure (*procédure de sauvegarde*), an accelerated safeguard procedure (*procédure de sauvegarde accélérée*), an accelerated financial safeguard procedure (*procédure de sauvegarde financière accélérée*) or a judicial reorganisation procedure (*procédure de redressement judiciaire*) is opened in France with respect to the relevant Issuer.

The Assembly comprises holders of all debt securities issued by the relevant Issuer (including the Securities), whether or not under a debt issuance programme (such as the Programme) and regardless of their governing law.

The Assembly deliberates on the proposed safeguard plan (*projet de plan de sauvegarde*), proposed accelerated safeguard plan (*projet de plan de sauvegarde accélérée*), proposed accelerated financial safeguard plan (*projet de plan de sauvegarde financière accélérée*) or proposed judicial reorganisation plan (*projet de plan de redressement*) applicable to the relevant Issuer and may further agree to:

- (i) increase the liabilities (charges) of holders of debt securities (including the Securityholders) by rescheduling due payments and/or partially or totally writing-off receivables in the form of debt securities;
- (ii) establish an unequal treatment between holders of debt securities (including the Securityholders) as appropriate under the circumstances; and/or
- (iii) decide to convert debt securities (including the Securities) into securities that give or may give rights to share capital.

Decisions of the Assembly will be taken by a two-thirds majority (calculated as a proportion of the debt securities held by the holders attending such Assembly or represented thereat). No quorum is required to convene the Assembly.

For the avoidance of doubt, the provisions relating to the meetings of the Securityholders described in the Terms and Conditions of the Securities set out in this Base Prospectus and the Agency Agreement will not be applicable to the extent they are not in compliance with mandatory insolvency law provisions that apply in these circumstances.

The procedures that are described above, as they may be amended from time to time, could have an adverse impact on Securityholders seeking repayment in the event that the relevant Issuer were to become insolvent.

The commencement of insolvency proceedings against the relevant Issuer would have a material adverse effect on the market value of Securities issued by the relevant Issuer. Any decisions taken by the Assembly could substantially impact the Securityholders and even cause them to

lose all or part of their investment, should they not be able to recover amounts due to them from the relevant Issuer.

(c) **Modification**

General Condition 15 (*Meetings of Securityholders, modification and waiver*) and the Agency Agreement contain provisions for calling meetings of Securityholders to consider matters affecting their interests generally. These provisions permit defined majorities to bind all Securityholders including Securityholders who did not attend and vote at the relevant meeting and Securityholders who voted in a manner contrary to the relevant majority.

If a decision is adopted by a majority of Securityholders and such modifications were to impair or limit the rights of the Securityholders, this may have a negative impact on the market value of the Securities.

The relevant Issuer may also modify the Terms and Conditions of the Securities (other than French Law Securities) without the consent of the Securityholders in any manner which the relevant Issuer and/or the Calculation Agent may deem necessary or desirable provided that such modification (i) is not materially prejudicial to the interests of the Securityholders; (ii) is of a formal, minor or technical nature or (iii) is made to (A) correct a manifest or proven error or omission, (B) to cure, correct or supplement any defective provision contained in the Terms and Conditions of the Securities, (C) to comply with mandatory provisions of law or regulation or (D) to comply with any requirement of any stock exchange on which the Securities may be listed. As a result, Securityholders shall not be consulted on those modifications and shall not be able to oppose them through meetings.

In the case of French Law Securities which (i) have a denomination lower than EUR 100,000 and (ii) may be traded in amounts lower than EUR 100,000, the terms and conditions of the Securities may only be amended if there is a meeting or a written resolution of the holders of the Securities in accordance with French law. The positive vote of two-thirds (for a meeting of the holders) or three-quarters (for a written resolution of the holders) or more of holders will bind the remaining holders.

In the case of French Law Securities which (i) have a denomination at least equal to EUR 100,000 or (ii) can only be traded in amounts of at least EUR 100,000, the terms and conditions of the Securities may be amended by us without your consent to correct a manifest error. In other circumstances, the consent of a defined majority of holders is required to make amendments. The terms and conditions of the Securities contain provisions for holders of Securities to call and attend meetings to vote upon such matters or to pass a written resolution in the absence of such a meeting. Resolutions passed at such a meeting, or passed in writing, can bind all holders of Securities, including investors that did not attend or vote, or who do not consent to the amendments.

(d) **Unsecured obligations and absence of negative pledge**

Save in respect of Secured Securities (in respect of which, please see "Risks related to Secured Securities" below), in accordance with General Condition 2 (*Status of the Securities and the Guarantee*), each Series of Securities and the Guarantee each constitute general, unsecured, contractual obligations of the relevant Issuer and, as the case may be, the Guarantor and of no other person. Any person who purchases such Securities is relying upon the creditworthiness of the relevant Issuer and, if applicable, the Guarantor and has no rights under the Terms and Conditions of the Securities against any other person. Neither the Securities nor the Guarantee will (with the exception of Secured Securities) be secured by any property of any Issuer or the Guarantor and all the Securities issued by an Issuer rank equally among themselves and, together with the Guarantee, with all other unsecured and unsubordinated (or with respect to Crédit Agricole CIB, senior preferred) obligations of that Issuer and, as the case may be, the Guarantor.

In addition of being unsecured, there is no negative pledge in respect of the Securities which means that an Issuer may pledge assets to secure other notes or debt instruments without granting an equivalent pledge or security interest and status to the Securities or granting such pledge or security interest to Securityholders.

Securityholders should be aware of this differentiating component as compared to most senior bonds and that they will not benefit from protection that would secure the ranking of the Securities.

(e) **Absence of Gross up**

In accordance with General Condition 8.2 (*Gross Up*), the Securities will not have the benefit of a gross up provision in respect of withholding tax unless "Gross Up" is specifically provided as applicable in the applicable Final Terms. Where a gross up does not apply, the relevant Issuer, or the Guarantor, as the case may be, will not pay any additional amounts in respect of any such withholding or deduction. Therefore, the corresponding risk shall be borne by the Securityholders. In this case, Securityholders may suffer a loss corresponding to such additional amounts.

(f) **Potential U.S. Foreign Account Tax Compliance Act Withholding**

The foreign account tax compliance provisions of the Hiring Incentives to Restore Employment Act of 2010 (**FATCA**) impose a withholding tax of 30 per cent. (**FATCA Withholding**) on certain U.S.-source payments (including Dividend Equivalent Payments, as defined in "*Legislation affecting Dividend Equivalent Payments (Section 871(m) of the U.S. Internal Revenue Code)*" below), as well as certain payments by non-U.S. entities to persons that fail to meet certain certification or reporting requirements.

If an amount in respect of U.S. withholding tax were to be deducted or withheld from interest, nominal or other payments on the Securities, neither the relevant Issuer nor any Agent nor any other person would, pursuant to the conditions of the Securities, be required to pay additional amounts as a result of the deduction or withholding of such tax. As a result, investors may receive less interest or nominal than expected.

FATCA is particularly complex and its application with respect to "foreign passthru payments" is uncertain at this time. The application of FATCA to Securities that may be affected by FATCA may be addressed in any applicable drawdown prospectus or a Supplement to the Base Prospectus, as applicable. If an amount in respect of U.S. withholding tax were to be deducted or withheld from interest, nominal or other payments on the Securities, and if General Condition 6.5 (*Redemption for FATCA Withholding*) is specified in the applicable Final Terms as being applicable to the Securities, the Securities may be, or in certain circumstances will be, redeemed early at their fair market value. If General Condition 6.5 (*Redemption for FATCA Withholding*) is specified in the applicable Final Terms as being not applicable to the Securities, the occurrence of a FATCA Withholding with respect to the Securities will not result in them being subject to early redemption. As mentioned above, in these circumstances neither the relevant Issuer nor any Agent nor any other person will be required to pay additional amounts as a result of the FATCA Withholding and investors may therefore receive less interest or nominal than expected. See also risk factors below "*Securities subject to optional redemption by the relevant Issuer*" and "*Securities subject to automatic redemption*" for more information on the risks linked to the redemption pursuant to General Condition 6.5 (*Redemption for FATCA Withholding*).

(g) **The Dodd-Frank Wall Street Reform and Consumer Protection Act and other regulatory changes affecting derivatives markets**

The Dodd-Frank Wall Street Reform and Consumer Protection Act (**Dodd-Frank Act**) provides for substantial changes to the regulation of the futures and over-the-counter (**OTC**) derivative markets. Section 619 of the Dodd-Frank Act added a provision to federal banking law to generally prohibit certain banking entities from engaging in proprietary trading or from acquiring

or retaining an ownership interest in, or sponsoring or having certain relationships with, a hedge fund or private equity fund, subject to certain exemptions (such statutory provisions together with implementing regulations, the **Volcker Rule**).

The Volcker Rule includes as a "covered fund" any entity that would be an investment company but for the exemptions provided by Section 3(c)(1) or Section 3(c)(7) of the Investment Company Act, subject to certain exclusions found within the Volcker Rule. Therefore, any Issuer intending to rely on Section 3(c)(7) would be a covered fund unless an exclusion applies.

No assurance can be made that any Issuer will qualify for any other exclusion or exemption that might be available under the Volcker Rule and its implementing regulations. If an Issuer were determined to be a covered fund, then covered banking entities and other entities subject to the Volcker Rule would be restricted from acquiring and retaining certain ownership interests in that Issuer.

No party to the transaction has taken a view as to which investors may invest in the Securities. As such, investors should consult their own legal advisors in determining whether the Volcker Rule would prohibit or restrict them from acquiring an interest in the Securities, or would require them to subsequently divest such interest, both in connection with their purchase of Securities on the closing date.

(h) **Legislation affecting Dividend Equivalent Payments (Section 871(m) of the U.S. Internal Revenue Code)**

In accordance with U.S. Treasury regulations issued under Section 871(m) of the U.S. Internal Revenue Code of 1986 (the **Section 871(m) Regulations**), certain payments on certain Securities that are, in whole or in part, directly or indirectly contingent upon, or determined by reference to, the payment or deemed payment of a dividend (a **Dividend Equivalent Payment**) linked to U.S. equities or indices that include U.S. equities (such equities and indices, **U.S. Underlying Equities**) generally become subject to a 30 per cent. U.S. withholding tax when made to non-U.S. holders as defined pursuant to Section 871(m) Regulations (a **Non-U.S. Holder**). Specifically, the Section 871(m) Regulations will generally apply to Securities that replicate the economic performance of one or more U.S. Underlying Equities, either as Delta-One products till 31 December 2022 or as products with a delta at least equal to 0.8 as from 1 January 2023, as determined by the relevant Issuer generally on the date the expected delta of the product is determined by the relevant Issuer (such date being the Trade Date) based on tests set out in the applicable Section 871(m) Regulations. For this purpose, a **Delta-One product** is a Security with a delta (generally the ratio of a change in the fair market value of the derivative security relative to a change in the fair market value of the U.S. Underlying Equity which the derivative security references) of one.

If the 30 per cent. U.S. withholding tax on dividend equivalents paid or deemed paid applies, it will reduce the payment received by Non-U.S. Holders. If a Non-U.S. Holder becomes subject to the 30 per cent. U.S. withholding tax, the withholding tax may be reduced by an applicable tax treaty, eligible for credit against other U.S. tax liabilities or refunded, provided that the beneficial owner claims a credit or refund from the United States Internal Revenue Service in a timely manner, but the relevant Issuer makes no assessment as to whether any such tax credits will be available to Non-U.S. Holders.

Potential application of Section 871(m) Regulations to an investment in the Securities might adversely affect Securityholders.

(i) **Securities where denominations involve integral multiples**

In relation to any issue of Securities, which have denominations consisting of a minimum Specified Denomination, plus one or more higher integral multiples of another smaller amount, it is possible that such Securities may be traded in amounts that are not integral multiples of such minimum Specified Denomination. In such a case a Securityholder who, as a result of trading

such amounts, holds an amount which is less than the minimum Specified Denomination in his account with the relevant clearing system at the relevant time may not receive a Definitive Security in respect of such holding (should Definitive Securities be printed) and would need to purchase a nominal amount of Securities such that its holding amounts to a Specified Denomination.

If Definitive Securities are issued, Securityholders should be aware that Definitive Securities, which have a denomination, that is not an integral multiple of the minimum Specified Denomination may be illiquid and difficult to trade. As a result, Securityholders shall in turn be adversely impacted.

2.3 RISKS RELATED TO THE STRUCTURE OF A PARTICULAR ISSUE OF SECURITIES

(a) Risks related to the interest rate

(i) *Fixed Rate Securities*

General Condition 4.1 (*Interest on Fixed Rate Securities*) allows for Fixed Rate Securities to be issued. Investment in Securities which bear interest at a fixed rate involves the risk that subsequent changes in market interest rates may adversely affect the value of the relevant Tranche of Securities. While the nominal interest rate of the Fixed Rate Securities is fixed during the term of such Securities, the current interest rate on the capital markets ("**market interest rate**") typically varies on a daily basis. As the market interest rate changes, the market value of the Fixed Rate Securities would typically change in the opposite direction. If the market interest rate increases, the market value of the Fixed Rate Securities would typically fall, until the yield of such Securities is approximately equal to the market interest rate. If the market interest rate falls, the market value of the Securities would typically increase, until the yield of such Securities is approximately equal to the market interest rate. The degree to which the market interest rate may vary presents a significant risk to the market value of the Fixed Rate Securities if a Securityholder were to dispose of such Securities.

(ii) *Floating Rate Securities*

General Condition 4.2 (*Interest on Floating Rate Securities*) allows for Floating Rate Securities to be issued. A key difference between Floating Rate Securities and Fixed Rate Securities is that interest income on Floating Rate Securities cannot be anticipated. Due to varying interest income, investors are not able to determine a definite yield of Floating Rate Securities at the time they purchase them, so that their return on investment cannot be compared with that of investments having longer fixed interest periods. If the relevant Final Terms provide for frequent interest payment dates, investors are exposed to the reinvestment risk if market interest rates decline. That is, Securityholders may reinvest the interest income paid to them only at the relevant lower interest rates then prevailing. In addition, the Issuer's ability to issue Fixed Rate Securities may affect the market value and secondary market (if any) of the Floating Rate Securities (and *vice versa*).

The degree to which the reference rates may vary is uncertain. The interest amount payable on any Interest Payment Date may be different from the amount payable on the initial or previous Interest Payment Date and may negatively impact the return under the Floating Rate Securities and result in a reduced market value of the Securities if a Securityholder were to dispose of such Securities.

(iii) *Risks relating to Securities linked to a "benchmark" rate, index or price source*

The Rate of Interest in respect of certain Securities may be determined by reference to a Relevant Benchmark that constitutes a "benchmark" for the purposes of Regulation (EU) 2016/1011 (the **Benchmarks Regulation**) published in the Official Journal of the EU on 29 June 2016 and applied since 1 January 2018. Regulation (EU) 2021/168 of the European Parliament and of the Council of 10 February 2021 has amended the existing provisions of the Benchmarks Regulation

by extending the transitional provisions applicable to material benchmarks and third-country benchmarks until the end of 2023.

Interest rates and indices which are deemed to be "benchmarks" are the subject of recent national and international regulatory guidance and proposals for reform. Some of these reforms are already effective whilst others are still to be implemented. These reforms may cause such benchmarks to perform differently than in the past, to disappear entirely, to be subject to revised calculation methods, or have other consequences which cannot be predicted. Any such consequence could have a material adverse effect on any Securities linked to or referencing such a "benchmark".

The Benchmarks Regulation applies to the provision of benchmarks, the contribution of input data to a benchmark and the use of a benchmark within the EU. Notwithstanding the provisions of General Condition 15.2 (*Benchmark Trigger Event*) and of the Asset Linked Conditions which seek to offset any adverse effects for the Securityholders, the Benchmarks Regulation could have a material impact on any Securities linked to or referencing a "benchmark", in particular in any of the following circumstances:

- an index which is a "benchmark" could not be used by a supervised entity in certain ways if its administrator does not obtain authorisation or registration or, if based in a non-EU jurisdiction, as applicable, the administrator is not recognised as equivalent or recognised or endorsed and the transitional provisions do not apply; and
- if the methodology or other terms of the "benchmark" could be changed in order to comply with the requirements of the Benchmarks Regulation. Such changes could, among other things, have the effect of reducing or increasing the rate or level or otherwise affecting the volatility of the published rate or level of the "benchmark" and as a consequence, Securityholders could lose part of their investment.

More broadly, any of the international or national reforms, or the general increased regulatory scrutiny of "benchmarks", could increase the costs and risks of administering or otherwise participating in the setting of a "benchmark" and complying with any such regulations or requirements.

Such factors may have the following effects on certain "benchmarks": (i) discourage market participants from continuing to administer or contribute to the "benchmark"; (ii) trigger changes in the rules or methodologies used in the "benchmark" or (iii) lead to the disappearance of the "benchmark".

Any of the above changes or any other consequential changes as a result of international or national reforms or other initiatives or investigations, could have a material adverse effect on the value of and return on any Securities linked to or referencing a "benchmark".

If a benchmark were discontinued or otherwise unavailable, the rate of interest on Securities which are linked to or which reference such benchmark will be determined for the relevant period by the fall-back provisions applicable to such Securities (see General Condition 15.2 (*Benchmark Trigger Event*) and the Asset Linked Conditions). Any of these measures could have an adverse effect on the value or liquidity of, and return on, any Securities linked to or referencing a "benchmark".

- (iv) *Future discontinuance of LIBOR and other benchmarks may adversely affect the value of Securities*

The Financial Conduct Authority (the **FCA**) in the United Kingdom, which regulates ICE Benchmark Administration (**IBA**), the administrator of LIBOR, made an announcement on 5 March 2021 confirming the future cessation and loss of representativeness of the LIBOR benchmarks. The FCA's announcement followed notification from the IBA of its intention to cease providing all LIBOR settings for all currencies, subject to any rights of the FCA to compel

the IBA to continue publication. All 35 LIBOR settings will either cease to be provided by the IBA or will no longer be representative after 31 December 2021 or, in respect of certain of the USD LIBOR settings, 30 June 2023. The FCA has decided not to require any panel banks to continue to submit to LIBOR beyond the dates from which they have notified their departure or to require the IBA to continue publishing LIBOR beyond such dates. It is not possible to predict whether, and to what extent, panel banks will continue to provide LIBOR submissions to the administrator of LIBOR in future. This may cause LIBOR to perform differently than it did in the past and may have other consequences which cannot be predicted.

If LIBOR were discontinued or otherwise unavailable, the rate of interest on Securities which reference LIBOR will be determined for the relevant period by the fall-back provisions applicable to such Securities. Depending on the manner in which the LIBOR rate is to be determined under the Terms and Conditions of the Securities, this may (i) if ISDA Determination applies, be reliant upon the provision by reference banks of offered quotations for the LIBOR rate which, depending on market circumstances, may not be available at the relevant time or (ii) if Screen Rate Determination applies, result in the effective application of a fixed rate based on the rate which applied in the previous period when LIBOR was available. Any of the foregoing could have an adverse effect on the value or liquidity of, and return on, any Securities which reference LIBOR.

- (v) *Zero Coupon Securities are subject to higher price fluctuations than non-discounted securities*

General Condition 4.4 (*Interest on Zero Coupon Securities*) allows for Zero Coupon Securities to be issued. The prices at which Zero Coupon Securities trade in the secondary market tend to fluctuate more in relation to general changes in interest rates than do prices for conventional interest-bearing securities because the discounted issue prices are substantially below par. If market interest rates increase, Zero Coupon Securities can suffer higher price losses than other securities having the same maturity. Therefore, in similar market conditions, the holders of Zero Coupon Securities could be subject to higher losses on their investments than the holders of other instruments such as Fixed Rate Securities or Floating Rate Securities. Any such volatility may have a significant adverse effect on the market value of the Securities.

- (vi) *Risks related to negative interest*

In accordance with General Condition 4.11 (*Negative Interest*), in certain circumstances, specifically provided in the applicable Final Terms, the Final Redemption Amount, Instalment Redemption Amount or Early Redemption Amount, as the case may be, may be reduced by applying a negative amount (or rate) thereto, it being specified that in no event the Final Redemption Amount, Instalment Redemption Amount or Early Redemption Amount, as the case may be, shall be less than zero. As a result, Securityholders may lose all or part of the capital invested.

(b) **Risks related to the redemption of the Securities**

- (i) *Securities subject to optional redemption by the relevant Issuer*

In accordance with General Conditions 3.2 (*Scheduled Payment Currency Cessation Event*), 4.2(e) (*FRS Additional Disruption Events*), 6.3 (*Redemption for tax reasons*), 6.5 (*Redemption for FATCA Withholding*), 6.6 (*Regulatory Redemption or Compulsory Resales*), 6.7 (*Clean-up Call Option*) and 19 (*Illegality and Force Majeure*), the Final Terms for a particular issue of Securities may provide for early redemption at the option of the Issuer upon the occurrence of a Scheduled Payment Currency Cessation Event, a FRS Additional Disruption Events, for taxation reasons, FATCA Withholding, Regulatory Redemption or Compulsory Resales, in case of the clean-up call option and illegality and force majeure. The Issuers may redeem such Securities at an amount equal to the fair market value of such Security.

If the relevant Issuer exercises its right to redeem any Securities, this may limit the market value of the Securities concerned. During any period when the relevant Issuer may elect to redeem Securities, the market value of those Securities generally will not rise substantially above the price at which they can be redeemed and a Securityholder may not be able to reinvest the redemption proceeds in a manner which achieves a similar effective return. This may also be true prior to any redemption period, or during any period where there is an actual or perceived increased likelihood that the Securities may be redeemed (including where there are circumstances giving rise to a right to redeem for tax or regulatory reasons).

As a consequence of an early redemption, the yields received upon redemption may be lower than expected, and the redemption amount of the Securities may be lower than the purchase price for the Securities paid by the Securityholder. The Securityholder may thus not receive the total amount of the capital invested. In addition, Securityholders that choose to reinvest monies they receive through an early redemption may be able to do so only in securities with a lower yield than the redeemed Securities. Should the Securities at such time be trading well above the price set for redemption, the negative impact on the Securityholders' anticipated returns would be significant.

(ii) *Securities subject to automatic redemption*

In accordance with General Conditions 6.4 (*Special Tax Redemption*) and 6.5 (*Redemption for FATCA Withholding*), the Issuer shall redeem the Securities upon the occurrence of a special tax event or (in relation to Swedish Securities and Norwegian Securities) in case of a FATCA Withholding. Such automatic redemption may negatively affect the value of the Securities and may lead to redemption at an amount or time less favourable for Securityholders. As a result, the Securityholder may thus not receive the total amount of the capital invested.

(iii) *Risks related to Early Redemption Trigger Events*

General Condition 6.2 (*Early Redemption Trigger Events*) and Annex 8 – Early Redemption Trigger Conditions provide for several Early Redemption Trigger Events (the Issuer Call Early Redemption Trigger, the Investor Put Early Redemption Trigger, the Knock-out Early Redemption Trigger, the Callable Knock-out Early Redemption Trigger, the Puttable Knock-out Early Redemption Trigger, the Target Early Redemption Trigger, the Knock-out Multi Underlying Redemption Trigger and the Automatic Early Redemption Trigger), which may limit the market value of Securities. On and prior to any Early Redemption Date, the market value of those Securities will generally not rise substantially above the price at which they can be redeemed.

The relevant Issuer may be expected to redeem Securities when its cost of borrowing is lower than the interest rate on the Securities. The yields received upon redemption may be lower than expected, and the redeemed face amount of the Securities may be lower than the purchase price for the Securities paid for the Securities by the investor. As a consequence, part of the capital invested by the investor may be lost, so that the investor in such case would not receive the total amount of capital invested. Additionally, at the Early Redemption Date, an investor would generally not be able to reinvest the redemption proceeds at an effective interest rate as high as the interest rate on the Securities being redeemed and may only be able to do so at a significantly lower rate.

(iv) *Risks related to Redemption Methods*

The Redemption Method applicable to the Final Redemption Amount or the Instalment Redemption Amount, as applicable, may be different to the Redemption Method applicable to the Early Redemption Amount. Where Performance Redemption or Growth Redemption applies, the Early Redemption Amount, Instalment Redemption Amount or Final Redemption Amount, as applicable, will be calculated by reference to a Redemption Payoff. Securityholders should therefore also refer to the relevant risk factors set out below which apply to the Redemption Payoff specified in the applicable Final Terms to be applicable for determining the Early

Redemption Amount, the Final Redemption Amount or the Instalment Redemption Amount, as the case may be. The calculation of such Redemption Payoff may be linked to the value of one or more Underlying(s) that have been selected under the relevant Redemption Payoff. The performance of the Underlying(s) will consequently affect the Early Redemption Amount, Instalment Redemption Amount or Final Redemption Amount an investor will receive.

As a result, the Early Redemption Amount, Instalment Redemption Amount or Final Redemption Amount may be less than the nominal amount of the Securities and Securityholders may lose all or part of the amount of the capital invested.

(v) *Fair Market Value Redemption Amount*

Where a Security is subject to early redemption, it may (where specified in the applicable Final Terms) be redeemed at its Fair Market Value Redemption Amount, which may be different from the amount due on the scheduled redemption date. Save in respect of Securities where the Fair Value Redemption Amount is determined by reference to a fixed percentage, the Fair Market Value Redemption Amount in respect of a Security will be an amount equal to the fair market value of the Security (subject to a minimum of zero). Following the early redemption of the Securities, a Securityholder may not be able to reinvest the redemption proceeds at an equivalent rate of return to the Securities being redeemed and may only be able to do so at a significantly lower rate or in worse investment conditions.

(vi) *Redemption Unwind Costs*

Redemption Unwind Costs or Payoff Feature Unwind Costs, if applicable, reflect an amount, equal to such Security's pro rata portion of the value (determined in the currency in which the Securities are denominated) of any losses, expenses and costs to the relevant Issuer and/or any of its Affiliates who may have hedged the price risk of the Securities and any loss of tax relief or other tax consequences of unwinding or adjusting any underlying or related swap agreement or other hedging arrangements, all as calculated by the Calculation Agent in its sole discretion. The investor has no way of knowing if the Securities have been hedged, the terms of any such hedge and the consequences of when such hedge is unwound or adjusted and so have no way of knowing what this amount will be and the effect on the amount paid on redemption of the Securities.

(vii) *Risks related to Disruption Events*

Linked Interest Securities, Linked Redemption Securities, Bond Linked Securities and Credit Linked Securities may be subject to risks related to additional disruption events, market disruption events, disrupted days and other events that have a material effect on the Securities, if applicable (each as defined in the relevant Asset Conditions, the **Disruption Events**).

The occurrence of any Disruption Event may result in the postponement of the relevant observation date relating to any Underlying or affected component Underlying of a Basket, the postponement of the relevant payment date for interest or redemption or the redemption of the Securities by the Issuer. The amount to be paid following any postponement of the payment date will not be adjusted to take into account any interest or other sum in respect of the postponement of the payment.

Investors should be aware that the Calculation Agent has a large amount of discretion upon the occurrence of any Disruption Event. The Calculation Agent may make adjustments to the Conditions as it considers appropriate and may determine the fair market value of the relevant Underlying or good faith estimate of the level of the Index, as applicable, in accordance with the relevant Asset Conditions.

Any postponement of the observation date or payment date or any amendment to the Conditions may have an adverse effect on the value of the Securities. The occurrences of any such event

may also adversely affect the investors' investment schedule, timetable or plans in relation to which the payment dates of the Securities are connected.

(c) **Risks related to the Currency of the Securities**

(i) *Risks relating to Alternative Currency Securities*

If the Securities are Alternative Currency Securities, the occurrence of an Alternative Currency Event may lead to postponement of payments under the Securities, payment in an alternative currency or early redemption of the Securities. As a result, Securityholders may be adversely affected and lose some of the capital invested.

(ii) *Risks relating to CNY Securities*

- (A) CNY is not freely convertible and there are significant restrictions on the remittance of Renminbi into and outside the PRC which may adversely affect the liquidity of the Securities denominated in Renminbi

In accordance with the Definitions Conditions, CNY Securities are a form of Alternative Currency Securities and may be issued under the Programme. CNY is not completely freely convertible at present. The PRC government continues to regulate conversion between CNY and foreign currencies.

Although from 1 October 2016, the CNY has been added to the Special Drawing Rights basket created by the International Monetary Fund, there is no assurance that the PRC government will liberalise control over cross-border remittance of CNY in the future or that new regulations in the PRC will not be promulgated in the future which have the effect of restricting or eliminating the remittance of CNY into or outside the PRC. In the event that funds cannot be repatriated outside the PRC in CNY, this may affect the overall availability of CNY outside the PRC and the ability of the relevant Issuer to source CNY to finance its obligations under CNY Securities.

- (B) There is only limited availability of CNY outside the PRC, which may affect the liquidity of the Securities denominated in the CNY and the Issuer's ability to source CNY outside the PRC to service such Securities denominated in CNY

As a result of the restrictions imposed by the PRC government on cross border CNY fund flows, the availability of CNY outside the PRC is limited. While the People's Bank of China (the **PBOC**) has entered into agreements on the clearing of CNY business (the **Settlement Agreements**) with financial institutions in a number of financial centres and cities (the **CNY Clearing Banks**), including but not limited to Hong Kong, and is in the process of establishing CNY clearing and settlement mechanisms in several other jurisdictions, the current size of CNY denominated financial assets outside the PRC is limited.

CNY business participating banks do not have direct CNY liquidity support from the PBOC.

The offshore CNY market is subject to many constraints as a result of PRC laws and regulations on foreign exchange. There is no assurance that no new PRC regulations will be promulgated or the Settlement Agreements will not be terminated or amended so as to have the effect of restricting availability of CNY offshore. The limited availability of CNY outside the PRC may affect the liquidity of the CNY Securities and, as a consequence, have an adverse effect on the value of such CNY Securities.

- (C) Payments with respect to Securities denominated in Renminbi may be made only in the manner designated in such Securities

Securityholders may be required to provide certification and other information (including Renminbi account information) in order to be allowed to receive payments in Renminbi in accordance with the Renminbi clearing and settlement system for participating banks in Hong Kong. All payments to investors with respect to Securities denominated in Renminbi will be made only (i) for so long as Securities denominated in Renminbi are represented by global securities or global registered securities held with the common depositary or common safekeeper, as the case may be, for Clearstream Banking, S.A. (**Clearstream, Luxembourg**) and Euroclear Bank SA/NV (**Euroclear**) or any alternative clearing system, by transfer to a Renminbi bank account maintained in Hong Kong or (ii) for so long as Securities denominated in Renminbi are in definitive form, by transfer to a Renminbi bank account maintained in Hong Kong in accordance with prevailing rules and regulations. Other than described in the terms and conditions of the Securities, the Issuer cannot be required to make payment by any other means (including in any other currency or in bank notes, by cheque or draft or by transfer to a bank account in the PRC).

(d) **Risks related to the Linked Securities**

(i) *Risks related to Index Linked Securities*

Chapter 2 of Annex 1 - Asset Conditions: Index Linked Asset Conditions allows for Index Linked Securities to be issued. The Issuers may issue Securities where the amount of principal and/or interest payable are dependent upon the level of an index or indices.

Securityholders should be aware that depending on the terms of the Index Linked Securities (i) they may receive no or a limited amount of interest, (ii) payment of principal or interest may occur at a different time than expected and (iii) they may lose all or a substantial portion of their investment. In addition, the movements in the level of the index or indices may be subject to significant fluctuations that may not correlate with changes in the relevant index or indices and the timing of changes in the relevant level of the index or indices may affect the actual yield of the Securities, even if the average level is consistent with their expectations. In general, the earlier the change in the level of an index, the greater the effect on yield.

The market price of such Securities may be volatile and may depend on the time remaining to the redemption date and the volatility of the level of the index or indices. The level of the index or indices may be affected by the economic, financial and political events in one or more jurisdictions, including but not limited to the stock exchange(s) or quotation system(s) on which any securities comprising the index or indices may be traded. Securityholders are exposed to the risk that changes in the levels of the index or indices may adversely affect the value of Index Linked Securities and as a result, could lose all or part of their investment.

(ii) *Risks related to Inflation Linked Securities*

Chapter 4 of Annex 1 - Asset Conditions: Inflation Linked Asset Conditions allows for Inflation Linked Securities to be issued. The Issuers may issue Securities where the amount of principal and/or interest is determined by reference to an inflation index or inflation indices.

Neither the current nor the historical levels of any of the inflation indices should be taken as an indication of future performance of such inflation index during the term of any Inflation Linked Securities. Securityholders are exposed to the risk that changes in the levels of the Inflation Index may adversely affect the value of Inflation Linked Securities and as a result, Securityholders could lose all or part of their investment.

(iii) *Risks related to FX Linked Securities*

Chapter 3 of Annex 1 - Asset Conditions: FX Linked Asset Conditions allows for FX Linked Securities to be issued. The Issuers may issue Securities where the amount of principal and/or interest payable are dependent upon movements in currency exchange rates or are payable in one or more currencies which may be different from the currency in which the Securities are denominated. Accordingly an investment in FX Linked Securities may bear similar market risks to a direct foreign exchange investment.

Securityholders should be aware that, depending on the terms of the FX Linked Securities (i) they may receive no or a limited amount of interest, (ii) payment of nominal and/or interest (if applicable) may occur at a different time or in a different currency than expected and (iii) they may lose a substantial portion of their investment. In addition, movements in currency exchange rates may be subject to significant fluctuations that may not correlate with changes in interest rates or other indices and the timing of changes in the exchange rates may affect the actual yield to investors, even if the average level is consistent with their expectations. In general, the earlier the change in currency exchange rates, the greater the effect on yield.

Exchange rates between currencies are determined by factors of supply and demand in the international currency markets, which are influenced, by macro-economic factors, speculation and central bank and government intervention (including the imposition of currency controls and restrictions). Movements in currency exchange rates may be dependent upon economic, financial and political events in one or more jurisdictions, including inflation rates in the countries concerned, interest rate differences between the respective countries, economic forecasts, international political factors, fiscal and monetary policy, government debt, currency convertibility and safety of making financial investments in the currency concerned, speculation and intervening measures taken by governments and central banks. Such measures include, without limitation, imposition of regulatory controls or taxes, issuance of a new currency to replace an existing currency, alteration of the exchange rate or exchange characteristics by devaluation or revaluation of a currency or imposition of exchange controls with respect to the exchange or transfer of a specified currency that would affect exchange rates as well as the availability of a specified currency. Any such measures could have a negative impact on the value of the Securities.

In recent years, rates of exchange between some currencies have been volatile. This volatility may be expected in the future. Fluctuations that have occurred in any particular exchange rate in the past are not necessarily indicative, however, of fluctuation that may occur in the rate during the term of any Security. Fluctuations in exchange rates will affect the value of FX Linked Securities. The market price of such Securities may be volatile and, if the amount of nominal and/or interest (if applicable) payable is dependent upon movements in currency exchange rates, may depend upon the time remaining to the redemption date and the volatility of currency exchange rates.

As a result, Securityholders are exposed to the risk that changes in the levels of the exchange rate may adversely affect the value of FX Linked Securities and as a result, Securityholders could lose all or part of their investment.

(iv) *Risks related to ETF Linked Securities*

Chapter 6 of Annex 1 - Asset Conditions: ETF Linked Asset Conditions Condition allows for ETF Linked Securities to be issued. The Issuers may issue Securities where the amount of principal payable is dependent upon the price or changes in the price of units or shares in an exchange traded fund or exchange traded funds or, depending on the price or changes in the price of units or shares in such a fund or funds, the relevant Issuer's obligation on redemption is to deliver a specified amount of shares. As a result, Securityholders are exposed to the risk that changes in the price of units or shares in an exchange traded fund or exchange traded funds may adversely affect the value of ETF Linked Securities and as a result, Securityholders could lose all or part of their investment.

- (A) Where the Underlying is an exchange traded fund, there is a risk that such exchange traded fund will not accurately track its underlying share or index

Where the Securities are linked to an ETF and the investment objective of such ETF is to track the performance of a share or an index, the Securityholders are exposed to the performance of such ETF rather than the underlying share or index such ETF tracks. For certain reasons, including to comply with certain tax and regulatory constraints, an ETF may not be able to track or replicate the constituent securities of the underlying share or index, which could give rise to a difference between the performance of the underlying share or index and such ETF. Accordingly, Securityholders who purchase Securities that are linked to an ETF may receive a lower return than if such investors had invested in the share or the index underlying such ETF directly.

- (B) Action or non-performance by the management company, fund administrator or sponsor of an exchange traded fund may adversely affect the Securities

The management company, fund administrator or sponsor of an ETF will have no involvement in the offer and sale of the Securities and will have no obligation to any purchaser of such Securities. The management company, fund administrator or sponsor of an ETF may take any actions in respect of such ETF without regard to the interests of the purchasers of the Securities, and any of these actions could adversely affect the market value of the Securities. In its day-to-day operations and its investment strategy, an ETF will rely on the fund advisor, the investment advisor, the management company and/or on third parties providing services such as safekeeping of assets or acting as counterparty to derivatives or other instruments used by such ETF to employ its investment strategy. The insolvency or non-performance of services of any such persons or institutions may expose an ETF to financial loss. Failure of procedures or systems, as well as human error or external events associated with an ETF's management and/or administration may cause losses to an ETF and affect the market value of the Securities.

- (C) Determinations made by the Calculation Agent in respect of Potential Adjustment Events and Extraordinary Events may have an adverse effect on the value of the Securities

Upon determining that a Potential Adjustment Event or an Extraordinary Event has occurred in relation to an underlying exchange traded fund or in relation to a share or unit of an underlying exchange traded fund, the Calculation Agent has discretionary authority under the Terms and Conditions of the Securities to make certain determinations to account for such event including to (i) make adjustments to the terms of the Securities and/or (ii) cause early redemption of the Securities, any of which determinations may have an adverse effect on the value of the Securities.

- (D) Risks relating to physical settlement

Where the Securities provide for physical delivery, the relevant Issuer may determine that the specified assets to be delivered are either (a) assets which for any reason (including, without limitation, failure of the relevant clearance system or due to any law, regulation, court order or market conditions or the non-receipt of any requisite consents with respect to the delivery of assets which are loans) it is impossible or illegal to deliver on the specified settlement date or (b) assets which the relevant Issuer and/or any affiliate has not received under the terms of any transaction entered into by the relevant Issuer and/or such affiliate to hedge the relevant Issuer's obligations in respect of the Securities. Any such determination may delay settlement in respect of the

Securities and/or cause the obligation to deliver such specified assets to be replaced by an obligation to pay a cash amount which, in either case, may affect the value of the Securities and, in the case of payment of a cash amount, will affect the timing of the valuation of such Securities and as a result, the amount of nominal payable on redemption.

(E) Risks associated with Depositary Receipts

Where the applicable Final Terms specify that the "Partial Lookthrough Depositary Receipt Provisions" or the "Full Lookthrough Depositary Receipt Provisions" apply, the return on the Securities will be linked in full or in part to depositary receipts (**DRs**). DRs represent underlying shares, and therefore Securityholders are exposed to the risks of an investment linked to underlying shares. The legal owner of the shares underlying the DRs is the custodian bank which is also the issuing agent of the depositary receipts. Depending on the jurisdiction under which the depositary receipts have been issued, there is a risk that such jurisdiction does not legally recognise the purchasers of the DR as the beneficial owner of the underlying shares. In the event the custodian becomes insolvent or that enforcement measures are taken against the custodian it is possible that an order restricting the free disposition of the underlying shares is issued. In this event, the purchaser of a DR may lose its rights to the underlying shares under the DR and the DR would become worthless. As a result, the value of and return on Securities linked to the DRs may be negatively affected.

(F) Non-delivery of ETF Units will not constitute an Event of Default

Where physical settlement applies to the Securities, if the relevant Issuer and/or any of its affiliates have not received the ETF Units and/or cash for whatever reason, including as a result of a failure to deliver by a third party under the terms of any hedging transaction, such event will not constitute an Event of Default for the purpose of the Securities. In such circumstances settlement of the Securities, may be substantially delayed and/or may be in cash (in whole or in part).

(v) *Risks related to Share Linked Securities*

Chapter 7 of Annex 1 - Asset Conditions: Share Linked Asset Conditions Condition allows for Share Linked Securities to be issued. The Issuers may issue Securities where the amount of principal payable is dependent upon the price or changes in the price of shares, the relevant Issuer's obligation on redemption is to deliver a specified amount of shares. As a result, Securityholders are exposed to the risk that changes in the price of shares may adversely affect the value of Share Linked Securities and as a result, Securityholders could lose all or part of their investment.

(A) Limited anti-dilution protection

The Calculation Agent may make adjustments to elements of the Securities as described in the Share Linked Asset Conditions. The Calculation Agent is not required to make an adjustment for every corporate event that may affect the underlying shares or depositary receipts. Those events or other actions by the issuer of underlying shares or depositary receipts or a third party may nevertheless adversely affect the market price of the underlying shares or depositary receipts and, therefore, adversely affect the value of the Securities. The issuer of underlying shares or depositary receipts or a third party could make an offering or exchange offer or the issuer of underlying shares or depositary receipts could take another action that adversely affects the value

of the underlying shares or depositary receipts and the Securities but does not result in an adjustment.

(B) Risks relating to physical settlement

Where the Securities provide for physical delivery, the relevant Issuer may determine that the specified assets to be delivered are either (a) assets which for any reason (including, without limitation, failure of the relevant clearance system or due to any law, regulation, court order or market conditions or the non-receipt of any requisite consents with respect to the delivery of assets which are loans) it is impossible or illegal to deliver on the specified settlement date or (b) assets which the relevant Issuer and/or any affiliate has not received under the terms of any transaction entered into by the relevant Issuer and/or such affiliate to hedge the relevant Issuer's obligations in respect of the Securities. Any such determination may delay settlement in respect of the Securities and/or cause the obligation to deliver such specified assets to be replaced by an obligation to pay a cash amount which, in either case, may affect the value of the Securities and, in the case of payment of a cash amount, will affect the timing of the valuation of such Securities and as a result, the amount of principal payable on redemption.

(C) Non-delivery of Shares will not constitute an Event of Default

Where physical settlement applies to the Securities, if the relevant Issuer and/or any of its affiliates have not received the Shares and/or cash for whatever reason, including as a result of a failure to deliver by a third party under the terms of any hedging transaction, such event will not constitute an Event of Default for the purpose of the Securities. In such circumstances settlement of the Securities, may be substantially delayed and/or may be in cash (in whole or in part) which may affect Securityholders.

(vi) *Risks related to Fund Linked Securities*

Chapter 8 of Annex 1 - Asset Conditions: Fund Linked Asset Conditions Condition allows for Fund Linked Securities to be issued. The fund units used as underlying assets of the Fund Linked Securities may be issued by any pooled investment vehicle or other similar type of arrangement, such as hedge funds or mutual funds (hereafter a **Reference Fund**). As a result, Securityholders are exposed to the risk that changes in the price of fund units may adversely affect the value of Fund Linked Securities and as a result, Securityholders could lose all or part of their investment.

Statements in these risk factors concerning funds and fund managers also apply to any portfolio or basket of funds and any related portfolio manager.

(A) Risks relating to underlying Reference Funds that are pooled investment vehicles

Fund Interest units, and investments in pooled investment vehicles generally, are speculative and involve a high degree of risk.

To the extent the underlying(s) of a Series of Securities include(s) a Fund Interest or Basket of Fund Interests for a Series of Securities, the Securities of such Series will be subject to some of the risks of an investment in a Reference Fund or the Basket Reference Funds. The lack of oversight and regulation associated with arrangements that are Reference Funds may increase the likelihood of fraud and negligence by the fund's managers and/or the investment advisors, their brokerage firms or banks.

Reference Funds may involve complex tax structures and delays in distributing important tax information and may have high fees and expenses that may offset the Reference Fund's trading profits.

Substantial redemptions on a Reference Fund on a particular day could require such Reference Fund to liquidate positions more rapidly than would be otherwise desirable.

Reference Funds, including the funds on which Securities may be indexed, generally do not make information about their operations and holdings public. Even if the relevant Issuer or the Guarantor may have arrangements with a Reference Fund manager to obtain information required to calculate the value of the fund, it may not have access to the activities of the fund on a continuous basis or at all. There are currently no regulatory requirements compelling funds to release information of the kind that would allow the relevant Issuer or the Guarantor to value a fund or to accurately determine the value of the fund units and, consequently, the Redemption Amount of the relevant Securities.

- (B) The use of leverage may increase the risk of loss in the value of the fund units

The underlying funds may have recourse to leverage, i.e. borrow amounts that represent more than 100 per cent. of the value of their assets to invest further in assets that involve additional risks. Accordingly, a small downward movement in the value of a fund's assets may result in a significantly larger loss for the fund.

- (C) Fund managers may take risky investments notably because of the possibility to earn incentive compensation

The fund managers and/or the investment advisors to Reference Funds may invest in and trade in a variety of financial instruments using sophisticated investment techniques for hedging and non-hedging purposes.

While these investment strategies and financial instruments allow the fund managers and/or the investment advisors the flexibility to implement a range of strategies in an attempt to generate positive returns for the fund, they also create the risk of significant losses that may adversely affect the fund.

The potential for a fund manager to earn performance-based compensation (including a manager that is affiliated with the relevant Issuer or the Guarantor) may encourage such fund manager to trade in a more speculative manner than it otherwise would. Therefore, because the incentive compensation of the fund's managers and/or investment advisors to Reference Funds is often directly influenced by the performance of such funds, each fund manager may consequently have an incentive to take greater risks when making investments that may result in greater profits. By taking greater risks when making investments consequently there is greater scope for significant losses. In addition, the fund managers and/or the investment advisors may receive management, advisory or performance fees even though the fund has not realised any gains.

- (D) The illiquidity of the underlying Reference Fund's investments or the occurrence of certain extraordinary events may cause the payment of the Final or Early Redemption Amount, any Instalment Amount or any Interest Amount to be reduced or delayed

Any Interest Amount, Instalment Redemption Amount, Final Redemption Amount or Early Redemption Amount due to investors in Fund Linked

Securities may be based on the redemption proceeds that would be paid in cash by the underlying Reference Fund to a hypothetical investor as a result of a valid and timely notice for redemption given by such hypothetical investor with effect as of the relevant valuation date. To meet a redemption request, the underlying Reference Fund would likely sell its own assets but such investments may not be readily saleable on or shortly after the valuation date for various reasons, including, but not limited to:

- (I) infrequent redemption opportunities allowed by such underlying Reference Fund (for example, many Reference Funds only allow monthly or quarterly liquidity);
- (II) "gating", lock-ups, side pockets or discretionary redemption delays or suspensions imposed by such underlying Reference Fund (for example, many Reference Funds have provisions whereby redemption requests are scaled back if the aggregate amount of such requests reaches a predetermined limit); and
- (III) such underlying Reference Funds' own investments may be illiquid.

In these situations, (i) the payment of any Interest Amount, Instalment Redemption Amount, Final Redemption Amount or Early Redemption Amount may be postponed by the Calculation Agent to a day soon after the date on which the underlying Reference Fund pays all the redemption proceeds in respect of a valid and timely redemption order given after the occurrence of an event described above or to the maturity date of the Securities. If the redemption proceeds have not been paid by the underlying Reference Fund on the redemption date of the Securities, the payment of any interest Amount, Instalment Redemption Amount or final redemption Amount may be postponed.

If certain extraordinary events occur affecting an underlying Reference Fund, such as, but without limitation, the insolvency, nationalisation or merger of the underlying Reference Fund, a resignation or termination or replacement of the administrator, custodian, investment adviser or manager of the fund, or a breach by the underlying Reference Fund of its investment strategy, the relevant Issuer or the Guarantor may decide to terminate soon after the occurrence of such extraordinary event, the exposure of the Securities to the underlying Reference Fund and pay all amounts due on the redemption date of the Securities on the basis of the redemption proceeds paid by the underlying Reference Fund in the liquidation of the exposure to such underlying Reference Fund. If the underlying Reference Fund is also subject to liquidity problems as described above, the postponement of the payment of amounts as described above may also apply.

In the fund industry, it is likely that such delay would have an adverse impact on the amount payable to an investor under the Securities.

- (E) If the underlying Reference Fund(s) invest(s) through a master-feeder structure, the latter may have an adverse effect on the underlying Reference Fund(s) and, therefore, the Securities

The underlying Reference Fund(s) may invest through a "master-feeder" structure. As such, the underlying Reference Fund(s) will contribute substantially part or all of its assets to the master Reference Fund and may do so alongside other investors, including other feeder funds. The relevant master fund may also establish or allow investment by additional investors or feeder funds in the future.

The master-feeder fund structure, in particular the existence of multiple investment vehicles investing in the same portfolio, presents certain unique risks to investors. The underlying Reference Fund(s) may be materially affected by the actions of other investors, investment vehicles and feeder funds investing in the master fund, particularly if such investors have large investments in the master fund. For example, if a larger investment vehicle or entity with a large investment in the master fund redeems from the master fund, illiquidity in certain securities or markets could make it difficult for the master fund to liquidate positions on favourable terms to effect such redemption, which could result in losses or a decrease in the net asset value of the master fund. In addition, to satisfy such redemptions, the sub-manager may need to liquidate the master fund's most liquid investments, leaving remaining investors (including the underlying fund(s)) invested in more illiquid instruments. Such withdrawals may also leave the master fund with a less diversified pool of investments. This may increase the overall portfolio risk of the master fund, and, ultimately, the Securities. Conversely, the sub-manager may refuse a redemption request if it believes that such request, if fulfilled, would have a material adverse impact on the remaining investors of the master fund. This may negatively impact the liquidity of the master fund and, therefore, the underlying fund(s) and the Securities.

(vii) *Risks related to Rate Linked Securities*

Chapter 5 of Annex 1 - Asset Conditions: Rate Linked Asset Conditions allows for Rate Linked Securities to be issued. The Issuers may issue Securities where the amount of principal and/or interest payable are dependent upon movements in benchmark rate. Accordingly an investment in Rate Linked Securities may bear similar market risks to a direct interest rate investment.

Securityholders should be aware that, depending on the terms of the Rate Linked Securities (i) they may receive no or a limited amount of interest, (ii) payment of principal or interest may occur at a different time than expected and (iii) they may lose a substantial portion of their investment. In addition, movements in interest rates may be subject to significant fluctuations that may not correlate with changes in other indices and the timing of changes in the interest rates may affect the actual yield to investors, even if the average level is consistent with their expectations. In general, the earlier the change in interest rates, the greater the effect on yield.

Interest rates are determined by various factors which are influenced by macro-economic, political or financial factors, speculation and central bank and government intervention. In recent years, interest rates have been relatively low and stable, but this may not continue and interest rates may rise and/or become volatile. Fluctuations that have occurred in any interest rate in the past are not necessarily indicative, however, of fluctuation that may occur in the rate during the term of any Security. Fluctuations in interest rates will affect the value of Rate Linked Securities.

The market price of such Securities may be volatile and, if the amount of principal and/or interest payable is dependent upon movements in interest rates, may depend upon the time remaining to the redemption date and the volatility of interest rates. Movements in interest rates may be dependent upon economic, financial and political events in one or more jurisdictions. As a result, Securityholders are exposed to the risk that changes in interest rates may adversely affect the value of Rate Linked Securities and as a result, Securityholders could lose all or part of their investment.

(viii) *Risks related to Commodity Linked Securities*

Chapter 1 of Annex 1 - Asset Conditions: Commodity Linked Asset Conditions allows for Commodity Linked Securities to be issued. The Issuers may issue Securities where the amount of principal payable is dependent upon the value of a commodity.

Securityholders should be aware that depending on the terms of the Commodity Linked Securities (i) they may receive no or a limited amount of interest, (ii) payment of principal or interest may occur at a different time than expected and (iii) they may lose all or a substantial portion of their investment. In addition, the movements in the value of the commodity(ies) may be subject to significant fluctuations that may not correlate with changes in interest rates, currencies or other indices and the timing of changes in the relevant value of a commodity(ies) may affect the actual yield to Securityholders, even if the average level is consistent with their expectations. In general, the earlier the change in the value of the commodity(ies), the greater the effect on yield.

The market price of such Securities may be volatile and may be affected by the time remaining to the redemption date and the volatility of the value of the commodity(ies). The value of commodities may be affected by economic, financial and political events in one or more jurisdictions, including factors affecting the exchange(s) or quotation system(s) on which the relevant commodities may be traded.

If a Market Disruption Event in relation to a commodity occurs, this may also have an adverse effect on the value or liquidity of the Securities.

As a result, Securityholders are exposed to the risk that changes in value of a commodity may adversely affect the value of Commodity Linked Securities and as a result, Securityholders could lose all or part of their investment.

(ix) *Risks related to Future Linked Securities*

Chapter 9 of Annex 1 - Asset Conditions: Future Linked Asset Conditions allows for Future Linked Securities to be issued. The Issuers may issue Securities where the amount of principal and/or interest payable are dependent upon movements in the price of selected future contracts. Accordingly, an investment in Future Linked Securities may bear similar market risks to a direct investment in the relevant future contract(s).

In respect of Future Linked Redemption Securities, Securityholders will receive an amount (if any) on redemption determined by reference to the value of one or more future contracts and/or Future Linked Securities will pay interest calculated by reference to the value of one or more future contracts.

An Extraordinary Event will occur if (a) the relevant exchange makes or announces (i) a modification to the future contract, (ii) a replacement of the future contract with a successor future contract, (iii) that the future contract will cease to be published permanently, (iv) that the future contract is no longer on the same exchange or no longer in the same format as it was on the Trade Date, or (b) the Calculation Agent determines that a deterioration in liquidity of the future contract since the Trade Date is likely to have a material impact on the Issuer's and its affiliates' hedging arrangements.

Upon the occurrence of an Extraordinary Event, the relevant Issuer may (a) require the Calculation Agent to determine whether to make adjustments to the terms of the Securities to account for the event, (b) redeem the Future Linked Securities at the Fair Market Value Redemption Amount, or (c) where the Securities relate to a Basket of Futures, (i) partially redeem the Future Linked Securities in proportion to the affected future contracts or (ii) substitute the affected future contracts with replacements that satisfy specified criteria.

In addition, if the published price of a future contract is subsequently corrected, the corrected price will be used if it is corrected within the prescribed period, provided that, if the corrected price is published less than four Exchange Business Days prior to a due date for payment it will be disregarded.

Future contracts have a predetermined expiration date. Holding a future contract until expiration will result in delivery of the physical underlying or the requirement to make or receive a cash

settlement amount. If the applicable Final Terms for the Securities specify that "Roll Adjustment" applies, the Securities will be valued by reference to future contracts that have a delivery or expiry month that does not correspond with the term of the Securities. Consequently the future contracts are "rolled" which means that the future contract that is nearing expiration (the **Active Future Contract**) is sold before it expires and a future contract that has an expiration date further in the future (the **Next Active Future Contract**) is purchased, thus maintaining ongoing exposure to such underlying future contracts throughout the term of the Securities. The Calculation Agent will select a new future contract on each Rolling Date specified in the applicable Final Terms.

On each rolling date, the price of the Active Future Contract may be lower than the price of the Next Active Future Contract if the future curve is in contango, and may be higher than the price of the Next Active Future Contract if the future curve is in backwardation. The Roll Adjustment may as a consequence have either a positive or negative impact on the value of the Securities. This may result in a partial or total loss of the investment in the Notes.

In addition to the effects of contango and backwardation, each "roll" may generate costs that correspond to the expenses incurred in replacing the future contracts (transaction costs) and may have an adverse effect on the return of the Securities.

Prospective purchasers of the Securities should be aware that in respect of Securities for which the applicable Final Terms specify that "Roll Adjustment" applies, the potential negative impact on the value of the Securities induced by the roll may lead to a performance of the Securities that is worse than the performance that would have been generated by Securities linked to the relevant Future(s) underlying asset(s).

(x) *Risks related to Multi-Asset Basket Linked Securities*

An investment in Multi-Asset Basket Linked Securities will entail significant risks not associated with an investment in a conventional debt security. On redemption of Multi-Asset Basket Linked Redemption Securities, Securityholders will receive an amount (if any) determined by reference to the price, value or level of two (2) or more types of Underlyings. Multi-Asset Basket Linked Interest Securities pay interest calculated by reference to the price, value or level of two (2) or more types of Underlyings. The Underlyings being a commodity, index, FX rate, inflation index, benchmark rate, ETF, share or fund interest, please refer to the risk factors above.

(e) **Risks related to Credit Linked Securities**

In accordance with Annex 2 (*Credit Linked Conditions*), the Issuers may issue Securities where the amount of nominal and/or interest (if applicable) payable are dependent upon whether certain default events (**Credit Events**) have occurred in respect of one or more Reference Entities and, if so, on the value of certain specified assets of such Reference Entity/Entities or where, if such events have occurred, on redemption the relevant Issuer's obligation is to deliver certain specified assets. The holders of CLSs will accordingly be exposed to the credit of one or more Reference Entities, which exposure shall be, unless otherwise stated in the applicable Final Terms, to the full extent of their investment in such Securities.

Where cash settlement or auction settlement applies, the occurrence of a Credit Event in relation to any Reference Entity from time to time may result in a redemption of the Securities in a reduced nominal amount or at zero (0) and (if applicable) in a reduction of the amount on which interest is calculated. Where physical settlement applies, the occurrence of a Credit Event may result in the redemption of the Securities based on the valuation (or by delivery) of certain direct or indirect obligations of the affected Reference Entity, which obligations are likely to have a market value substantially less than their par amount.

Under certain circumstances, interest will cease to accrue and in no event shall interest accrue on any period commencing after the Scheduled Redemption Date.

Prospective investors in any such Securities should be aware that depending on the terms of the Credit Linked Securities (CLs) (i) they may receive no or a limited amount of interest (if applicable), (ii) payment of nominal or interest (if applicable) or delivery of any specified assets may occur at a different time than expected and (iii) they may lose all or a substantial portion of their investment.

(i) *Leveraged CLs may be redeemed early upon the occurrence of certain triggers*

The Issuer may early redeem Leveraged CLs in whole, but not in part, at the Fair Market Value Redemption Amount if (a) "Fair Market Value Trigger" is specified as being applicable in the applicable Final Terms, and the Fair Market Value Redemption Amount of a CLS of the relevant Series would be, assuming that such Series of CLs would be redeemed in full on such date at the applicable Fair Market Value Redemption Amount, less than the Fair Market Value Trigger specified in the applicable Final Terms, (b) "Reference Entity Spread Trigger" is specified as being applicable in the applicable Final Terms, the Reference Entity Spread (in the case of a Single Reference Entity CLS) or weighted average Reference Entity Spread in respect of all the relevant Reference Entities (in the case of an Nth-to-Default CLS or a Linear Basket CLS) exceeds the Reference Entity Spread Trigger specified in the applicable Final Terms or (c) "Reference Entity Trigger" is specified as being applicable in the applicable Final Terms, the number of Reference Entities in respect of which a Credit Event has occurred exceeds the Reference Entity Trigger specified in the applicable Final Terms.

Prospective investors in any such Securities should be aware that they may lose all or a substantial portion of their investment in case of such early redemption.

(ii) *Payments on the Securities may be deferred or suspended*

In certain circumstances, for example where (i) a Credit Event has occurred and the related credit loss has not been determined as at the relevant date for payment, (ii) where a potential Credit Event exists as at the scheduled redemption of the Securities, or (iii) pending a resolution of a Credit Derivatives Determinations Committee, payment of the redemption amount of the Securities and/or interest (if applicable) on the Securities may be deferred for a material period in whole or part without compensation to the holders of the Securities and in particular no interest shall accrue on such deferred amount. Holders return on the Securities would in such case be reduced.

(iii) *Suspension of obligations will suspend payment of nominal and interest*

In certain circumstances, pending a resolution of a Credit Derivatives Determination Committee all of the obligations of the relevant Issuer under each CLS (including any obligation to deliver any notices, pay any interest, nominal or settlement amount or to make any delivery) shall be and remain suspended until ISDA or, as the case may be, the DC Secretary publicly announces that the relevant Credit Derivatives Determination Committee has resolved the matter in question or not to determine such matters. The Calculation Agent will provide notice of such suspension as soon as reasonably practicable; however, any failure or delay by the Calculation Agent in providing such notice will not affect the validity or effect of such suspension. No interest shall accrue on any payments which are suspended in accordance with the above.

(iv) *Physical delivery*

Where the Securities provide for physical delivery, the relevant Issuer may determine that the specified assets to be delivered are either (a) assets which, for any reason, (including, without limitation, failure of the relevant clearance system or due to any law, regulation, court order or market conditions or the non-receipt of any requisite consents with respect to the delivery of assets which are loans) it is impossible or illegal to deliver on the specified settlement date or (b) assets which the relevant Issuer and/or

any affiliate has not received under the terms of any transaction entered into by the relevant Issuer and/or such affiliate to hedge the relevant Issuer's obligations in respect of the Securities. Any such determination may delay settlement in respect of the Securities and/or cause the obligation to deliver such specified assets to be replaced by an obligation to pay a cash amount which, in either case, may affect the value of the Securities and, in the case of payment of a cash amount, will affect the timing of the valuation of such Securities and, as a result, the amount of nominal payable on redemption.

(v) *Use of Auction Settlement may adversely affect returns to Securityholders*

Where the Securities are redeemed following the occurrence of a Credit Event by reference to an auction sponsored by ISDA, the relevant Issuer or its affiliates may act as a participating bidder in any such auction and, in such capacity, may take certain actions which may influence the Auction Final Price including (without limitation) submitting bids, offers and physical settlement requests with respect to the obligations of the Reference Entity. If the relevant Issuer or its affiliates participate in an Auction, then they will do so without regard to the interests of Securityholders, and such participation may have a material adverse effect on the outcome of the relevant Auction and/or on the CLSs. Securityholders will not, solely by virtue of holding Securities, have any right to submit bids and/or offers in relation to any CLS for the purposes of any Auction.

The Auction Final Price determined pursuant to an Auction may be less than the market value that would otherwise have been determined in respect of the specified Reference Entity or its obligations.

Following a "Restructuring" Credit Event in relation to which ISDA sponsors multiple concurrent Auctions, but where there is no auction relating to credit derivative transactions with a maturity of the Securities, if the Calculation Agent exercises the right of the buyer of credit risk protection under the Securities to elect that the Auction Final Price is determined by reference to an alternative Auction, the Auction Final Price so determined may be lower than the amount which would have been determined based on quotations sought from third party dealers.

Prospective investors should note that the use of Auction Settlement may adversely affect the returns.

(vi) *Use of Cash Settlement may adversely affect returns to Securityholders*

If the Securities are cash settled, then, following the occurrence of a Credit Event, the Calculation Agent will be required to seek quotations in respect of selected obligations of the affected Reference Entity. Quotations obtained will be "bid-side" — that is, they will be reduced to take account of a bid-offer spread charged by the relevant dealer. Such quotations may not be available, or the level of such quotations may be substantially reduced as a result of illiquidity in the relevant markets or as a result of factors other than the credit risk of the affected Reference Entity (for example, liquidity constraints affecting market dealers). Accordingly, any quotations so obtained may be significantly lower than the value of the relevant obligation which would be determined by reference to (for example) the present value of related cash flows of such Obligations. Quotations will be deemed to be zero (0) in the event that no such quotations are available.

Prospective investors should note that the use of Cash Settlement may adversely affect the returns.

(vii) *"Cheapest-to-Deliver Risk"*

The Calculation Agent has discretion to choose the portfolio of obligations to be valued or delivered following a Credit Event in respect of a Reference Entity where Cash Settlement or Physical Settlement applies. It is likely that the portfolio of obligations selected will be obligations of the Reference Entity with the lowest anticipated market value that are permitted to be selected pursuant to the Securities. This could result in a lower recovery value and hence greater losses for investors in the Securities.

(viii) *Rights associated with Credit Derivatives Determinations Committees*

The institutions which are members of each Credit Derivatives Determinations Committee owe no duty to the Securityholders and have the ability to make determinations that may materially affect the Securityholders, such as the occurrence of a Credit Event or a Succession Event. A Credit Derivatives Determinations Committee may make determinations without action or knowledge of the Securityholders.

Securityholders may have no role in the composition of any Credit Derivatives Determinations Committee nor any control over the process for selecting institutions to participate on a Credit Derivatives Determinations Committee and, to the extent provided for in the Securities, will be subject to the determinations made by such selected institutions in accordance with the DC Rules.

Securityholders may have no recourse against either the institutions serving on a Credit Derivatives Determinations Committee or the external reviewers. Institutions serving on a Credit Derivatives Determinations Committee and the external reviewers, among others, disclaim any duty of care or liability arising in connection with the performance of duties or the provision of advice under the DC Rules, except in the case of gross negligence, fraud or wilful misconduct. Furthermore, the institutions on the Credit Derivatives Determinations Committee do not owe any duty to the Securityholders and the Securityholders will be prevented from pursuing claims with respect to actions taken by such institutions under the DC Rules.

Investors should note that the DC Rules may be amended from time to time without the consent or input of the Securityholders and the powers of the Credit Derivatives Determinations Committee may be expanded or modified as a result.

(ix) *Non-delivery of Deliverable Obligations and Hedge Disruption Event will not constitute an Event of Default*

Where Physical Settlement is the applicable Settlement Method, if as a result of a Hedge Disruption Event, the relevant Issuer and/or any of its affiliates have not received the Deliverable Obligations and/or cash under the terms of a Hedge Transaction, such event will not constitute an Event of Default for the purposes of the Securities. In such circumstances settlement of the Securities may be substantially delayed and/or may be in cash (in whole or in part) which may negatively impact the return on the Securities.

(x) *Calculation Agent may modify terms of the Securities*

The Calculation Agent may, following its determination that there has been a change in the prevailing market standard terms or market trading conventions (including, but not limited to changes that affect any CDS hedging transaction), modify the terms of the Securities. If the Calculation Agent modifies the terms of the Securities, it will do so without regard to the interests of the holders of the Securities and any such modification may be prejudicial to the interests of the holder of the Securities.

(f) **Risks related to Bond Linked Securities**

In accordance with Annex 3 (*Bond Linked Conditions*), the Issuers may issue Securities where the amount of nominal and/or interest (if applicable) payable are dependent upon whether certain events (**Bond Events**) have occurred in respect of one or more Bonds and, if so, on the value of

the relevant Bond or where, if such events have occurred, on redemption the relevant Issuer's obligation is to deliver the Bond issued by the issuer of the Bond (the **Bond Issuer**).

The holders of BLSs will be exposed to the credit of one or more Bonds, which exposure shall be, unless otherwise stated in the applicable Final Terms, to the full extent of their investment in such Securities.

Upon the occurrence of any specified Bond Event with respect to a Bond, the Securityholders may suffer significant losses at a time when losses may be suffered by a direct investor in the Bond. More generally, prospective investors in any such Securities should be aware that depending on the terms of the Bond Linked Securities (**BLSs**) (i) they may receive no or a limited amount of interest (if applicable), (ii) payment of nominal or interest (if applicable) or delivery of any specified assets may occur at a different time than expected and (iii) they may lose all or a substantial portion of their investment.

(i) *BLSs may be redeemed early upon the occurrence of certain triggers*

The Issuer may early redeem BLSs in whole, but not in part, at the Fair Market Value Redemption Amount if "Fair Market Value Trigger" is specified as being applicable in the applicable Final Terms, and the Fair Market Value Redemption Amount of a BLS of the relevant Series would be, assuming that such Series of BLSs would be redeemed in full on such date at the applicable Fair Market Value Redemption Amount, less than the Fair Market Value Trigger specified in the applicable Final Terms.

(ii) *Payments on the Securities may be deferred or suspended*

In certain circumstances, for example where (i) a Bond Event has occurred and the related Realisable Amount or Hedge Amount has not been determined as at the relevant date for payment or (ii) where a potential failure to pay exists as at the scheduled redemption of the Securities, payment of the redemption amount of the Securities and/or interest on the Securities may be deferred for a material period in whole or part without compensation to the holders of the Securities and interest (if applicable) will cease to accrue on the Interest Payment Date immediately preceding the Event Determination Date. In no event shall interest accrue on any period commencing after the Scheduled Redemption Date.

(iii) *Physical delivery*

Where the Securities provide for physical delivery of the affected Bond, the relevant Issuer may determine that the Bonds to be delivered are either (a) assets which for any reason (including, without limitation, failure of the relevant clearance system or due to any law, regulation, court order or market conditions or the non-receipt of any requisite consents with respect to the delivery of assets which are loans) it is impossible or illegal to deliver on the specified settlement date or (b) assets which the relevant Issuer and/or any affiliate has not received under the terms of any transaction entered into by the relevant Issuer and/or such affiliate to hedge the relevant Issuer's obligations in respect of the Securities. Any such determination may delay settlement in respect of the Securities and/or cause the obligation to deliver the Bond to be replaced by an obligation to pay a cash amount which, in either case, may affect the value of the Securities and, in the case of payment of a cash amount, will affect the timing of the valuation of such Securities and as a result, the amount of nominal payable on redemption.

Prospective investors should note that the use of Physical Settlement may adversely affect the returns.

(iv) *Use of Cash Settlement may adversely affect returns to Securityholders*

If the Securities are cash settled, then, following the occurrence of a Bond Event, the Calculation Agent will be required to seek quotations in respect of the Bonds (unless

the Bond has been redeemed or an Exchange Event has occurred). Quotations obtained will be "bid-side" — that is, they will be reduced to take account of a bid-offer spread charged by the relevant dealer. Such quotations may not be available, or the level of such quotations may be substantially reduced as a result of illiquidity in the relevant markets or as a result of factors other than the credit risk of the affected Bond Issuer (for example, liquidity constraints affecting market dealers). Accordingly, any quotations so obtained may be significantly lower than the value of the relevant obligation which would be determined by reference to (for example) the present value of related cash flows. Quotations will be deemed to be zero (0) in the event that no such quotations are available.

Prospective investors should note that the use of Cash Settlement may adversely affect the returns.

(v) *Non-delivery of Bonds will not constitute an Event of Default*

Where Physical Settlement is the applicable Settlement Method, if the relevant Issuer and/or any of its affiliates have not received the Bonds and/or cash under the terms of a Hedge Transaction, such event will not constitute an Event of Default for the purpose of the Securities. In such circumstances settlement of the Securities, may be substantially delayed and/or may be in cash (in whole or in part).

(g) **Risks related to Preference Share Linked Securities**

(i) *Securityholders are exposed to Preference Share Linked Securities*

The Preference Share Issuer may issue Preference Share Linked Securities where the Final Redemption Amount (as defined in the Preference Share Linked Conditions) is dependent upon changes in the market value of the relevant Preference Shares, which may fluctuate up or down depending on (A) the performance of a specified index or basket of indices, share or basket of shares, exchange traded funds, currency or basket of currencies, debt instrument or basket of debt instruments, commodity or basket of commodities or to such other underlying instruments, bases of reference or factors (the **Preference Share Underlying**) as set out in the terms and conditions of the Preference Shares (the **Preference Share Terms**) and (B) the financial condition and standing of the Preference Share Issuer. If as a result of the performance of the Preference Share Underlying(s), the market value of the Preference Shares decreases, the value of the Preference Share Linked Securities will be adversely affected.

This could negatively affect the value of the Preference Share and therefore the value of the Preference Share Linked Securities.

In addition, an investment in Preference Share Linked Securities does not confer any legal or beneficial interest in the Preference Shares or any Preference Share Underlying or any voting rights, right to receive dividends or other rights that a holder of the Preference Shares or any Preference Share Underlying may have. This means that potential losses in value of the Securities cannot be compensated by other income.

Investors should be aware that the Preference Share Linked Securities are not principal protected, they are exposed to the performance of the relevant Preference Shares and accordingly they risk losing all or a part of their investment if the value of the Preference Shares does not move in a positive direction.

(ii) *Adjustments or early redemptions*

In certain circumstances (such as the Issuer receiving notice from the Preference Share Issuer or the Preference Share Determination Agent that the Preference Shares will be redeemed early following the occurrence of certain events in relation to the Preference Shares or the Preference Share Issuer (such as an illegality, a change in law that results

in the Preference Share Issuer being subject to additional regulation or an external event affecting an underlying asset to which the Preference Shares are linked)), the Issuer will redeem the Preference Share Linked Securities early at the Early Redemption Amount in accordance with the Preference Share Linked Conditions, as determined by it or the Calculation Agent without the consent of the holders of the Preference Share Linked Securities. The Calculation Agent may determine the occurrence of an Extraordinary Event or Additional Disruption Event in relation to the Preference Share Linked Securities. Upon such determination, the relevant Issuer may, at its option redeem the Preference Share Linked Securities in whole at the Early Redemption Amount. Preference Share Linked Securities can also be early redeemed upon the occurrence of a Preference Share Early Redemption Event, in which case, they shall be redeemed at the Auto-call Redemption Amount.

If certain events occur in relation to the relevant Preference Share Underlying, the Preference Share Issuer and/or the Preference Share Determination Agent (as applicable) may make adjustments to certain of the terms of the Preference Shares as it determines appropriate or, if it determines that it is unable to make any such adjustment, terminate the Preference Shares at their market value less any costs associated with the early termination of the Preference Shares including the costs of unwinding any hedging arrangements relating to the Preference Shares or the Preference Share Linked Securities. Preference Share Linked Securities will be subject to early termination if a Preference Share Early Termination Event (as defined in the Preference Share Linked Conditions) occurs. Upon the occurrence of a Preference Share Early Termination Event, the relevant Issuer will redeem the Preference Share Linked Securities at the Early Redemption Amount. The Early Redemption Amount may be less (and in certain circumstances, significantly less) than investors' initial investment in the relevant Securities and could be as low as zero (0).

(h) **Risks related to unfunded or highly leveraged Securities**

Leverage involves the use of a number of financial techniques to increase the exposure of a Security to the applicable underlying and can therefore magnify both returns and losses. Whilst the use of leverage allows for potential multiples of a return (assuming a return is achieved) when the applicable underlying moves in the anticipated direction, it will conversely magnify losses when such underlying moves against expectations of investors. When a Security incorporates a leverage mechanism, potential investors should note that such Securities will involve a higher level of risk, and that whenever there are losses such losses may be higher than those of a similar security which is not leveraged. Investors should therefore only invest in leveraged Securities if they fully understand the effects of such leverage that may be embedded in the Securities and should expect in some circumstances not to receive any payment in respect of the Redemption Amount.

(i) **Risks related to Payoff Features**

In accordance with Annex 7 (Payoff Feature Conditions), the Securities may be subject to the application of a Payoff Feature. The application of a Payoff Feature may mean that Securities are, in turn, subject to the application of Linked Interest and/or Linked Redemption, as specified in the applicable Final Terms.

The Linked Interest Rate and/or Redemption Payoff determined under the Linked Interest or Linked Redemption may be linked to the value of the Underlying(s) that have been selected under the relevant Standard Interest Payoffs, Combination Interest Payoffs, Standard Redemption Payoffs and/or Combination Redemption Payoffs. Negative performance of the Underlying(s) will consequently affect the value of the Linked Interest Rate and/or Redemption Payoff determined under the Linked Interest or Linked Redemption. Principal and/or interest paid as a result of the application of the relevant Payoff Feature may be less (and in certain circumstances, significantly less) than investors' initial investment in the relevant Securities and could be as low as zero (0).

(i) *Additive Payoff Feature*

The Additive Payoff Feature sets out that any Payoff Feature may be combined with one or more other Payoff Features. Accordingly where Additive Payoff Feature apply, investors should refer to the relevant Payoff Feature Conditions included in the combination. This combination results in the payoff being all the more complex and investors should be aware that the result may be that the relevant Security does not perform as they may expect and that they could lose all or part of their investment.

(ii) *Global Cap Interest Payoff Feature and Global Cap Redemption Payoff Feature*

For each Interest Payment Date on which the sum of the Interest Amounts paid or accrued up to and including such Interest Payment Date is equal to or greater than the Global Cap Amount, no Interest Amount will be payable.

The amount payable on the Redemption Date or an Instalment Date may be reduced by (in the case of the Final Redemption Amount) an amount equal to the Global Cap Amount or (in the case of each Instalment Redemption Amount) the Instalment Cap. The value of an underlying may therefore negatively affect the amount payable on the Redemption Date or an Instalment Date, as the case may be, if the interest amounts are calculated by reference to the value of an underlying.

(iii) *Global Floor Interest Payoff Feature and Global Floor Redemption Payoff Feature*

For a specified Interest Payment Date on which the sum of the Interest Amounts paid or accrued up to and including such Interest Payment Date is less than the Global Floor Amount, the Interest Amount payable on such Interest Payment Date will be adjusted so that the sum of such Interest Amounts will equal the Global Floor Amount.

The amount payable on the Redemption Date or the final Instalment Date, as the case may be, may be increased by an amount equal to the Global Floor Amount. The value of an underlying may therefore negatively affect the amount payable on the Redemption Date or the final Instalment Date, as the case may be, if the interest amounts are calculated by reference to the value of an underlying.

(iv) *Currency Performance Payoff Feature*

Where Currency Performance Payoff Feature is applicable, the relevant Linked Interest Rate or Redemption Payoff, or part thereof, will be adjusted by multiplying the relevant percentage by an amount equal to 1 (one) minus the performance of the Reference Currency with respect to a Strike Level. This adjustment may impact the market value of the Securities and result in the investor receiving less than the amount invested.

(v) *Investor Interest Switch Payoff Feature and Investor Redemption Switch Payoff Feature*

Securityholders holding 100 per cent. of the aggregate nominal amount of the Securities outstanding may request or elect (as the case may be in accordance with the relevant applicable terms and conditions) to change:

- (A) the basis on which interest is calculated from Linked Interest₁ to Linked Interest₂ and/or
- (B) the basis on which the Final Redemption Amount or the Instalment Redemption Amount, as the case may be, is calculated from Linked Redemption₁ to Linked Redemption₂.

Such request (in respect of a change from Linked Interest₁ to Linked Interest₂) or election is irrevocable upon the giving of an Investor Interest Switch Notice or Investor Redemption Switch Notice, as applicable. If the investor requests and the Issuer agrees (in respect of a change from

Linked Interest₁ to Linked Interest₂), or the investor elects, to switch, there is no guarantee that Linked Interest₂ or Linked Redemption₂, as applicable, will remain the most beneficial way of calculating the interest or the redemption for subsequent periods, as applicable and accordingly the return may be lower than the investor may expect.

(vi) *Issuer Interest Switch Payoff Feature and Issuer Redemption Switch Payoff Feature*

The relevant Issuer may elect to change:

- (A) the basis on which interest is calculated from Linked Interest₁ to Linked Interest₂ and/or
- (B) the basis on which the Final Redemption Amount or the Instalment Redemption Amount, as the case may be, is calculated from Linked Redemption₁ to Linked Redemption₂.

If the relevant Issuer elects to exercise such option this may negatively affect the Linked Interest Rate and/or the Redemption Payoff, as applicable, and therefore the value of the Securities.

(vii) *Knock-out Interest Switch Payoff Feature and Knock-out Redemption Switch Payoff Feature*

In the event of a Knock-out Interest Switch Payoff Feature or Knock-out Redemption Switch Payoff Feature being applicable, upon the occurrence of a Knock-out Interest Switch Event or a Knock-out Redemption Switch Event:

- (A) if the Knock-out Interest Switch Payoff Feature is applicable, the method of calculating the Linked Interest Rate will automatically switch from Linked Interest₁ to Linked Interest₂, and/or
- (B) if the Knock-out Redemption Switch Payoff Feature is applicable, the method of calculating the Redemption Payoff with respect to the Final Redemption Amount or the Instalment Redemption Amount, as the case may be, will automatically switch from Linked Redemption₁ to Linked Redemption₂.

The switch may not be beneficial for investors and this feature may negatively impact the value of the Securities.

(viii) *Target Interest Switch Payoff Feature*

The basis on which interest is calculated will switch automatically from Linked Interest₁ to Linked Interest₂ if a Target Interest Switch Event occurs.

Linked Interest₂ may be a less beneficial way of calculating the Linked Interest Rate in subsequent Interest Accrual Periods and this may also negatively affect the value of the Securities.

(ix) *Shout Option Performance Lock-in Interest Payoff Feature and Shout Option Performance Lock-in Redemption Payoff Feature*

Securityholders holding 100 per cent. of the aggregate nominal amount of the Securities outstanding may request to fix the Underlying Value of each relevant Underlying used to determine the interest amounts and the Final Redemption Amount or the relevant Instalment Redemption Amount, as the case may be:

- (a) in the event the Shout Option Performance Lock-in Interest Payoff Feature is applicable to the interest amounts, for current interest accrual periods; and/or
- (b) in the event the Shout Option Performance Lock-in Redemption Payoff Feature is applicable to the redemption amount, for the purpose of determining the Final

Redemption Amount or the relevant Instalment Redemption Amount, as the case may be.

The Issuer has sole discretion to decline to give the relevant level, meaning that the Securityholders holding 100 per cent. of the aggregate nominal amount of the Securities outstanding would not be able to fix the relevant Underlying on the date they request. The Issuer may continually decline to fix the relevant Underlying Value and so the Securityholder may never be able to exercise its option.

If the Securityholder elects to fix the Underlying Value of each relevant Underlying, such decision shall be irrevocable upon the giving of the Shout Option Exercise Notice and there is no guarantee that the value will be more beneficial compared to the values that may be achievable subsequently. Such election may affect the value of the Securities.

(x) *Memory Interest Payoff Feature*

In the event that the Linked Interest Rate in any Interest Accrual Period is zero (0), where the Linked Interest Rate in any subsequent Interest Accrual Period is greater than zero (0), such Linked Interest Rate will be increased by a factor reflecting the number of previous consecutive Interest Payment Dates to which no interest was paid. There is no guarantee that the relevant Linked Interest Rate will reflect a market rate and the value of the Securities may substantially decrease. Furthermore there is no guarantee that the Linked Interest Rate will be greater than zero (0) in which case the Interest Amounts payable under the Securities may be zero (0).

(xi) *Dual Currency (Interest) Payoff Feature and Dual Currency (Redemption) Payoff Feature*

If the Dual Currency (Interest) Payoff Feature or Dual Currency (Redemption) Payoff Feature applies, the interest amounts payable under the Securities and/or the amounts payable on redemption may be paid in a currency that is different to the currency in which the Securities are denominated. If more than one Interest Currency is specified in the applicable Final Terms the relevant Issuer may, at its discretion, choose from any one of the currencies specified and the investor will not know what currency interest amounts payable under the Securities will be paid in prior to the relevant payment date. If more than one Redemption Currency is specified in the applicable Final Terms in respect of a Redemption Date, Early Redemption Date or Instalment Date, the relevant Issuer may, at its discretion, choose from any one of the currencies specified and the investor will not know what currency the amount payable on such date will be paid in prior to the relevant payment date. The relevant Dual Currency (Interest) Exchange Rate or Dual Currency (Redemption) Exchange Rate, as the case may be, may be volatile and investors may receive a lower interest amount or Redemption Payoff payable on redemption than expected. Investors should also refer to the risks set out under "Exchange rate risks and exchange controls" for a general discussion as to risks involved in conversion.

(xii) *Reset Option Interest Payoff Feature*

If Reset Option Interest Payoff Feature applies, the Securityholders holding 100 per cent. of the aggregate nominal amount of the Securities outstanding may request to change the basis on which interest is calculated. Following receipt of such request, the Issuer will notify the Securityholders holding 100 per cent. of the aggregate nominal amount of the Securities outstanding of the manner in which it would propose to change the basis on which interest is calculated and the Securityholders holding 100 per cent. of the aggregate nominal amount of the Securities outstanding may agree with the Issuer in implementing such changes, or not. There is no guarantee that any change in the basis on which interest is calculated will be beneficial for Securityholders.

(xiii) *Reset Option Redemption Payoff Feature*

If Reset Option Redemption Payoff Feature applies, the Securityholders holding 100 per cent. of the aggregate nominal amount of the Securities outstanding may request to change the Final Redemption Amount or the Instalment Redemption Amount, as the case may be. Following receipt of such request, the Issuer will notify the Securityholders holding 100 per cent. of the aggregate nominal amount of the Securities outstanding of the manner in which it would propose to change the Final Redemption Amount or the Instalment Redemption Amount, as the case may be, and the Securityholders holding 100 per cent. of the aggregate nominal amount of the Securities outstanding may agree with the Issuer in implementing such changes, or not. There is no guarantee that any change in the Final Redemption Amount or the Instalment Redemption Amount, as the case may be, will be beneficial for Securityholders.

(xiv) *Single Interest Payment Date Payoff Feature*

The amount payable as interest may accrue throughout the life of the Securities based on observations and determinations throughout the life of the Securities but will be paid as a single amount on the Single Interest Payment Date. Where Securities are redeemed prior to the Single Interest Payment Date, there is no guarantee that the amount payable on such redemption date will take into account (i) any accrued but unpaid interest, or (ii) the amount that would have been payable as interest if the Securities had not been redeemed early, which may affect the market value of the Securities.

(xv) *Knock-out Performance Interest Switch Payoff Feature and Knock-out Performance Redemption Switch Payoff Feature*

In the event of a Knock-out Performance Interest Switch Payoff Feature being applicable, upon the occurrence of a Knock-out Performance Interest Switch Event, the method of calculating the Linked Interest Rate will automatically switch from Linked Interest₁ to Linked Interest₂.

In the event of a Knock-out Performance Redemption Switch Payoff Feature being applicable, upon the occurrence of a Knock-out Performance Redemption Switch Event, the method of calculating the Final Redemption Amount or the relevant Instalment Amount, as the case may be, will automatically switch from Linked Redemption₁ to Linked Redemption₂.

The switch may not be beneficial for investors and this feature may negatively impact the value of the Securities.

(xvi) *Reserve Interest Payoff Feature*

In the event of a Reserve Interest Payoff Feature being applicable, the Linked Interest Rate_n is calculated for each Interest Accrual Period_n from (and including) the Initial Reserve Accrual Period to (and excluding) the Final Reserve Accrual Period, as the lesser of (a) the Cap and (b) the sum of the Linked Interest_n and Reserve_{n-1} for the relevant Interest Accrual Period. The Linked Interest Rate is calculated for each Interest Accrual Period_n from (and including) the Final Reserve Accrual Period as the sum of the Linked Interest Rate_n and Reserve_{n-1} for the relevant Interest Accrual Period. There is no guarantee that this Payoff Feature will be beneficial for Securityholders.

(xvii) *Bond Switch Option Payoff Feature*

Securityholders holding 100 per cent. of the aggregate nominal amount of the Securities outstanding may request to substitute a Bond by delivering a notice on or before a Bond Switch Option Expiry Date. Following receipt of such request, the Issuer shall provide the relevant Bond Switch Option Pricing, reflecting the cost or gain of effecting the switch of Bonds requested by the Securityholders, the difference between the market value of the replaced Bond and the replacing Bond and the resulting adjusted Linked Interest Rate applicable to the Securities. The Securityholders have the ability to request to fix the Bond Switch Option Pricing at a particular level; the Issuer has sole discretion to decline such request meaning the Securityholders holding 100 per cent. Of the aggregate nominal amount of the Securities

outstanding would not be able to fix the relevant Bond Switch Option Pricing. The Issuer may continually decline to fix the relevant Bond Switch Option Pricing at the level requested by Securityholders.

If the investor elects, and the Issuer agrees, to fix the Bond Switch Option Pricing at a particular level, it is irrevocable upon the giving of the Bond Switch Option Exercise Notice and there is no guarantee that the Bond Switch Option Pricing will be more beneficial compared to a Bond Switch Option Pricing that may be achievable subsequently.

(j) **Risks related to Secured Securities**

(i) *Limitation of the Collateral Assets*

The security provided for a Series of Secured Securities is limited to the Collateral Assets constituting the Collateral Pool applicable to such Series and, in the case of a Multiple Series Collateral Pool, to all Series of Secured Securities which are secured by the same Collateral Pool. There is no guarantee that the Collateral Assets will be sufficient to ensure that, following enforcement of a Pledge Agreement, the amounts available for distribution or the value of the Collateral Assets available to be delivered by the Security Trustee or the Security Agent (as applicable) will be sufficient to pay all amounts due to Securityholders in respect of the relevant Series of Secured Securities (see "Shortfall on Realisation of Collateral Assets and Limited Recourse of Securityholders"). As a result, investors may lose a substantial part, or all, of their investment.

(ii) *Diverse interests of Securityholders in case of Multiple Series Collateral Pools*

Where the applicable Final Terms in respect of a Series of Secured Securities specify that "Multiple Series Collateral Pool" will be applicable, security over the Collateral Pool may be shared by a number of Series of Secured Securities.

In such circumstances, on the enforcement of the security created over the relevant Collateral Pool, to the extent there is a deficit in the amounts available to be paid to the Securityholders, the Securityholders of each Series of Securities which is secured on the same Collateral Pool will suffer a proportionate loss in their investment. The Issuer has no obligation to obtain the consent of existing Securityholders before issuing a new Series of Secured Securities linked to a Collateral Pool where Multiple Series Collateral Pool applies and so, depending on the number of Series issued, a Securityholder may find a large number of different Securityholders who will all have an interest in the relevant Collateral Pool.

Where more than one series of Secured Securities is secured by the same Collateral Pool, the value of the Collateral Assets in a Collateral Pool may not reflect the relevant Secured Securities Market Value of a particular series of Secured Securities (or the aggregate Secured Securities Market Value of the series of Secured Securities secured by the relevant Collateral Pool) as accurately as if the Collateral Assets in a Collateral Pool were held in respect of a single series of Secured Securities only.

Where more than one Series of Secured Securities is secured by the same Collateral Pool, the Security Trustee or the Security Agent (as applicable) will be obliged to consider the interests of all Securityholders from each such Series as a single class regardless of which of the relevant Series they belong to. As a consequence, to the extent that the Security Trustee or the Security Agent (as applicable) requests instructions from the Securityholders or the Securityholders are entitled to exercise a discretion, a Securityholder may be less able to direct the Security Trustee or the Security Agent (as applicable) (including as to the manner in which enforcement of the applicable security takes place) or influence the outcome of such discretion than would be the case if such holder held a Secured Security which was secured on a segregated Collateral Pool that did not secure other Series of Secured Securities.

(iii) *Absence of Collateral Monitoring*

Where Secured Securities are subject to Collateral Monitoring, on each Collateral Test Date, the Collateral Monitoring Agent shall verify whether the Collateral Value is greater than or equal to the Required Collateral Value for such Collateral Pool, taking into account any Haircut to be applied to the Collateral Assets.

Where it is not possible to provide such verification, the Issuer or the Third Party Chargor (or the Collateral Manager on their behalf) may be required to deliver, or procure the delivery of, additional or replacement Collateral Assets to the Collateral Account such that after such adjustment of Collateral Assets the test referred to above will be satisfied. Investors, nevertheless, will be exposed to a decline in the Collateral Value prior to any such adjustment. Prior to such adjustment there is also a risk that the Collateral Assets may not meet the Eligibility Criteria, all of which is expected to impact the value of the Securities.

Where Secured Securities are not subject to Collateral Monitoring, there will be no on-going monitoring of the composition of the Collateral Pool (save where Collateral Assets in the Collateral Pool are substituted in accordance with the Secured Security Conditions) and Securityholders are therefore exposed to a decline in the value of the Collateral Assets, possibly to zero (0).

(iv) *Low Frequency of Collateral Test Dates where Collateral Monitoring is applicable*

In order to ensure that a Series of Secured Securities to which Collateral Monitoring applies is collateralised in accordance with its terms, the Collateral Value and the Required Collateral Value will be determined on the Issue Date, on each periodic Collateral Test Date thereafter as specified in the applicable Final Terms and on any additional date which is deemed to be a Collateral Test Date pursuant to the terms of the Secured Security Conditions. The lower the frequency of the periodic Collateral Test Dates specified in the applicable Final Terms and hence the greater the period of time in between each such periodic Collateral Test Date the more likely it is that upon enforcement of the relevant Pledge Agreement, the proceeds of enforcement that a Securityholder will receive or, where Physical Delivery of Collateral Assets on Enforcement is applicable, the value of the Collateral Assets delivered, will be less than the amounts due to Securityholders in respect of the relevant Series of Secured Securities. Securityholders are therefore exposed to a decline in the value of the Securities as a result.

Where Secured Securities are not subject to Collateral Monitoring, there will be no periodic adjustments to the Collateral Assets in the Collateral Pool during the life of the relevant Secured Securities other than on any date which is deemed to be a Collateral Test Date pursuant to the terms of the Secured Security Conditions. In this case, if the security created under the relevant Pledge Agreement is enforced, the Collateral Assets available for distribution or delivery to Securityholders on enforcement, may be less than the amounts due to Securityholders in respect of the relevant Series of Secured Securities.

(v) *Substitution of Collateral Assets*

If Collateral Substitution is specified as applicable in the applicable Final Terms, the Issuer or Third Party Chargor (or the Collateral Manager on their behalf) may withdraw and/or replace Collateral Assets from any Collateral Account provided that following such adjustment the applicable Collateral Test continues to be satisfied. The Issuer or Third Party Chargor (or the Collateral Manager on their behalf) may give instructions for the substitution of Collateral Assets any number of times over the term of the Secured Securities and is not required to obtain the consent of the Collateral Monitoring Agent (where applicable in relation to a Series of Secured Securities) or any other party prior to effecting the proposed substitution of Collateral Assets. Until any further adjustments to the Collateral Assets have occurred, the value of Collateral Assets held in a Collateral Account securing a Series of Secured Securities may be less than it would have been were it not for the substitution of Collateral Assets.

(vi) *Early redemption or cancellation at the option of the Issuer upon a Collateral Disruption Event*

Secured Securities will be subject to Collateral Disruption Events (as defined in the Secured Security Conditions) which may increase the possibility (in comparison with Securities, which are not secured) of the Secured Securities being redeemed or cancelled early. Upon the occurrence of a Collateral Disruption Event, the Issuer may, in its sole and absolute discretion, redeem or cancel, as applicable, all of the relevant Secured Securities at their Early Redemption Amount following the occurrence of a Collateral Disruption Event. Following the early redemption of the Secured Securities, a Securityholder may not be able to reinvest the redemption proceeds at an equivalent rate of return to the Secured Securities being redeemed and may only be able to do so at a significantly lower rate or in worse investment conditions.

(vii) *Secured Security Acceleration Event and enforcement of the security*

Following the occurrence of a Secured Security Event of Default, all the Secured Securities of the relevant Series may (upon action of a holder of such Secured Securities) become immediately due and repayable at their applicable Early Redemption Amount.

Following such occurrence, a Secured Security Acceleration Event may occur and the Securityholders will be entitled to claim for any outstanding amounts due to them in accordance with the Secured Security Conditions under the terms of, and subject to, the Guarantee.

The Security Trustee or the Security Agent (as applicable) is only obliged to enforce a Pledge Agreement after having received a Collateral Enforcement Notice from a Securityholder. A Securityholder is only entitled to send a Collateral Enforcement Notice to the Security Trustee or the Security Agent (as applicable) if neither the Issuer nor the Guarantor has paid all amounts due to such Securityholder within a determined period following the occurrence of the relevant Secured Security Acceleration Event.

The existence of such period means that there will be a delay between the occurrence of a Secured Security Acceleration Event and the enforcement of the corresponding Pledge Agreement during which period there may be a depreciation in the value of the relevant Collateral Assets, thus reducing the amount available to satisfy the claims of Securityholders upon realisation of the Collateral Assets or the value of Collateral Assets available to be delivered to the Securityholders.

Where the Collateral Assets consist of debt securities, shares or other tradable securities, liquidation of all the Collateral Assets simultaneously may increase the risk (and accordingly affect the value of the Securities) that the proceeds of realisation of the Collateral Assets may be less than the sums due to the relevant Securityholders under the relevant Secured Securities because liquidation of all the Collateral Assets in the Collateral Pool at the same time could, in particular market circumstances, lead to a reduction in the market value of some or all of the Collateral Assets.

(viii) *Entitlement of Securityholders on enforcement and subordination to payment of expenses and other payments*

Following the enforcement of a Pledge Agreement, the rights of Securityholders to be paid amounts from the proceeds of such enforcement and the realisation of the related Collateral Assets or, where Physical Delivery of Collateral Assets on Enforcement is applicable, to be delivered Collateral Assets, will be limited to the applicable Early Redemption Amount.

The Early Redemption Amount in respect of a Secured Security will be equal to its Fair Market Value Redemption Amount, which is likely to be different from the amount due on the scheduled redemption date. The Fair Market Value Redemption Amount in respect of a Security will be for these purposes an amount equal to the fair market value of the Security (subject to a minimum of zero) as at (or about) the date of early redemption, taking into account, without limitation, (i) the deduction of the Hedge Amount (except for an early redemption following the occurrence of an Additional Disruption Event and in respect of Italian Listed Certificates) and (ii) in the case of the Bond Linked Securities, the value of the relevant Bond but disregarding (1) the financial

condition of the relevant Issuer and/or the Guarantor and (2) any collateral which has been, or is required to be, delivered in connection with such Security.

A Securityholder's entitlement to the Early Redemption Amount in respect of any Secured Security in respect of which a Secured Security Acceleration Event has occurred will be subordinated to and therefore rank behind claims relating to any amounts payable to Secured Parties ranking prior to the Securityholders in accordance with the Order of Priority specified in the applicable Final Terms and any rights of preference existing by operation of law.

(ix) *Shortfall on Realisation of Collateral Assets and limited recourse of Securityholders*

The security provided for a Series of Secured Securities is limited to the Collateral Assets constituting the Collateral Pool applicable to such Series together with the Issuer's right, benefit, interest and title, present and future, in, under and to the Charged Documents (to the extent they relate to such Series). The value realised for the Collateral Assets in the relevant Collateral Pool or, where Physical Delivery of Collateral Assets on Enforcement is applicable, the value of the Collateral Assets delivered, upon enforcement of the relevant Pledge Agreement may be less than the amounts due to Securityholders in respect of the relevant Series of Secured Securities and as a result, investors may lose a substantial portion of their investment. The level of risk will particularly depend on whether Collateral Monitoring is applicable and the relevant Eligibility Criteria.

The Collateral Assets may suffer a fall in value between the time at which the relevant Pledge Agreement becomes enforceable and the time at which the Collateral Assets are realised in full or, where Physical Delivery of Collateral Assets on Enforcement is applicable, delivered. In extraordinary circumstances, the Collateral Assets forming part of the Collateral Pool available at the time at which a Pledge Agreement becomes enforceable could lose all or a substantial proportion of their value by the time of realisation and distribution or delivery, as applicable.

If there is any shortfall in amounts due to a Securityholder in accordance with the Secured Security Conditions then such Securityholder shall have no further claim against the Issuer (where such Issuer is Crédit Agricole CIB FS or Crédit Agricole CIB FL), any Third Party Chargor or the Security Trustee or the Security Agent (as applicable) in respect of such amounts which remain unpaid following enforcement of the relevant Pledge Agreement (including, for the avoidance of doubt, payments of nominal and/or interest in respect of the Securities). In such a scenario, Securityholders will be able to claim under the terms of the Guarantee against the Guarantor for any unpaid amounts and any such shortfall will therefore constitute an unsecured claim by such Securityholder against the Guarantor. If the value realised for the Collateral Assets or the value of any Collateral Assets delivered is less than the amounts due to the Securityholders under their Securities, they will be exposed to the creditworthiness of Crédit Agricole CIB for the remaining amount due to them.

(x) *Physical Delivery of Collateral Assets on Enforcement*

If Physical Delivery of Collateral Assets on Enforcement is specified in respect of a Series of Secured Securities, upon enforcement of a Pledge Agreement, the Security Trustee or the Security Agent (as applicable) will not sell, or cause to be sold, the Collateral Assets (unless there is a Physical Delivery of Collateral Assets Disruption Event and other than in order to pay any amounts payable to Secured Parties ranking prior to the holders of Securityholders in accordance with the Order of Priority specified in the applicable Final Terms) but will procure delivery of the Collateral Assets Entitlement to each Securityholder in the manner set out in the Secured Security Conditions.

If a Physical Delivery of Collateral Assets Disruption Event occurs or exists on the relevant Collateral Delivery Date, settlement will be postponed until the next Collateral Business Day on which there is no Physical Delivery of Collateral Assets Disruption Event. If such Physical Delivery of Collateral Assets Disruption Event continues for a continuous period of 20 Collateral Business Days (or such other period as specified in the Final Terms) after the original Collateral

Delivery Date, the Security Trustee, the Security Agent (as applicable) or the Disposal Agent on its behalf will procure the sale of such Collateral Assets in lieu of delivery of the relevant Collateral Assets Entitlement.

Any event above described may impact the value of the Notes and the amount received by a Securityholder following such sale of Collateral Assets may be lower than the amount, which a Securityholder would have received if the relevant Collateral Assets had been delivered to it and the Securityholder held the relevant Collateral Assets to the redemption date of such assets or sold such assets at a different point in time.

- (xi) *Risk of a delay in the realisation of the Collateral Assets in the event of the insolvency of any relevant party*

The insolvency of the Issuer will constitute a Secured Security Event of Default, which may trigger early redemption of any Secured Securities issued by the Issuer. In these circumstances, or in the event of the insolvency of any Third Party Chargor, the Guarantor or any Collateral Arrangement Party (for these purposes, each a relevant party), the realisation of the Collateral Assets may be delayed either by the appointment of an insolvency administrator or other insolvency official in relation to the relevant party or by measures ordered by a competent court. Such delay could adversely affect the position of the Securityholders in the event of a depreciation in the value of the Collateral Assets during such period.

In addition, in the case of an insolvency of a member of the Group, it is possible that the Issuer, the Guarantor and the Collateral Arrangement Parties that are members of the Group may each be insolvent. Such circumstances may lead to a delay in the administrative processes involved in the realisation of the Collateral Assets and consequently affect the market value of the Securities.

The Disposal Agent and the Security Trustee or the Security Agent (as applicable) are (unless otherwise specified in the applicable Final Terms) part of the same group (and one of the Eligible Custodians, which could be appointed as the Custodian for a given Series of Secured Securities, is also part of the same group) and in the event of the insolvency of one such entity it is possible that another of those entities may also be insolvent. Such circumstances may lead to a delay in the realisation of the Collateral Assets. The Custodian Terms for each Eligible Custodian, the Collateral Monitoring Agency Agreement, the Disposal Agency Agreement and each Security Trust Deed will contain provisions permitting the replacement of the Custodian, Collateral Monitoring Agent, Disposal Agent and Security Trustee or the Security Agent (as applicable), as applicable, in certain circumstances, including following insolvency, as further provided in such agreements and the Secured Security Conditions.

Where the Custodian is Euroclear or Clearstream, the Collateral Assets in respect of a Series of Secured Securities will be held in a Collateral Account which will be an account in the Euroclear system for the account of the Pledgee. The Collateral Account will be subject to a pledge from the Issuer or the Third Party Chargor, as the case may be, in favour of the Security Trustee or the Security Agent (as applicable), which will hold the Collateral Assets in the Collateral Account as trustee or agent (as applicable) for amongst others, the Securityholders. In the event that the Security Trustee or the Security Agent (as applicable) defaults on its obligations as security trustee, the Collateral Assets will be returned to the Issuer or the Third Party Chargor. In such circumstances, the Securityholders would cease to benefit from security over any Collateral Assets in the Collateral Account until such time as a replacement Security Trustee or the Security Agent (as applicable) is appointed. Pending the appointment of a replacement Security Trustee, there is no obligation on the Issuer or the Third Party Chargor to hold such Collateral Assets in a segregated account for the Securityholders or otherwise provide collateral for the Issuer's obligations in respect of the relevant Secured Securities.

- (xii) *Non-Placed Security Notification Error*

If "Waiver of Rights" is specified as applicable in the applicable Final Terms, Crédit Agricole CIB (including in, but not limited to, its capacity as a market maker) may waive its rights to receive the proceeds of realisation of the Collateral Assets securing such Secured Securities (or where Physical Delivery of Collateral Assets on Enforcement is specified as applicable in the applicable Final Terms, delivery of the Collateral Assets) following the enforcement of the relevant Charged Documents. As a consequence, the Required Collateral Value shall only take into account the value of the Secured Securities that have not been subject to such waiver and this may affect the value of the Securities.

Upon any transfer of Non-Placed Securities, the holders thereof shall notify the Collateral Manager. The Collateral Business Day following such notification will be deemed to be a Collateral Test Date and on such date the Collateral Monitoring Agent shall determine the revised Required Collateral Value and any required adjustments to the Collateral Assets necessary to ensure that the Collateral Test will be satisfied. Until any such adjustments to the Collateral Assets have occurred, the value of Collateral Assets held in the Collateral Account may be less than the Required Collateral Value.

If the number of Non-Placed Securities actually held on a Collateral Test Date is less than the number of Non-Placed Securities notified to the Collateral Manager (such event being a **Non-Placed Security Notification Error**), then the Required Collateral Value calculated on such Collateral Test Date will be lower than would otherwise be the case if there was no such Non-Placed Notification Error. If the relevant security were to be enforced prior to the correction of a Non-Placed Security Notification Error, the proceeds of realisation of the Collateral Assets available to be distributed, or where Physical Delivery of Collateral Assets on Enforcement is applicable the value of the Collateral Assets available to be delivered, to Securityholders will be less than would have been the case in the absence of such Non-Placed Security Notification Error. Investors return and the value of the Securities may accordingly be impacted.

(k) **Risks related to Green Securities**

The Final Terms relating to any specific Series of Securities may provide that such Securities will constitute Green Securities which will be issued in accordance with the Green Bond Framework of the Crédit Agricole S.A. group (the **Crédit Agricole Group**). In such case, it will be the relevant Issuer's intention to apply an amount equal or equivalent to the net proceeds of such Securities to finance and/or re-finance, in whole or in part, new or existing Eligible Green Assets, which are generally new or existing loans relating to certain categories of environmentally-friendly or sustainable projects.

Since there is currently no clear definition (legal, regulatory or otherwise) of, nor market consensus as to what constitutes a "sustainable", "green" or equivalently-labelled project or a loan that may finance such a project, no assurance is or can be given to Securityholders by the relevant Issuer that the use of proceeds of any Green Securities will satisfy, whether in whole or in part, any future national or international legislative or regulatory requirements or recommendation or any investors expectations regarding such "sustainable", "green" or other equivalently-labelled performance objectives.

While it is the intention of the relevant Issuer to apply the proceeds of any Green Securities in, or substantially in, the manner described in under the "Use of Proceeds" section, there can be no assurance that the relevant Eligible Green Assets will be capable of being implemented in, or substantially in, such manner and/or in accordance with any timeframe, or that such proceeds will be totally or partially disbursed as planned. Nor can there be any assurance that such Green Securities or the activities or projects they finance (or refinance) will have the results or outcome (whether or not related to environmental, sustainability, or other objectives) originally expected or anticipated by the relevant Issuer. Any such event or failure by the relevant Issuer will not constitute an Event of Default in respect of any Green Securities.

Any failure to apply the proceeds of any issue of Green Securities as intended, any withdrawal of any applicable opinion or certification, any opinion or certification to the effect that the

relevant Issuer is not complying in whole or in part with criteria or requirements covered by such opinion or certification or any change to the Green Bond Framework of the Crédit Agricole Group and/or selection criteria may have an adverse effect on the value of Green Securities, and may result in adverse consequences for Securityholders with portfolio mandates to invest in securities to be used for a particular purpose.

(l) **Risks related to Social Securities**

The Final Terms relating to any specific Series of Securities may provide that such Securities will constitute Social Securities which will be issued in accordance with the Social Bond Framework of the Crédit Agricole S.A. group (the Crédit Agricole Group). In such case, it will be the relevant Issuer's intention to apply an amount equal or equivalent to the net proceeds of such Securities to finance and/or re-finance, in whole or in part, new or existing Eligible Social Assets, which are generally new or existing loans relating to certain categories of socially friendly or sustainable projects.

Since there is currently no clear definition (legal, regulatory or otherwise) of, nor market consensus as to what constitutes a "sustainable", "social" or equivalently-labelled project or a loan that may finance such a project, no assurance is or can be given to Securityholders by the relevant Issuer that the use of proceeds of any Social Securities will satisfy, whether in whole or in part, any future national or international legislative or regulatory requirements or recommendation or any investors expectations regarding such "sustainable", "social" or other equivalently-labelled performance objectives.

While it is the intention of the relevant Issuer to apply the proceeds of any Social Securities in, or substantially in, the manner described in under the "Use of Proceeds" section, there can be no assurance that the relevant Eligible Social Assets will be capable of being implemented in, or substantially in, such manner and/or in accordance with any timeframe, or that such proceeds will be totally or partially disbursed as planned. Nor can there be any assurance that such Social Securities or the activities or projects they finance (or refinance) will have the results or outcome (whether or not related to social, sustainability, or other objectives) originally expected or anticipated by the relevant Issuer. Any such event or failure by the relevant Issuer will not constitute an Event of Default in respect of any Social Securities.

Any failure to apply the proceeds of any issue of Social Securities as intended, any withdrawal of any applicable opinion or certification, any opinion or certification to the effect that the relevant Issuer is not complying in whole or in part with criteria or requirements covered by such opinion or certification or any change to the Social Bond Framework of the Crédit Agricole Group and/or selection criteria may have an adverse effect on the value of Social Securities, and may result in adverse consequences for Securityholders with portfolio mandates to invest in securities to be used for a particular purpose.

(m) **Risks related to Partly Paid Securities**

The relevant Issuer may issue Securities where the issue price is payable in more than one part payment by the investor. Failure by the investor to pay any subsequent part payment could result in an investor losing some or all of his, her or its investment.

The Issuers accept responsibility, in the Non-exempt Offer Jurisdiction(s) specified in the Final Terms, for the content of this Base Prospectus in relation to any person (an **Investor**) in such Non-exempt Offer Jurisdiction(s) to whom an offer of any Securities is made by any Authorised Offeror and where the offer is made in compliance with all the conditions attached to the giving of the consent, all as mentioned in this Base Prospectus and/or as specified in the applicable Final Terms. However, none of the Issuers, the Guarantor or any Dealer has any responsibility for any of the actions of any Authorised Offeror, including compliance by an Authorised Offeror with applicable conduct of business rules or other local regulatory requirements or other securities law requirements in relation to such offer.

The consent referred to above relates to Offer Periods (if any) occurring within twelve (12) months from the date of the approval of this Base Prospectus by the CSSF.

In the event the applicable Final Terms designate Authorised Offeror(s) to whom the Issuers have given its consent to use this Base Prospectus during an Offer Period, the Issuers may also give consent to Additional Authorised Offeror(s) so long as they are authorised to make such offers under MiFID II (also an Authorised Offeror) after the date of the applicable Final Terms and, if it does so, it will publish any new information in relation to such Additional Authorised Offeror(s) who are unknown at the time of the approval of this Base Prospectus or the filing of the applicable Final Terms at <https://www.documentation.ca-cib.com/PublicFinalTerm?region=EU>.

If the Final Terms specify that General Consent is applicable, any General Authorised Offeror is required, for the duration of the Offer Period, to publish on its website or on the website of the Initial Authorised Offeror (if any) that it is using this Base Prospectus for the relevant Non-exempt Offer with the consent of the Issuers and in accordance with the conditions attached thereto.

Other than as set out above, neither the Issuers, the Guarantor nor any of the Dealers has authorised the making of any Non-exempt Offer by any person in any circumstances and such person is not permitted to use this Base Prospectus in connection with its offer of any Securities. Any such offers are not made on behalf of the Issuers, the Guarantor or by any of the Dealers or Authorised Offerors and none of the Issuers, the Guarantor or any of the Dealers or Authorised Offerors has any responsibility or liability for the actions of any person making such offers.

An investor intending to acquire or acquiring any Securities from an Authorised Offeror will do so, and offers and sales of the Securities to a potential investor by an Authorised Offeror will be made, in accordance with any terms and other arrangements in place between such Authorised Offeror and such potential investor including as to price allocations and settlement arrangements (the **Terms and Conditions of the Non-exempt Offer**). The Issuers will not be a party to any such arrangements with potential investors (other than Dealers) in connection with the offer or sale of the Securities and, accordingly, this Base Prospectus and any Final Terms will not contain such information and a potential investor must obtain such information from the Authorised Offeror. **The Terms and Conditions of the Non-exempt Offer shall be provided to potential investors by that Authorised Offeror at the time of the Non-exempt Offer.** None of the Issuers, the Guarantor or any of the Dealers or other Authorised Offerors have any responsibility or liability for such information.

Any person making or intending to make an offer of Securities to the public in Switzerland on the basis of this Base Prospectus, other than pursuant to an exemption under Article 36(1) of the Swiss Federal Financial Services Act (**FinSA**) or where such offer does not qualify as a public offer in Switzerland, must do so only with the Issuer's

consent to the use of this Base Prospectus pursuant to Article 36(4)(b) FinSA and Article 45 of the implementing Financial Services Ordinance (**FinSO**), as provided under this section “Retail Cascades” and provided such person complies with the conditions attached to that consent and on the basis that for the purposes of the above, references herein to "the Non-exempt Offer Jurisdictions" were to Switzerland, to "Non-exempt Offer" were to "non-exempt public offer in Switzerland" and to "the Terms and Conditions of the Non-exempt Offer" were to "the Terms and Conditions of the non-exempt public offer in Switzerland". General Consent is subject to the further condition that the financial intermediary is authorised to make a non-exempt public offer in Switzerland under applicable Swiss laws and regulations.

FORM OF THE SECURITIES

This section provides information on the form of the Securities.

Each Tranche of Securities will be in either bearer form, with or without interest coupons attached, or registered form, without interest coupons attached. Bearer Securities will be issued outside the United States in reliance on Regulation S under the Securities Act (**Regulation S**) and Registered Securities will be issued both outside the United States in reliance on the exemption from registration provided by Regulation S and, solely with respect to U.S. Securities, within the United States in reliance on Rule 144A of the Securities Act.

Bearer Securities

Each Tranche of Securities will be in bearer form (**Bearer Securities**) and will be initially issued in the form of a temporary global security (a **Temporary Bearer Global Security**) or, if so specified in the applicable Final Terms, a permanent global security (a **Permanent Bearer Global Security**, and together with the Temporary Bearer Global Security, the **Bearer Global Securities**) which, in either case, will:

- (i) if the Global Securities are notes intended to be issued in new global Note (**NGN**) form or certificates intended to be issued in NGN form, as stated in the applicable Final Terms, be delivered on or prior to the original issue date of the Tranche to a common safekeeper for Euroclear Bank SA/NV (**Euroclear**) and Clearstream Banking, S.A. (**Clearstream, Luxembourg**); or
- (ii) if the Global Securities are not intended to be issued in NGN form (and are therefore intended to be issued in classic global note (**CGN**) form), be delivered on or prior to the original issue date of the Tranche to a common depository for Euroclear and Clearstream, Luxembourg (in the case of Securities cleared through Euroclear and Clearstream, Luxembourg).

Whilst any Bearer Security is represented by a Temporary Bearer Global Security, payments of nominal, interest (if any) and any other amount payable in respect of the Securities due prior to the Exchange Date (as defined below) will be made (against presentation of the Temporary Bearer Global Security if the Temporary Bearer Global Security is intended to be issued in CGN form) only to the extent that certification (in a form to be provided) to the effect that the beneficial owners of interests in such Bearer Security are not U.S. persons or persons who have purchased for resale to any U.S. person, as required by U.S. Treasury regulations, has been received by Euroclear and/or Luxembourg and Euroclear and/or Clearstream, Luxembourg, as applicable, has given a like certification (based on the certifications it has received) to the Principal Paying Agent (in the case of Securities cleared through Euroclear and/or Clearstream, Luxembourg).

On and after the date (the **Exchange Date**) which is expected to be 40 days after a Temporary Bearer Global Security is issued, interests in such Temporary Bearer Global Security will, subject to certification of beneficial ownership as described above (unless such certification has already been given), be exchangeable (free of charge) upon a request as described therein, either (i) for interests in a Permanent Bearer Global Security of the same Series or (ii) if so provided in the applicable Final Terms, for delivery of definitive Bearer Securities (**Definitive Bearer Securities**) of the same Series with, where applicable, receipts, interest coupons and talons attached (as indicated in the applicable Final Terms) following the expiration of such notice period as is specified in the applicable Final Terms, except that purchasers in the United States and certain U.S. persons will not be able to receive Definitive Bearer Securities. Notwithstanding the foregoing, if the relevant Bearer Global Security is issued in respect of a Tranche of Bearer Global Securities described as Partly Paid Securities in the applicable Final Terms, such Bearer Global Security may be exchanged for Definitive Bearer Security and (if applicable) coupons, receipts and/or talons as described above only if the final part payment on all such Partly Paid Securities then outstanding has been paid. The holder of a Temporary Bearer Global Security will not be entitled to collect any payment of interest, nominal or other amount due on or after the Exchange Date unless, upon due certification, exchange of the Temporary Bearer Global Security for an interest in a Permanent Bearer Global Security or for Definitive Bearer Securities is improperly withheld or refused.

Payments of nominal, interest (if any) or any other amounts on a Permanent Bearer Global Security will be made through Euroclear and/or Clearstream, Luxembourg (against presentation or surrender (as the case may be) of the Permanent Bearer Global Security if the Permanent Bearer Global Security is intended to be issued in CGN form) without any requirement for certification.

The applicable Final Terms will specify that a Permanent Bearer Global Security will be exchangeable (free of charge), in whole but not in part, for Definitive Bearer Securities with, where applicable, receipts, interest coupons and talons attached only upon the occurrence of an Exchange Event, except that, if the relevant Permanent Bearer Global Security is issued in respect of Partly Paid Securities, such Permanent Bearer Global Security may be exchanged for Definitive Securities and (if applicable) coupons, receipts and/or talons as described above only if the final part payment on all such Partly Paid Securities then outstanding has been paid. For these purposes, **Exchange Event** means that (i) an Event of Default (as defined in General Condition 10 (*Events of Default*)) has occurred and is continuing, (ii) the relevant Issuer has been notified that both Euroclear and Clearstream, Luxembourg (in the case of Securities cleared through Euroclear and/or Clearstream, Luxembourg) have been closed for business for a continuous period of 14 days (other than by reason of holiday, statutory or otherwise) or have announced an intention permanently to cease business or have in fact done so and, in any such case, no successor clearing system is available or (iii) the relevant Issuer has or will become subject to adverse tax consequences which are as a result of legislative changes in the domicile of the relevant Issuer and which would not be suffered were the Securities in definitive form. The relevant Issuer will promptly give notice to Securityholders in accordance with General Condition 14 (*Notices*) if an Exchange Event occurs. In the event of the occurrence of an Exchange Event, Euroclear and/or Clearstream, Luxembourg (acting on the instructions of any holder of an interest in such Permanent Bearer Global Security) may give notice to the Principal Paying Agent (in the case of Securities cleared through Euroclear and/or Clearstream, Luxembourg) requesting exchange and, in the event of the occurrence of an Exchange Event as described in (iii) above, the relevant Issuer may also give notice to the Principal Paying Agent requesting exchange. Any such exchange shall occur not later than 45 days after the date of receipt of the first relevant notice by the Principal Paying Agent.

The following legend will appear on all Bearer Securities, which have an original maturity of more than one year and on all receipts and interest coupons relating to such Bearer Securities:

"ANY UNITED STATES PERSON WHO HOLDS THIS OBLIGATION WILL BE SUBJECT TO LIMITATIONS UNDER THE UNITED STATES INCOME TAX LAWS, INCLUDING THE LIMITATIONS PROVIDED IN SECTIONS 165(j) AND 1287(a) OF THE INTERNAL REVENUE CODE, AS AMENDED."

The sections referred to provide that United States holders, with certain exceptions, will not be entitled to deduct any loss on Bearer Securities, receipts or interest coupons and will not be entitled to capital gains treatment of any gain on any sale, disposition, redemption or payment of nominal in respect of such Securities, receipts or interest coupons.

Securities, which are represented by a Permanent Bearer Global Security, will only be transferable in accordance with the rules and procedures for the time being of Euroclear or Clearstream, Luxembourg, as the case may be.

Registered Securities

Securities in registered form (**Registered Securities**) and sold in reliance on Regulation S (the **Regulation S Securities**), which will be sold to non-U.S. persons outside the United States, will initially be represented by a global security in registered form (a **Regulation S Global Security**). Beneficial interests in a Regulation S Global Security may not be offered or sold to, or for the account or benefit of, a U.S. person save as otherwise provided in General Condition 1.3 (*Transfer*) and may not be held otherwise than through Euroclear or Clearstream, Luxembourg and such Regulation S Global Security will bear a legend regarding such restrictions on transfer.

The Registered Securities of each Tranche of U.S. Securities issued by Crédit Agricole CIB may only be offered and sold in the United States or to, or for the account or benefit of, U.S. persons in private transactions to "qualified institutional buyers" within the meaning of Rule 144A under the Securities Act (**QIBs**). The Registered Securities of each Tranche of U.S. Securities issued by Crédit Agricole CIB FS or Crédit Agricole CIB FL may be restricted to being offered and sold in the United States or to, or for the account or benefit of, U.S. persons in private transactions to QIBs who are also "qualified purchasers" as defined in Section 2(a)(51) of the Investment Company Act and the rules thereunder (**QPs**). The Registered Securities of each Tranche of U.S. Securities sold to QIBs or QIBs who are also QPs, as applicable, in reliance on Rule 144A (the **Rule 144A Securities**) will be represented by a global security in registered form (a **Rule 144A Global Security** and, together with a Regulation S Global Security, the **Registered Global Securities**).

Registered Global Securities either:

- (i) will be deposited with a custodian (the **Custodian**) for, and registered in the name of a nominee of, the Depository Trust Company (**DTC**) and in the case of a Regulation S Global Security, for the accounts of Euroclear and Clearstream, Luxembourg (in the case of Securities cleared through Euroclear and/or Clearstream, Luxembourg); or
- (ii) if the Registered Global Securities (A) are intended to be held under the new safekeeping structure (**NSS**), as specified in the applicable Final Terms, will be deposited with a common safekeeper for Euroclear and Clearstream, Luxembourg, and registered in the name of a nominee of the common safekeeper, and if the Registered Global Securities are not intended to be held in the NSS, will be deposited with a common depository, and registered in the name of a common nominee of, Euroclear and Clearstream, Luxembourg.

Persons holding beneficial interests in Registered Global Securities will be entitled or required, as the case may be, under the circumstances described below, to receive physical delivery of Definitive Securities in fully registered form.

The Rule 144A Global Securities and the Regulation S Global Securities will be subject to certain restrictions on transfer set forth therein and will bear a legend regarding such restrictions.

Payments of nominal, interest and any other amount in respect of the Registered Global Securities will be made to the person shown on the Register (as defined in General Condition 5.4 (*Payments in respect of Registered Securities*)) as the registered holder of the Registered Global Securities. None of the Issuers, the Guarantor, any Paying Agent or the Registrar will have any responsibility or liability for any aspect of the records relating to or payments or deliveries made on account of beneficial ownership interests in the Registered Global Securities or for maintaining, supervising or reviewing any records relating to such beneficial ownership interests.

Payments of nominal, interest or any other amount in respect of the Registered Securities in definitive form will be made to the persons shown on the Register on the relevant Record Date (as defined in General Condition 5.4 (*Payments in respect of Registered Securities*)) immediately preceding the due date for payment in the manner provided in that General Condition.

Interests in a Registered Global Security will be exchangeable (free of charge), in whole but not in part, for Definitive Registered Securities without receipts, interest coupons or talons attached only upon the occurrence of an Exchange Event. For these purposes, **Exchange Event** means that (a) an Event of Default (as defined in General Condition 10 (*Events of Default*)) has occurred and is continuing, (b) in the case of Securities registered in the name of a nominee for DTC, either DTC has notified the relevant Issuer that it is unwilling or unable to continue to act as depository for the Securities and no alternative clearing system is available or DTC has ceased to constitute a clearing agency registered under the Exchange Act, (c) in the case of Securities registered in the name of a nominee for a common depository for Euroclear and Clearstream, Luxembourg (in the case of Securities cleared through Euroclear and/or Clearstream, Luxembourg), the relevant Issuer has been notified that both Euroclear and Clearstream, Luxembourg have been closed for business for a continuous period of 14 days (other than by reason of holiday, statutory or otherwise) or have announced an intention permanently to cease business or have in fact done so and, in any such case, no successor clearing system is available or (d) the relevant Issuer has or will become subject to adverse tax consequences which would not be suffered were the Securities represented by the Registered Global Security in definitive form. The relevant Issuer will promptly give notice to Securityholders in accordance with General Condition 14 (*Notices*) if an Exchange Event occurs. In the event of the occurrence of an Exchange Event, DTC, Euroclear and/or Clearstream, Luxembourg may give notice to the Registrar requesting exchange and, in the event of the occurrence of an Exchange Event as described in (d) above, the relevant Issuer may also give notice to the Registrar requesting exchange. Any such exchange shall occur not later than 10 days after the date of receipt of the first relevant notice by the Registrar.

Transfer of Interests

Interests in a Registered Global Security may, subject to compliance with all applicable restrictions, be transferred to a person who wishes to hold such interest in another Registered Global Security or in the form of a Definitive Registered Security (if available) and Definitive Registered Securities may, subject to compliance with all applicable restrictions, be transferred to a person who wishes to hold such Securities in the form of an interest in a Registered Global Security (if available). No beneficial owner of an interest in a Registered Global Security will be able to transfer such interest, except in accordance with the applicable procedures of DTC, Euroclear and

Clearstream, Luxembourg, in each case to the extent applicable. **Registered Securities are also subject to the restrictions on transfer set forth therein and will bear a legend regarding such restrictions, see "Subscription and Sale".**

Dematerialised Securities

If so specified in the applicable Final Terms and for the purpose of allowing clearing of Securities in alternative clearing systems, any Series may, in full but not in part, be issued in uncertificated and dematerialised book-entry form (**Dematerialised Securities**) in accordance with all applicable laws of the relevant jurisdiction of such alternative clearing system and the rules and regulations of such alternative clearing system.

Securities designated as "Swedish Securities" in the applicable Final Terms (**Swedish Securities**) will constitute Dematerialised Securities issued in uncertificated and dematerialised book-entry form in accordance with the Swedish Central Securities Depository and Financial Instruments Accounts Act (in Swedish: *lag (1998:1479) om värdepapperscentraler och kontoföring av finansiella instrument*) and all other applicable Swedish laws, regulations and operating procedures applicable to and/or issued by the Swedish central securities depository (in Swedish: *central värdepappersförvarare*) from time to time (the **Swedish CSD Rules**) designated as the relevant clearing system for the Swedish Securities in the applicable Final Terms (which is expected to be Euroclear Sweden AB) (the **Swedish CSD**). No Physical Global or Definitive Securities or certificates will be issued in respect of Swedish Securities other than as provided below and the provisions relating to presentation, surrender or replacement of such physical bearer instruments shall not apply. Payments of nominal, interest (if any) or any other amounts on any Swedish Security will be made through the Swedish CSD in accordance with the Swedish CSD Rules.

Securities designated as "Norwegian Securities" in the applicable Final Terms (**Norwegian Securities**) will be issued in uncertificated and dematerialised book-entry form in accordance with the Norwegian Securities Register Act (in Norwegian: *lov om registrering av finansielle instrumenter av 5. juli 2002 nr. 64*). The Norwegian Securities shall be regarded as Securities represented by global securities for the purposes of the Terms and Conditions of the Securities save to the extent specified otherwise in the Terms and Conditions of the Securities or the relevant Terms and Conditions of the Securities are inconsistent with Norwegian laws, regulations and operating procedures applicable to and/or issued by the relevant Norwegian central securities depository (in Norwegian: *verdipapirregister*) from time to time (the **Norwegian CSD Rules**) designated as relevant clearing system for the Norwegian Securities in the applicable Final Terms (which is expected to be Verdipapirsentralen ASA (**VPS**)) (the **Norwegian CSD**). No Physical Global or Definitive Securities or certificates will be issued in respect of Norwegian Securities and the provisions relating to presentation, surrender or replacement of such bearer instruments shall not apply.

Securities designated as "Finnish Securities" in the applicable Final Terms (**Finnish Securities**) will constitute Dematerialised Securities issued in uncertificated and dematerialised book-entry form in accordance with the Finnish Act on the Book-Entry System and Clearing Operations (in Finnish: *Laki arvo-osuusjärjestelmästä ja selvitystoiminnasta (348/2017)*), the Finnish Act on Book-Entry Accounts (in Finnish: *Laki arvo-osuustileistä 827/1991*, as amended) and all other applicable Finnish laws, regulations and operating procedures applicable to and/or issued by the Finnish central securities depository from time to time (the **Finnish CSD Rules**) designated as the relevant clearing system for the Finnish Securities in the applicable Final Terms (which is expected to be Euroclear Finland Oy) (the **Finnish CSD**). No Physical Global or Definitive Securities or certificates will be issued in respect of Finnish Securities. Payments or any other amounts on any Finnish Security will be made through the Finnish CSD in accordance with the Finnish CSD Rules. The Finnish CSD will not have qualified intermediary status.

When appropriate, the following legend will apply in respect of all Dematerialised Securities, which have an original maturity of more than one year and on all payments relating to such Dematerialised Securities:

"ANY UNITED STATES PERSON WHO HOLDS THIS OBLIGATION WILL BE SUBJECT TO LIMITATIONS UNDER THE UNITED STATES INCOME TAX LAWS, INCLUDING THE LIMITATIONS PROVIDED IN SECTIONS 165(j) AND 1287(a) OF THE INTERNAL REVENUE CODE, AS AMENDED."

General

Pursuant to the Agency Agreement (as defined under "*Terms and Conditions of the Securities*"), the Principal Paying Agent shall arrange that, where a further Tranche of Securities is issued which is intended to form a single Series with an existing Tranche of Securities, the Securities of such further Tranche shall be assigned a Common Code and ISIN and, where applicable, a CUSIP and CINS number which are different from the Common Code and ISIN, CUSIP and CINS assigned to Securities of any other Tranche of the same Series.

For so long as any of the Securities is represented by a Global Security held on behalf of Euroclear and/or Clearstream, Luxembourg each person (other than Euroclear or Clearstream, Luxembourg) who is for the time being shown in the records of Euroclear or of Clearstream, Luxembourg as the holder of a particular nominal amount of such Securities (in which regard any certificate or other document issued by Euroclear or Clearstream, Luxembourg as to the nominal amount of such Securities standing to the account of any person shall be conclusive and binding for all purposes save in the case of manifest error or proven error) shall be treated by the Issuers, the Guarantor and their agents as the holder of such nominal amount of such Securities for all purposes other than with respect to the payment of nominal or interest on such nominal amount of such Securities, for which purpose the bearer of the relevant Bearer Global Security or the registered holder of the relevant Registered Global Security shall be treated by the Issuers, the Guarantor and their agents as the holder of such nominal amount of such Securities in accordance with and subject to the terms of the relevant Global Security and the expressions **Securityholder** and **holder of Securities** and related expressions shall be construed accordingly.

So long as DTC or its nominee is the registered owner or holder of a Registered Global Security, DTC or such nominee, as the case may be, will be considered the sole owner or holder of the Securities represented by such Registered Global Security for all purposes under the Agency Agreement and such Securities except to the extent that in accordance with DTC's published rules and procedures any ownership rights may be exercised by its participants or beneficial owners through participants.

Any reference herein to DTC and/or Euroclear and/or Clearstream, Luxembourg shall, whenever the context so permits, be deemed to include a reference to any relevant clearing system specified in the applicable Final Terms.

Where General Condition 10 (*Events of Default*) applies to Securities, a Security may be accelerated by the holder thereof in certain circumstances described in General Condition 10 (*Events of Default*). In such circumstances, where any Security is still represented by a Global Security and the Global Security (or any part thereof) has become due and repayable in accordance with the Terms and Conditions of such Securities and payment in full of the amount due has not been made in accordance with the provisions of the Global Security then the Global Security will become void at 8.00 p.m. (Paris time) on such day. At the same time, holders of interests in such Global Security credited to their accounts with DTC and/or Euroclear and/or Clearstream, Luxembourg, as the case may be, will become entitled to proceed directly against the relevant Issuer on the basis of statements of account provided by DTC and/or Euroclear and/or Clearstream, Luxembourg on and for the Securities governed by English law, subject to the terms of a deed of covenant (the **English Law Deed of Covenant**) dated 7 May 2021 and for the Securities governed by Irish law, subject to the terms of a deed of covenant (the **Irish Law Deed of Covenant**) dated 7 May 2021 executed by each of the Issuers. In addition, holders of interests in such Global Security credited to their accounts with DTC may require DTC to deliver Definitive Securities in registered form in exchange for their interest in such Global Security in accordance with DTC's standard operating procedures.

Securities designated as "EUI Securities" will be held in registered uncertificated form in accordance with the Uncertificated Securities Regulations 2001, including any modification or re-enactment thereof for the time being in force (the **EUI Regulations**) and as such are dematerialised and not constituted by any physical document of title. The EUI Securities are participating securities for the purposes of the Regulations. Title to the EUI Securities is recorded on the relevant Operator register of corporate securities. The EUI Agent on behalf of the Issuer shall, in relation to the EUI Securities, maintain a record of uncertificated corporate securities in accordance with the records of Euroclear UK & Ireland Limited (**EUI** or **CREST**) (formerly known as CRESTCo Limited) (the **Record**) and shall procure that the Record is regularly updated to reflect the Operator register of corporate securities in accordance with the rules and practices from time to time of the Operator. Subject to this requirement, (i) each person who is for the time being shown in the Record as the holder of a particular number of EUI Securities shall be treated by the Issuer and the EUI Agent as the holder of such number of EUI Securities for all purposes (and the expression EUI Holder and related expressions shall be construed accordingly), and (ii) neither the Issuer, the Guarantor nor the EUI Agent shall be liable in respect of any act or thing done or omitted to be done by it or

on its behalf in reliance upon the assumption that the particulars entered in the Record which the EUI Agent maintains are in accordance with particulars entered in the Operator register of corporate securities relating to the EUI Securities.

EUI Securities

The EUI Securities are participating securities for the purposes of the Uncertificated Securities Regulations 2001, including any modification or re-enactment thereof for the time being in force (the **Regulations**). Title to the EUI Securities is recorded on the relevant Operator register of corporate securities. The EUI Agent acting on behalf of the Issuer shall, in relation to the EUI Securities, maintain a record of uncertificated corporate securities in accordance with the records of Euroclear UK & Ireland Limited (**EUI** or **CREST**) (formerly known as CRESTCo Limited) (the **Record**) and shall procure that the Record is regularly updated to reflect the Operator register of corporate securities in accordance with the rules and practices from time to time of the Operator. Subject to this requirement, (i) each person who is for the time being shown in the Record as the holder of a particular number of EUI Securities shall be treated by the Issuer and the EUI Agent as the holder of such number of EUI Securities for all purposes (and the expression EUI Holder and related expressions shall be construed accordingly), and (ii) neither the Issuer, the Guarantor nor the EUI Agent shall be liable in respect of any act or thing done or omitted to be done by it or on its behalf in reliance upon the assumption that the particulars entered in the Record which the EUI Agent maintains are in accordance with particulars entered in the Operator register of corporate securities relating to the EUI Securities. No provision of the Conditions of any EUI Securities shall apply or have effect to the extent that it is in any respect inconsistent with (i) the holding of title to EUI Securities (ii) the transfer of title to EUI Securities by means of a relevant system or (iii) the Regulations. Without prejudice to the generality of the preceding sentence and notwithstanding anything contained in the Conditions of any EUI Securities, so long as the EUI Securities are participating securities, (a) any EUI Securities which are not for the time being in all respects identical to, or do not for the time being have rights attached thereto identical in all respects to those attached to, other EUI Securities of the same Series shall be deemed to constitute a separate Series of EUI Securities, (b) the Operator register of corporate securities relating to the EUI Securities shall be maintained at all times in the United Kingdom, (c) the EUI Securities may be issued in uncertificated form in accordance with and subject as provided in the Regulations; and (d) for the avoidance of doubt, the Conditions of any EUI Securities shall remain applicable notwithstanding that they are not endorsed on any certificate for such EUI Securities.

As used herein each of "Operator register of corporate securities", "participating securities", "record of uncertificated corporate securities" and "relevant system" is as defined in the Regulations and the relevant "Operator" (as such term is used in the Regulations) is EUI (formerly CRESTCo Limited) or any additional or alternative operator from time to time approved by the Issuer, the Guarantor and the EUI Agent in relation to the EUI Securities and in accordance with the Regulations. Any reference herein to the Operator shall, whenever the context so permits, be deemed to include a reference to any such additional or alternative Operator from time to time and notified to the EUI Holders. This section provides an introduction to the terms and conditions of the Securities.

This introductory section does not form part of the Terms and Conditions.

*The following sections below (including, for the avoidance of doubt, the annexes below) together form the terms and conditions of the Securities (the **Terms and Conditions**) which (i) in the case of Securities other than Dematerialised Securities and French Law Securities, will be incorporated by reference into each Global Security (as defined below) and each Definitive Security, in the latter case only if permitted by the rules of the relevant stock exchange or other relevant authority (if any) and agreed by the relevant Issuer and the relevant Dealer at the time of issue but, if not so permitted and agreed, such Definitive Security will have endorsed thereon or attached thereto such Terms and Conditions or (ii) in the case of Dematerialised Securities and French Law Securities, will apply to such Dematerialised Securities and French Law Securities (as applicable). The applicable Final Terms (or the relevant provisions thereof) will be endorsed upon, or attached to, each Global Security and Definitive Security or, in the case of Dematerialised Securities and French Law Securities, will apply to such Dematerialised Securities and French Law Securities (as the case may be). Reference should be made to "Form of the Final Terms" for a description of the content of the Final Terms which will specify which of such terms are to apply in relation to the relevant Securities.*

GENERAL CONDITIONS

This section sets out the terms and conditions that apply to all Securities.

*The following are the general conditions (the **General Conditions**) that apply to the Securities.*

The following are the General Conditions that will apply to all Securities together with the Definitions Conditions, as supplemented in accordance with the provisions of the applicable Final Terms and any applicable Additional Conditions specified to be applicable in such Final Terms. Where any Additional Conditions are specified in the applicable Final Terms for any Securities, the General Conditions shall be subject to the provisions contained in such Additional Conditions and will not apply to the extent they are inconsistent with the provisions of such Additional Conditions. In all cases, these General Conditions, the Definitions Conditions and the provisions of such Additional Conditions shall be subject to the applicable Final Terms, and will not apply to the extent they are inconsistent with the provisions of such Final Terms.

This Security is (i) a note (a **Note**) or a certificate (a **Certificate**), as specified in the applicable Final Terms and (ii) one of a Series (as defined below) of Securities issued by Crédit Agricole Corporate and Investment Bank (**Crédit Agricole CIB**) or Crédit Agricole CIB Financial Solutions (**Crédit Agricole CIB FS**) or Crédit Agricole CIB Finance Luxembourg S.A. (**Crédit Agricole CIB FL**) or any substitute or additional issuer which accedes to the Programme in accordance with General Condition 17 (each an **Issuer** and together, the **Issuers**) pursuant to the Agency Agreement (as defined below).

In relation to any Series of Securities, references to "Issuer" in these Terms and Conditions means the Issuer specified in the applicable Final Terms.

References herein to the Securities shall be references to the Securities of this Series and shall mean:

- (i) in relation to any Securities represented by a global Security (a **Global Security**), units of each Specified Denomination in the Specified Currency;
- (ii) any Global Security;
- (iii) any Definitive Securities in bearer form issued in exchange for a Global Security in bearer form;
- (iv) Definitive Securities in registered form (whether or not issued in exchange for a Global Security in registered form);
- (v) any Dematerialised Securities;
- (vi) any French Law Securities; and
- (vii) any Materialised Securities in bearer form.

The Securities may be governed by "English Law", "Irish Law" or "French Law", as specified in the applicable Final Terms. References to **English Law Securities**, **Irish Law Securities** or **French Law Securities** are to Securities governed by English law, Securities governed by Irish law and Securities governed by French law, respectively.

The Securities, the Receipts (as defined below) and the Coupons (as defined below) have the benefit of an amended and restated agency agreement (such agency agreement as amended and/or supplemented and/or restated from time to time, the **Agency Agreement**) dated 7 May 2021, and made between the Issuers, Crédit Agricole CIB as guarantor (the **Guarantor**), Crédit Agricole CIB as French Paying Agent and Fiscal Agent (the **French Paying Agent** and the **Fiscal Agent**), CACEIS Bank, Luxembourg Branch as principal paying agent and agent bank (the **Principal Paying Agent**, which expression shall include any successor principal paying agent) and the other paying agents named therein (together with the Principal Paying Agent and the French Paying Agent, the **Paying Agents**, which expression shall include any additional or successor paying agents), CACEIS Bank, Luxembourg Branch as exchange agent (the **Exchange Agent**, which expression shall include any successor exchange agent), CACEIS Bank, Luxembourg Branch as registrar (the **Registrar**, which expression shall include any successor registrar), Crédit Agricole Corporate and Investment Bank as delivery agent (the **Delivery Agent**, which

expression shall include any person or entity to whom Crédit Agricole Corporate and Investment Bank has delegated such role and shall also include any additional or successor delivery agent) and CACEIS Bank, Luxembourg Branch as transfer agent and the other transfer agents named therein (together with the Registrar, the **Transfer Agents**, which expression shall include any additional or successor transfer agents and such Registrar, Transfer Agents, Exchange Agent, Fiscal Agent, Paying Agents, Principal Paying Agent and Delivery Agent being together referred to as the **Agents**).

If so specified in the applicable Final Terms, and for the purpose of allowing clearing of Securities in alternative clearing systems, any series may, in full but not in part, be issued in uncertificated and dematerialised book-entry form (**Dematerialised Securities**) in accordance with all applicable laws of the relevant jurisdiction of such alternative clearing system and the rules and regulations of such alternative clearing system. Such Securities will not have the benefit of the Agency Agreement and will instead be subject to an agency agreement (a **Local Agency Agreement**) between, *inter alia*, the relevant Issuer and a local agent (a **Local Agent**) as specified in the applicable Final Terms, who will act as issuing and paying agent in respect of such Dematerialised Securities. References herein to the Principal Paying Agent or Registrar should be read as references to such Local Agent where there is such a Local Agency Agreement, and to the extent that the relevant Terms and Conditions of the Securities are inconsistent with the terms of such Local Agency Agreement, the terms of the Local Agency Agreement shall prevail. Each Series of Securities that are Swedish Securities, Norwegian Securities or Finnish Securities will be subject to a Local Agency Agreement, where the Local Paying Agent will be the Swedish Issuing Agent, Norwegian Issuing Agent or Finnish Issuing Agent, respectively, as specified in the applicable Final Terms.

Securities designated as "Swedish Securities" in the applicable Final Terms (**Swedish Securities**) will constitute Dematerialised Securities issued in uncertificated and dematerialised book-entry form in accordance with the Swedish Central Securities Depository and Financial Instruments Accounts Act (in Swedish: *lag (1998:1479) om värdepapperscentraler och kontoföring av finansiella instrument*) and all other applicable Swedish laws, regulations and operating procedures applicable to and/or issued by the Swedish central securities depository (in Swedish: *central värdepappersförvarare*) from time to time (**Swedish CSD Rules**) designated as the relevant clearing system in the applicable Final Terms for the Swedish Securities (which is expected to be Euroclear Sweden AB) (the **Swedish CSD**). The Swedish Securities shall be regarded as Registered Securities for the purposes of these Terms and Conditions save to the extent the relevant Terms and Conditions are inconsistent with the Swedish CSD Rules and these Terms and Conditions shall be construed accordingly. No Physical Global or Definitive Securities, coupons, receipts, talons or certificates will be issued in respect of Swedish Securities and the provisions relating to presentation, surrender or replacement of such bearer instruments shall not apply.

Securities designated as "Norwegian Securities" in the applicable Final Terms (**Norwegian Securities**) will be issued in uncertificated and dematerialised book-entry form in accordance with the Norwegian Securities Register Act (in Norwegian: *lov om registrering av finansielle instrumenter av 5. juli 2002 nr.64*). The Norwegian Securities shall be regarded as Securities represented by global securities for the purposes of the Terms and Conditions of the Securities save to the extent that otherwise is specified in the Terms and Conditions of the Securities or the relevant Terms and Conditions of the Securities are inconsistent with Norwegian laws, regulations and operating procedures applicable to and/or issued by the relevant Norwegian central securities depository (in Norwegian: *verdipapirregister*) from time to time (the **Norwegian CSD Rules**) designated as relevant clearing system for the Norwegian Securities in the applicable Final Terms (which is expected to be Verdipapirsentralen ASA (**VPS**)) (the **Norwegian CSD**). No Physical Global or Definitive Securities or certificates will be issued in respect of Norwegian Securities and the provisions relating to presentation, surrender or replacement of such bearer instruments shall not apply.

Securities designated as "Finnish Securities" in the applicable Final Terms (**Finnish Securities**) will constitute Dematerialised Securities issued in uncertificated and dematerialised book-entry form in accordance with the Finnish Act on the Book-Entry System and Clearing Operations (*in Finnish Laki arvo-osuusjärjestelmästä ja selvitystoiminnasta (348/2017)*), the Finnish Act on Book-Entry Accounts (*in Finnish Laki arvo-osuustileistä 827/1991*, as amended) and all other applicable Finnish laws, regulations and operating procedures applicable to and/or issued by the Finnish central securities depository from time to time (the **Finnish CSD Rules**) designated as the relevant clearing system for the Finnish Securities in the applicable Final Terms (which is expected to be Euroclear Finland Oy) (the **Finnish CSD**). No Physical Global or Definitive Securities or certificates will be issued in respect of Finnish Securities other than as provided below and the provisions relating to presentation, surrender or replacement of such physical bearer instruments shall not apply. Payments of nominal, interest (if any) or any

other amounts on any Finnish Security will be made through the Finnish CSD in accordance with the Finnish CSD Rules. The Finnish CSD will not have qualified intermediary status.

Securities designated as "EUI Securities" will be held in registered uncertificated form in accordance with the Uncertificated Securities Regulations 2001, including any modification or re-enactment thereof for the time being in force (the **EUI Regulations**) and as such are dematerialised and not constituted by any physical document of title. The EUI Securities are participating securities for the purposes of the EUI Regulations. Title to the EUI Securities is recorded on the relevant Operator register of corporate securities.

Holders of EUI Securities are referred to in Chapter 8 of the Crest Manual International contained in the CREST Manual issued by CREST (as the same may be amended, modified, varied or supplemented from time to time). The CREST International Manual contains the form of CREST Deed Poll entered into by the Crest Depository (the **Crest Deed Poll**). The rights of the holders of EUI Securities will be governed by the arrangements between CREST, Euroclear, Clearstream and the Issuer including the Crest Deed Poll. The EUI Agent on behalf of the Issuer shall, in relation to the EUI Securities, maintain a record of uncertificated corporate securities in accordance with the records of Euroclear UK & Ireland Limited (**EUI** or **CREST**) (formerly known as CRESTCo Limited) (the **Record**) and shall procure that the Record is regularly updated to reflect the Operator register of corporate securities in accordance with the rules and practices from time to time of the Operator. Subject to this requirement, (i) each person who is for the time being shown in the Record as the holder of a particular number of EUI Securities shall be treated by the Issuer and the EUI Agent as the holder of such number of EUI Securities for all purposes (and the expression EUI Holder and related expressions shall be construed accordingly), and (ii) neither the Issuer, the Guarantor nor the EUI Agent shall be liable in respect of any act or thing done or omitted to be done by it or on its behalf in reliance upon the assumption that the particulars entered in the Record which the EUI Agent maintains are in accordance with particulars entered in the Operator register of corporate securities relating to the EUI Securities.

In the event that the relevant Terms and Conditions of the Securities, as the case may be, are inconsistent with the Swedish CSD Rules, the Norwegian CSD Rules, the Finnish CSD Rules, the EUI Regulation or any other applicable local Clearing System Rules, as the case may be, such Swedish CSD Rules, Norwegian CSD Rules, Finnish CSD Rules, or, as the case may be, local Clearing System Rules shall prevail.

Interest bearing Definitive Bearer Securities have interest coupons (**Coupons**) and, if indicated in the applicable Final Terms, talons for further Coupons (**Talons**) attached on issue. Any reference herein to Coupons or coupons shall, unless the context otherwise requires, be deemed to include a reference to Talons or talons. Definitive Bearer Securities repayable in instalments have receipts (**Receipts**) for the payment of the instalments of nominal (other than the final instalment) attached on issue. Registered Securities and Global Securities do not have Receipts, Coupons or Talons attached on issue.

The Final Terms for this Security (or the relevant provisions thereof) are set out in Part A of the Final Terms attached to or endorsed on this Security and complete these Terms and Conditions. References to the **applicable Final Terms** are to Part A of the Final Terms (or the relevant provisions thereof) attached to or endorsed on this Security.

In the case of Securities issued by Crédit Agricole CIB FS or Crédit Agricole CIB FL, the payment of nominal and interest in respect of the Securities and (if applicable) Coupons is unconditionally and irrevocably guaranteed by the Guarantor pursuant to the Guarantee. The Guarantee constitutes an unconditional and unsecured obligation of the Guarantor and ranks (save for statutorily preferred exceptions) *pari passu* with any other existing or future unsecured and senior preferred obligations of the Guarantor, present and future.

3 REDENOMINATION

3.1 General

Where redenomination is specified in the applicable Final Terms as being applicable, the relevant Issuer may, without the consent of the Securityholders, the Receiptholders and the Couponholders, on giving prior notice to the Agent, Euroclear and Clearstream, Luxembourg and at least 30 days' prior notice to the Securityholders in accordance with General Condition 14 (*Notices*), elect that, with effect from the Redenomination Date specified in the notice, the Securities of the relevant Series shall be redenominated in euro.

The election will have effect as described in the provisions below.

- (a) The Securities and the Receipts shall be deemed to be redenominated in euro in the denomination of euro 0.01 with a nominal amount for each Security and Receipt equal to the nominal amount of that Security or Receipt in the Specified Currency, converted into euro at the Established Rate, provided that, if the relevant Issuer determines, with the agreement of the Agent, that the then market practice in respect of the redenomination in euro of internationally offered securities is different from the provisions specified above, such provisions shall be deemed to be amended so as to comply with such market practice and the relevant Issuer shall promptly notify the

Securityholders, the stock exchange (if any) on which the Securities may be listed and the Paying Agents of such deemed amendments.

- (b) Save to the extent that an Exchange Notice has been given in accordance with General Condition 3.1(d), the amount of interest due in respect of the Securities will be calculated by reference to the aggregate nominal amount of Securities held (or, as the case may be, in respect of which Coupons are presented) for payment by the relevant holder and the amount of such payment shall be rounded down to the nearest euro 0.01.
- (c) If Definitive Securities are required to be issued after the Redenomination Date, they shall be issued at the expense of the relevant Issuer in the denominations of euro 1,000, euro 10,000, euro 100,000 and (but only to the extent of any remaining amounts less than euro 1,000 or such smaller denominations as the Agent may approve) euro 0.01 and such other denominations as the Agent shall determine and notify to the Securityholders.
- (d) If issued prior to the Redenomination Date, all unmatured Coupons denominated in the Specified Currency (whether or not attached to the Securities) will become void with effect from the date on which the relevant Issuer gives notice (the **Exchange Notice**) that replacement euro-denominated Securities, Receipts and Coupons are available for exchange (provided that such securities are so available) and no payments will be made in respect of them. The payment obligations contained in any Securities and Receipts so issued will also become void on that date although those Securities and Receipts will continue to constitute valid exchange obligations of the relevant Issuer. New euro-denominated Securities, Receipts and Coupons will be issued in exchange for Securities, Receipts and Coupons denominated in the Specified Currency in such manner as the Agent may specify and as shall be notified to the Securityholders in the Exchange Notice. No Exchange Notice may be given less than 15 days prior to any date for payment of nominal or interest on the Securities.
- (e) After the Redenomination Date, all payments in respect of the Securities, the Receipts and the Coupons, other than payments of interest in respect of periods commencing before the Redenomination Date, will be made solely in euro as though references in the Securities to the Specified Currency were to euro. Payments will be made in euro by credit or transfer to a euro account (or any other account to which euro may be credited or transferred) specified by the payee or, at the option of the payee, by a euro cheque; in each case multiplying such sum by the applicable Day Count Fraction as the case may be, and rounding the resultant figure to the nearest sub-unit of the relevant Specified Currency, half of any such sub-unit being rounded upwards or otherwise in accordance with applicable market convention. Where the Specified Denomination of a Fixed Rate Security in definitive form comprises more than one Calculation Amount, the amount of interest payable in respect of such Fixed Rate Security shall be the aggregate of the amounts (determined in the manner provided above) for each Calculation Amount comprising the Specified Denomination without any further rounding.
- (f) If the Securities are Fixed Rate Securities and interest for any period ending on or after the Redenomination Date is required to be calculated for a period ending other than on an Interest Payment Date, it will be calculated:
 - (i) in the case of the Securities represented by a Global Security, by applying the Rate of Interest either to (i) the aggregate outstanding nominal amount of the Securities represented by such Global Security (or, if they are Partly Paid Securities, the aggregate amount paid up) or (ii) the nominal amount represented by the Specified Denomination (or, if more than one, the lowest Specified Denomination), all as provided in the applicable Final Terms; and
 - (ii) in the case of Definitive Securities, by applying the Rate of Interest to the Calculation Amount,

and in each case, multiplying such sum by the applicable Day Count Fraction, and rounding the resultant figure to the nearest sub-unit of the relevant Specified Currency, half of any such sub-

unit being rounded upwards or otherwise in accordance with applicable market conventions. Where the Specified Denomination of a Fixed Rate Security in definitive form is a multiple of the Calculation Amount, the amount of interest payable in respect of such Fixed Rate Security shall be the product of the amount (determined in the manner provided above) for the Calculation Amount and the amount by which the Calculation Amount is multiplied to reach the Specified Denomination, without any further rounding.

- (g) Such other changes shall be made to this General Condition 3 (*Redenomination*) as the relevant Issuer may decide after consultation with the Paying Agent(s) and, in the case of Registered Securities, the Registrar and as may be specified in the notice, to conform it to conventions applicable to instruments denominated in Euro.

3.2 Scheduled Payment Currency Cessation Event

If a Scheduled Payment Currency Cessation Event occurs:

- (a) The Calculation Agent may, at any time, convert all of the Issuer's payment obligations in respect of the Securities into any other currency as the Calculation Agent may select, in which case all such payment obligations shall be converted into such other currency (the "**Replacement Payment Currency**") at the rate of exchange determined by the Calculation Agent without the need for any further action or any consent. Any such conversion shall be effective from the time and date notified to Securityholders by the Issuer in accordance with General Condition 14 (*Notices*). Upon conversion (i) all of the Issuer's payment obligations in respect of the Securities shall be denominated and payable in the Replacement Payment Currency, (ii) the Conditions shall be construed accordingly and (iii) the Calculation Agent shall be entitled to make such other changes to the Conditions as it deems appropriate in order to give effect to the conversion.
- (b) Until such time as the Calculation Agent converts the Issuer's payment obligations under the Securities in accordance with paragraph (a) above, or in circumstances where the Calculation Agent determines not to do so, the Issuer's payment obligations in respect of the Securities shall be converted into the currency then adopted in France without the need for any further action or any consent at the rate of exchange specified by applicable law or as otherwise determined by the Calculation Agent and the Conditions shall be construed accordingly (including, without limitation, by giving effect to such other changes to the Conditions as the Calculation Agent deems appropriate in order to reflect the conversion).
- (c) By giving notice to the Securityholders in accordance with General Condition 14 (*Notices*), the relevant Issuer, in its sole and absolute discretion, may redeem all, but not some only, of the Securities early on a date to be specified by the Issuer, each Security being redeemed at its Fair Market Value Redemption Amount denominated in the Replacement Payment Currency (if applicable) or the currency then adopted in France, provided that this General Condition 3.2(c) shall apply only in respect of Securities which are not Italian Listed Notes.

Upon the occurrence of a Scheduled Payment Currency Cessation Event, the relevant Issuer shall give notice, as soon as practicable, to the Securityholders in accordance with General Condition 14 (*Notices*) stating the occurrence of the Scheduled Payment Currency Cessation Event, giving brief details thereof and the action proposed to be taken in relation thereto.

In making any calculation or determination for the purposes of this General Condition 3.2, the Calculation Agent shall take into consideration all available information, which it deems relevant but shall otherwise act, in its sole and absolute discretion. Without limitation to the foregoing, the Calculation Agent shall not be obliged to convert the Issuer's payment obligations under any Series of Securities into a Replacement Payment Currency following a Scheduled Payment Currency Cessation Event. None of the Issuer, Guarantor or the Calculation Agent shall have any responsibility or liability to any Securityholder in respect of any loss incurred following the occurrence of a Scheduled Payment Currency Cessation Event.

Any payment made by the relevant Issuer in accordance with this General Condition 3.2 will constitute a valid payment and will not constitute a default in respect of the Securities.

- (a) If:
- (i) "All Interest Accrual Periods" is specified in the applicable Final Terms, each Fixed Rate Security bears interest from (and including) the Interest Commencement Date to (but excluding) the Redemption Date at the rate(s) equal to the Rate(s) of Interest; and
 - (ii) certain Interest Accrual Periods (other than All Interest Accrual Periods) are specified in the applicable Final Terms, each Fixed Rate Security bears interest from (and including) the first day of the first Interest Accrual Period so specified in the applicable Final Terms to (and including) the last day of the last Interest Accrual Period so specified in the applicable Final Terms at the rate(s) equal to the Rate(s) of Interest. For the avoidance of doubt, any references in this General Condition 4.1 to Interest Accrual Period will be deemed to be references only to such specified Interest Accrual Periods for the purpose of this provision.

In each case above, interest will accrue on a daily basis on each day during each relevant Interest Accrual Period and will be payable in respect of the relevant Interest Accrual Period in arrears on the relevant Interest Payment Date.

- (b) If "One-off Coupon" is specified as applicable in the applicable Final Terms, each Fixed Rate Security will bear interest at the Rate of Interest, which will be payable on the Interest Payment Date, in each case as specified in the applicable Final Terms. Where "One-off Coupon" is applicable to a Series of Securities, it may be the sole interest payment or an additional interest payment in respect of such Securities.
- (c) If the Securities are in definitive form the amount of interest payable on each Interest Payment Date in respect of the Interest Accrual Period ending on (but excluding) the Interest Period Date immediately preceding, or falling on, such Interest Payment Date will amount to the **Fixed Coupon Amount**. Payments of interest on any Interest Payment Date will, if so specified in the applicable Final Terms, amount to the **Broken Amount** (the Fixed Coupon Amount and the Broken Amount being together, **Interest Amounts**).
- (d) Except in the case of Securities in definitive form where an applicable Fixed Coupon Amount or Broken Amount is specified in the applicable Final Terms, the interest amount in respect of a period (an **Interest Amount**) shall be calculated by applying the Rate of Interest to:
 - (i) in the case of Fixed Rate Securities which are represented by a Global Security, either (i) the aggregate outstanding nominal amount of the Fixed Rate Securities represented by such Global Security (or, if they are Partly Paid Securities, the aggregate amount paid up) or (ii) the nominal amount represented by the Specified Denomination (or, if more than one, the lowest Specified Denomination), all as provided in the applicable Final Terms; or
 - (ii) in the case of Fixed Rate Securities in definitive form, the Calculation Amount,

and in each case multiplying such sum by the applicable Day Count Fraction (except in the case of Securities for which One-off Coupon has been specified and where no Interest Accrual Period applies), and rounding the resultant figure in accordance with General Condition 4.6 (Rounding).

Where the Specified Denomination of a Fixed Rate Security in definitive form is a multiple of the Calculation Amount, the amount of interest payable in respect of such Fixed Rate Security shall be the product of the amount (determined in the manner provided above) for the Calculation Amount and the amount by which the Calculation Amount is multiplied to reach the Specified Denomination, without any further rounding.

4.2 Interest on Floating Rate Securities

(a) Interest Payment Dates

If:

- (i) "All Interest Accrual Periods" is specified in the applicable Final Terms, each Floating Rate Security bears interest from (and including) the Interest Commencement Date to (but excluding) the Redemption Date at the applicable Rate of Interest; or
- (ii) certain Interest Accrual Periods (other than All Interest Accrual Periods) are specified in the applicable Final Terms, each Floating Rate Security bears interest from (and including) the first day of the first Interest Accrual Period so specified in the applicable Final Terms to (and including) the last day of the last Interest Accrual Period so specified in the applicable Final Terms at the applicable Rate of Interest. For the avoidance of doubt, any references in this General Condition 4.2 to Interest Accrual Period will be deemed to be references only to such specified Interest Accrual Periods.

In each case, interest will accrue on a daily basis on each day during each relevant Interest Accrual Period and such interest will be payable in respect of the relevant Interest Accrual Period in arrears on the relevant Interest Payment Date.

(b) Rate of Interest

Subject to General Condition 4.5 (*Margin, Minimum Rate of Interest and Maximum Rate of Interest*), the Rate of Interest payable from time to time in respect of Floating Rate Securities will be determined in accordance with the provisions below relating to either ISDA Determination for Floating Rate Securities or Screen Rate Determination for Floating Rate Securities, as specified in the applicable Final Terms.

(i) ISDA Determination for Floating Rate Securities

Where ISDA Determination is specified in the applicable Final Terms, the Rate of Interest for each Interest Accrual Period will be a rate equal to the relevant ISDA Rate plus or minus (as indicated in the applicable Final Terms) the Margin (if any). For the purposes of this sub paragraph (i), **ISDA Rate** for an Interest Accrual Period means a rate equal to the Floating Rate that would be determined by the Calculation Agent on the applicable Interest Determination Date under an interest rate swap transaction if the Calculation Agent were acting as Calculation Agent for that swap transaction under the terms of an agreement incorporating the 2006 ISDA Definitions, as published by the International Swaps and Derivatives Association, Inc. and as amended and updated as at the Issue Date of the first Tranche of the Securities (the **ISDA Definitions**) and under which:

- (A) the Floating Rate Option is as specified in the applicable Final Terms;
- (B) if the Floating Rate Option specified in the applicable Final Terms is an Overnight Floating Rate Option and either Compounding or Averaging is specified as applicable in the applicable Final Terms:
 - (I) an Applicable Business Day is any day that is a Business Day (as defined in these Conditions);

- (II) the relevant Reset Date is the last day of the relevant Interest Accrual Period;
- (III) the Daily Capped Rate is as specified in the applicable Final Terms;
- (IV) the Daily Floored Rate is as specified in the applicable Final Terms;
- (V) Delayed Payment will be applicable if specified as such in the applicable Final Terms, and if so, the applicable number of days is either (1) as specified in the applicable Final Terms, or (2) if no number is specified as such in the applicable Final Terms, five (5);
- (VI) if Compounding is specified as applicable in the applicable Final Terms:
 - (1) OIS Compounding will be applicable if specified as such in the applicable Final Terms;
 - (2) Compounding with Lookback will be applicable if specified as such in the applicable Final Terms, and if so, the Lookback is either (x) as specified in the applicable Final Terms, or (y) if no number is specified as such in the applicable Final Terms, the number specified as the "Lookback" for the relevant Floating Rate Option in the ISDA Definitions, or (z) if no such number is specified for the relevant Floating Rate Option, five (5);
 - (3) Compounding with Observation Period Shift will be applicable if specified as such in the applicable Final Terms, and if so, Set in Advance will be applicable if specified as such in the applicable Final Terms, Observation Period Shift Additional Business Day is as specified in the applicable Final Terms, and the Observation Period Shift is either (x) as specified in the applicable Final Terms, or (y) if no number is specified as such in the applicable Final Terms, the number specified as the "Observation Period Shift" for the relevant Floating Rate Option in the ISDA Definitions, or (z) if no such number is specified for the relevant Floating Rate Option, five (5); and
 - (4) Compounding with Lockout will be applicable if specified as such in the applicable Final Terms, and if so, Lockout Period Business Day is as specified in the applicable Final Terms and the Lockout is either (x) as specified in the applicable Final Terms, or (y) if no number is specified as such in the applicable Final Terms, the number specified as the "Lockout" for the relevant Floating Rate Option in the ISDA Definitions, or (z) if no such number is specified for the relevant Floating Rate Option, five (5); or
- (VII) if Averaging is specified as applicable in the applicable Final Terms:
 - (1) Overnight Averaging will be applicable if specified as such in the applicable Final Terms;
 - (2) Averaging with Lookback will be applicable if specified as such in the applicable Final Terms, and if so, the Lookback is either (x) as specified in the applicable Final Terms, or (y) if no number is specified as such in the applicable Final

Terms, the number specified as the "Lookback" for the relevant Floating Rate Option in the ISDA Definitions, or (z) if no such number is specified for the relevant Floating Rate Option, five (5);

- (3) Averaging with Observation Period Shift will be applicable if specified as such in the applicable Final Terms, and if so, Set in Advance will be applicable if specified as such in the applicable Final Terms, Observation Period Shift Additional Business Day is as specified in the applicable Final Terms and the Observation Period Shift is either (x) as specified in the applicable Final Terms, or (y) if no number is specified as such in the applicable Final Terms, the number specified as the "Observation Period Shift" for the relevant Floating Rate Option in the ISDA Definitions, or (z) if no such number is specified for the relevant Floating Rate Option, five (5); and
- (4) Averaging with Lockout will be applicable if specified as such in the applicable Final Terms, and if so, Lockout Period Business Day is as specified in the applicable Final Terms and the Lockout is either (x) as specified in the applicable Final Terms, or (y) if no number is specified as such in the applicable Final Terms, the number specified as the "Lockout" for the relevant Floating Rate Option in the ISDA Definitions, or (z) if no such number is specified for the relevant Floating Rate Option, five (5); or

(C) otherwise:

- (I) the Designated Maturity is a period specified in the applicable Final Terms for the relevant Interest Accrual Period; and
- (II) the relevant Reset Date is as specified in the applicable Final Terms.

For the purposes of this sub-paragraph (i), **Floating Rate, Calculation Agent, Floating Rate Option, Designated Maturity, Reset Date, Overnight Floating Rate Option, Applicable Business Day, Observation Period Shift Additional Business Day, Lockout Period Business Day, Daily Capped Rate, Daily Floored Rate, OIS Compounding, Compounding with Lookback, Compounding with Observation Period Shift, Compounding with Lockout, Overnight Averaging, Averaging with Lookback, Averaging with Observation Period Shift, Averaging with Lockout, Delayed Payment, Set in Advance, Lookback, Observation Period Shift and Lockout** have the meanings given to those terms in the ISDA Definitions, but with references, where applicable, to "the Confirmation" being read as "the applicable Final Terms".

Where the ISDA Definitions state that the determination of the Floating Rate Option will be pursuant to any requirement for the Calculation Agent to request quotes from Reference Banks, Reference Dealers or major banks pursuant to the ISDA Definitions, such requirement to make requests for quotations for rates from, and the provision of quotations for rates by, the requisite number of Reference Banks, Reference Dealers or major banks may be effected by reference to and using quotations or tradable market prices which are made available by such Reference Banks, Reference Dealers or major banks via electronic data providers or electronic trading platforms. For the purposes of the preceding sentence, the terms "Reference Banks" and "Reference Dealers" shall have the meanings set out in the ISDA Definitions. *If the fallback as set out in the definition of the Floating Rate Option pursuant to the ISDA Definitions does not*

produce a result, the Calculation Agent shall determine the rate acting in good faith and in a commercially reasonable manner.

(ii) Change in Standard Terms and Market Conventions

The Calculation Agent, acting reasonably, may amend Condition 4.2(b)(i) from time to time to the extent that it determines necessary in order to ensure consistency with prevailing market standards or market trading conventions (as established pursuant to the agreement of the leading dealers in the derivatives market for rates or any relevant committee established by ISDA, a market-wide protocol, any applicable law or regulation or the rules of any applicable exchange or clearing system) that would be or are applicable to any Reference Hedge Transaction from time to time. The Calculation Agent may not, without the consent of the relevant Issuer, make any amendments to Condition 4.2(b)(i) of the Securities pursuant to this Condition 4.2(b)(ii) other than to the extent necessary to give effect to the relevant change(s). The Calculation Agent shall notify the relevant Issuer and the Securityholders as soon as reasonably practicable upon making any such amendment.

For the purpose of the above paragraph, **Reference Hedge Transaction** means a transaction entered into, or which would be entered into, on market standard terms and at arm's length with a leading dealer in the relevant market and pursuant to which the Issuer's risk in respect of its payment obligations linked to any interest rate benchmark referenced in the Securities is, or would be, hedged.

(iii) Screen Rate Determination for Floating Rate Securities

Where Screen Rate Determination is specified in the applicable Final Terms as the manner in which the Rate of Interest is to be determined, the Rate of Interest for each Interest Accrual Period will, subject as provided below, be either:

- (A) the offered quotation; or
- (B) the arithmetic mean (rounded if necessary in accordance with General Condition 4.6 (*Rounding*)) of the offered quotations,

(expressed as a percentage rate *per annum*) for the Reference Rate which appears or appear, as the case may be, on the Relevant Screen Page as at the Relevant Screen Page Time on the Interest Determination Date in question plus or minus (as indicated in the applicable Final Terms) the Margin (if any), all as determined by the Calculation Agent. If five (5) or more of such offered quotations are available on the Relevant Screen Page, the highest (or, if there is more than one such highest quotation, one only of such quotations) and the lowest (or, if there is more than one such lowest quotation, one only of such quotations) shall be disregarded by the Calculation Agent for the purpose of determining the arithmetic mean (rounded as provided in General Condition 4.6 (*Rounding*)) of such offered quotations.

If the Relevant Screen Page is not available or if, in the case of General Condition 4.2(b)(iii)(A) (*Screen Rate Determination for Floating Rate Securities*), no offered quotation appears or, in the case of General Condition 4.2(b)(iii)(A) (*Screen Rate Determination for Floating Rate Securities*), fewer than three (3) offered quotations appear, in each case at the Relevant Screen Page Time, the Calculation Agent shall request each of the Reference Banks to provide the Calculation Agent with its offered quotation (expressed as a percentage rate *per annum*) for the Reference Rate at the Relevant Screen Page Time on the Interest Determination Date in question. If two (2) or more of the Reference Banks provide the Calculation Agent with offered quotations, the Rate of Interest for the Interest Accrual Period shall be the arithmetic mean (rounded if necessary in accordance with General Condition 4.6 (*Rounding*)) of

the offered quotations plus or minus (as appropriate) the Margin (if any), all as determined by the Calculation Agent.

If on any Interest Determination Date one only or none of the Reference Banks provides the Calculation Agent with an offered quotation as provided in the preceding paragraph, the Rate of Interest for the relevant Interest Accrual Period shall be the rate *per annum* which the Calculation Agent determines as being the arithmetic mean (rounded if necessary in accordance with General Condition 4.6 (*Rounding*)) of the rates, as communicated to (and at the request of) the Calculation Agent by the Reference Banks or any two (2) or more of them, at which such banks were offered at the Relevant Screen Page Time on the relevant Interest Determination Date, deposits in the Specified Currency for a period equal to that which would have been used for the Reference Rate by leading banks in the Relevant Inter-Bank Market plus or minus (as appropriate) the Margin (if any) or, if fewer than two (2) of the Reference Banks provide the Calculation Agent with offered rates, the offered rate for deposits in the Specified Currency for a period equal to that which would have been used for the Reference Rate, or the arithmetic mean (rounded in accordance with General Condition 4.6 (*Rounding*)) of the offered rates for deposits in the Specified Currency for a period equal to that which would have been used for the Reference Rate, at which, at the Relevant Screen Page Time on the relevant Interest Determination Date, any one or more banks (which bank or banks is or are in the opinion of the relevant Issuer suitable for the purpose) informs the Calculation Agent it is quoting to leading banks in the Relevant Inter-Bank Market plus or minus (as appropriate) the Margin (if any), provided that, if the Rate of Interest cannot be determined in accordance with the foregoing provisions of this paragraph, the Rate of Interest shall be determined as at the last preceding Interest Determination Date (though substituting, where a different Margin is to be applied to the relevant Interest Accrual Period from that which applied to the last preceding Interest Accrual Period, the Margin relating to the relevant Interest Accrual Period in place of the Margin relating to that last preceding Interest Accrual Period).

(c) Determination of Rate of Interest and calculation of Interest Amounts

The Calculation Agent will at or as soon as practicable after each time at which the Rate of Interest is to be determined, determine the Rate of Interest for the relevant Interest Accrual Period.

Following such determination of the Rate of Interest, the Calculation Agent will determine the Applicable Rate of Interest for the relevant Interest Accrual Period as follows:

Applicable Rate of Interest = (Rate of Interest x Universal Leverage)

where:

Universal Leverage means the percentage or number specified as such in the applicable Final Terms or, if no such percentage or number is specified in the applicable Final Terms or specified to be not applicable, the Universal Leverage shall be deemed to be one (1). For the avoidance of doubt, the Universal Leverage may have a positive or a negative value, and in the case of a number, may be one (1).

The Calculation Agent will calculate the amount of interest (the **Interest Amount**) payable on the Floating Rate Securities for the relevant Interest Accrual Period by applying the Applicable Rate of Interest to:

- (i) in the case of Floating Rate Securities which are represented by a Global Security, either
 - (i) the aggregate outstanding nominal amount of the Securities represented by such Global Security (or, if they are Partly Paid Securities, the aggregate amount paid up) or
 - (ii) the nominal amount represented by the Specified Denomination (or, if more than

one, the lowest Specified Denomination), all as provided in the applicable Final Terms;
or

(ii) in the case of Floating Rate Securities in definitive form, the Calculation Amount,

and, in each case, multiplying such sum by the applicable Day Count Fraction, and rounding the resultant figure in accordance with General Condition 4.6 (*Rounding*). Where the Specified Denomination of a Floating Rate Security in definitive form is a multiple of the Calculation Amount, the Interest Amount payable in respect of such Security shall be the product of the amount (determined in the manner provided above) for the Calculation Amount and the amount by which the Calculation Amount is multiplied to reach the Specified Denomination, without any further rounding.

(d) Notification of Applicable Rate of Interest and Interest Amounts

The Calculation Agent shall notify the Principal Paying Agent of the Applicable Rate of Interest and Interest Amounts for the relevant Interest Accrual Period as soon as practicable after calculating the same.

The Principal Paying Agent will cause the Applicable Rate of Interest and each Interest Amount for each Interest Accrual Period and the relevant Interest Payment Date to be notified to the relevant Issuer and any stock exchange on which the relevant Floating Rate Securities are for the time being listed and notice thereof to be published in accordance with General Condition 14 (*Notices*) as soon as possible after their determination but in no event later than the first Luxembourg Business Day thereafter. Each Interest Amount and Interest Payment Date so notified may subsequently be amended (or appropriate alternative arrangements made by way of adjustment) without prior notice in the event of an extension or shortening of the Interest Accrual Period. Any such amendment will be promptly notified to each stock exchange on which the relevant Floating Rate Securities are for the time being listed and to the Securityholders in accordance with General Condition 14 (*Notices*). For the purposes of this General Condition 4.2(d), the expression **Luxembourg Business Day** means a day (other than a Saturday or a Sunday) on which banks and foreign exchange markets are open for business in Luxembourg.

(e) FRS Additional Disruption Events

The provisions of this General Condition 4.2(e) apply to Floating Rate Securities only.

(i) Consequences of the occurrence of a FRS Additional Disruption Event

If a FRS Additional Disruption Event occurs, the relevant Issuer in its sole and absolute discretion may take the action, if applicable, described in (A) or (B) below:

(A) require the Calculation Agent to determine in its sole and absolute discretion the appropriate adjustment, if any, to be made to the Conditions to account for the FRS Additional Disruption Event and determine the effective date of such adjustment; or

(B) upon giving notice to the Securityholders in accordance with General Condition 14 (*Notices*), redeem all but not some only of the Securities, each Security being redeemed by payment of an amount equal to the Fair Market Value Redemption Amount, where payments will be made in such manner as shall be notified to the Securityholders in accordance with General Condition 14 (*Notices*).

Upon the occurrence of a FRS Additional Disruption Event, the relevant Issuer shall give notice as soon as practicable to the Securityholders in accordance with General Condition 14 (*Notices*) stating the occurrence of the FRS Additional Disruption Event, giving details thereof and the action proposed to be taken in relation thereto.

(ii) Definitions

Change in Law means, unless Change in Law is specified as not applicable in the applicable Final Terms, that, on or after the Trade Date, (A) due to the adoption of or any change in any applicable law or regulation (including, without limitation, any tax law), or (B) due to the promulgation of or any change in the interpretation by any court, tribunal or regulatory authority with competent jurisdiction of any applicable law or regulation (including any action taken by a taxing authority), the relevant Issuer determines in its sole and absolute discretion that it has become illegal to hold, acquire or dispose of relevant hedge positions relating to the floating element of the Interest Rate.

FRS Additional Disruption Event means any of Change in Law, Hedging Disruption and/or (provided that the Securities are not Italian Listed Securities) Increased Cost of Hedging, in each case unless disapplied in the applicable Final Terms.

Hedging Disruption means, unless Hedging Disruption is specified as not applicable in the applicable Final Terms, that:

- (A) In respect of Securities which are not Italian Listed Securities, the relevant Issuer, the Guarantor (if applicable) and/or any of their respective Affiliates is unable, after using commercially reasonable efforts, to (I) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) it deems necessary to hedge any relevant price risk including but not limited to the currency risk of the relevant Issuer or the Guarantor, (if applicable), in issuing and performing its obligations with respect to the Securities, or (II) freely realise, recover, remit, receive, repatriate or transfer the proceeds of any such transaction(s) or asset(s).
- (B) In respect of Securities which are Italian Listed Securities, Hedging Disruption means, unless Hedging Disruption is specified as not applicable in the applicable Final Terms, that the relevant Issuer, the Guarantor (if applicable) and/or any of their respective Affiliates is unable, after using commercially reasonable efforts and as a result of an event which is beyond the control of such Issuer, Guarantor (if applicable) and/or Affiliate(s) (including, without limitation, any force majeure, act of state, change in any applicable law or regulation (including, without limitation, any tax law), promulgation of or any change in the interpretation by any court, tribunal or regulatory authority with competent jurisdiction of any applicable law or regulation (including any action taken by a taxing authority), to (I) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) it deems necessary to hedge any relevant price risk including but not limited to the currency risk of the relevant Issuer or the Guarantor, (if applicable), issuing and performing its obligations with respect to the Italian Listed Securities, or (II) freely realise, recover, remit, receive, repatriate or transfer the proceeds of any such transaction(s) or asset(s).

Increased Cost of Hedging means, unless Increased Cost of Hedging is specified as not applicable in the applicable Final Terms, that the relevant Issuer, the Guarantor (if applicable) and/or any of their respective Affiliates would incur a materially increased (as compared with circumstances existing on the Trade Date) amount of tax, duty, expense or fee (other than brokerage commissions) to (a) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) it deems necessary to hedge the market risk (including, without limitation, equity price risk, foreign exchange risk and interest rate risk) of the relevant Issuer or the Guarantor, (if applicable), in issuing and performing its obligations with respect to the Securities, or (b) realise, recover or remit the proceeds of any such transaction(s) or asset(s), provided that any such materially increased amount that is incurred solely due to the

deterioration of the creditworthiness of the relevant Issuer, the Guarantor, (if applicable) and/or any of their respective Affiliates shall not be deemed an Increased Cost of Hedging.

(f) Other Events

This Condition will apply to the Floating Rate Securities unless specified as being not applicable in the applicable Final Terms. Notwithstanding the foregoing provisions of this General Condition 4.2, if any other event occurs which the Calculation Agent determines, acting in good faith, has a material effect on the Securities, then:

- (i) the Calculation Agent may make such adjustments to any of the Conditions as it considers appropriate to account for any such event and determine the date(s) on which any such adjustments will be effective; or
- (ii) the relevant Issuer may, upon giving notice to the Securityholders in accordance with General Condition 14 (Notices), redeem all but not some only of the Securities, each Security being redeemed by payment of an amount equal to the Fair Market Value Redemption Amount. Payments will be made in such manner as shall be notified to the Securityholders in accordance with General Condition 14 (Notices).

Upon the Calculation Agent making a determination pursuant to this General Condition 4.2(f), the relevant Issuer shall give notice as soon as practicable to Securityholders in accordance with General Condition 14 (Notices) giving details of such determination.

Notwithstanding the foregoing, if Essential Trigger is specified in the applicable Final Terms as being applicable, the General Conditions 6.8 and 12.3(f) will apply.

4.3 Interest on Linked Interest Securities

(a) Interest Payment Dates

If:

- (i) "All Interest Accrual Periods" is specified in the applicable Final Terms, each Linked Interest Security bears interest at the applicable Linked Interest Rate (as defined in General Condition 4.3(b) (*Linked Interest Rate*)) on its outstanding nominal amount (or, if they are Partly Paid Securities, the aggregate amount paid up) from (and including) the Interest Commencement Date to (but excluding) the Redemption Date; or
- (ii) certain Interest Accrual Periods (other than All Interest Accrual Periods) are specified in the applicable Final Terms, each Linked Interest Security bears interest from (and including) the first day of the first Interest Accrual Period so specified in the applicable Final Terms to (and including) the last day of the last Interest Accrual Period so specified in the applicable Final Terms at the applicable Linked Interest Rate. For the avoidance of doubt, any references in this General Condition 4.3 to Interest Accrual Period will be deemed to be references only to such specified Interest Accrual Periods.

In each case, interest will accrue on a daily basis on each day during each relevant Interest Accrual Period and such interest will be payable in respect of the relevant Interest Accrual Period in arrears on the relevant Interest Payment Date.

(b) Linked Interest Rate

The rate payable from time to time in respect of the applicable Linked Interest Securities (each a **Linked Interest Rate**) will be determined in accordance with the relevant Terms and Conditions, as specified in the applicable Final Terms.

(c) Determination of Linked Interest Rate and calculation of Interest Amounts

- (i) The Calculation Agent will determine the Linked Interest Rate on the Interest Determination Date for the relevant Interest Accrual Period.
- (ii) Following such determination of the Linked Interest Rate, the Calculation Agent will determine the Applicable Linked Interest Rate for the relevant Interest Accrual Period as follows:

Applicable Linked Interest Rate = (Linked Interest Rate x Universal Leverage) + Universal Margin

where:

Universal Leverage means the percentage or number specified as such in the applicable Final Terms or, if no such percentage or number is specified in the applicable Final Terms or specified to be not applicable, the Universal Leverage shall be deemed to be one (1). For the avoidance of doubt, the Universal Leverage may have a positive or a negative value, and in the case of a number, may be one (1).

Universal Margin means (a) a percentage, (b) a number or (c) a Universal Floating Rate (plus or minus the Universal Offset), each specified in the applicable Final Terms, or, if no such percentage, number or rate is specified in the applicable Final Terms or is specified to be not applicable, the Universal Margin shall be deemed to be zero (0). For the avoidance of doubt, Universal Margin may have a positive or negative value, and in the case of a number, may be zero (0).

Universal Floating Rate means an interest rate specified as such in the applicable Final Terms and calculated in respect of an Interest Accrual Period in accordance with General Condition 4.2(b) above as if such interest rate was the Rate of Interest applicable to the Securities.

Universal Offset means a percentage specified as such in the applicable Final Terms or, if no such percentage is specified in the applicable Final Terms or is specified to be not applicable, the Universal Offset shall be deemed to be zero (0).

- (iii) The Calculation Agent will calculate the amount of interest (the **Interest Amount**) payable on the Linked Interest Securities for the relevant Interest Accrual Period by applying the Applicable Linked Interest Rate to:
 - (A) in the case of Linked Interest Securities which are represented by a Global Security (other than where General Condition 4.3(c)(iii)(C) below applies), either (i) the aggregate outstanding nominal amount of the Securities represented by such Global Security (or, if they are Partly Paid Securities, the aggregate amount paid up) or (ii) the nominal amount represented by the Specified Denomination (or, if more than one, the lowest Specified Denomination), all as provided in the applicable Final Terms;
 - (B) in the case of a Linked Interest Security in definitive form, the Calculation Amount (other than where General Condition 4.3(c)(iii)(C) below applies); or
 - (C) in the case of a Linked Interest Security where the relevant Linked Interest Rate is determined in whole or in part by reference to the Share Linked Asset Conditions, the Index Linked Asset Conditions or the ETF Linked Asset Conditions, the Specified Denomination of the relevant Linked Interest Security,

and, in each case, multiplying such sum by the applicable Day Count Fraction, and rounding the resultant figure in accordance with General Condition 4.6 (*Roundings*). In the case of General Condition 4.3(c)(iii)(C) above, where the Specified Denomination of a Linked Interest Security in definitive form is a multiple of the Calculation Amount,

the Interest Amount payable in respect of such Security shall be the product of the amount (determined in the manner provided above) for the Calculation Amount and the amount by which the Calculation Amount is multiplied to reach such Specified Denomination, without any further rounding.

(d) Notification of Applicable Linked Interest Rate and Interest Amounts

The Calculation Agent shall notify the Principal Paying Agent of the Applicable Linked Interest Rate and Interest Amounts for the relevant Interest Accrual Period as soon as practicable after calculating the same.

The Principal Paying Agent will cause the Applicable Linked Interest Rate and each Interest Amount for each Interest Accrual Period and the relevant Interest Payment Date to be notified to the relevant Issuer and any stock exchange on which the relevant Linked Interest Securities are for the time being listed and notice thereof to be published in accordance with General Condition 14 (*Notices*) as soon as possible after the day on which the notice was given to the Principal Paying Agent but in no event later than the fourth Luxembourg Business Day thereafter. For the purposes of this General Condition 4.3(d), the expression **Luxembourg Business Day** means a day (other than a Saturday or a Sunday) on which banks and foreign exchange markets are open for business in Luxembourg.

4.4 Interest on Zero Coupon Securities

No amount of interest will accrue or become payable on Zero Coupon Securities except in accordance with General Condition 4.7 (*Accrual of interest*).

4.5 Margin, Minimum Rate of Interest and Maximum Rate of Interest

- (a) With respect to Floating Rate Securities only, if any Margin is specified in the applicable Final Terms (either (i) generally, or (ii) in relation to one or more Interest Accrual Periods), an adjustment shall be made to all Applicable Rates of Interest, in the case of (i), or the Applicable Rates of Interest for the specified Interest Accrual Periods, in the case of (ii), by adding (if a positive number) or subtracting the absolute value (if a negative number) of such Margin.
- (b) With respect to Floating Rate Securities only, if the applicable Final Terms specify a Minimum Rate of Interest for any Interest Accrual Period, then, in the event that the Applicable Rate of Interest in respect of such Interest Accrual Period determined in accordance with General Condition 4.2 (*Interest on Floating Rate Securities*) is less than such Minimum Rate of Interest, the Applicable Rate of Interest for such Interest Accrual Period shall be such Minimum Rate of Interest.
- (c) With respect to Floating Rate Securities only, if the applicable Final Terms specify a Maximum Rate of Interest for any Interest Accrual Period, then, in the event that the Applicable Rate of Interest in respect of such Interest Accrual Period determined in accordance with General Condition 4.2 (*Interest on Floating Rate Securities*) is greater than such Maximum Rate of Interest, the Applicable Rate of Interest for such Interest Accrual Period shall be such Maximum Rate of Interest.
- (d) With respect to all Securities, unless otherwise stated in the applicable Final Terms with respect to Floating Rate Securities, the Minimum Rate of Interest, shall be deemed to be zero.

4.6 Rounding

For the purposes of any calculations required pursuant to these General Conditions (unless otherwise specified), (a) all percentages resulting from such calculations shall be rounded, if necessary, to the nearest one hundred-thousandth of a percentage point (with 0.000005 of a percentage point being rounded up), (b) all figures shall be rounded to seven significant figures (provided that if the eighth significant figure is a 5 or greater, the seventh significant shall be rounded up) and (c) all currency amounts that fall due and payable shall be rounded to the nearest unit of such currency (with half a unit being rounded up).

For these purposes "unit" means the lowest amount of such currency that is available as legal tender in the country of such currency.

4.7 Accrual of interest

- (a) Except as otherwise provided in this General Condition 4 (*Interest*), each Security (or in the case of the redemption of part only of a Security, that part only of such Security) will cease to bear interest (if any) from the date for its redemption unless, upon due presentation thereof, payment of nominal is improperly withheld or refused. In such event, interest will continue to accrue, or in the case of a Zero Coupon Security shall accrue as from the date for its redemption, until whichever is the earlier of:
- (i) the date on which all amounts due in respect of such Security have been paid; and
 - (ii) five (5) days after the date on which the full amount of the moneys payable in respect of such Security has been received by the Principal Paying Agent or the Registrar, as the case may be, and notice to that effect has been given to the Securityholders in accordance with General Condition 14 (*Notices*).
- (b) With respect to Zero Coupon Securities only, for the purposes of this General Condition 4.7, interest will be deemed to accrue in accordance with General Condition 4.1 (*Interest on Fixed Rate Securities*), provided that: (i) the Rate of Interest will be deemed to be "Accrual Yield" as specified in the applicable Final Terms; and (ii) a single Interest Accrual Period will be deemed to be specified as the relevant period in accordance with Condition 4.7(a) above.

4.8 Interest calculations regarding Swedish Securities

Pursuant to the Swedish CSD Rules, interest on any Swedish Security for any period of time is calculated from (but excluding) the first day of the relevant period to (but including) the last day of the relevant period and the provisions in this General Condition 4 shall be construed accordingly in respect of Swedish Securities.

4.9 Payoff Features

The interest payable in respect of each Security will be subject to each Payoff Feature (if any) specified as applicable in the applicable Final Terms. A Payoff Feature will apply to: (a) all Interest Accrual Periods if "All Interest Accrual Periods" is specified to apply in the applicable Final Terms; or (b) to certain Interest Accrual Periods as specified in the applicable Final Terms in respect of a Payoff Feature.

4.10 Interpolation

In respect of any Interest Accrual Period to which "Linear Interpolation" is specified as being applicable in the applicable Final Terms, the Rate of Interest or Linked Interest Rate, as the case may be, for that Interest Accrual Period shall be determined by the Calculation Agent, in its sole and absolute discretion, through the use of straight-line interpolation by reference to two rates based on the relevant Rate of Interest or Linked Interest Rate, as the case may be, one of which shall be determined as if the designated maturity of that rate were the period of time for which rates are next shorter than the length of the Interest Accrual Period and the other of which shall be determined as if the designated maturity of that rate were the period of time for which rates are next longer than the length of the Interest Accrual Period.

4.11 Negative Interest

Unless otherwise specified in the applicable Final Terms, where an amount or rate of interest is calculated as, in accordance with this General Condition 4 and any applicable Additional Conditions, a negative amount or rate, as the case may be, such amount or rate shall be deemed to be zero. Securityholders shall not, in such circumstances be required to make any payment to the relevant Issuer in respect of such negative amount or rate nor shall any other payments then or in the future due in respect of the Securities be adjusted in respect of such negative amount or rate, except where, in certain circumstances, specifically provided in the applicable Final Terms whereby the Final Redemption Amount, Instalment Redemption

Amount or Early Redemption Amount, as the case may be, may be reduced by applying a negative amount (or rate) thereto, all as provided in the applicable Final Terms, it being specified that in no event the Final Redemption Amount, Instalment Redemption Amount or Early Redemption Amount, as the case may be, shall be less than zero.

4.12 Interest in respect of Instalment Securities

The Interest Amount in respect of any Instalment Security shall be calculated by the Principal Paying Agent in accordance with the applicable provisions of this General Condition 4 by reference to the outstanding nominal amount (or, if they are Partly Paid Securities, the aggregate amount paid up) of such Security on the date of determination (disregarding any payments in respect of nominal to be made on the date of determination).

4.13 Interest on Partly Paid Securities

In the case of Partly Paid Securities (other than Partly Paid Securities which are Zero Coupon Securities), Interest will accrue as aforesaid on the paid-up nominal amount of such Securities.

5 PAYMENTS

5.1 Method of payment

Subject as provided below:

- (a) payments in a Specified Currency other than euro will be made by credit or transfer to an account in the relevant Specified Currency (which, in the case of a payment in Japanese yen to a non-resident of Japan, shall be a non-resident account) maintained by the payee with, or, at the option of the payee, by a cheque in such Specified Currency drawn on, a bank in the principal financial centre of the country of such Specified Currency (which, if the Specified Currency is Australian dollars or New Zealand dollars, shall be Sydney and Auckland, respectively and if the Specified Currency is CNY, shall be the CNY Settlement Centre(s)); and
- (b) payments in euro will be made by credit or transfer to a euro account (or any other account to which euro may be credited or transferred) specified by the payee or, at the option of the payee, by a euro cheque.

Payments will be subject in all cases to (i) any fiscal or other laws and regulations applicable thereto in the place of payment or other laws to which the Issuer, the Guarantors or its Agents agree to be subject and neither the Issuer nor the Guarantors will be liable for any taxes or duties of whatever nature imposed or levied by such laws, regulations, directives or agreements, but without prejudice to the provisions of General Condition 8 (*Taxation*) and (ii) when applicable, any withholding or deduction required pursuant to Section 871(m) of the U.S. Internal Revenue Code of 1986 (the **Code** and such withholding, **871(m) Withholding**). In addition, in determining the amount of 871(m) Withholding imposed with respect to any amounts to be paid on the Securities, the Issuer shall be entitled to withhold on any "dividend equivalent" (as defined for purposes of Section 871(m) of the Code) at the highest rate applicable to such payments regardless of any exemption from, or reduction in, such withholding otherwise available under applicable law.

Payments on the Securities that reference U.S. securities or an index that includes U.S. securities may be calculated by reference to dividends on such U.S. securities that are reinvested at a rate of 70%. In such case, in calculating the relevant payment amount, the holder will be deemed to receive, and the Issuer will be deemed to withhold, 30% of any dividend equivalent payments (as defined in Section 871(m) of the Code) in respect of the relevant U.S. securities. The Issuer will not pay any additional amounts to the holder on account of the Section 871(m) amount deemed withheld.

5.2 Presentation of Definitive Bearer Securities, Receipts and Coupons

Payments of nominal in respect of Definitive Bearer Securities will (subject as provided below) be made in the manner provided in General Condition 5.1 (*Method of payment*) only against presentation and

surrender (or, in the case of part payment of any sum due, endorsement) of Definitive Bearer Securities, and payments of interest in respect of Definitive Bearer Securities will (subject as provided below) be made as aforesaid only against presentation and surrender (or, in the case of part payment of any sum due, endorsement) of Coupons, in each case at the specified office of any Paying Agent outside the United States (which expression, as used herein, means the United States of America (including the States and the District of Columbia and its possessions)).

Payments of instalments of nominal (if any) in respect of Definitive Bearer Securities, other than the final instalment, will (subject as provided below) be made in the manner provided in General Condition 5.1 (*Method of payment*) only against presentation and surrender (or, in the case of part payment of any sum due, endorsement) of the relevant Receipt in accordance with the preceding paragraph. Payment of the final instalment will be made in the manner provided in General Condition 5.1 (*Method of payment*) only against presentation and surrender (or, in the case of part payment of any sum due, endorsement) of the relevant Bearer Security in accordance with the preceding paragraph. Each Receipt must be presented for payment of the relevant instalment together with the Definitive Bearer Security to which it appertains. Receipts presented without the Definitive Bearer Security to which they appertain do not constitute valid obligations of the relevant Issuer. Upon the date on which any Definitive Bearer Security becomes due and repayable, unmaturing Receipts (if any) relating thereto (whether or not attached) shall become void and no payment shall be made in respect thereof.

Fixed Rate Securities in definitive bearer form (other than Long Maturity Securities (as defined below)) should be presented for payment together with all unmaturing Coupons appertaining thereto (which expression shall for this purpose include Coupons falling to be issued on exchange of matured Talons), failing which the amount of any missing unmaturing Coupon (or, in the case of payment not being made in full, the same proportion of the amount of such missing unmaturing Coupon as the sum so paid bears to the sum due) will be deducted from the sum due for payment. Each amount of nominal so deducted will be paid in the manner mentioned above against surrender of the relative missing Coupon at any time before the expiry of 10 years after the Relevant Date (as defined in General Condition 8.2 (*Gross-Up*)) in respect of such nominal (whether or not such Coupon would otherwise have become void under General Condition 9 (*Prescription*)) or, if later, five (5) years from the date on which such Coupon would otherwise have become due, but in no event thereafter.

Upon any Fixed Rate Security in definitive bearer form becoming due and repayable prior to its Redemption Date, all unmaturing Talons (if any) appertaining thereto will become void and no further Coupons will be issued in respect thereof.

Upon the date on which any Floating Rate Security, Credit Linked Security, Linked Interest Security or Long Maturity Security in definitive form becomes due and repayable, unmaturing Coupons and Talons (if any) relating thereto (whether or not attached) shall become void and no payment or, as the case may be, exchange for further Coupons shall be made in respect thereof. A **Long Maturity Security** is a Fixed Rate Security (other than a Fixed Rate Security which on issue had a Talon attached) whose nominal amount on issue is less than the aggregate interest payable thereon provided that such Security shall cease to be a Long Maturity Security on the Interest Payment Date on which the aggregate amount of interest remaining to be paid after that date is less than the nominal amount of such Security.

If the due date for redemption of any Definitive Bearer Security is not an Interest Payment Date, interest (if any) accrued in respect of such Security from (and including) the preceding or Interest Payment Date or, as the case may be, the Interest Commencement Date shall be payable only against surrender of the relevant Definitive Bearer Security.

5.3 Payments in respect of Bearer Global Securities

Payments of nominal and interest (if any) in respect of Securities represented by any Global Security in bearer form will (subject as provided below) be made in the manner specified above in relation to Bearer Securities or otherwise in the manner specified in the relevant Global Security against presentation or surrender, as the case may be, of such Global Security at the specified office of any Paying Agent outside the United States. A record of each payment, distinguishing between any payment of nominal and any

payment of interest, will be made on such Global Security either by the Paying Agent to which it was presented or in the records of Euroclear and Clearstream, Luxembourg, as applicable.

5.4 Payments in respect of Registered Securities

Payments of nominal (other than instalments of nominal prior to the final instalment) in respect of each Registered Security (whether or not in global form) will be made against presentation and surrender (or, in the case of part payment of any sum due, endorsement) of the Registered Security at the specified office of the Registrar or any of the Paying Agents. Such payments will be made by transfer to the Designated Account (as defined below) of the holder (or the first named of joint holders) of the Registered Security appearing in the register of holders of the Registered Securities maintained by the Registrar (the **Register**) (i) where in global form, at the close of the business day (being for this purpose a day on which Euroclear and Clearstream, Luxembourg are open for business) before the relevant due date, and (ii) where in definitive form at the close of business on the third business day (being for this purpose a day on which banks are open for business in the city where the specified office of the Registrar is located) before the relevant due date (the **Record Date**). Notwithstanding the previous sentence, if (i) a holder does not have a Designated Account or (ii) the nominal amount of the Securities held by a holder is less than 250,000 euro (or its approximate equivalent in any other Specified Currency), payment will instead be made by a cheque in the Specified Currency drawn on a Designated Bank (as defined below). For these purposes, **Designated Account** means the account (which, in the case of a payment in Japanese Yen to a non-resident of Japan, shall be a non-resident account) maintained by a holder with a Designated Bank and identified as such in the Register and **Designated Bank** means (in the case of payment in a Specified Currency other than euro) a bank in the principal financial centre of the country of such Specified Currency (which, if the Specified Currency is Australian dollars or New Zealand dollars, shall be Sydney and Auckland respectively and if the Specified Currency is CNY, shall be the CNY Settlement Centre(s)) and (in the case of a payment in euro) any bank which processes payments in euro.

Payments of interest and payments of instalments of nominal (other than the final instalment) in respect of each Registered Security (whether or not in global form) will be made by a cheque in the Specified Currency drawn on a Designated Bank and mailed by uninsured mail on the business day in the city where the specified office of the Registrar is located immediately preceding the relevant due date to the holder (or the first named of joint holders) of the Registered Security appearing in the Register (i) where in global form, at the close of the business day (being for this purpose a day on which Euroclear and Clearstream, Luxembourg are open for business) before the relevant due date, and (ii) where in definitive form at the close of business on the fifteenth day (whether or not such fifteenth day is a business day) before the relevant due date (the **Record Date**) at his address shown in the Register on the Record Date and at his risk. Upon application of the holder to the specified office of the Registrar not less than three (3) business days in the city where the specified office of the Registrar is located before the due date for any payment of interest in respect of a Registered Security, the payment may be made by transfer on the due date in the manner provided in the preceding paragraph. Any such application for transfer shall be deemed to relate to all future payments of interest (other than interest due on redemption) and instalments of nominal (other than the final instalment) in respect of the Registered Securities which become payable to the holder who has made the initial application until such time as the Registrar is notified in writing to the contrary by such holder. Payment of the interest due in respect of each Registered Security on redemption and the final instalment of nominal will be made in the same manner as payment of the nominal amount of such Registered Security.

Notwithstanding anything to the contrary in this General Condition 5.4, payments of interest and payments of instalments of nominal (other than the final instalment) in respect of each Registered Security denominated in CNY (whether or not in global form) will be made solely by transfer to the Designated Account of the holder (or the first named of joint holders) of the Registered Security appearing in the Register (i) where in global form, at the close of the business day (being for this purpose a day on which Euroclear, Clearstream, Luxembourg and/or any other relevant clearing system are open for business) before the relevant due date, and (ii) where in definitive form, at the close of business on the fifteenth day (whether or not such fifteenth day is a business day) before the Record Date.

Securityholders holding Registered Securities will not be entitled to any interest or other payment for any delay in receiving any amount due in respect of any Registered Security as a result of a cheque posted in

accordance with this General Condition 5.4 arriving after the due date for payment or being lost in the post. No commissions or expenses shall be charged to such holders by the Registrar in respect of any payments of nominal or interest in respect of the Registered Securities.

All amounts payable to DTC or its nominee as registered holder of a Registered Global Security in respect of Securities denominated in a Specified Currency other than U.S. dollars shall be paid by transfer by the Registrar to an account in the relevant Specified Currency of the Exchange Agent on behalf of DTC or its nominee for conversion into and payment in U.S. dollars in accordance with the provisions of the Agency Agreement.

None of the relevant Issuer, the Guarantor, or the Agents will have any responsibility or liability for any aspect of the records relating to, or payments made on account of, beneficial ownership interests in the Registered Global Securities or for maintaining, supervising or reviewing any records relating to such beneficial ownership interests.

5.5 General provisions applicable to payments

The holder of a Global Security shall be the only person entitled to receive payments in respect of Securities represented by such Global Security and the relevant Issuer or, as the case may be, the Guarantor will be discharged by payment to, or to the order of, the holder of such Global Security in respect of each amount so paid. Each of the persons shown in the records of DTC, Euroclear or Clearstream, Luxembourg or any Relevant Clearing System as the beneficial holder of a particular nominal amount of Securities represented by such Global Security must look solely to DTC, Euroclear or Clearstream, Luxembourg, as the case may be, for his share of each payment so made by the relevant Issuer or, as the case may be, the Guarantor to, or to the order of, the holder of such Global Security.

Notwithstanding the foregoing provisions of this General Condition 5, if any amount of nominal and/or interest in respect of Bearer Securities is payable in U.S. dollars, such U.S. dollar payments of nominal and/or interest in respect of such Securities will be made at the specified office of a Paying Agent in the United States if:

- (a) the relevant Issuer has appointed Paying Agents with specified offices outside the United States with the reasonable expectation that such Paying Agents would be able to make payment in U.S. dollars at such specified offices outside the United States of the full amount of nominal and interest on the Bearer Securities in the manner provided above when due;
- (b) payment of the full amount of such nominal and interest at all such specified offices outside the United States is illegal or effectively precluded by exchange controls or other similar restrictions on the full payment or receipt of nominal and interest in U.S. dollars; and
- (c) such payment is then permitted under United States law without involving, in the opinion of the relevant Issuer and the Guarantor, adverse tax consequences to the relevant Issuer or the Guarantor.

In the case of Securities issued by Crédit Agricole CIB, the relevant Issuer and each of its branches are a single legal entity and the obligation to make any payment under the Securities is an obligation of Crédit Agricole CIB as a whole. However, if the Final Terms specify a branch office of Crédit Agricole CIB as the branch of account for any payment under the Securities, then it may not be required to make any payment under the Securities at its head office or any of its other branches for so long as and to the extent that the specified branch of account is prevented from making any payment under the Securities due to (a) an act of war, insurrection or civil strife; or (b) an action by the government or any instrumentality of or in the jurisdiction of the specified branch of account (whether *de jure* or *de facto*).

Notwithstanding the foregoing, payments in respect of Securities denominated and payable in CNY will be made solely by transfer to a CNY bank account maintained in the CNY Settlement Centre(s) in accordance with prevailing rules and regulations.

5.6 Payment Business Day

- (a) If the date for payment of any amount in respect of any Security, Receipt or Coupon is not a Payment Business Day, the holder thereof shall instead be entitled to payment: (i) on the next following Payment Business Day in the relevant place, if "Following Payment Business Day" is specified in the applicable Final Terms; or (ii) on the next following Payment Business Day in the relevant place, unless the date for payment would thereby fall into the next calendar month, in which event such date for payment shall be brought forward to the immediately preceding Payment Business Day in the relevant place, if "Modified Following Payment Business Day" is specified in the applicable Final Terms or (iii) on the immediately preceding Payment Business Day in the relevant place, if "Preceding Payment Business Day" is specified in the applicable Final Terms; provided that if neither "Following Payment Business Day" nor "Modified Following Payment Business Day" nor "Preceding Payment Business Day" is specified in the applicable Final Terms, "Following Payment Business Day" shall be deemed to apply. In the event that (A) any adjustment is made to the date for payment in accordance with this General Condition 5 and (B) "Interest Accrual Periods will be unadjusted" is specified in the applicable Final Terms, the relevant amount due in respect of any Security, Receipt or Coupon shall not be affected by any such adjustment. For these purposes, **Payment Business Day** means any day, which is:
- (i) subject to the provisions of the Agency Agreement, a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealing in foreign exchange and foreign currency deposits) in:
 - (A) (in respect of Definitive Securities) the relevant place of presentation or (in respect of Registered Securities) the place of registration; and
 - (B) each Additional Financial Centre specified in the applicable Final Terms; and
 - (ii) either (A) in relation to any sum payable in a Specified Currency other than euro and CNY, a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealing in foreign exchange and foreign currency deposits) in the principal financial centre of the country of the relevant Specified Currency (if other than the place of presentation and any Additional Financial Centre and which if the Specified Currency is Australian dollars or New Zealand dollars, shall be Sydney or Auckland respectively) or (B) in relation to any sum payable in euro, a day on which the TARGET2 System is open or (C) in relation to any sum payable in CNY, a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealing in foreign exchange and foreign currency deposits) in the CNY Settlement Centre(s).
- (b) If the date specified for a payment of any amount in respect of any Security, Receipt or Coupon falls on a day in a month which does not exist (including, without limitation, when such payment is scheduled to be paid on 29 February in a year when that day does not occur), the holder of such Security, Receipt or Coupon shall instead be entitled to payment on the immediately preceding Payment Business Day in the relevant place.

5.7 General

None of the Calculation Agent, the Issuers, the Guarantor, any Dealer or any Agent shall have any responsibility for any errors or omissions in the calculation of any Early Redemption Amount, the Final Redemption Amount, or Instalment Redemption Amount, as the case may be, or other amount whatsoever.

5.8 Interpretation

Any reference in these Terms and Conditions to nominal in respect of the Securities shall, to the extent permitted by applicable law, be deemed to include, as applicable:

- (a) any additional amounts which may be payable with respect to nominal under General Condition 8 (*Taxation*), if applicable;

- (c) the Early Redemption Amount of the Securities;
- (d) the Fair Market Value Redemption Amount of the Securities;
- (e) in relation to Securities redeemable in instalments, the Instalment Redemption Amounts; and
- (f) any premium and any other amounts (other than interest) which may be payable by the relevant Issuer under or in respect of the Securities.

Any reference in these Terms and Conditions to interest in respect of the Securities shall be deemed to include, as applicable, any additional amounts which may be payable with respect to interest under General Condition 8 (*Taxation*).

Any reference in these Terms and Conditions to "payment", "repayment" and "redemption" and other related expressions (including, without limitation, for the purposes of the definition of "Payment Business Day" in General Condition 5.6 (*Payment Business Day*)) shall, where the context admits, include the delivery of any securities or other assets pursuant to physical settlement as provided in Annex 1 (*Asset Conditions*) in respect of ETF Linked Securities or Share Linked Securities or pursuant to Physical Settlement as provided in Annex 2 (*Credit Linked Conditions*), Annex 3 (*Bond Linked Conditions*) and Annex 10 (*Secured Security Conditions*).

5.9 Payments in respect of Swedish Securities

Payments of nominal, interest and/or any other amounts due in respect of Swedish Securities shall be made to the Securityholders recorded as such on the fifth business day (as defined by the then applicable Swedish CSD Rules) before the due date for such payment, or such other business day falling closer to the relevant due date as then may be stipulated in said rule. Such day shall be the "Record Date" in respect of the relevant Swedish Securities. The payments will be effected through the facilities of the Swedish CSD in accordance with the Swedish CSD Rules.

5.10 Payments in respect of Norwegian Securities

or such other business day falling closer to the relevant due date as then may be stipulated in the applicable Norwegian CSD Rules. Such day shall be the "Record Date" in respect of the relevant Norwegian Securities. For the purpose of this General Condition 5.10, business day is as defined in the then applicable Norwegian CSD Rules. Such payments shall be made by transfer to the Designated Account in accordance with the Norwegian CSD Rules. If a holder does not have a Designated Account payment will be made by cheque as further specified in General Condition 5.4 (*Payments in respect of Registered Securities*).

5.11 Payments in respect of Finnish Securities

Payments of nominal, interest and/or any other amounts due in respect of Finnish Securities shall be made to the Securityholders recorded as such on the third business day (or any such later business day as defined by the then applicable Finnish CSD Rules) immediately preceding the due date for such payment. Such

day shall be the "Record Date" in respect of the relevant Finnish Securities. The payments will be effected through the facilities of the Finnish CSD in accordance with the Finnish CSD Rules.

5.12 Payments in respect of French Law Securities

Dematerialised French Securities

Principal and interest payments made under Dematerialised French Securities will be made (in the case of Dematerialised French Securities in bearer form or in administered registered form) by transfer to the account, kept in the relevant currency, of the relevant Account Holders, for the benefit of the Holders of the French Law Securities and (in the case of Dematerialised French Securities in fully registered form) to an account held in the relevant currency with a Bank (as defined below) designated by the Holders of French Law Securities. All payments validly made with these Account Holders and this Bank will release the relevant Issuer from its payment obligations.

Materialised French Securities in bearer form

Principal and interest payments made under Materialised French Securities in bearer form will be made (subject to the provisions below) against presentation and return, during normal working hours, of Receipts (in case of payment of reimbursement installments occurring on a date other than the final repayment date, and subject to the Receipt being presented for payment with its corresponding Securities, of the corresponding Materialised French Securities in bearer form or Coupons, as the case may be, at the designated establishment of any Paying Agent located outside the United States, by cheque payable in the relevant currency drawn on a Bank or, at the option of the Holder of the Securities, by transfer to an account held in this currency by a Bank.

Bank means a bank located in the main financial center for this currency (which will be Sydney if the currency is the Australian dollar, Auckland if the currency is the New Zealand dollar, the Center(s) CNY if the currency is the Renminbi) or, in the case of the euro, in a city where the banks have access to the TARGET System.

Unmatured Coupons and Receipts and non-exchanged Talons

- (a) Unless the Materialised French Securities in bearer form stipulate that the Coupons relating thereto shall lapse on the redemption date of these Securities, the Materialised French Securities in bearer form must be returned for payment with all unexpired Coupons, failing which an amount equal to the nominal value of each missing unexpired Coupon (or, if the payment is not a full payment, a proportion of the full amount of any missing unexpired Coupon which will be equal to the proportion that the principal thus paid represents in relation to the total amount of principal due) will be deducted from the sum due for payment. Any amount thus deducted will be paid in the manner mentioned above, against return of the missing Coupon relating thereto, within 10 years of the Relevant Date (as defined in General Condition 8 (*Taxation*)) relating to the payment of the principal of the relevant Securities (regardless of whether this Coupon would otherwise be prescribed by application of General Condition 9 (*Prescription*)).
- (b) If the Materialised French Securities in bearer form so stipulate, the related unexpired Coupons (whether or not they are attached) will lapse on the due date for the redemption of these Securities and no payment will be made under these Coupons.
- (c) On the redemption date of any Materialised French Securities in bearer form, any un-exchanged Talon relating to this Securities (whether or not attached) will lapse and no Coupon will be delivered in exchange for this Talon.
- (d) On the redemption date of any Materialised French Securities in bearer form which is repayable in instalments, all Receipts relating to this Materialised French Securities in bearer form having an Instalment Date falling on or after that redemption date (whether or not they are attached) will lapse and no payment will be made for them.

- (e) If the Materialised French Securities in bearer form stipulate that the related unmatured Coupons must lapse on the redemption date of these Securities, and if these Securities are presented for redemption without all unmatured Coupons, and without any related un-exchanged Talon, reimbursement will only be made subject to any guarantee that the relevant Issuer may require.
- (f) If the redemption date for the repayment of the Materialised French Securities in bearer form is not a redemption date for the payment of interest, the interest accrued since the last due date for the payment of interest or since the Interest Commencement Date, as the case may be, will only be payable on presentation (and return, if applicable) of the Definitive Materialised French Securities in bearer form to the relevant Holder. Interest accrued on the Materialised French Securities in bearer form which only produces interest after its redemption date will be payable upon redemption of these Securities, against presentation of this Materialised French Securities in bearer form.

6 REDEMPTION AND PURCHASE

6.1 Redemption by Instalments and Final Redemption

Unless previously redeemed or purchased and cancelled as provided in this General Condition 6 (other than pursuant to General Condition 6.10):

- (a) on each Instalment Date, each Instalment Security shall be partially redeemed by the relevant Issuer at the relevant Instalment Redemption Amount;
- (b) subject to paragraph (c) below, each Security will be finally redeemed by the relevant Issuer at its Final Redemption Amount specified in the applicable Final Terms and determined in accordance with the provisions set out in Annex 9 (*Redemption Method Conditions*) in the relevant Specified Currency on the Redemption Date or, in the case of an Instalment Security falling within paragraph (a) above, its final Instalment Redemption Amount on the final Instalment Date, in each case subject to any provision to the contrary in the Additional Conditions; and
- (c) each Security that is a Preference Share Linked Security will be finally redeemed by the relevant Issuer at its Final Redemption Amount determined in accordance with the provisions set out in Annex 11 (*Preference Share Linked Securities*) in the relevant Specified Currency on the Redemption Date, subject to any provision to the contrary in the Additional Conditions.

6.2 Early Redemption Trigger Events

The applicable Final Terms will specify whether any Early Redemption Trigger Event applies to the Securities. The provisions detailing such Early Redemption Trigger Events are set out in Annex 8 (*Early Redemption Trigger Conditions*).

The Early Redemption Amount payable in respect of Securities to which an Early Redemption Trigger Event applies shall be determined by the Calculation Agent in accordance with the provisions of Annex 9 (*Redemption Method Conditions*).

6.3 Redemption for tax reasons

Where General Condition 8.2 (*Gross Up*) is specified in the applicable Final Terms as applying to the Securities, such Securities may be redeemed at the option of the relevant Issuer in whole, but not in part, at any time, on giving not less than the minimum period nor more than the maximum period of notice specified in the applicable Final Terms to the Principal Paying Agent or the Registrar, as the case may be, and, in accordance with General Condition 14 (*Notices*), the Securityholders (which notice shall be irrevocable), if:

- (a) on the occasion of the next payment due under the Securities, the relevant Issuer or (where Crédit Agricole CIB FS or Crédit Agricole CIB FL is the relevant Issuer) the Guarantor (if it were required to make a payment under the Guarantee) has or will become obliged to pay additional

amounts as provided or referred to in General Condition 8 (*Taxation*) as a result of any change in, or amendment to, the laws or regulations of a Tax Jurisdiction (as defined in General Condition 8.2 (*Gross Up*)), or any change in the application or official interpretation of such laws or regulations, which change or amendment becomes effective on or after the date on which agreement is reached to issue the first Tranche of the Securities; and

- (b) such obligation cannot be avoided by the relevant Issuer or (where Crédit Agricole CIB FS or Crédit Agricole CIB FL is the relevant Issuer) the Guarantor taking reasonable measures available to it,

provided that no such notice of redemption shall be given earlier than 90 days prior to the earliest date on which the relevant Issuer or (where Crédit Agricole CIB FS or Crédit Agricole CIB FL is the relevant Issuer) the Guarantor would be obliged to pay such additional amounts.

Securities redeemed pursuant to this General Condition 6.3 will be redeemed at their Fair Market Value Redemption Amount.

6.4 Special Tax Redemption

Where General Condition 8.2 (*Gross Up*) is specified in the applicable Final Terms as applying to the Securities, if the relevant Issuer or the Guarantor would, on the occasion of the next payment of nominal or interest in respect of the Securities, be prevented by French law or (in the case of Securities issued by Crédit Agricole CIB FL) Luxembourg law from making payment to the Securityholders of the full amount then due and payable, notwithstanding the undertaking to pay additional amounts contained in General Condition 8 (*Taxation*), then the relevant Issuer shall forthwith give notice of such fact to the Principal Paying Agent or the Registrar, as the case may be, and the relevant Issuer shall, upon giving not more than seven days' prior notice to the Securityholders, forthwith redeem all, but not some only, of the Securities at their Fair Market Value Redemption Amount, on the latest practicable Interest Payment Date on which the relevant Issuer could make payment of the full amount then due and payable in respect of the Securities, provided that if such notice would expire after such Interest Payment Date the date for redemption pursuant to such notice to Securityholders shall be the later of:

- (a) the latest practicable date on which the relevant Issuer could make payment of the full amount then due and payable in respect of the Securities; and
- (b) fourteen days after giving notice to the Principal Paying Agent or the Registrar, as the case may be, as aforesaid.

6.5 Redemption for FATCA Withholding

This General Condition 6.5 will apply to the Securities if so specified in the applicable Final Terms. The relevant Issuer (in relation to Securities other than Swedish Securities and Norwegian Securities) may or (in relation to Swedish Securities and Norwegian Securities) will redeem any FATCA Affected Securities, at any time, in accordance with the provisions of this General Condition 6.5.

Upon becoming aware that a Security is a FATCA Affected Security, the relevant Issuer shall use reasonable endeavours to deliver a FATCA Issuer Notice, which shall specify

- (a) the relevant series number and ISIN in relation to Securities that have become FATCA Affected Securities;
- (b) whether or not the Issuer will redeem any of the FATCA Affected Securities, provided that, for all FATCA Affected Securities that are Swedish Securities or Norwegian Securities, the Issuer will elect to redeem such Securities, and
- (c) where the relevant Issuer elects to redeem any of the FATCA Affected Securities,
 - (i) the FATCA Affected Securities the relevant Issuer will redeem; and

- (ii) the date on which such FATCA Affected Securities will be redeemed by the Issuer.

Where the FATCA Issuer Notice specifies that the relevant Issuer will not redeem a FATCA Affected Security, the holder of any such FATCA Affected Security, provided that such Security continues to be a FATCA Affected Security, may deliver a FATCA Investor Notice requesting the early redemption of the FATCA Affected Security and specifying a date for redemption that must be at least ten (10) Business Days after the effective date of such notice. Following receipt of the FATCA Investor Notice, the relevant Issuer will redeem such FATCA Affected Security on the date specified for redemption in the relevant FATCA Investor Notice.

Securities redeemed pursuant to this General Condition 6.5 will be redeemed at their Fair Market Value Redemption Amount.

A FATCA Issuer Notice in respect of Finnish Securities will not take effect against the relevant Issuer until the date on which the relevant Finnish Securities have been transferred to the account designated by the Finnish Issuing Agent and blocked for further transfer by said Agent.

For the purposes of this General Condition:

Code means the U.S. Internal Revenue Code of 1986, as amended.

FATCA Affected Security means any Security in respect of which (i) the relevant Issuer or (where Crédit Agricole CIB FS or Crédit Agricole CIB FL is the relevant Issuer) the Guarantor, in relation to any future payments due under the Securities, will be obliged (either directly or indirectly, including without limitation through an agent or clearing system) to make a FATCA Withholding and (ii) such FATCA Withholding cannot be avoided by the relevant Issuer or Guarantor taking reasonable measures available to it.

FATCA Investor Notice means a notice given by the holder of any FATCA Affected Security to the relevant Issuer in accordance with General Condition 14 (*Notices*). A copy of such FATCA Investor Notice shall be given to the Principal Paying Agent or, in the case of Registered Securities, the Registrar in accordance with General Condition 14 (*Notices*) (which notice shall be irrevocable and shall specify a bank account (or, if payment is required to be made by cheque, an address) to which payment is to be made under this General Condition 6.5).

FATCA Issuer Notice means a notice given by the relevant Issuer to the Principal Paying Agent or the Registrar, as the case may be, and in accordance with General Condition 14 (*Notices*), to the Securityholders.

FATCA Withholding means any withholding or deduction required pursuant to an agreement described in Section 1471(b) of the Code or any withholding or deduction otherwise imposed pursuant to Sections 1471 through 1474 of the Code, or any fiscal or regulatory legislation, rules or practices adopted pursuant to any intergovernmental agreement entered into in connection with the implementation of such sections of the Code.

6.6 Regulatory Redemption or Compulsory Resales

This General Condition 6.6 will apply to the Securities if so specified in the applicable Final Terms.

The relevant Issuer shall have the right at any time, at the expense and risk of the holder of (A) any U.S. Securities issued by Crédit Agricole CIB FS or Crédit Agricole CIB FL, as applicable, held by or on behalf of a U.S. person who is not a QP at the time it purchases such U.S. Securities, (i) to redeem such U.S. Securities, in whole or in part, to permit the relevant Issuer to avoid registration under the Investment Company Act or (ii) to require such holder to sell such U.S. Securities to a QIB who is also a QP in accordance with Rule 144A or to a non-U.S. person outside the United States in accordance with Regulation S or (B) any Securities (other than U.S. Securities) held by or on behalf of a person who is not a Permitted Transferee, (i) to redeem such Securities, in whole or in part, or (ii) to require such holder to sell such Securities to a Permitted Transferee outside the United States in accordance with Regulation S. The determination of which Securities shall be redeemed pursuant to (A)(i) or (B)(i) above or sold

pursuant to (A)(ii) or (B)(ii) above in any particular case shall be made at the sole and absolute discretion of the relevant Issuer. Any such redemption shall be made at the Fair Market Value Redemption Amount. The Registrar is not required to register any purported transfers of Securities which would, in the opinion of the relevant Issuer or the Registrar, cause the relevant Issuer to be in violation of the Securities Act, the Commodity Exchange Act or the Investment Company Act.

6.7 Clean-up Call Option

Where General Condition 6.7 (*Clean-up Call Option*) is specified in the applicable Final Terms as applying to the Securities, such Securities may be redeemed at the option of the Issuer in whole, but not in part, at any time, on giving not less than the minimum period and not more than the maximum period of notice specified in the applicable Final Terms to the Principal Paying Agent or the Registrar, as the case may be, and, in accordance with General Condition 14 (*Notices*), to the Securityholders (which notice shall be irrevocable), if the aggregate nominal amount outstanding of the Securities is equal to 10 per cent. or less than the aggregate nominal amount of the Securities on the Issue Date, as determined by the Calculation Agent in its sole and absolute discretion.

Securities redeemed pursuant to this General Condition 6.7 will be redeemed at their Fair Market Value Redemption Amount.

6.8 Redemption Amounts

(a) Fair Market Value Redemption Amounts

Where the Securities are to be redeemed prior to the Redemption Date at their Fair Market Value Redemption Amount pursuant to the Conditions, including, without limitation, pursuant to General Condition 6.3 (*Redemption for tax reasons*), General Condition 6.4 (*Special Tax Redemption*), General Condition 6.5 (*Redemption for FATCA withholding*), General Condition 6.6 (*Regulatory Redemption or Compulsory Resales*), General Condition 6.7 (*Clean-up Call Option*), General Condition 10 (*Events of Default*) or General Condition 19 (*Illegality and Force Majeure*), each Security will be redeemed at the Fair Market Value Redemption Amount. Securities may also be redeemed at the Fair Market Value Redemption Amount in any other circumstances set out in the applicable Additional Conditions (including, but without limitation, pursuant to Credit Linked Condition 2.7 (*Early redemption of Leveraged CLSs*), Credit Linked Condition 2.8 (*Redemption following a Merger Event*), Credit Linked Condition 2.10 (*Redemption following an Additional Disruption Event*), Bond Linked Condition 2.4 (*Early redemption following a Fair Market Value Trigger Event*), Bond Linked Condition 2.5 (*Redemption following a Merger Event*) and Bond Linked Condition 2.6 (*Redemption following an Additional Disruption Event*)).

The **Fair Market Value Redemption Amount** shall be determined by the Calculation Agent in its sole and absolute discretion (or, in the case of an Italian Listed Securities, as determined by the Calculation Agent acting in good faith and in a commercially reasonable manner) as equal to the fair market value of the Security as at (or about) the date fixed for redemption, taking into account, without limitation and without double counting, (A) where "Hedge Amount" is specified in the applicable Final Terms as being applicable, the deduction of the Hedge Amount and (B) in the case of Bond Linked Securities, the value of the Bond, provided that:

- (a) this determination shall disregard (i) the financial condition of the relevant Issuer and/or the Guarantor in case an Event of Default under Condition 10(a), Condition 10(c) or Condition 10(d), as applicable, has occurred and is continuing with respect to the relevant Issuer and/or the Guarantor and (ii) in the case of Secured Securities, any collateral which has been, or is required to be, delivered in connection with such Secured Securities;
- (b) if a Fair Market Value Redemption Amount has been determined for any reason other than the occurrence of an Event of Default under Condition 10(a), Condition 10(c) or Condition 10(d), as applicable (the **Pre-Default FMVRA**) and is unpaid on the date on which an Event of Default under Condition 10(a), Condition 10(c) or Condition 10(d),

as applicable, occurs with respect to the relevant Issuer and/or the Guarantor (the **Post-Default FMVRA Determination Date**), then the Pre-Default FMVRA will be deemed to be equal to the Fair Market Value Redemption Amount determined as of the Post-Default FMVRA Determination Date (the **Post-Default FMVRA**) and the Post-Default FMVRA shall disregard the financial condition of the relevant Issuer and/or the Guarantor in accordance with paragraph (a) above;

- (c) in the case of Bond Linked Securities:
 - (i) which are Secured Securities;
 - (ii) where the Collateral Assets consist in whole or in part of the Bond; and
 - (iii) where the Fair Market Value Redemption Amount is being determined following enforcement of the security created in relation to the Secured Securities,

then for the purposes of sub-paragraph (ii) above, the value of the Bond shall be determined by reference to the value at which the Disposal Agent (or failing which, the Security Trustee or the Security Agent (as applicable) or an agent on its behalf), is able to liquidate or realise the Bond in accordance with the terms of the Secured Securities (after deducting any costs associated with the relevant enforcement and liquidation and any related fees or taxes);

- (d) the Fair Market Value Redemption Amount shall not be a negative amount; and
- (e) where "Custodian Default" is specified in the applicable Final Terms as being applicable, in respect of Secured Securities and following a Custodian Default the value of the Bond (where Collateral Monitoring is not applicable) or the Fair Market Value Redemption Amount (where Collateral Monitoring is applicable) shall be subject to a maximum of the value of the amounts actually recovered from the Custodian (or any agent, sub-custodian or delegate thereof).

In determining the fair market value of the Security, the Calculation Agent shall (acting in good faith and in a commercially reasonable manner, in the case of an Italian Listed Security) take into consideration all information, which it deems relevant (including, without limitation, market conditions, and, in the case of early redemption pursuant to General Condition 19 (*Illegality and Force Majeure*), the impracticality, illegality or impossibility giving rise to the early redemption).

The Fair Market Value Redemption Amount determined as specified above shall be determined taking into account any amounts in respect of accrued but unpaid interest and accordingly no other amount of accrued but unpaid interest will be payable where the Securities are redeemed by payment of the Fair Market Value Redemption Amount.

In connection with any early redemption of the Securities, the **Hedge Amount** is the losses or costs (expressed as a positive number) to the relevant Issuer or any Affiliate thereof that are incurred under then prevailing circumstances or gains (expressed as a negative number) of the relevant Issuer or any Affiliate thereof that are realised under then prevailing circumstances in each case in unwinding any related underlying hedging arrangements entered into in respect of such Security (including, without limitation, any rate swap transaction, swap option, basis swap, forward rate transaction, commodity swap, commodity option, equity or equity index swap, interest rate option, currency transaction, asset swap transaction, credit derivative transaction or funding transaction such as but not limited to internal funding arrangement or a repurchase transaction, including any market bid/offer spread and any ancillary cost in relation to such unwinding), whether such hedging arrangement is held directly by the relevant Issuer or the Guarantor or indirectly through an Affiliate, provided that:

- (a) the determination of the Hedge Amount shall disregard the financial condition of the relevant Issuer and/or the Guarantor in case an Event of Default under Condition 10(a), Condition 10(c) or Condition 10(d), as applicable, has occurred and is continuing with respect to the relevant Issuer and/or the Guarantor; and
- (b) in the case of Leveraged CLSs, the Hedge Amount in respect of credit default swap hedge transactions will be determined on a leveraged notional amount reflecting the aggregate of the Floating Rate Payer Calculation Amounts of Reference Entities which have not been affected by Credit Events.

Notwithstanding the above:

- (i) the Fair Market Value Redemption Amount for Italian Listed Securities, in respect of which the early redemption follows an Additional Disruption Event, will be the ADE Market Value; or
- (ii) in respect of any Security for which a Fair Market Value Redemption Amount Percentage is specified in the applicable Final Terms, the Fair Market Value Redemption Amount will be an amount equal to the Nominal Amount of such Security outstanding as at the date of calculation (as set out in Annex 9 of the Terms and Conditions as if the Early Redemption Amount was being calculated), multiplied by the Fair Market Value Redemption Amount Percentage specified in the applicable Final Terms.

The **ADE Market Value** means, in relation to the early redemption of an Italian Listed Security following an Additional Disruption Event, the fair market value of such Italian Listed Security as determined by the Calculation Agent acting in good faith and in a commercially reasonable manner, by reference to such factor(s) as it determines appropriate at the relevant time and which may include the following, without limitation:

- (a) any relevant quotations or other relevant market data in the relevant market(s) which may include the issuer funding rate and other relevant rates, currencies, prices, index levels, yields, yield curves, volatilities, spreads, correlations;
- (b) information of the type described in (a) above from internal sources of the Issuer, the Guarantor or any of its Affiliates if that information is of a type used by the Issuer in its regular course of business for the valuation of similar instruments as the Securities; and
- (c) any options or other derivative pricing models.

Payment of such Fair Market Value Redemption Amount will be made in such manner as shall be notified to the Securityholders in accordance with General Condition 14 (*Notices*).

- (b) Essential Trigger
 - (i) Where "Essential Trigger" is specified in the applicable Final Terms as being applicable and notwithstanding any contrary provisions in the General Conditions and the relevant Additional Conditions:
 - (A) Except in the case of a Force Majeure Event, where the Securities are to be redeemed prior to their Redemption Date pursuant to General Condition 6.3 (*Redemption for tax reasons*), General Condition 6.4 (*Special Tax Redemption*), General Condition 6.5 (*Redemption for FATCA withholding*), General Condition 10 (*Events of Default*) or General Condition 19 (*Illegality and Force Majeure*), or in other circumstances specified in the Additional Conditions that do not constitute a Force Majeure Event, each Security will be redeemed in accordance with the Conditions at an amount calculated as follows:

- (I) if the "Redemption Basis" is specified in the applicable Final Terms as being "Fair Market Value Redemption Amount", the Securities will be redeemed on the Early Redemption Date at the Fair Market Value Redemption Amount;
- (II) if the "Redemption Basis" is specified in the applicable Final Terms as being "Highest Value", the Securities will be redeemed on the Early Redemption Date at the greater of (1) the Fair Market Value Redemption Amount and (2) the minimum amount of the Final Redemption Amount; or
- (III) if the "Redemption Basis" is specified in the applicable Final Terms as being "Monetisation Option", the Securities will be redeemed at the Fair Market Value Redemption Amount on the Early Redemption Date or at the Monetisation Amount on the Redemption Date, according to the choice of the Securityholder (to be exercised at the Securityholder's absolute discretion).

For the determination of the applicable redemption amount in accordance with one of the redemption bases ("Fair Market Value Redemption Amount", "Highest Value" or "Monetisation Amount"), no costs shall be deducted from such redemption amount and such redemption amount shall include the reimbursement by the relevant Issuer of any costs or, as the case may be, proportionate share of such costs (including but not limited to any structuring costs) paid by Securityholders to the relevant Issuer in the Issue Price of the Securities.

- (B) Where the Securities are to be redeemed prior to their Redemption Date as a result of a Force Majeure Event, the Securities will be redeemed on the early redemption date at the Fair Market Value Redemption Amount, taking into account that, for the determination of the Fair Market Value Redemption Amount, no costs shall be deducted other than costs that are unavoidable in order to be able to redeem the Securities at their market value.
- (ii) Where the "Redemption Basis" is specified in the applicable Final Terms as being "Monetisation Option", in the relevant Issuer's notice of early redemption as specified in the relevant General Conditions or Additional Conditions, the Issuer must include the following:
 - (A) the cut-off date and time for each Securityholder to elect to receive the Fair Market Value Redemption Amount on the date fixed for early redemption;
 - (B) the date of determination for the Fair Market Value Redemption Amount in respect of such election and the amount determined by the Calculation Agent as the Fair Market Value Redemption Amount of the Securities on such date; and
 - (C) the amount calculated by the Calculation Agent as the Monetisation Amount.

If the Securityholder does not make a valid election to receive the Fair Market Value Redemption Amount on the date fixed for early redemption before the cut-off date and time set out in the Issuer's notice of early redemption, the Securityholder will receive the Monetisation Amount in respect of such Security on the Redemption Date.

- (iii) For the purposes of this Condition, the **Monetisation Amount** in respect of a Security is calculated based on the following formula, which implies a redemption at maturity of at least the Final Redemption Amount:

$$(S+D) \times (1+r)^n$$

where:

"S" is the market value of the "saving" component on the date on which the event triggering early redemption occurs;

"D" is the market value of the "derivative" component on the date on which the event triggering early redemption occurs;

"r" is, in relation to the relevant Issuer against whom the Securityholder assumes the greatest credit risk (more than 50 per cent.), the annual interest rate that such Issuer offers on the date of occurrence of the event triggering early redemption on a debt instrument with the same time to redemption as the remaining time to redemption on the Securities from the date fixed for early redemption until the scheduled Redemption Date of the Securities; and

"n" is the time remaining until the scheduled redemption date of the Securities, expressed as a number of years.

6.9 Purchases

The relevant Issuer, the Guarantor and any of their Subsidiaries may at any time purchase Securities (provided that, in the case of Definitive Bearer Securities, all unmatured Receipts, Coupons and Talons appertaining thereto are purchased therewith) at any price in the open market or otherwise. Securities purchased by or on behalf of the relevant Issuer may, at the option of the relevant Issuer, be so surrendered and cancelled or may be held or resold, in accordance with applicable laws and regulations.

6.10 Cancellation

All Securities, which are purchased for cancellation or redeemed by the relevant Issuer, will forthwith be cancelled (together with all unmatured Receipts, Coupons and Talons attached thereto or surrendered therewith at the time of redemption). All Securities so cancelled and any Securities purchased and cancelled pursuant to General Condition 6.9 (*Purchases*) (together with all unmatured Receipts, Coupons and Talons cancelled therewith) shall be forwarded to the Principal Paying Agent and cannot be reissued or resold.

6.11 Late payment on Zero Coupon Securities

If the amount payable in respect of any Zero Coupon Security upon redemption of such Zero Coupon Security pursuant to General Condition 6.1 (*Redemption by Instalments and Final Redemption*), 6.3 (*Redemption for tax reasons*), 6.4 (*Special Tax Redemption*), General Condition 6.5 (*Redemption for FATCA withholding*), 6.6 (*Regulatory Redemption or Compulsory Resales*), 6.7 (*Clean-up Call Option*) or upon its becoming due and repayable as provided in General Condition 10 (*Events of Default*) or General Condition 19 (*Illegality and Force Majeure*) is improperly withheld or refused, the amount due and repayable in respect of such Zero Coupon Security shall be the Fair Market Value Redemption Amount as though the references in General Condition 6.8 (*Redemption Amounts*) to the date fixed for the redemption was replaced by references to the date which is the earlier of:

- (a) the date on which all amounts due in respect of such Zero Coupon Security have been paid; and
- (b) five (5) days after the date on which the full amount of the moneys payable in respect of such Zero Coupon Securities has been received by the Principal Paying Agent or the Registrar and notice to that effect has been given to the Securityholders in accordance with General Condition 14 (*Notices*).

6.12 Italian Listed Certificates

Notwithstanding anything to the contrary in the Conditions: (a) Italian Listed Certificates shall be deemed to be automatically redeemed at the renouncement notice cut-off time specified in the Final Terms (the **Renouncement Notice Cut-off Time**), (b) for so long as the Italian Listed Certificates are listed on the

MOT Market or admitted to trading on the SeDeX Market of Borsa Italiana S.p.A., the Certificates shall be deemed to expire on the Expiry Date (*Data di Scadenza*) and trading in the Certificates on the Italian Stock Exchange shall cease on the third trading day prior to the Expiry Date (*Data di Scadenza*) and (c) references in the General Conditions to "redemption" and "redeem" shall be construed as references to "termination" and "terminate".

For so long as the Italian Listed Certificates are admitted to listing on Borsa Italiana S.p.A. and to trading on the SeDeX Market, then at any time prior to the Renouncement Notice Cut-Off Time, any Certificateholder may renounce automatic redemption of such Italian Listed Certificate by the delivery or sending by fax of a duly completed renouncement notice (a **Renouncement Notice**) in the form set out in section "*Italian Listed Certificates - Form of Renouncement Notice*" of this Base Prospectus, in accordance with the rules of Borsa Italiana S.p.A. applicable from time to time, by giving a duly completed Renouncement Notice to Euroclear or Clearstream, Luxembourg, with a copy to the relevant Issuer and the Principal Certificate Agent. Once delivered, a Renouncement Notice shall be irrevocable and the relevant Certificateholder may not transfer the Italian Certificates the subject of the Renouncement Notice. If a duly completed Renouncement Notice is validly delivered prior to the Renouncement Notice Cut-off Time, the relevant Certificateholder will not be entitled to receive any amounts payable by the Issuer in respect of relevant Certificates and the relevant Issuer shall have no further liability in respect of such amounts.

Any determination as to whether a Renouncement Notice is duly completed and in proper form shall be made by Euroclear or Clearstream, Luxembourg (in consultation with the Issuer and the Principal Certificate Agent) and shall be conclusive and binding on the relevant Issuer, the Guarantor, the Principal Certificate Agent, as the case may be, and the relevant Certificateholder.

Subject as follows, any Renouncement Notice so determined to be incomplete or not in proper form shall be null and void. If such Renouncement Notice is subsequently corrected to the satisfaction of Euroclear or Clearstream, Luxembourg, it shall be deemed to be a new Renouncement Notice submitted at the time such correction was delivered to Euroclear or Clearstream, Luxembourg, with a copy to the relevant Issuer and the Principal Certificate Agent.

6.13 Payoff Features

With respect to each Security (other than a Credit Linked Security, a Bond Linked Security and a Preference Share Linked Security), the Early Redemption Amount, Instalment Redemption Amount or the Final Redemption Amount will be subject to the Payoff Features (if any) specified as applicable in the applicable Final Terms.

6.14 Negative Redemption Amount

Where an Instalment Redemption Amount, Early Redemption Amount, Fair Market Value Redemption Amount, Final Redemption Amount or other relevant redemption amount is calculated or determined as, in accordance with this General Condition 6 and any applicable Additional Conditions, a negative amount, then such amount will be deemed to be zero. Securityholders will not in such circumstances be required to make any payment to the relevant Issuer in respect of such negative amount or rate nor will any other payments then or in the future due in respect of the Securities be adjusted in respect of such negative amount.

7.2 Product Simplification

Where any amount payable in respect of the Securities is determined by reference to a formula set out in the Definitions Conditions or in the applicable Additional Conditions, that formula, where set out in the Final Terms applicable to the Securities, may be simplified from the form of that formula set out in the Definitions Conditions or in the applicable Additional Conditions in circumstances where an element of the formula has a value of either 0 or 1, or is not used or is not applicable for the purposes of the relevant Series of Securities, so that such element may be omitted from the relevant formula as set out in the applicable Final Terms.

7.3 Partly Paid Securities

If the applicable Final Terms specify that "Partly Paid Securities" are "Applicable", this Condition 7.3 applies, the applicable Final Terms for the Securities will specify the part payment amount(s) (**Part Payment Amount(s)**) and the part payment date(s) (**Part Payment Date(s)**) that apply to such Securities.

Partly Paid Securities will be subscribed at the Part Payment Amount(s) and on the Part Payment Date(s) specified in the applicable Final Terms. The obligation to pay a Part Payment Amount on the relevant Part Payment Date is only incurred by the Securityholders on such Part Payment Date;

Partly Paid Securities will be redeemed on the final maturity date at their nominal amount and on the relevant Redemption Date at their paid-up nominal amount; and in the event that any Securityholder fails to pay a Part Payment Amount on the relevant Part Payment Date (such date a **Part Payment Default Date**), any such Securities held by such Securityholder shall automatically be redeemed on the relevant Early Redemption Date, at the Settlement Amount.

For the purposes of this Condition 7.3:

Early Redemption Date means, in respect of any Security, the seventh Payment Business Day following a Part Payment Default Date.

Settlement Amount means, in respect of any Security, an amount determined by the Calculation Agent in accordance with the following formula:

Max [0; [Paid-up Nominal Amount – Unwinding Costs]],

where:

Paid-up Nominal Amount means, in respect of any Part Payment Date, the paid-up nominal amount of the relevant Security up to (and including) the applicable Part Payment Date. Interest will neither accrue nor be payable in respect of the period from and including the applicable Part Payment Default Date to and including the applicable Early Redemption Date.

Unwinding Costs means the *pro rata* share, in respect of each Security, of the losses (expressed as a positive number) or the gains (expressed as a negative number) of unwinding all hedging arrangements (taking into account the present value of any Part Payment Amount(s) remaining to be paid in respect of the Security) entered into or purchased by the Issuer and/or the Guarantor in respect of the Security.

8 TAXATION

8.1 Taxation

All payments of nominal and interest in respect of the Securities, Receipts and Coupons or under the Guarantee will be made without withholding or deduction for or on account of any present or future taxes or duties of whatever nature imposed or levied by or on behalf of any Tax Jurisdiction unless such withholding or deduction is required by law (a **Gross Up Event**).

8.2 Gross Up

If a Gross Up Event occurs and only if "Gross Up" is specified in the applicable Final Terms, the relevant Issuer (if "Issuer Gross Up" is specified in the applicable Final Terms as applicable) or, as the case may be, the Guarantor (if "Guarantor Gross Up" is specified in the applicable Final Terms as applicable) will, to the fullest extent permitted by French law and (in the case of Securities issued by Crédit Agricole CIB FL) Luxembourg law, pay such additional amounts as shall be necessary in order that the net amounts received by the holders of the Securities, Receipts or Coupons after such withholding or deduction shall equal the respective amounts of nominal and interest which would otherwise have been receivable in respect of the Securities, Receipts or Coupons, as the case may be, in the absence of such withholding or deduction, except that no such additional amounts shall be payable with respect to any Security, Receipt or Coupon:

- (a) presented for payment in France or (in the case of Securities issued by Crédit Agricole CIB FL) Luxembourg; or

- (b) to, or to a third party on behalf of, a holder which is liable for such taxes or duties in respect of such Security, Receipt or Coupon by reason of his having some connection with a Tax Jurisdiction other than the mere holding of such Security, Receipt or Coupon; or
- (c) presented for payment by, or on behalf of, a holder who would be able to avoid such withholding or deduction by making a declaration or any other statement, including but not limited to, a declaration of residence or non-residence, but fails to do so; or
- (d) presented for payment more than 30 days after the Relevant Date (as defined below) except to the extent that the holder thereof would have been entitled to an additional amount on presenting the same for payment on such thirtieth day assuming that day to have been a Payment Business Day (as defined in General Condition 5.6 (*Payment Business Day*)); or
- (e) presented for payment by or on behalf of a holder who would be able to avoid such withholding or deduction by presenting the relevant Security, Receipt or Coupon to another Paying Agent in a Member State of the European Union.

As used in these General Conditions:

Tax Jurisdiction means (in the case of payments by Crédit Agricole CIB and Crédit Agricole CIB FS) France or any political subdivision or any authority thereof or therein having power to tax or (in the case of payments by Crédit Agricole CIB FL) Luxembourg or any political subdivision or any authority thereof or therein having power to tax.

The **Relevant Date** means the date on which such payment first becomes due, except that, if the full amount of the moneys payable has not been duly received by the Principal Paying Agent or the Registrar, as the case may be, on or prior to such due date, it means the date on which, the full amount of such moneys having been so received, notice to that effect is duly given to the Securityholders in accordance with General Condition 14 (*Notices*).

In the event that the "Gross Up" is specified as not applicable in the applicable Final Terms, the relevant Issuer or, as the case may be, the Guarantor will make payments of nominal and interest to the holders of the Securities, Receipts and Coupons net of withholding or deduction for or on account of any present or future taxes or duties of whatever nature imposed or levied by or on behalf of any jurisdiction.

8.3 FATCA

No additional amounts will be paid by any relevant Issuer, the Guarantor or any Paying Agent on account of any deduction or withholding from a payment on, or in respect of, the Securities where such deduction or withholding is imposed pursuant to any agreement with the U.S. Internal Revenue Service in connection with Sections 1471-1474 of the U.S. Internal Revenue Code, as amended and the U.S. Treasury regulations thereunder (**FATCA**), any intergovernmental agreement between the United States and France, Luxembourg or any other jurisdiction with respect to FATCA, or any law, regulation or other official guidance enacted in any jurisdiction implementing, or relating to, FATCA or any intergovernmental agreement.

In acting under the Agency Agreement, the Agents act solely as agents of the relevant Issuer and the Guarantor and do not assume any obligation to, or relationship of agency or trust with, any Securityholders, Receiptholders, Couponholders or Certificateholders. The Agency Agreement contains provisions permitting any entity into which any Agent is merged or converted or with which it is consolidated or to which it transfers all or substantially all of its assets to become the successor agent.

Where more than one Calculation Agent is appointed in respect of the Securities, references in the Conditions to the Calculation Agent shall be construed as each Calculation Agent performing its respective duties under the Conditions.
- (b) If the Calculation Agent is unable or unwilling to act as such or if the Calculation Agent fails to perform any functions or duty imposed on it by the Conditions or the Calculation Agency Agreement, it shall forthwith notify the relevant Issuer and the relevant Agent and such Issuer shall appoint a leading bank or financial institution engaged in the interbank market (or, if appropriate, money, swap or over-the-counter index options market) that is most closely connected with the calculation or determination to be made by the Calculation Agent (acting through any office actively involved in such market) to act as such in its place. The Calculation Agent may not resign its duties without a successor having been appointed.
- (c) For the avoidance of doubt, nothing in this General Condition 12.2 shall prevent the relevant Issuer from appointing its Affiliate to act as a Calculation Agent in relation to any Series of the Securities.
- (d) If the Calculation Agent does not at any time for any reason determine or calculate the Rate of Interest or the Linked Interest Rate for an Interest Accrual Period or any Interest Amount, the relevant Issuer shall do so (or shall appoint an agent on its behalf to do so) and such determination or calculation shall be deemed to have been made by the Calculation Agent. In doing so, the relevant Issuer shall apply the provisions of General Condition 4 (*Interest*) and General Condition 5 (*Payments*), with any necessary consequential amendments, to the extent that, in its opinion, it can do so, and, in all other respects, it shall do so in such manner as it shall deem fair and reasonable in all the circumstances.
- (e) The relevant Issuer reserves the right at any time to vary or terminate the appointment of the Calculation Agent in accordance with the relevant Calculation Agency Agreement, provided that there will at all times be a Calculation Agent, if so required by the Conditions. Notice of any termination of appointment of the Calculation Agent will be given to Securityholders in accordance with General Condition 14 (*Notices*).
- (f) In relation to each Series of Securities, the Calculation Agent (whether it be the relevant Issuer, its Affiliate or another entity) acts solely as agent of the relevant Issuer and does not assume any obligation or duty to, or any relationship of agency or trust for or with, the Securityholders, the Receiptholders or the Couponholders.
- (g) The Calculation Agent may, with the consent of the relevant Issuer, delegate any of its obligations and functions to a third party as it deems appropriate and any determination or

calculation by any such delegate shall be deemed to be a determination or calculation by the Calculation Agent.

12.3 Determinations

- (a) Unless stated otherwise in the Conditions, all determinations and calculations under the Conditions will be made by the Calculation Agent.
- (b) Any determination, judgment or adjustment made by the relevant Issuer and/or the Calculation Agent pursuant to the Conditions shall (save in the case of manifest error) and to the extent permitted by applicable law, be final, conclusive and binding on the relevant Issuer, the Guarantor, the relevant Agents and the Securityholders, unless otherwise expressly provided in the Conditions.
- (c) In particular, all certificates, communications, opinions, determinations, calculations, quotations and decisions given, expressed, made or obtained for the purposes of the provisions of General Condition 4 (*Interest*) and General Condition 6 (*Redemption and Purchase*), whether by the relevant Agent or, if applicable, the Calculation Agent or the relevant Issuer, shall (in the absence of manifest error), and to the extent permitted by applicable law, be binding on the relevant Issuer, the Guarantor, the Principal Paying Agent, the Calculation Agent (if applicable), the other Paying Agents and all Securityholders, Receiptholders and Couponholders and (in the absence as aforesaid) no liability to the relevant Issuer, the Guarantor, the Securityholders, the Receiptholders or the Couponholders shall attach to the Principal Paying Agent or, if applicable, the Calculation Agent in connection with the exercise or non-exercise by it of its powers, duties and discretions pursuant to such provisions.
- (d) In making any determination, judgment or adjustment pursuant to the Conditions, the relevant Issuer and/or the Calculation Agent shall not have regard to any interests arising from circumstances particular to individual Securityholders (whatever their number) and, in particular but without limitation, shall not have regard to the consequences of any such determination for individual Securityholders (whatever their number) resulting from their being for any purpose domiciled or resident in, or otherwise connected with, or subject to the jurisdiction of, any particular territory or any political sub-division thereof and the Calculation Agent shall not be entitled to require, nor shall any Securityholder be entitled to claim, from the relevant Issuer, the Calculation Agent or any other person any indemnification or payment in respect of any tax consequences of any such determination upon individual Securityholders.
- (e) Unless stated otherwise in the Conditions and subject as provided below, the relevant Issuer or the Calculation Agent is entitled to act in its sole and absolute discretion, but it shall act in good faith. Whenever the Calculation Agent is required to act, make a determination or to exercise judgement in any way as a result of a Benchmark Trigger Event under these Conditions (and notwithstanding any statement to the contrary in the Asset Conditions), it will do so (i) in good faith, in a commercially reasonable manner and by reference to any Relevant Market Data and (ii) in a way that does not (A) result in it being, or will not be, unlawful at any time under any applicable law or regulation to determine the Relevant Benchmark in accordance with any applicable fallback (or it will be unlawful were a determination to be made at such time), (B) contravene any applicable licensing requirements to determine the Relevant Benchmark in accordance with any applicable fallback (or it will not contravene those licensing requirements were a determination to be made at such time) or (C) subject the Calculation Agent, the relevant Issuer, the Guarantor or any of their Affiliates to material additional regulatory obligations.
- (f) If "Essential Trigger" is specified in the applicable Final Terms as being applicable and, notwithstanding anything to the contrary in these General Conditions or the relevant Additional Conditions, the relevant Issuer or the Calculation Agent, as the case may be, may only modify or adjust the terms of the Securities in accordance with these General Conditions or the relevant Additional Conditions, including, as the case may be, the substitution of the Underlying (other than modifications or adjustments that do not relate to essential characteristics of the Securities) or redeem the Securities prior to their Redemption Date in accordance with these General

Conditions or the relevant Additional Conditions, following an event or circumstance (or combination of events or circumstances) that (i) is not attributable to the relevant Issuer and significantly alters the economics of the Securities compared to the economics as of the Issue Date or (ii) constitutes a Force Majeure Event. Any such modification or adjustment of the General Conditions may not create a significant imbalance between the rights and obligations of the parties to the detriment of the Securityholders.

The Securityholders may not be charged any costs for the modification or adjustment of the General Conditions or for the early redemption of the Securities before their Redemption Date.

For the purpose of this General Condition, "essential characteristics" of the Securities means characteristics of the Securities that are considered essential to the Securityholders, including without limitation the yield (coupon structure), the underlying value, whether or not the investment is reimbursed in whole or in part on the relevant redemption date, the identity of the issuer and/or of the guarantor and the scheduled redemption date.

13 EXCHANGE OF TALONS

On and after the Interest Payment Date on which the final Coupon comprised in any Coupon sheet matures, the Talon (if any) forming part of such Coupon sheet may be surrendered at the specified office of the Principal Paying Agent or any other Paying Agent in exchange for a further Coupon sheet including (if such further Coupon sheet does not include Coupons to (and including) the final date for the payment of interest due in respect of the Security to which it appertains) a further Talon, subject to the provisions of General Condition 8 (*Taxation*).

If the applicable Final Terms specify "Contractual Masse", paragraph (C) below shall apply.

(A) Contractual Representation of Holders/No Masse

If the applicable Final Terms specify "Contractual Representation of Holders/No Masse", the following meeting and voting provisions shall apply as follows.

(1) General

Pursuant to Article L.213-6-3 I of the French *Code monétaire et financier*, the Holders shall not be grouped in a masse having separate legal personality and acting in part through a representative of the Holders (*représentant de la masse*) and in part through general meetings;

The following provisions of the French Code de commerce shall apply: Articles L.228-46-1, L.228-57, L.228-58, L.228-59, L.228-60, L.228-60-1, L.228-61 (with the exception of the first paragraph thereof), L.228-65 (with the exception of (i) sub-paragraphs 1°, 3°, 4° and 6° of paragraph I and (ii) paragraph II), L.228-66, L.228-67, L.228-68, L.228-76, L.228-88, R.228-65, R.228-66, R.228-67, R.228-68, R.228-70, R.228-71, R.228-72, R.228-73, R.228-74 and R.228-75. Whenever the words "*de la masse*", "*d'une même masse*", "*par les représentants de la masse*", "*d'une masse*", "*et au représentant de la masse*", "*de la masse intéressée*", "*dont la masse est convoquée en assemblée*" or "*par un représentant de la masse*", appear in those provisions, they shall be deemed to be deleted, and subject to the following provisions of this General Condition 15.2(A)(6).

(2) Resolution

Subject to General Condition 15.2(A)(1), a resolution (the **Resolution**) may be passed (x) at a General Meeting in accordance with the quorum and voting rules described in General Condition 15.2(A)(6) below or (y) by a Written Resolution.

A Resolution may be passed with respect to any matter that relates to the common rights (*intérêts communs*) of the Holders.

A Resolution may be passed on any proposal relating to the modification of the General Conditions including any proposal, (i) whether for a compromise or settlement, regarding rights which are the subject of litigation or in respect of which a judicial decision has been rendered, and (ii) relating to a total or partial waiver of the guarantees granted to the holders, the deferral of any interest payment and the modification of the amortization or interest rate provisions.

For the avoidance of doubt, neither a General Meeting nor a Written Resolution has power, and consequently a Resolution may not be passed to decide on any proposal relating to:

- (a) the modification of the objects or form of the Issuer;
- (b) the potential merger (*fusion*) or demerger (*scission*) including partial transfers of assets (*apports partiels d'actifs*) under the demerger regime of or by the Issuer;

Each Holder is entitled to bring a legal action against the Issuer for the defence of its own interests; such a legal action does not require the authorisation of the General Meeting.

The Holders may appoint a nominee to file a proof of claim in the name of all Holders in the event of judicial reorganisation procedure or judicial liquidation of the Issuer. Pursuant to Article L.228-85 of the French *Code de commerce*, in the absence of such appointment of a nominee, the judicial representative (*mandataire judiciaire*), at its own initiative or at the request of any Holder will ask the court to appoint a representative of the Holders who will file the proof of Holders' claim.

(3) Convening of a General Meeting

A General Meeting may be held at any time, on convocation by the Issuer. One or more Holders, holding together at least one-thirtieth of the principal amount of the Securities outstanding, may address to the Issuer a demand for convocation of the General Meeting. If such General Meeting has not been convened within two months after such demand, the Holders may commission one of their members to petition a competent court in Paris to appoint an agent (*mandataire*) who will call the General Meeting.

Notice of the date, hour, place and agenda of any General Meeting will be published as provided under General Condition 14 (*Notices*), not less than fifteen days prior to the date of such General Meeting on first convocation and, five days on second convocation.

(5) Chairman

The Holders present at a General Meeting shall choose one of them to be chairman (the **Chairman**) by a simple majority of votes present or represented at such General Meeting (notwithstanding the absence of a quorum at the time of such vote). If the Holders fail to designate a Chairman, the Holder holding or representing the highest number of French Law Securities and present at such meeting shall be appointed Chairman, failing which the Issuer may appoint a Chairman. The Chairman appointed by the Issuer need not be a Holder. The Chairman of an adjourned meeting need not be the same person as the Chairman of the original meeting from which the adjournment took place.

(6) Quorum and Voting

General Meetings may deliberate validly on first convocation only if Holders present or represented hold at least one fifth of the principal amount of the French Law Securities then outstanding. On second convocation, no quorum shall be required. Decisions at meetings shall be taken by a simple majority of votes cast by Holders attending (including by videoconference or by any other means of telecommunication allowing the identification of participating Securityholders) such General Meetings or represented thereat.

Holders expressing their approval or rejection before the Written Resolution Date will undertake not to dispose of their French Law Securities until after the Written Resolution Date.

(8) Effect of Resolutions

A Resolution passed at a General Meeting or a Written Resolution (including by Electronic Consent), shall be binding on all Holders, whether or not present or represented at the General Meeting and whether or not, in the case of a Written Resolution (including by Electronic Consent), they have participated in such Written Resolution (including by Electronic Consent) and each of them shall be bound to give effect to the Resolution accordingly.

(B) Full Masse

17 SUBSTITUTION OR ADDITION OF AN ISSUER

17.1 Conditions Precedent to Substitution

The relevant Issuer (such term including, for the purposes of this General Condition 17 only, any company previously substituted pursuant to this General Condition 17.1) may, without the consent of the Securityholders, be replaced and substituted by another company designated by the relevant Issuer or (in the case of Securities issued by Crédit Agricole CIB FS or Crédit Agricole CIB FL) the Guarantor as principal debtor (the **Substituted Debtor**) in respect of the Securities provided that:

- (a)
 - (i) (except with respect to French Law Securities) a deed poll in or substantially in the form scheduled to the Agency Agreement shall be executed by the Substituted Debtor pursuant to which the Substituted Debtor shall undertake in favour of each Securityholder (such term including, for the purposes of this General Condition only, Couponholders and Receiptholders) to be bound by the Terms and Conditions of the Securities and the provisions of the Agency Agreement and the applicable Deed of Covenant as fully as if the Substituted Debtor had been named in the Securities and the Agency Agreement and the applicable Deed of Covenant as the principal debtor in respect of the Securities in place of the relevant Issuer, (ii), save in circumstances where the Substituted Debtor is Crédit Agricole CIB, a guarantee in or substantially in the form scheduled to the Agency Agreement shall be executed by the Issuer (in the case of Securities issued by Crédit Agricole CIB) or the Guarantor (in the case of Securities issued by Crédit Agricole CIB FS or Crédit Agricole CIB FL) pursuant to which the Issuer or the Guarantor (as the case may be) shall irrevocably and unconditionally guarantee in favour of each Securityholder the payment of all sums payable by the Substituted Debtor as such principal debtor and (iii) such other documents (if any) (together with the deed poll and the guarantee above, the **Documents**) shall be executed by the Substituted Debtor, the Issuer or the Guarantor (as the case may be) as may be necessary to give full effect to the substitution;
 - (b) without prejudice to the generality of paragraph (a) above or paragraph (c) below, where the Substituted Debtor is incorporated, domiciled or resident for taxation purposes in a territory other than the relevant Issuer's jurisdiction of incorporation (originally France in the case of Securities issued respectively by Crédit Agricole CIB or Crédit Agricole CIB FS and Luxembourg in the case of Securities issued by Crédit Agricole CIB FL), the Documents shall contain a covenant

by the Substituted Debtor and/or such other provisions as may be necessary to ensure that each Securityholder has the benefit of a covenant in terms corresponding to the provisions of General Condition 8 (*Taxation*) with the substitution for the references to the relevant Issuer's jurisdiction of incorporation of references to the territory or territories in which the Substituted Debtor is incorporated, domiciled and/or resident for taxation purposes so that the Securityholders are placed in no weaker a position by reason of the substitution than they would have been had such substitution not taken place;

- (c) the Documents shall contain a warranty and representation by the Substituted Debtor and the Issuer or the Guarantor (as the case may be) (i) that the Substituted Debtor and the Issuer or the Guarantor (as the case may be) have obtained all necessary governmental and regulatory approvals and consents for such substitution and for the giving by the Issuer or the Guarantor (as the case may be) of a guarantee in respect of the obligations of the Substituted Debtor and the Issuer or the Guarantor (as the case may be) and for the performance by each of the Substituted Debtor and the Issuer or the Guarantor (as the case may be) of its obligations under the Documents and that all such approvals and consents are in full force and effect and (ii) that the obligations assumed by each of the Substituted Debtor and the Issuer or the Guarantor (as the case may be) under the Documents are all legal, valid and binding in accordance with their respective terms;
- (d) each stock exchange or market on which the Securities are listed or admitted to trading shall have confirmed that following the proposed substitution of the Substituted Debtor the Securities will continue to be listed on such stock exchange;
- (e) the Substituted Debtor shall have delivered, or procured the delivery, to the Principal Paying Agent of a legal opinion from a leading firm of lawyers acting for the Substituted Debtor to the effect that the Documents will upon execution constitute legal, valid and binding obligations of the Substituted Debtor, such opinion to be dated not more than seven (7) days prior to the date of the substitution of the Substituted Debtor for the Issuer and to be available for inspection by Securityholders at the specified office of the Principal Paying Agent;
- (f) the Issuer or the Guarantor (as the case may be) shall have delivered, or procured the delivery, to the Principal Paying Agent of a legal opinion from a leading firm of lawyers acting for the Issuer or the Guarantor (as the case may be) to the effect that the Documents (including, if applicable, the guarantee given by the Issuer or the Guarantor (as the case may be) in respect of the Substituted Debtor) will upon execution constitute legal, valid and binding obligations of the Issuer or the Guarantor (as the case may be), such opinion to be dated not more than seven (7) days prior to the date of substitution of the Substituted Debtor for the Issuer and to be available for inspection by Securityholders at the specified office of the Principal Paying Agent;
- (g) the Issuer or the Guarantor (as the case may be) shall have delivered, or procured the delivery, to the Principal Paying Agent of a legal opinion from a leading firm of English lawyers and/or French lawyers (as applicable) to the effect that the Documents (including, if applicable, the guarantee given by the Issuer or the Guarantor (as the case may be) in respect of the Substituted Debtor) will upon execution constitute legal, valid and binding obligations of the parties thereto under English law or French law (as applicable), such opinion to be dated not more than seven (7) days prior to the date of substitution of the Substituted Debtor for the Issuer and to be available for inspection by Securityholders at the specified office of the Principal Paying Agent;

- (i) in the case of Swedish Securities or Finnish Securities, the Swedish CSD or the Finnish CSD has given its consent to the substitution (which consent shall not be unreasonably withheld or delayed); and
- (j) where "Essential Trigger" is specified as applicable in the applicable Final Terms, the following conditions shall apply:
 - (i) the Substituted Debtor shall be an affiliate of the Issuer or the Guarantor (as the case may be);

 - (iii) the Documents shall contain an undertaking by the Substituted Debtor that it will indemnify the Securityholders against the adverse financial impact of the tax and regulatory regime to which it is subject;
 - (iv) the Substituted Debtor shall have at least the same long-term rating as that of Issuer or the Guarantor (as the case may be) at the time of the substitution; and
 - (v) the Securityholders are not charged any costs relating to the substitution.

17.2 Assumption by Substituted Debtor

Upon execution of the Documents as referred to in General Condition 17.1(a), and subject to the other requirements therein having been met, (a) the Substituted Debtor shall be deemed to be named in the Securities as the principal debtor in place of the relevant Issuer, (b) the Securities, the applicable Deed of Covenant and the Agency Agreement shall thereupon be deemed to be amended to give effect to the substitution including (where the context allows) substituting references to the relevant Issuer's jurisdiction of incorporation (originally France in the case of Securities issued respectively by Crédit Agricole CIB and Crédit Agricole CIB FS and Luxembourg in the case of Securities issued by Crédit Agricole CIB FL) with references to the Substituted Debtor's jurisdiction of incorporation and (c) the relevant Issuer shall be released as issuer from (i) in the case of Securities issued by Crédit Agricole CIB, all of its obligations as principal debtor in respect of the Securities or (ii) in the case of Securities issued by Crédit Agricole CIB FS or Crédit Agricole CIB FL, all of its obligations in respect of the Securities.

17.3 Deposit of Documents

The Documents shall be deposited with and held by the Principal Paying Agent for so long as any Security remains outstanding and for so long as any claim made against the Substituted Debtor, the relevant Issuer or (in the case of Securities issued by Crédit Agricole CIB FS or Crédit Agricole CIB FL) the Guarantor by any Securityholder in relation to the Securities or the Documents shall not have been finally adjudicated, settled or discharged. The Substituted Debtor and the relevant Issuer or the Guarantor (as the case may be) shall acknowledge in the Documents the right of every Securityholder to production of the Documents for the enforcement of any of the Securities or the Documents. In the case of Securities listed on a stock exchange, the appropriate documentation will be filed with the relevant stock exchange.

17.4 Notice of Substitution

Not more than 15 days after execution of the Documents, the Substituted Debtor shall give notice thereof to the Securityholders in accordance with General Condition 14 (*Notices*). For the avoidance of doubt, non-delivery of such notice shall not invalidate the substitution.

17.5 Tax consequences

In connection with such right of change or substitution an Issuer shall not be obliged to have regard to the consequences of the exercise of such right for individual Securityholders resulting from their being for

any purpose domiciled or resident in, or otherwise connected with, or subject to the jurisdiction of, any particular territory, and no Securityholder shall be entitled to claim from the relevant Issuer any indemnification or payment in respect of any tax consequence of any such change or substitution upon such Securityholder.

17.6 Optional Substitution of the Guarantor

- (a) If Securities issued by Crédit Agricole CIB FS or Crédit Agricole CIB FL pursuant to this Programme are guaranteed by Crédit Agricole CIB, Crédit Agricole S.A. may be substituted for Crédit Agricole CIB in its capacity as Guarantor for one or more categories of Securities and the related Receipts, Coupons and Talons, upon a joint decision by Crédit Agricole S.A. and Crédit Agricole CIB, without the consent of Securityholders, Receiptholders and Couponholders. As indicated in the 2020 Universal Registration Document, paragraph 1.3 "Group affiliation mechanism" of Chapter 6 "Consolidated financial statements at 31 December 2020" on page 282 to 283, Crédit Agricole S.A. is the parent company of Crédit Agricole CIB and the central body of the Crédit Agricole Network with which Crédit Agricole CIB is affiliated. If Crédit Agricole S.A. and Crédit Agricole CIB decide to substitute Crédit Agricole S.A. for Crédit Agricole CIB in its capacity as guarantor for one or more categories of Securities (hereafter, in such capacity, the **Substituted Guarantor**), Crédit Agricole CIB must notify the holders of such Securities in accordance with the provisions of General Condition 14 (*Notices*) at least thirty (30) days and not more than sixty (60) days in advance and, immediately after the expiration of such notification, the Substituted Guarantor will become the Guarantor for the Securities, Receipts, Coupons and Talons in place of Crédit Agricole CIB, and the Securityholders, Receiptholders and Couponholders will immediately cease to hold any rights or claims on Crédit Agricole CIB. However, no such substitution will take place:
- (i) if Crédit Agricole S.A. does not have at least the same long-term rating as that of Crédit Agricole CIB at the time of the substitution;
 - (ii) if there are payment arrears or there are indications of imminent payment arrears or of payment problems or repayment problems for the principal and interest;
 - (iii) unless Crédit Agricole S.A. undertakes (A) to hold Securityholders harmless from disadvantageous financial consequences of a difference in the tax and regulatory regime to which Crédit Agricole S.A. is or may be subject and (B) not to pass on to Securityholders the costs associated with the substitution;
 - (iv) if, on the date of such substitution, it results in payments that should be made pursuant to the Securities being subject to a withholding tax or a deduction that should not have been imposed in the absence of such substitution;
 - (v) before Crédit Agricole S.A. grants an unconditional and irrevocable guarantee, substantially in the form of the Guarantee, with respect to Crédit Agricole CIB's obligations; and
 - (vi) in any event, before Crédit Agricole S.A. concludes any amendments and/or other agreements that may be necessary in order for Crédit Agricole S.A. to be bound by valid and legally binding obligations identical to the valid and legally binding obligations that bound Crédit Agricole CIB pursuant to contractual documents relating to the Securities, Receipts, Coupons and Talons (other than the Guarantee).
- (b) In the event of a substitution taking place in accordance with this General Condition 17.6, a supplement to the Base Prospectus will be published by the Issuer relating to the conditions of the guarantee granted by Crédit Agricole S.A. and the description of Crédit Agricole S.A.
- (c) In the event of a substitution taking place under these conditions and at the effective date of the substitution:

- (i) any reference to Crédit Agricole CIB as Guarantor, for the purposes of conditions applicable to Securities, Receipts, Coupons and Talons and related contractual documents, will be deemed to be a reference to Crédit Agricole S.A.; and
 - (ii) any reference to the Guarantee, for the purposes of conditions applicable to Securities, Receipts, Coupons and Talons and related contractual documents, will be deemed to be a reference to the guarantee granted by Crédit Agricole S.A. for the Securities, Receipts, Coupons and Talons.
- (d) For the purposes of this General Condition 17.6, it is expressly agreed that by subscribing to, acquiring or purchasing the Securities by any means, Securityholders, Receiptholders and Couponholders are deemed to have expressly agreed to Crédit Agricole S.A.'s substitution for Crédit Agricole CIB and to Crédit Agricole CIB's release from any of its obligations with respect to the Securities and any related agreements, and are expressly deemed to have accepted such substitution and its consequences.

18 REPRESENTATIONS AND ACKNOWLEDGEMENTS

EACH SECURITYHOLDER (BEING IN THE CASE OF SECURITIES HELD BY A NOMINEE OR HELD IN A CLEARING SYSTEM, THE BENEFICIAL OWNER OF THE SECURITIES), BY SUBSCRIBING FOR OR PURCHASING THE SECURITIES OR AN INTEREST IN THE SECURITIES, CONFIRMS THAT ALL OF THE FOLLOWING STATEMENTS WITH RESPECT TO THAT SECURITYHOLDER ARE TRUE AND CORRECT ON THE DATE OF THE SUBSCRIPTION OR PURCHASE OF THE SECURITIES:

18.1 In the case of Securities generally:

- (a) The Securityholder is solely responsible for making its own independent appraisal of an investigation into the relevant Issuer and any other member of the Crédit Agricole CIB group of companies (the **Group**). Except for the publication of the Base Prospectus and any supplements thereto, the Securityholder does not and will not rely on the relevant Issuer or any other member

of the Group to provide it with any additional information relating to the relevant Issuer or any other member of the Group.

- (b) The Securityholder's purchase of the Securities (i) is fully consistent with its financial needs, objectives and condition, (ii) complies with all applicable investment policies, guidelines and restrictions, and (iii) is a fit, proper and suitable investment for it, notwithstanding the clear and potentially substantial risks inherent in investing in or holding the Securities. The Securityholder has taken sufficient independent professional advice, as appropriate, to make its own evaluation of the legality, merits and risks of investment in the Securities.
- (c) The Securityholder is not relying on any communication (written or oral) from the relevant Issuer or any member of the Group as investment advice or as a recommendation to purchase the Securities.
- (d) The Securityholder acknowledges that neither the relevant Issuer nor any other member of the Group is acting as a fiduciary or adviser or as an agent of the Securityholder in respect of the Securities.
- (e) The Securityholder's subscription or purchase of the Securities is lawful under the laws of the jurisdiction of its incorporation and the jurisdiction in which it operates (if different), and such subscription or purchase does not contravene any law or regulation applicable to it.
- (f) The Securityholder acknowledges that no communication (written or oral) received from any member of the Group shall be deemed to be an assurance or guarantee as to the expected results or performance of the Securities. The Securityholder acknowledges that the amount of nominal to be repaid on the Redemption Date may be less than the stated nominal amount of the Securities or may even be zero.
- (g) The Securityholder acknowledges and agrees that any term sheet with respect to the Securities that it received on or prior to the issue date is superseded in its entirety by the Base Prospectus together with the applicable Final Terms, which solely constitute the legally binding terms and conditions of the Securities.
- (h) The Securityholder (except where the Securityholder is acting as dealer appointed under the Programme) is purchasing the Securities as principal for its own account and/or for subsequent transfer to the account of third parties.
- (i) Where a Securityholder is acting as a dealer appointed under the Programme or as a distributor of Securities and acquires Securities at a price that is lower than the issue price and/or receives a placement fee in relation to a transaction, the dealer or distributor is solely responsible for making adequate disclosure to investors as required by applicable law, regulation, rule or best market practice.
- (j) In connection with any subsequent transfer of the Securities by the Securityholder to any third party, the Securityholder agrees that it will: (i) be solely responsible for assessing the suitability and appropriateness of the Securities for that third party; (ii) comply with all relevant laws, regulations and rules affecting the transfer and have obtained any governmental or other consents or approvals required to sell to the third party (including, without limitation any laws, regulations and rules that pertain to "know your customer", anti-money laundering, anti-terrorism and bribery); (iii) not represent itself to be in a partnership, association, joint venture or acting as agent with or for any member of the Group in connection with the transfer; (iv) ensure that any transferee receives or is given access to sufficient documentation with respect to the Securities prior to any transfer; and (v) conduct any transfer in accordance with any sales restrictions specified in the Base Prospectus.

18.2 In addition, in the case of Index Linked Securities and Inflation Linked Securities:

The amounts payable in respect of nominal and/or interest (as the case may be) are determined by a formula linked to the level of an Index or Inflation Index. Movements in the level of the Index or Inflation

Index may therefore adversely affect the amount of nominal and/or interest to be repaid to the Securityholder and may also adversely affect the market value of the Securities prior to maturity. The amount of nominal to be repaid on the Redemption Date may be less than the stated nominal amount of the Securities or may even be zero.

18.3 In addition, in the case of Credit Linked Securities:

- (a) The Securityholder is, and will at all times continue to be, responsible for making its own: (i) independent appraisal of an investigation into the business, financial condition, prospects, creditworthiness, status and affairs of any Reference Entity or Underlying Obligor (collectively referred to as **Relevant Entities** and each of them, a **Relevant Entity**); and (ii) its own independent appraisal of any obligations of a Relevant Entity that come within the definition of "*Obligation*", "*Reference Obligation*", "*Deliverable Obligation*" and "*Underlying Obligation*" (collectively referred to as **Relevant Obligations** and each of them, a **Relevant Obligation**).
- (b) The Securityholder has not relied, and will not at any time rely, on the relevant Issuer or any other member of the Group (i) to provide it with any information relating to, or to keep under review on its behalf, the business, financial condition, prospects, creditworthiness, status or affairs of any Relevant Entity or conduct any investigation or due diligence with respect to the Relevant Entity or any Relevant Obligation or (ii) to determine whether or not a Credit Event or an event or circumstance which, with the giving of notice or the lapse of time or both, could constitute a Credit Event.
- (c) In issuing the Securities, the relevant Issuer is not making, and has not made, any representation whatsoever as to any Relevant Entity, any Relevant Obligation on which it is relying or is entitled to rely.
- (d) The Securityholder acknowledges that the Securities do not represent or convey any interest in the Reference Obligation or in any other Relevant Obligations or any direct or indirect obligation of any Relevant Entity to the Securityholder and that the relevant Issuer is not an agent of the Securityholder for any purpose.
- (e) Any member of the Group may (i) deal in any Relevant Obligation; (ii) accept deposits from, make loans or otherwise extend credit to, and generally engage in any kind of commercial or investment banking or other business with, any Relevant Entity, or its Affiliates or any other person or entity having obligations relating to any Relevant Entity or any Relevant Obligation; and (iii) act with respect to such business freely and without accountability to the Securityholder in the same manner as if the Securities did not exist, regardless of whether any such action might have an adverse effect on any Relevant Obligation, any Relevant Entity or the Securities or on such Securityholder or otherwise (including, without limitation, any action that might give rise to a Credit Event).
- (f) Any member of the Group may be, whether by virtue of the types of relationships described above or otherwise, at any time, in possession of information in relation to any Relevant Obligation or any Relevant Entity which is or may be material in the context of the Securities and which is or may not be known to the general public or the Securityholder. The Securities do not create any obligation on the part of any member of the Group to disclose to the Securityholder any such relationship or information (whether or not confidential) and no member of the Group shall be liable to the Securityholder by reason of such non-disclosure.
- (g) The Securityholder has decided to enter into an investment in the Securities notwithstanding that any member of the Group may hold and/or be contractually prohibited from disclosing to the Securityholder, by virtue of any agreement or otherwise, the information described in General Condition 18.3(f) above.
- (h) Neither the relevant Issuer nor any member of the Group shall have any liability to the Securityholder and the Securityholder waives and releases any claims that it might have against the relevant Issuer or any member of the Group, whether under applicable securities law or

otherwise, with respect to the non-disclosure of any information described in General Condition 18.3(f) above in connection with the Securities; provided however that such information does not and shall not affect the truth or accuracy of any representation made by the relevant Issuer to the Securityholders in any agreement entered into between the relevant Issuer and Securityholder(s).

- (i) The Securityholder acknowledges that the terms and conditions of the Securities are binding upon it, irrespective of the existence or amount of the relevant Issuer's, the Securityholder's or any person's credit exposure to any Reference Entity, and the relevant Issuer need not suffer any loss or provide evidence of any loss as a result of the occurrence of a Credit Event.

18.4 In addition, in the case of Commodity Linked Securities:

The amounts payable in respect of nominal and/or interest (as the case may be) are determined by a formula linked to the value of a commodity. Movements in the value of the commodity may therefore adversely affect the amount of nominal and/or interest to be repaid to the Securityholder and may also adversely affect the market value of the Securities prior to maturity. The amount of nominal to be repaid on the Redemption Date may be less than the stated nominal amount of the Securities or may even be zero.

This General Condition 19 will apply to the Securities if so specified in the applicable Final Terms.

- (b) otherwise, any event beyond the reasonable control of the relevant Issuer and/or the Guarantor (as applicable), including, without limitation,

19.2 Payment

Upon the termination of the Securities as aforesaid, the relevant Issuer will, in respect of each Security, cause to be paid to the Securityholder the Fair Market Value Redemption Amount. Payment will be made in such manner as shall be notified to the Securityholders in accordance with General Condition 14 (*Notices*).

References in these Commodity Linked Asset Conditions to a Commodity Linked Asset Condition are to a section or clause of these Commodity Linked Asset Conditions.

1 COMMODITY LINKED SECURITIES

Unless the Securities are redeemed early in accordance with these Commodity Linked Asset Conditions, if the determination of (A) the Interest Amount (in the case of Commodity Linked Interest Securities) or (B) (I) the Final Redemption Amount, (II) the Early Redemption Amount or (III) the Instalment Redemption Amount (in the case of Commodity Linked Redemption Securities), as the case may be, is postponed as a result of the occurrence of a Market Disruption Event, then:

- (a) payment of any such amount (the **Affected Amount**) will be made on the scheduled date for payment of such amount or, if later, on the date falling two (2) Payment Extension Days (or such other number of Payment Extension Days as specified in the applicable Final Terms) following the earlier to occur of (i) the Commodity Determination Date; and (ii) the Disruption Longstop Date; and
- (b) such Affected Amount shall be paid without any interest or other sum payable in respect of the postponement of the payment of the Affected Amount.

Averaging Disruption Longstop Date means, in respect of the occurrence of a Disrupted Day, the last Commodity Business Day in the sequence of consecutive Commodity Business Days equal to the Maximum Days of Disruption immediately following the original date that, but for the occurrence of another Averaging Date or Disrupted Day, would have been the final Averaging Date in respect of the relevant Scheduled Observation Date.

If four quotations are provided as requested, the price for that date will be the arithmetic mean of the Specified Prices for that Commodity provided by each Reference Dealer, without regard to the Specified Prices having the highest and lowest values. If exactly three quotations are provided as requested, the price for that date will be the Specified Price provided by the relevant Reference Dealer that remains after disregarding the Specified Prices having the highest and lowest values. For this purpose, if more than one quotation has the same highest value and lowest value, then the Specified Price of one of such quotations shall be disregarded. If fewer than three quotations are provided, it will be deemed that the price for the date cannot be determined.

Commodity Reference Price means, in respect of any Commodity and as indicated in the applicable Final Terms, the price (A) determined by the Commodity Reference Dealers or (B) defined by specifying in the Final Terms:

Trade Date means the date specified as such in the applicable Final Terms.

Trading Disruption means the material suspension of, or the material limitation imposed on, trading in the Futures Contract or the relevant Commodity on the relevant Exchange or in any additional futures contract, options contract or commodity on any Exchange. For these purposes:

3 EVENTS RELATING TO COMMODITY LINKED SECURITIES

3.1 Market Disruption Events

Market Disruption Event means, with respect to a Commodity, any of the following events as may be specified in the applicable Final Terms:

- (a) Price Source Disruption;
- (b) Trading Disruption;
- (c) Disappearance of Commodity Reference Price;
- (d) Material Change in Formula;
- (e) Material Change in Content; or
- (f) Tax Disruption.

The occurrence of a Market Disruption Event shall be determined by the Calculation Agent in good faith.

3.2 Consequences of the occurrence of Disrupted Days

- (a) If, in the case of Commodity Linked Securities relating to a single Commodity, an Observation Date is a Disrupted Day, then the Calculation Agent may:
 - (i) postpone the Observation Date, in which case the Observation Date shall be the next Commodity Business Day which is not a Disrupted Day (the **Commodity Determination Date**), unless each consecutive Commodity Business Day up to and including the Disruption Longstop Date is a Disrupted Day, in which case (A) the Disruption Longstop Date shall be deemed to be the Observation Date, notwithstanding the fact that such day is a Disrupted Day and (B) the Calculation Agent shall determine, in good faith, the Relevant Price for such Observation Date; or
 - (ii) determine the Relevant Price (or a method for determining a Relevant Price) for such day, taking into consideration the latest available quotation for the relevant Commodity Reference Price and any other information that in good faith it deems relevant.
- (b) If, in the case of Commodity Linked Securities relating to a Basket of Commodities, an Observation Date is a Disrupted Day, then:
 - (i) if "Common Pricing" is specified in the applicable Final Terms to be applicable, no date will be an Observation Date unless such date is a day on which all referenced Commodity Reference Prices (for which such date would otherwise be an Observation Date) are published or announced; or
 - (ii) if "Common Pricing" is specified in the applicable Final Terms to be not applicable, (1) for each Commodity not affected by the occurrence of a Disrupted Day, the Observation Date shall be the Scheduled Observation Date; and (2) for each Commodity affected by the occurrence of a Disrupted Day (each an **Affected Commodity**), the Calculation Agent may:
 - (A) postpone the Observation Date, in which case the Observation Date shall be the Commodity Determination Date relating to such Affected Commodity, unless each consecutive Commodity Business Day up to and including the Disruption Longstop Date is a Disrupted Day relating to such Affected Commodity, in which case (I) the Disruption Longstop Date shall be deemed to be the Observation Date, notwithstanding the fact that such day is a Disrupted Day relating to the relevant Affected Commodity and (II) the Calculation Agent shall determine for such day, in good faith, the fair market value of the relevant Affected Commodity; in case of multiple Affected Commodities, the latest Commodity Determination Date will be the Commodity Determination Date for the purpose of Commodity Linked Asset Condition 1(a) above; or
 - (B) determine the Relevant Price (or a method for determining a Relevant Price) for the Relevant Affected Commodity, taking into consideration the latest available quotation for the relevant Commodity Reference Price and any other information that in good faith it deems relevant.
- (c) If the Calculation Agent is not able to or does not determine the Relevant Price in accordance with Commodity Linked Asset Condition 3.2(a) or Commodity Linked Asset Condition 3.2(b) above, as the case may be, or if such determination would not, in the opinion of the Calculation Agent, account for the occurrence of the Disrupted Day:
 - (i) the Calculation Agent may make such adjustments to any of the Conditions as it considers appropriate to account for any such Market Disruption Event and determine

the date(s) on which any such adjustments will be effective; in making any such adjustments, the Calculation Agent may take into account the equivalent adjustment(s) which would be made to a commodity derivative transaction in the interbank market following the relevant event occurring and where the Calculation Agent deems appropriate (in its sole and absolute discretion), adjust the Conditions to give effect to such adjustment(s); or

- (ii) if the Calculation Agent is not able to or does not determine any adjustments for the purposes of sub-paragraph (i) above, the Issuer may, in its sole and absolute discretion, upon giving notice to the Securityholders in accordance with General Condition 14 (*Notices*), redeem all but not some only of the Securities, each Security being redeemed by payment of an amount equal to the Fair Market Value Redemption Amount. Payments will be made in such manner as shall be notified to the Securityholders in accordance with General Condition 14 (*Notices*).
- (d) Notwithstanding the foregoing, if "Essential Trigger" is specified in the applicable Final Terms as being applicable, the General Conditions 6.8 and 12.3(f) will apply.
- (e) The Calculation Agent shall give notice as soon as practicable to the Securityholders in accordance with General Condition 14 (*Notices*) of the occurrence of a Disrupted Day on any Observation Date. Such notice shall give the details of such Disrupted Day and the action proposed to be taken by the Calculation Agent in relation thereto.

3.3 Averaging Date Disruption

If any Averaging Date is a Disrupted Day, then, where the consequence specified for "Averaging Date Disruption" in the applicable Final Terms is:

- (a) "Omission", then such Averaging Date will be deemed not to be a relevant Averaging Date for purposes of determining the relevant Commodity Reference Price, and if through the operation of this provision no Averaging Date would occur with respect to the relevant Observation Date, Commodity Linked Asset Condition 3.2 will apply for purposes of determining the relevant price or amount on the final Averaging Date in respect of that Observation Date as if such final Averaging Date were an Observation Date that was a Disrupted Day;
- (b) "Postponement", then Commodity Linked Asset Condition 3.2 will apply for purposes of determining the relevant price or amount on that Averaging Date as if such Averaging Date were an Observation Date that was a Disrupted Day, irrespective of whether, pursuant to such determination, that deferred Averaging Date would fall on a date that already is or is deemed to be an Averaging Date for the relevant Commodity; or
- (c) "Modified Postponement", then:
 - (i) in the case of a Basket of Commodities, the Averaging Date for each Commodity not affected by the occurrence of a Disrupted Day shall be the date specified in the applicable Final Terms as an Averaging Date in respect of the relevant Observation Date and the Averaging Date for any Commodity affected by the occurrence of a Disrupted Day shall be the first succeeding Commodity Business Day in relation to such Commodity, and if the first succeeding Commodity Business Day has not occurred prior to the Averaging Disruption Longstop Date, then (A) the Averaging Disruption Longstop Date shall be deemed the Averaging Date (irrespective of whether such day is already an Averaging Date), and (B) the Calculation Agent shall determine the relevant price or amount for that Averaging Date in accordance with Commodity Linked Asset Condition 3.2; and
 - (ii) otherwise, the Averaging Date shall be the first succeeding Commodity Business Day, and if the first succeeding Commodity Business Day has not occurred prior to the

Averaging Disruption Longstop Date, then (A) the Averaging Disruption Longstop Date shall be deemed the Averaging Date (irrespective of whether such day is already an Averaging Date), and (B) the Calculation Agent shall determine the relevant price or amount for that Averaging Date in accordance with Commodity Linked Asset Condition 3.2.

3.4 Correction to Published Prices

- (a) For purposes of determining or calculating the Relevant Price for any day, if "Correction of Commodity Prices" is specified in the applicable Final Terms to be applicable and the price published or announced on a given day and used or to be used by the Calculation Agent to determine the Relevant Price in respect of that day is subsequently corrected and the correction (the **Corrected Relevant Price**) is published or announced by the person responsible for that publication or announcement prior to the relevant Correction Cut-Off Date specified in the applicable Final Terms, the Calculation Agent, in its sole discretion, shall determine what, if any, adjustments to make to the Relevant Price for that day, using such corrected price. For the avoidance of doubt, any Corrected Relevant Price published on or after the relevant Correction Cut-Off Date shall be disregarded. Notwithstanding the foregoing, if "Essential Trigger" is specified in the applicable Final Terms as being applicable, General Condition 12.3(f) will apply.
- (b) The Calculation Agent shall notify the relevant Issuer of any such correction, the revised Relevant Price and, if any amount (the **Actual Amount**) has been paid to Securityholders on the basis of the original Relevant Price, the amount that should have been paid or delivered to the Securityholders on the basis of the corrected Relevant Price (the **Adjusted Amount**). Upon being notified of the Adjusted Amount, the relevant Issuer may (but shall not be obligated to) take such action as it considers necessary or appropriate to either pay additional amounts (if the Adjusted Amount is greater than the Actual Amount) or recover amounts (if the Adjusted Amount is less than the Actual Amount) from the person to whom the Actual Amounts were paid (including, for the purposes of recoveries by the relevant Issuer, by deducting from each Interest Amount payable on the next following Interest Payment Date (if any) an amount equal to each Security's *pro rata* share of an amount equal to the Actual Amount minus the Adjustment Amount, provided that each Interest Amount shall be subject to a minimum of zero). Notwithstanding the foregoing, under no circumstances shall the relevant Issuer be obligated to recover any moneys from any relevant Clearing System. The Calculation Agent shall not be obliged to make any determination under this paragraph (b) and shall have no liability to any person for any determination made or not made under this paragraph (b).
- (c) Notwithstanding the foregoing, where the Calculation Agent, in its sole discretion, determines that the price published or announced on a given day and used or to be used by it to determine the Relevant Price in respect of that day is expected to be subsequently corrected, then the Calculation Agent may, in its sole discretion, delay the determination or calculation of the Relevant Price in respect of such day and instead notify the relevant Issuer of the expected correction. If the Calculation Agent notifies the relevant Issuer of an expected correction to a Relevant Price, the relevant Issuer shall not make any payments until the Calculation Agent determines or calculates the correct Relevant Price and the day on which such payments are due shall be delayed to the same extent as was the determination or calculation of the correct Relevant Price. No additional amounts shall be payable as a result of any such delay.

3.5 Additional Disruption Events

without limitation, commodity price risk, foreign exchange risk and interest rate risk) of the relevant Issuer or the Guarantor, (if applicable), in issuing and performing its obligations with respect to the Securities, or (b) realise, recover or remit the proceeds of any such transaction(s) or asset(s), provided that any such materially increased amount that is incurred solely due to the deterioration of the creditworthiness of the relevant Issuer, the Guarantor, (if applicable) and/or any of their respective Affiliates shall not be deemed an Increased Cost of Hedging.

(b) Consequences of the occurrence of an Additional Disruption Event

Where "Additional Disruption Event" is specified in the applicable Final Terms as being applicable and if an Additional Disruption Event occurs, the relevant Issuer in its sole and absolute discretion may:

- (i) require the Calculation Agent to make such adjustments to any of the Conditions as it considers appropriate in its sole and absolute discretion to account for such Additional Disruption Event and determine the date(s) on which any such adjustments will be effective; or
- (ii) upon giving notice to the Securityholders in accordance with General Condition 14 (*Notices*), redeem all but not some only of the Securities, each Security being redeemed by payment of an amount equal to the Fair Market Value Redemption Amount. Payments will be made in such manner as shall be notified to the Securityholders in accordance with General Condition 14 (*Notices*).

Upon the occurrence of an Additional Disruption Event, the relevant Issuer shall give notice as soon as practicable to the Securityholders in accordance with General Condition 14 (*Notices*) stating the occurrence of the Additional Disruption Event, giving details thereof and the action proposed to be taken in relation thereto.

3.6 Other Events

This Condition will apply to the Securities unless specified as being not applicable in the applicable Final Terms. Notwithstanding the foregoing provisions of these Commodity Linked Asset Conditions, if any other event occurs which the Calculation Agent determines, acting in good faith, has a material effect on the Securities, then:

- (a) the Calculation Agent may make such adjustments to any of the Conditions as it considers appropriate to account for any such event and determine the date(s) on which any such adjustments will be effective; or
- (b) the relevant Issuer may, upon giving notice to the Securityholders in accordance with General Condition 14 (*Notices*), redeem all but not some only of the Securities, each Security being redeemed by payment of an amount equal to the Fair Market Value Redemption Amount. - (A) in the case of Index Linked Securities relating to a single Index, the Calculation Agent will postpone the Observation Date, in which case the Observation Date shall be the first immediately succeeding Scheduled Trading Day that is not a Disrupted Day (the **Index Determination Date**), unless each consecutive Scheduled Trading Day up to and including the Disruption Longstop Date is a Disrupted Day, in which case (I) the Disruption Longstop Date shall be deemed to be the Observation Date, notwithstanding the fact that such day is a Disrupted Day and (II) the Calculation Agent shall determine the level of the Index as of the Valuation Time on the Disruption Longstop Date, in the case of an Equity Index, in accordance with the formula for and method of calculating the Equity Index last in effect prior to the occurrence of the first Disruption Day using the Exchange traded or quoted price as of the Valuation Time on the Disruption Longstop Date of each security comprised in the Equity Index (or, if an event giving rise to a Disrupted Day has occurred in respect of the relevant security on the Disruption Longstop Date, its good faith estimate of the value of the relevant security as of the Valuation Time on that Disruption Longstop Date) or, in the case of a Custom Index, in accordance with the rules governing the Custom Index; and
 - (B) in the case of Index Linked Securities relating to a Basket of Indices:
 - (I) for each Index not affected by the occurrence of a Disrupted Day, the Observation Date shall be the Scheduled Observation Date; and
 - (II) for each Index affected by the occurrence of a Disrupted Day (each an **Affected Index**), the Calculation Agent will postpone the Observation Date, in which case the Observation Date shall be the Index Determination Date relating to such Affected Index, unless each consecutive Scheduled Trading Day up to and including the Disruption Longstop Date is a Disrupted Day relating to such Affected Index, in which case (1) the Disruption Longstop Date shall be deemed to be the Observation Date for the relevant Affected Index, notwithstanding the fact that such day is a Disrupted Day and (2) the Calculation Agent shall determine the level of the relevant Affected Index as of the Valuation Time on the Disruption Longstop Date, in the case of an Equity Index, in accordance with the formula for and method of calculating the Affected Index last in effect prior to the occurrence of the first Disrupted Day using the Exchange traded or quoted price as of the Valuation Time on the Disruption Longstop Date of each security comprised in the Affected Index (or, if an event giving rise to a Disrupted Day has occurred in respect of the relevant security on the Disruption Longstop Date, its good faith estimate of the value of the relevant security as of the Valuation Time on that Disruption Longstop Date) or, in the case of a Custom Index, in accordance with the rules governing the Custom Index; in case of multiple Affected Indices, the latest Index Determination Date will be the Index Determination Date for the purpose of Index Linked Asset Condition 1(a) above.
- (ii) If the Calculation Agent is not able to or does not determine the level of the Index in accordance with Index Linked Asset Condition 3.1(b)(i)(A) or Index Linked Asset Condition 3.1(b)(i)(B) above, as the case may be, or if such determination would not, in the opinion of the Calculation Agent, account for the occurrence of the Disrupted Day:

- (A) the Calculation Agent may make such adjustments to any of the Conditions as it considers appropriate to account for any such Disrupted Day and determine the date(s) on which any such adjustments will be effective. In making any such adjustments, the Calculation Agent may take into account the equivalent adjustment(s) which would be made to an index derivative transaction in the market following the relevant event occurring and where the Calculation Agent deems appropriate (in its sole and absolute discretion), adjust the Conditions to give effect to such adjustment(s); or
- (B) if the Calculation Agent is not able to or does not determine any adjustments for the purposes of sub-paragraph (A) above, the Issuer may, in its sole and absolute discretion, upon giving notice to the Securityholders in accordance with General Condition 14 (*Notices*), redeem all but not some only of the Securities, each Security being redeemed by payment of an amount equal to the Fair Market Value Redemption Amount. Payments will be made in such manner as shall be notified to the Securityholders in accordance with General Condition 14 (*Notices*).
- (iii) The Calculation Agent shall give notice as soon as practicable to the Securityholders in accordance with General Condition 14 (*Notices*) of the occurrence of a Disrupted Day on an Observation Date. Such notice shall give the details of such Disrupted Day and the action proposed to be taken by the Calculation Agent in relation thereto.
- (iv) Notwithstanding the foregoing, if "Essential Trigger" is specified in the applicable Final Terms as being applicable, General Conditions 6.8 and 12.3(f) will apply.
- (c) Averaging Date Disruption

If any Averaging Date is a Disrupted Day, then, where the consequence specified for "Averaging Date Disruption" in the applicable Final Terms is:

- (i) "Omission", then such Averaging Date will be deemed not to be a relevant Averaging Date for purposes of determining the relevant Index Level, and if through the operation of this provision no Averaging Date would occur with respect to the relevant Observation Date, Index Linked Asset Condition 3.1(b) will apply for purposes of determining the relevant price or amount on the final Averaging Date in respect of that Observation Date as if such final Averaging Date were an Observation Date that was a Disrupted Day;
- (ii) "Postponement", then Index Linked Asset Condition 3.1(b) will apply for purposes of determining the relevant price or amount on that Averaging Date as if such Averaging Date were an Observation Date that was a Disrupted Day, irrespective of whether, pursuant to such determination, that deferred Averaging Date would fall on a date that already is or is deemed to be an Averaging Date for the relevant Index; or
- (iii) "Modified Postponement", then:
 - (A) in the case of a Basket of Indices, the Averaging Date for each Index not affected by the occurrence of a Disrupted Day shall be the date specified in the applicable Final Terms as an Averaging Date in respect of the relevant Observation Date and the Averaging Date for any Index affected by the occurrence of a Disrupted Day shall be the first succeeding Scheduled Trading Day in relation to such Index, and if the first succeeding Scheduled Trading Day has not occurred prior to the Averaging Disruption Longstop Date, then (I) the Averaging Disruption Longstop Date shall be deemed the Averaging Date (irrespective of whether such day is already an Averaging Date), and (II)

the Calculation Agent shall determine the relevant price or amount for that Averaging Date in accordance with Index Linked Asset Condition 3.1(b); and

- (B) otherwise, the Averaging Date shall be the first succeeding Scheduled Trading Day, and if the first succeeding Scheduled Trading Day has not occurred prior to the Averaging Disruption Longstop Date, then (I) the Averaging Disruption Longstop Date shall be deemed the Averaging Date (irrespective of whether such day is already an Averaging Date), and (II) the Calculation Agent shall determine the relevant price or amount for that Averaging Date in accordance with Index Linked Asset Condition 3.1(b).

3.2 Index Adjustments

- (a) Successor Index / Sponsor

If a relevant Index is (i) not calculated and announced by the Index Sponsor but is calculated and announced by a successor sponsor acceptable to the Calculation Agent, or (ii) replaced by a successor index using, in the determination of the Calculation Agent, the same or a substantially similar formula for and method of calculation as used in the calculation of that Index, then in each case that index (the **Successor Index**) will be deemed to be the Index.

- (b) Modification and Cessation of Calculation of an Index and Administrator/Benchmark Event

- (i) If:

- (A) on or prior to an Observation Date, the relevant Index Sponsor makes or announces that it will make a material change in the formula for or the method of calculating a relevant Index or in any other way materially modifies that Index (other than a modification prescribed in that formula or method to maintain that Index in the event of changes in constituent securities and capitalisation and other routine events) (an **Index Modification**), or permanently cancels a relevant Index and no Successor Index exists (an **Index Cancellation**);
- (B) on any Observation Date, the Index Sponsor fails to calculate and announce a relevant Index (an **Index Disruption**); or
- (C) on or prior to any Observation Date, an Administrator/Benchmark Event occurs (together with an Index Modification, an Index Cancellation and an Index Disruption, each an **Index Adjustment Event**),

- (ii) then the Calculation Agent may:

- (A) determine to substitute the Index with a Substitution Index, where a **Substitution Index** means in relation to the Index affected by an Index Adjustment Event and at the discretion of the Calculation Agent, an index whose principal terms are equivalent to those of the affected Index. Principal terms of an index include its strategy, its currency, the periodicity of its calculation and of the publication of its level, the type of its underlying assets, its geographic and economic zone or its rules; or
- (B) determine if such Index Adjustment Event has a material effect on the Securities and, if so, shall calculate the relevant level of the Index, using, in lieu of a published level for that Index, the level for that Index as at the Valuation Time on that Observation Date, as the case may be, as determined by the Calculation Agent in accordance with the formula for and method of calculating that Index last in effect prior to the change, failure or cancellation,

but using only those Component Securities that comprised that Index immediately prior to that Index Adjustment Event; or

- (C) calculate, on a date it has determined in a reasonable amount of time after the occurrence of an Index Adjustment Event (the **Security Amount Determination Date**), the Fair Market Value Redemption Amount of the Security in its sole and absolute discretion and, the relevant Issuer shall, upon giving notice to Securityholders in accordance with General Condition 14 (*Notices*), redeem all but not some only of the Securities, each Security being redeemed by payment of an amount equal to lower of (I) the Fair Market Value Redemption Amount as at the Security Amount Determination Date and (II) the principal amount of the Security as at the Security Amount Determination Date. Payments will be made in such manner as shall be notified to the Securityholders, upon request, in accordance with General Condition 14 (*Notices*).

The Calculation Agent shall, as soon as practicable, notify the relevant Agent of any determination made by it pursuant to this paragraph (b) and the action proposed to be taken in relation thereto and such Agent shall make available for inspection by Securityholders, upon request, copies of any such determinations.

- (c) Notwithstanding the foregoing, if "Essential Trigger" is specified in the applicable Final Terms as being applicable, the General Conditions 6.8 and 12.3(f) will apply.

3.3 Correction of the level of the Index

With the exception of any corrections published after the day which is three (3) Exchange Business Days prior to the due date for any payment under the Securities calculated by reference to the level of an Index, in the event that any price or level published by the Index Sponsor and which is used for any calculation or determination made in respect of the Securities is subsequently corrected and the correction is published by the Index Sponsor within one Settlement Cycle after the original publication, the Calculation Agent will determine whether any relevant adjustments need to be made to the Securities to account for such correction and, to the extent necessary, will adjust the terms of the Securities to reflect such correction.

- (a) If, in the case of FX Linked Securities relating to a single FX Rate, a Market Disruption Event or (if "Unscheduled Holiday Deferral" is specified as "Applicable" in the applicable Final Terms) an Unscheduled Holiday occurs or is continuing with respect to the FX Rate on an Observation Date, then the Calculation Agent may:
- (i) postpone the Observation Date, in which case the Observation Date shall be the next FX Business Day on which there is no Market Disruption Event or, if applicable Unscheduled Holiday (the **FX Determination Date**), unless each consecutive FX Business Day up to and including the Disruption Longstop Date is a Disrupted Day, in which case (A) the Disruption Longstop Date shall be deemed to be the Observation Date, notwithstanding the fact that such day is a Disrupted Day and (B) the Calculation Agent shall determine for such day, in good faith, the FX Rate affected by the Market Disruption Event or, if applicable, the Unscheduled Holiday, taking into consideration all available information that in good faith it deems relevant to the then prevailing market practice and acting in good faith; or
 - (ii) determine the FX Rate for such day, taking into consideration all available information that in good faith it deems relevant to the then prevailing market practice and acting in good faith.
- (b) If, in the case of FX Linked Securities relating to a Basket of FX Rates, a Market Disruption Event or (if "Unscheduled Holiday Deferral" is specified as "Applicable" in the applicable Final Terms) an Unscheduled Holiday occurs or is continuing with respect to one or more FX Rates on an Observation Date, then:
- (i) for each FX Rate not affected by the occurrence of a Disrupted Day, the Observation Date shall be the Scheduled Observation Date; and
 - (ii) for each FX Rate affected by the occurrence of a Disrupted Day (each an **Affected FX Rate**), the Calculation Agent may:
 - (A) postpone the Observation Date, in which case the Observation Date shall be the FX Determination Date relating to such Affected FX Rate, unless each consecutive FX Business Day up to and including the Disruption Longstop Date is a Disrupted Day relating to such Affected FX Rate, in which case (I) the Disruption Longstop Date shall be deemed to be the Observation Date with respect to the relevant Affected FX Rate, notwithstanding the fact that such day is a Disrupted Day relating to such Affected FX Rate and (II) the Calculation Agent shall determine for such day, in good faith, such Affected FX Rate; in case of multiple Affected FX Rates, the latest FX Determination Date will be the FX Determination Date for the purpose of FX Linked Asset Condition 1(a) above; or

- (B) determine the level of such Affected FX Rate for such day, taking into consideration all available information that in good faith it deems relevant to the then prevailing market practice and acting in good faith.
- (c) If (A) the Calculation Agent is not able to or does not determine the relevant FX Rate in accordance with FX Linked Asset Condition 3.2(a) or FX Linked Asset Condition 3.2(b) above, as the case may be, or (B) such determination would not, in the opinion of the Calculation Agent, account for such Market Disruption Event or, if applicable, such Unscheduled Holiday:
 - (i) the Calculation Agent may make such adjustments to any of the Conditions as it considers appropriate to account for any such Market Disruption Event or, if applicable, such Unscheduled Holiday and determine the date(s) on which any such adjustments will be effective; in making any such adjustments, the Calculation Agent may take into account the equivalent adjustment(s) which would be made to an foreign exchange derivative transaction in the interbank market following the relevant event occurring and where the Calculation Agent deems appropriate (in its sole and absolute discretion), adjust the Conditions to give effect to such adjustment(s); or
 - (ii) if the Calculation Agent is not able to or does not determine any adjustments for the purposes of sub-paragraph (i) above, the Issuer may, in its sole and absolute discretion, upon giving notice to the Securityholders in accordance with General Condition 14 (*Notices*), redeem all but not some only of the Securities, each Security being redeemed by payment of an amount equal to the Fair Market Value Redemption Amount. Payments will be made in such manner as shall be notified to the Securityholders in accordance with General Condition 14 (*Notices*).
- (d) The Calculation Agent shall give notice as soon as practicable to the Securityholders in accordance with General Condition 14 (*Notices*) of the occurrence of a Market Disruption Event or, if applicable, an Unscheduled Holiday on any day that, but for the occurrence of a Disrupted Day, would have been, an Observation Date. Such notice shall give the details of such Market Disruption Event or, if applicable, such Unscheduled Holiday and the action proposed to be taken by the Calculation Agent in relation thereto.
- (e) Notwithstanding the foregoing, if Essential Trigger is specified in the applicable Final Terms as being applicable, the General Conditions 6.8 and 12.3(f) will apply.

3.3 Averaging Date Disruption

If any Averaging Date is a Disrupted Day, then, where the consequence specified for "Averaging Date Disruption" in the applicable Final Terms is:

- (a) "Omission", then such Averaging Date will be deemed not to be a relevant Averaging Date for purposes of determining the relevant rate of exchange, and if through the operation of this provision no Averaging Date would occur with respect to the relevant Observation Date, FX Linked Asset Condition 3.2 will apply for purposes of determining the relevant price or amount on the final Averaging Date in respect of that Observation Date as if such final Averaging Date were an Observation Date that was a Disrupted Day;
- (b) "Postponement", then FX Linked Asset Condition 3.2 will apply for purposes of determining the relevant price or amount on that Averaging Date as if such Averaging Date were an Observation Date that was a Disrupted Day, irrespective of whether, pursuant to such determination, that deferred Averaging Date would fall on a date that already is or is deemed to be an Averaging Date for the relevant FX Rate; or
- (c) "Modified Postponement", then:
 - (i) in the case of a Basket of FX Rates, the Averaging Date for each FX Rate not affected by the occurrence of a Disrupted Day shall be the date specified in the applicable Final

Terms as an Averaging Date in respect of the relevant Observation Date and the Averaging Date for any FX Rate affected by the occurrence of a Disrupted Day shall be the first succeeding FX Business Day in relation to such FX Rate, and if the first succeeding FX Business Day has not occurred prior to the Averaging Disruption Longstop Date, then (A) the Averaging Disruption Longstop Date shall be deemed the Averaging Date (irrespective of whether such day is already an Averaging Date), and (B) the Calculation Agent shall determine the relevant price or amount for that Averaging Date in accordance with FX Linked Asset Condition 3.2; and

- (ii) otherwise, the Averaging Date shall be the first succeeding FX Business Day, and if the first succeeding FX Business Day has not occurred prior to the Averaging Disruption Longstop Date, then (A) the Averaging Disruption Longstop Date shall be deemed the Averaging Date (irrespective of whether such day is already an Averaging Date), and (B) the Calculation Agent shall determine the relevant price or amount for that Averaging Date in accordance with FX Linked Asset Condition 3.2.

Where the applicable Final Terms specify that "Successor Currency" is applicable in respect of an FX Rate, then:

- (a) the Reference Currency and Base Currency in respect of such FX Rate will be deemed to include any lawful successor currency to such Reference Currency or Base Currency, as the case may be (the **Successor Currency**);
- (b) if the Calculation Agent determines that, on or after the Issue Date but on or before any relevant date on which an amount may be payable under the Securities, a country has lawfully eliminated, converted, redenominated or exchanged its currency in effect on the Issue Date which is the

Reference Currency or Base Currency of an FX Rate, as the case may be (the Original Currency) for a Successor Currency, then, for the purposes of calculating any amounts of the Original Currency or effecting settlement thereof, any Original Currency amounts will be converted to the Successor Currency by multiplying the amount of Original Currency by a ratio of Successor Currency to Original Currency, which ratio will be calculated on the basis of the exchange rate set forth by the relevant country of the Original Currency for converting the Original Currency into the Successor Currency on the date on which the elimination, conversion, redenomination or exchange took place, as determined by the Calculation Agent, and if there is more than one such date, the date closest to such relevant date will be selected (or such other date as may be selected by the Calculation Agent in its sole and absolute discretion);

- (c) notwithstanding paragraph (b) above but subject to paragraph (d) below, the Calculation Agent may (to the extent permitted by the applicable law), in its sole and absolute discretion, select such other exchange rate or other basis for the conversion of an amount of the Original Currency to the Successor Currency and will make such adjustment(s) that it determines to be appropriate, if any, to any variable, calculation methodology, valuation, settlement, payment terms or any other terms in respect of the Securities to account for such elimination, conversion, redenomination or exchange of the Reference Currency or Base Currency, as the case may be;
- (d) notwithstanding the foregoing provisions, with respect to any Reference Currency or Base Currency that is substituted or replaced by the Euro, the consequences of such substitution or replacement will be determined in accordance with applicable law; and
- (e) notwithstanding the foregoing, if Essential Trigger is specified in the applicable Final Terms as being applicable, the General Conditions 6.8 and 12.3(f) will apply.

Chapter 4: Asset Conditions: Inflation Linked Asset Conditions

This chapter sets out additional terms and conditions for Securities that are Inflation Linked Securities.

*The following terms and conditions (the **Inflation Linked Asset Conditions**) shall apply to the Securities if the applicable Final Terms indicate that Inflation Linked Interest Securities or Inflation Linked Redemption Securities is applicable. These Inflation Linked Asset Conditions are subject to completion in accordance with the applicable Final Terms.*

All capitalised terms that are not defined in these Inflation Linked Asset Conditions or elsewhere in the Terms and Conditions will have the meanings given to them in the applicable Final Terms.

References in these Inflation Linked Asset Conditions to an Inflation Linked Asset Condition are to a section or clause of these Inflation Linked Asset Conditions.

1 GENERAL DEFINITIONS RELATING TO INFLATION LINKED SECURITIES

Administrator/Benchmark Event has the meaning given to it in the Definitions .

Basket means a basket containing the Inflation Indices (if any) specified in the applicable Final Terms.

Daily Inflation Rate means, the daily interpolated level of the Inflation Index for the relevant Payment Date, determined as follows:

$$\text{MIL}(t) + [\text{MIL}(t1) - \text{MIL}(t)] \times \frac{(D - 1)}{N}$$

where:

MIL(t) means the level of the Inflation Index for the Reference Month that is the number of months immediately preceding the relevant Payment Date, as defined under Primary Lag;

MIL(t1) means the level of the Inflation Index for the Reference Month that is the number of months immediately preceding the Payment Date, as defined under Secondary Lag;

D is the calendar day on which the Payment Date occurs; and

N is the total number of calendar days of the month in which the Payment Date occurs.

Primary Lag means, the number of months specified as such in the Final Terms, or if a Primary Lag is not so specified, 3 months.

Secondary Lag means, the number of months specified as such in the Final Terms, or if a Secondary Lag is not so specified, 2 months.

Fair Market Value Redemption Amount has the meaning set out in the Definitions .

Fallback Bond means, in respect of an Inflation Index, a bond selected by the Calculation Agent and issued by the government of the country to whose level of inflation such Inflation Index relates and which pays a coupon or redemption amount which is calculated by reference to such Inflation Index, with a redemption date which falls on (a) the same day as the Redemption Date, (b) the next longest maturity after the Redemption Date if there is no such bond maturing on the Redemption Date, or (c) the next shortest maturity before the Redemption Date if no bond defined in (a) or (b) is selected by the Calculation Agent. If such Inflation Index relates to the level of inflation across the European Monetary Union, the Calculation Agent will select an inflation-linked bond that is a debt obligation of one of the governments (but not any government agency) of France, Italy, Germany or Spain and which pays a coupon or redemption amount which is calculated by reference to the level of inflation in the European Monetary Union. In each case, the Calculation Agent will select the Fallback Bond from those inflation-linked bonds issued on or before the Issue Date and, if there is more than one inflation-linked bond maturing on

the same date, the Fallback Bond shall be selected by the Calculation Agent from those bonds. If the Fallback Bond redeems the Calculation Agent will select a new Fallback Bond on the same basis, but selected from all eligible bonds in issue at the time the original Fallback Bond redeems (including any bond for which the redeemed bond is exchanged).

Inflation Indices or **Inflation Index** means, subject to adjustment in accordance with these Inflation Linked Asset Conditions, the inflation indices or inflation index specified in the applicable Final Terms and related expressions shall be construed accordingly.

Inflation Index Level means, in respect of an Inflation Index:

- (a) if Daily Inflation Rate is specified as applicable in the applicable Final Terms, a level equal to the Daily Inflation Rate for such Inflation Index; and
- (b) otherwise, the level of such Inflation Index for the Reference Month that is the number of months immediately preceding the relevant Payment Date as determined in accordance with the relevant Primary Lag.

Inflation Index Sponsor means the entity that publishes or announces (directly or through an agent) the level of the relevant Inflation Index, which as of the Issue Date of the Securities is the inflation index sponsor, specified for such Inflation Index in the applicable Final Terms.

Payment Date means any date on which a payment is due and payable pursuant to the terms of the Securities.

Reference Month means the calendar month for which the level of the Inflation Index was reported, regardless of when this information is published or announced. If the period for which the Inflation Index level was reported is a period other than a month, the Reference Month is the period for which the Inflation Index level was reported. References elsewhere in the Conditions to an "**Observation Date**" shall, for the purposes of these Inflation Linked Asset Conditions, be construed as references to the "Reference Month" in which such "Observation Date" falls.

Related Bond means, in respect of an Inflation Index, the bond specified as such in the applicable Final Terms or, if Related Bond is specified in the applicable Final Terms to be not applicable, the Fallback Bond shall be deemed to be the Related Bond. If a bond is specified to be the Related Bond in the applicable Final Terms and such bond redeems or matures during the term of the Securities, the Fallback Bond shall be deemed to be the Related Bond.

Relevant Inflation Index Benchmark means, in respect of the Securities:

- (a) an Inflation Index; or
- (b) any other index, benchmark or price source specified as a "Relevant Index Benchmark" in the applicable Final Terms.

2 EVENTS RELATING TO INFLATION LINKED SECURITIES

2.1 Delay of Publication

If the level of the Inflation Index for a Reference Month which is relevant to the calculation of a payment under the Securities (a **Relevant Level**) is not published or announced by the day that is five Business Days prior to the next following Payment Date under the Securities, the Calculation Agent will in its discretion determine a **Substitute Inflation Index Level** (in place of such Relevant Level) by using one of the following methodologies:

- (a) if applicable, the Calculation Agent shall take the same action to determine the Substitute Inflation Index Level for such Payment Date as that taken by the relevant calculation agent pursuant to the terms and conditions of the Related Bond; and

- (b) if (a) above does not result in a Substitute Inflation Index Level for such Payment Date for any reason, then the Calculation Agent shall determine the Substitute Inflation Index Level as follows:

Substitute Inflation Index Level = Base Level x (Latest Level / Reference Level)

where:

Base Level means the level of the Inflation Index (excluding any "flash" estimates) published or announced by the Inflation Index Sponsor in respect of the month which is 12 calendar months prior to the month for which the Substitute Inflation Index Level is being determined;

Latest Level means the latest level of the Inflation Index (excluding any "flash" estimates) published or announced by the Inflation Index Sponsor prior to the month in respect of which the Substitute Inflation Index Level is being calculated; and

Reference Level means the level of the Inflation Index (excluding any "flash" estimates) published or announced by the Inflation Index Sponsor prior to the month that is 12 calendar months prior to the month referred to in "Latest Level" above; or

- (c) the Calculation Agent shall determine, acting in good faith, what it believes is a commercially reasonable level for the Substitute Inflation Index level for such Payment Date, by reference to any pricing sources or valuation methodologies as it considers appropriate.

If a Relevant Level is published or announced at any time after the day that is five Business Days prior to the next following Payment Date under the Securities, such Relevant Level will not be used in any calculations. The Substitute Inflation Index Level so determined pursuant to this Inflation Linked Asset Condition 2.1 will be the definitive level for that Reference Month.

Notwithstanding the foregoing, if Essential Trigger is specified in the applicable Final Terms as being applicable, the General Condition 12.3(f) will apply.

2.2 Cessation of Publication

If (i) a level for the Inflation Index has not been published or announced for two consecutive months, (ii) the Inflation Index Sponsor announces that it will no longer continue to publish or announce the Inflation Index or (iii) an Administrator/Benchmark Event occurs, then the Calculation Agent will determine a **Successor Inflation Index** (in lieu of any previously applicable index) for the purposes of the Securities by using the following methodology:

- (a) if at any time, a successor index has been designated by the relevant calculation agent pursuant to the terms and conditions of the Related Bond, such successor index shall be designated as a Successor Inflation Index for the purposes of all subsequent Payment Dates in relation to the Securities, notwithstanding that any other Successor Inflation Index may previously have been determined under paragraph (b), (c) or (d) below;
- (b) if a Successor Inflation Index has not been determined under paragraph (a) above, and a notice has been given or an announcement has been made by the Inflation Index Sponsor, specifying that the Inflation Index will be superseded by a replacement index specified by the Inflation Index Sponsor, and the Calculation Agent determines that such replacement index is calculated using the same or substantially similar formula or method of calculation as used in the calculation of the previously applicable index, such replacement index shall be the Inflation Index for purposes of the Securities from the date that such replacement index comes into effect;
- (c) if a Successor Inflation Index has not been determined under paragraph (a) or (b) above (and there has been no designation of a date for the early redemption of the Securities by the relevant Issuer pursuant to paragraph (e) below), the Calculation Agent shall ask five leading independent dealers to state what the replacement index for the Inflation Index should be. If at least four

responses are received, and of those responses, three or more leading independent dealers state the same index, such index will be deemed the "Successor Inflation Index". If three responses are received, and two or more leading independent dealers state the same index, such index will be deemed the "Successor Inflation Index". If fewer than three responses are received, the Calculation Agent will proceed to paragraph (d) hereof;

- (d) if no Successor Inflation Index has been determined under paragraphs (a), (b) and (c) above by the fifth Business Day prior to the next following Payment Date under the Securities, the relevant Issuer will determine an appropriate alternative index for such date, acting in good faith, and such index will be deemed the "Successor Inflation Index"; or
- (e) if the Calculation Agent determines that there is no appropriate alternative index, the relevant Issuer may, by giving notice to Securityholders in accordance with General Condition 14 (*Notices*) either (i) use the level of the Inflation Index on (A) the day on which the Inflation Index ceased to be available or (B) the Administrator/Benchmark Event Date, as applicable or, if no Inflation Index is published at that time or that Inflation Index cannot be used in accordance with applicable laws or regulations, by reference to the Inflation Index published at that time on the last day on which the Inflation Index was published or can be used in accordance with applicable laws or regulations, as applicable or (ii) redeem the Securities in whole but not in part, each Security being redeemed by payment of an amount equal to the Fair Market Value Redemption Amount. Payments will be made in such manner as shall be notified to the Securityholders in accordance with General Condition 14 (*Notices*).

Notwithstanding the foregoing, if Essential Trigger is specified in the applicable Final Terms as being applicable, the General Condition 12.3(f) will apply.

2.3 Rebasing of the Inflation Index

If the Calculation Agent determines that the Inflation Index has been or will be rebased at any time, the Inflation Index so rebased (the **Rebased Inflation Index**) will be used for purposes of determining the level of the Inflation Index from the date of such rebasing, provided however that the Calculation Agent shall make such adjustments as are made by the relevant calculation agent pursuant to the terms and conditions of the Related Bond, if any, to the levels of the Rebased Inflation Index so that the Rebased Inflation Index levels reflect the same rate of inflation as the Inflation Index before it was rebased. If there is no Related Bond, the Calculation Agent shall make adjustments to the levels of the Rebased Inflation Index so that the Rebased Inflation Index levels reflect the same rate of inflation as the Inflation Index before it was rebased. Any such rebasing shall not affect any prior payments made under the Securities.

Notwithstanding the foregoing, if Essential Trigger is specified in the applicable Final Terms as being applicable, the General Condition 12.3(f) will apply.

2.4 Material Modification

If, on or prior to the day that is five Business Days prior to the next following Payment Date under the Securities, the Inflation Index Sponsor announces that it will make a material change to the Inflation Index, then the Calculation Agent shall make any such adjustments to the Securities necessary for the modified Inflation Index to continue as the Inflation Index.

Notwithstanding the foregoing, if Essential Trigger is specified in the applicable Final Terms as being applicable, the General Condition 12.3(f) will apply.

2.5 Manifest Error in Publication

If, within the earlier of (a) 30 days of publication, and (b) the day that is five Business Days prior to the next following Payment Date under the Securities, the Calculation Agent determines that the Inflation Index Sponsor has corrected the level of the Inflation Index to remedy a manifest error in its original publication, the Calculation Agent will notify the relevant Issuer and the Securityholders in accordance with General Condition 14 (*Notices*) of (i) that correction; (ii) any amount that may be payable as a result

of that correction, and (iii) take such other action as it may deem necessary to give effect to such correction.

Notwithstanding the foregoing, if Essential Trigger is specified in the applicable Final Terms as being applicable, the General Condition 12.3(f) will apply.

2.6 Additional Disruption Event

(a) Definitions

Additional Disruption Event means any of Change in Law, Hedging Disruption and/or (provided that the Securities are not Italian Listed Securities) Increased Cost of Hedging, in each case unless disappplied in the applicable Final Terms.

Change in Law means, unless Change in Law is specified as not applicable in the applicable Final Terms, that, on or after the Trade Date, (a) due to the adoption of or any change in any applicable law or regulation (including, without limitation, any tax law), or (b) due to the promulgation of or any change in the interpretation by any court, tribunal or regulatory authority with competent jurisdiction of any applicable law or regulation (including any action taken by a taxing authority), the relevant Issuer determines in its sole and absolute discretion that (i) it has become illegal for the Issuer, the Guarantor (if applicable) and/or any of their respective Affiliates to hold, acquire or dispose of relevant hedge positions relating to an Inflation Index or the Issuer, the Guarantor (if applicable) and/or any of their respective Affiliates is unable to maintain the agreements entered into in respect of such hedge positions or (ii) the Issuer, the Guarantor (if applicable) and/or any of their respective Affiliates will incur a materially increased cost in performing its obligations under the Securities (or any relevant hedge positions relating to an Inflation Index) (including, without limitation, due to any increase in tax liability, decrease in tax benefit or other adverse effect on its tax position).

Hedging Disruption means, unless Hedging Disruption is specified as not applicable in the applicable Final Terms, that:

- (a) In respect of Securities which are not Italian Listed Securities, the relevant Issuer, the Guarantor (if applicable) and/or any of their respective Affiliates is unable, after using commercially reasonable efforts, to (i) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) it deems necessary to hedge any relevant price risk including but not limited to the currency risk of the relevant Issuer or the Guarantor, (if applicable), in issuing and performing its obligations with respect to the Securities, or (ii) freely realise, recover, remit, receive, repatriate or transfer the proceeds of any such transaction(s) or asset(s).
- (b) In respect of Securities which are Italian Listed Securities, Hedging Disruption means, unless Hedging Disruption is specified as not applicable in the applicable Final Terms, that the relevant Issuer, the Guarantor (if applicable) and/or any of their respective Affiliates is unable, after using commercially reasonable efforts and as a result of an event which is beyond the control of such Issuer, Guarantor (if applicable) and/or Affiliate(s) (including, without limitation, any force majeure, act of state, change in any applicable law or regulation (including, without limitation, any tax law), promulgation of or any change in the interpretation by any court, tribunal or regulatory authority with competent jurisdiction of any applicable law or regulation (including any action taken by a taxing authority), to (i) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) it deems necessary to hedge any relevant price risk including but not limited to the currency risk of the relevant Issuer or the Guarantor, (if applicable), issuing and performing its obligations with respect to the Italian Listed Securities, or (ii) freely realise, recover, remit, receive, repatriate or transfer the proceeds of any such transaction(s) or asset(s).

Increased Cost of Hedging means, unless Increased Cost of Hedging is specified as not applicable in the applicable Final Terms, that the relevant Issuer, the Guarantor (if applicable) and/or any of their respective Affiliates would incur a materially increased (as compared with circumstances existing on the Trade Date) amount of tax, duty, expense or fee (other than brokerage commissions) to (a) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) it deems necessary to hedge the market risk (including, without limitation, equity price risk, foreign exchange risk and interest rate risk) of the relevant Issuer or the Guarantor, (if applicable), in issuing and performing its obligations with respect to the Securities, or (b) realise, recover or remit the proceeds of any such transaction(s) or asset(s), provided that any such materially increased amount that is incurred solely due to the deterioration of the creditworthiness of the relevant Issuer, the Guarantor, (if applicable) and/or any of their respective Affiliates shall not be deemed an Increased Cost of Hedging.

- (b) Consequences of the occurrence of an Additional Disruption Event:

Where "Additional Disruption Event" is specified in the applicable Final Terms as being applicable and if an Additional Disruption Event occurs, the relevant Issuer in its sole and absolute discretion may take the action, if applicable, described in (i) or (ii) below:

- (i) require the Calculation Agent to determine in its sole and absolute discretion the appropriate adjustment, if any, to be made to the Conditions to account for the Additional Disruption Event and determine the effective date of such adjustment; or
- (ii) upon giving notice to the Securityholders in accordance with General Condition 14 (*Notices*), redeem all but not some only of the Securities, each Security being redeemed by payment of an amount equal to the Fair Market Value Redemption Amount. Payments will be made in such manner as shall be notified to the Securityholders in accordance with General Condition 14 (*Notices*).

Upon the occurrence of an Additional Disruption Event, the relevant Issuer shall give notice as soon as practicable to the Securityholders in accordance with General Condition 14 (*Notices*) stating the occurrence of the Additional Disruption Event, giving details thereof and the action proposed to be taken in relation thereto.

2.7 Other Events

This Condition will apply to the Securities unless specified as being not applicable in the applicable Final Terms. Notwithstanding the foregoing provisions of these Inflation Linked Asset Conditions, if any other event occurs which the Calculation Agent determines, acting in good faith, has a material effect on the Securities, then:

- (a) the Calculation Agent may make such adjustments to any of the Conditions as it considers appropriate to account for any such event and determine the date(s) on which any such adjustments will be effective; or
- (b) the relevant Issuer may, upon giving notice to the Securityholders in accordance with General Condition 14 (*Notices*), redeem all but not some only of the Securities, each Security being redeemed by payment of an amount equal to the Fair Market Value Redemption Amount. Payments will be made in such manner as shall be notified to the Securityholders in accordance with General Condition 14 (*Notices*).

Upon the Calculation Agent making a determination pursuant to this Inflation Linked Asset Condition 2.7, the relevant Issuer shall give notice as soon as practicable to Securityholders in accordance with General Condition 14 (*Notices*) giving details of such determination.

Notwithstanding the foregoing, if Essential Trigger is specified in the applicable Final Terms as being applicable, the General Conditions 6.8 and 12.3(f) will apply.

Chapter 5: Asset Conditions: Rate Linked Asset Conditions

This chapter sets out additional Terms and Conditions for Securities that are Rate Linked Securities.

*The following terms and conditions (the **Rate Linked Asset Conditions**) shall apply to the Securities if the applicable Final Terms indicate that Rate Linked Interest Securities or Rate Linked Redemption Securities is applicable. These Rate Linked Asset Conditions are subject to completion in accordance with the applicable Final Terms.*

All capitalised terms that are not defined in these Rate Linked Asset Conditions or elsewhere in the Terms and Conditions will have the meanings given to them in the applicable Final Terms.

References in these Rate Linked Asset Conditions to a Rate Linked Asset Condition are to a section or clause of these Rate Linked Asset Conditions.

1 RATE LINKED SECURITIES

Each Benchmark Rate Level shall be determined in the manner specified in the applicable Final Terms and the provisions below in Rate Linked Asset Condition 1.1 (*ISDA Determination*) or Rate Linked Asset Condition 1.1(d) (*Screen Rate Determination*) shall apply, depending upon which is specified to apply in the applicable Final Terms, subject to adjustment in each case in accordance with Rate Linked Asset Condition 3.

1.1 ISDA Determination

- (a) Where "ISDA Determination" is specified in the applicable Final Terms as the manner in which the Benchmark Rate Level is to be determined in respect of a Benchmark Rate on any Observation Date, such Benchmark Rate Level shall be determined by the Calculation Agent as a rate equal to the ISDA Rate. For the purposes of this Rate Linked Asset Condition 1.1, **ISDA Rate** means the Floating Rate that would be determined by the Calculation Agent under an interest rate swap transaction if the Calculation Agent were acting as Calculation Agent for that swap transaction under the terms of an agreement incorporating the ISDA Definitions and under which:
- (i) the Floating Rate Option is as specified in the applicable Final Terms;
 - (ii) if the Floating Rate Option specified in the applicable Final Terms is an Overnight Floating Rate Option and either Compounding or Averaging is specified as applicable in the applicable Final Term:
 - (A) an Applicable Business Day is any day that is a Business Day (as defined in these Conditions);
 - (B) the relevant Reset Date is the relevant Observation Date;
 - (C) the Daily Capped Rate is as specified in the applicable Final Terms;
 - (D) the Daily Floored Rate is as specified in the applicable Final Terms;
 - (E) Delayed Payment will be applicable if specified as such in the applicable Final Terms, and if so, the applicable number of days is either (I) as specified in the applicable Final Terms, or (II) if no number is specified as such in the applicable Final Terms, five (5);
 - (F) if Compounding is specified as applicable in the applicable Final Terms:
 - (I) OIS Compounding will be applicable if specified as such in the applicable Final Terms;

- (II) Compounding with Lookback will be applicable if specified as such in the applicable Final Terms, and if so, the Lookback is either (1) as specified in the applicable Final Terms, or (2) if no number is specified as such in the applicable Final Terms, the number specified as the "Lookback" for the relevant Floating Rate Option in the ISDA Definitions, or (3) if no such number is specified for the relevant Floating Rate Option, five (5);
 - (III) Compounding with Observation Period Shift will be applicable if specified as such in the applicable Final Terms, and if so, Set in Advance will be applicable if specified as such in the applicable Final Terms, Observation Period Shift Additional Business Day is as specified in the applicable Final Terms, and the Observation Period Shift is either (1) as specified in the applicable Final Terms, or (2) if no number is specified as such in the applicable Final Terms, the number specified as the "Observation Period Shift" for the relevant Floating Rate Option in the ISDA Definitions, or (3) if no such number is specified for the relevant Floating Rate Option, five (5); and
 - (IV) Compounding with Lockout will be applicable if specified as such in the applicable Final Terms, and if so, Lockout Period Business Day is as specified in the applicable Final Terms and the Lockout is either (1) as specified in the applicable Final Terms, or (2) if no number is specified as such in the applicable Final Terms, the number specified as the "Lockout" for the relevant Floating Rate Option in the ISDA Definitions, or (3) if no such number is specified for the relevant Floating Rate Option, five (5); or
- (G) if Averaging is specified as applicable in the applicable Final Terms:
- (I) Overnight Averaging will be applicable if specified as such in the applicable Final Terms;
 - (II) Averaging with Lookback will be applicable if specified as such in the applicable Final Terms, and if so, the Lookback is either (1) as specified in the applicable Final Terms, or (2) if no number is specified as such in the applicable Final Terms, the number specified as the "Lookback" for the relevant Floating Rate Option in the ISDA Definitions, or (3) if no such number is specified for the relevant Floating Rate Option, five (5);
 - (III) Averaging with Observation Period Shift will be applicable if specified as such in the applicable Final Terms, and if so, Set in Advance will be applicable if specified as such in the applicable Final Terms, Observation Period Shift Additional Business Day is as specified in the applicable Final Terms and the Observation Period Shift is either (1) as specified in the applicable Final Terms, or (2) if no number is specified as such in the applicable Final Terms, the number specified as the "Observation Period Shift" for the relevant Floating Rate Option in the ISDA Definitions, or (3) if no such number is specified for the relevant Floating Rate Option, five (5); and
 - (IV) Averaging with Lockout will be applicable if specified as such in the applicable Final Terms, and if so, Lockout Period Business Day is as specified in the applicable Final Terms and the Lockout is either (1)

as specified in the applicable Final Terms, or (2) if no number is specified as such in the applicable Final Terms, the number specified as the "Lockout" for the relevant Floating Rate Option in the ISDA Definitions, or (3) if no such number is specified for the relevant Floating Rate Option, five (5); or

- (iii) otherwise:
 - (A) the Designated Maturity is a period specified in the applicable Final Terms for the relevant Observation Date; and
 - (B) the relevant Reset Date is as specified in the applicable Final Terms.

For the purposes of this Rate Linked Asset Condition 1.1, **Floating Rate, Calculation Agent, Floating Rate Option, Designated Maturity, Reset Date, Overnight Floating Rate Option, Applicable Business Day, Observation Period Shift Additional Business Day, Lockout Period Business Day, Daily Capped Rate, Daily Floored Rate, OIS Compounding, Compounding with Lookback, Compounding with Observation Period Shift, Compounding with Lockout, Overnight Averaging, Averaging with Lookback, Averaging with Observation Period Shift, Averaging with Lockout, Delayed Payment, Set in Advance, Lookback, Observation Period Shift** and **Lockout** have the meanings given to those terms in the ISDA Definitions, but with references, where applicable, to "the Confirmation" being read as "the applicable Final Terms".

- (b) In respect of any Reset Date, for the purpose of determining the Floating Rate (in order to establish the Benchmark Rate Level for a given Benchmark Rate) pursuant to the relevant Floating Rate Option under the ISDA Definitions, where such date is also specified in the Final Terms as being an Observation Date for the same Benchmark Rate determination, then the Floating Rate will be determined pursuant to that Floating Rate Option on the basis of the rate or rates observed from the specified screens, websites, other electronic sources or platforms, companies, institutions or other entities, in each case as of such Reset Date, disregarding any requirement in the ISDA Definitions to observe such rate or rates as of a date earlier than the Reset Date (but without prejudice to any fallback process specified for the relevant Floating Rate Option that requires such rate or rates to be observed for such Floating Rate Option as of a different date where they cannot be observed as of the Reset Date).
- (c) Where the ISDA Definitions state that the determination of the Floating Rate Option will be pursuant to any requirement for the Calculation Agent to request quotes from Reference Banks, Reference Dealers or major banks pursuant to the ISDA Definitions, such requirement to make requests for quotations for rates from, and the provision of quotations for rates by, the requisite number of Reference Banks, Reference Dealers or major banks may be effected by reference to and using quotations or tradable market prices which are made available by such Reference Banks, Reference Dealers or major banks via electronic data providers or electronic trading platforms. For the purposes of the preceding sentence, the terms "Reference Banks" and "Reference Dealers" shall have the meanings set out in the ISDA Definitions. If the fallback as set out in the definition of the Floating Rate Option pursuant to the ISDA Definitions does not produce a result, the Calculation Agent shall determine the rate acting in good faith and in a commercially reasonable manner.
- (d) The Calculation Agent, acting reasonably, may amend this Rate Linked Asset Condition 1.1 from time to time to the extent that it determines necessary in order to ensure consistency with prevailing market standards or market trading conventions (as established pursuant to the agreement of the leading dealers in the derivatives market for rates or any relevant committee established by ISDA, a market-wide protocol, any applicable law or regulation or the rules of any applicable exchange or clearing system) that would be or are applicable to any Reference Hedge Transaction from time to time. The Calculation Agent may not, without the consent of the relevant Issuer, make any amendments to Rate Linked Asset Condition 1.1 of the Securities

pursuant to this Rate Linked Asset Condition 1.1(d) other than to the extent necessary to give effect to the relevant change(s). The Calculation Agent shall notify the relevant Issuer and the Securityholders as soon as reasonably practicable upon making any such amendment.

For the purpose of the above paragraph, **Reference Hedge Transaction** means a transaction entered into, or which would be entered into, on market standard terms and at arm's length with a leading dealer in the relevant market and pursuant to which the Issuer's risk in respect of its payment obligations linked to any interest rate benchmark referenced in the Securities is, or would be, hedged.

1.2 Screen Rate Determination

Where "Screen Rate Determination" is specified in the applicable Final Terms as the manner in which the Benchmark Rate Level is to be determined in respect of a Benchmark Rate on any date of determination, such Benchmark Rate Level shall, subject as provided below, be either:

- (a) the offered quotation; or
- (b) the arithmetic mean (rounded if necessary in accordance with General Condition 4.6 (*Rounding*)) of the offered quotations,

(expressed as a percentage rate *per annum*) for the Benchmark Rate which appears or appear, as the case may be, on the Relevant Screen Page as at the Relevant Screen Page Time on the relevant date in question as determined by the Calculation Agent. If five (5) or more of such offered quotations are available on the Relevant Screen Page, the highest (or, if there is more than one such highest quotation, one only of such quotations) and the lowest (or, if there is more than one such lowest quotation, one only of such quotations) shall be disregarded by the Calculation Agent for the purpose of determining the arithmetic mean (rounded as provided in General Condition 4.6 (*Rounding*)) of such offered quotations.

If the Relevant Screen Page is not available or if, in the case of Rate Linked Asset Condition 1.1(d)(a) (*Screen Rate Determination*), no offered quotation appears or, in the case of Rate Linked Asset Conditions 1.1(d)(b) (*Screen Rate Determination*), fewer than three (3) offered quotations appear, in each case at the Relevant Screen Page Time, the Calculation Agent shall request each of the Reference Banks to provide the Calculation Agent with its offered quotation (expressed as a percentage rate *per annum*) for the Benchmark Rate at the Relevant Screen Page Time on the relevant date in question. If two or more of the Reference Banks provide the Calculation Agent with offered quotations, the Benchmark Rate Level for the relevant date shall be the arithmetic mean (rounded if necessary in accordance with General Condition 4.6 (*Rounding*)) of the offered quotations, as determined by the Calculation Agent.

If on any Observation Date one only or none of the Reference Banks provides the Calculation Agent with an offered quotation as provided in the preceding paragraph, the Benchmark Rate Level for the relevant date shall be the rate *per annum* which the Calculation Agent determines as being the arithmetic mean (rounded if necessary in accordance with General Condition 4.6 (*Rounding*)) of the rates, as communicated to (and at the request of) the Calculation Agent by the Reference Banks or any two (2) or more of them, at which such banks were offered, at the Relevant Screen Page Time on the relevant date of determination, deposits in the Specified Currency for a period equal to that which would have been used for the Benchmark Rate by leading banks in the Relevant Inter-Bank Market or, if fewer than two (2) of the Reference Banks provide the Calculation Agent with offered rates, the offered rate for deposits in the Specified Currency for a period equal to that which would have been used for the Benchmark Rate, or the arithmetic mean (rounded in accordance with General Condition 4.6 (*Rounding*)) of the offered rates for deposits in the Specified Currency for a period equal to that which would have been used for the Benchmark Rate, at which, at the Relevant Screen Page Time on the relevant date, any one or more banks (which bank or banks is or are in the opinion of the relevant Issuer suitable for the purpose) informs the Calculation Agent it is quoting to leading banks in the Relevant Inter-Bank Market, provided that, if the Benchmark Rate Level cannot be determined on the relevant Observation Date in accordance with the foregoing provisions of this Rate Linked Asset Condition 1, the Benchmark Rate Level shall be determined on the relevant Observation Date as at the last preceding date of determination.

In respect of any Interest Accrual Period to which "Linear Interpolation" is specified as being applicable in the applicable Final Terms, the Benchmark Rate Level for that Interest Accrual Period shall be determined by the Calculation Agent, in its sole discretion, through the use of straight-line interpolation by reference to two rates based on the relevant Benchmark Rate, one of which shall be determined as if the Designated Maturity of that rate were the period of time for which rates are available next shorter than the length of the Interest Accrual Period and the other of which shall be determined as if the Designated Maturity of that rate were the period of time for which rates are available next longer than the length of the Interest Accrual Period.

2.2 Consequences of the occurrence of an Additional Disruption Event

Where "Additional Disruption Event" is specified in the applicable Final Terms as being applicable and if an Additional Disruption Event occurs, the relevant Issuer in its sole and absolute discretion may take the action, if applicable, described in (a) or (b) below:

- (a) require the Calculation Agent to determine in its sole and absolute discretion the appropriate adjustment, if any, to be made to the Conditions to account for the Additional Disruption Event and determine the effective date of such adjustment; or
- (b) upon giving notice to the Securityholders in accordance with General Condition 14 (*Notices*), redeem all but not some only of the Securities, each Security being redeemed by payment of an amount equal to the Fair Market Value Redemption Amount. Payments will be made in such manner as shall be notified to the Securityholders in accordance with General Condition 14 (*Notices*).

Upon the occurrence of an Additional Disruption Event, the relevant Issuer shall give notice as soon as practicable to the Securityholders in accordance with General Condition 14 (*Notices*) stating the occurrence of the Additional Disruption Event, giving details thereof and the action proposed to be taken in relation thereto.

3 BENCHMARK TRIGGER EVENTS

- (a) If an Index Cessation Event occurs and the Relevant Rate Benchmark is a Priority Fallback Benchmark, the related Priority Fallback shall apply. If the Priority Fallback does not produce an outcome then Rate Linked Asset Condition 3(b) below shall apply.
- (b) Subject to Rate Linked Asset Condition 3(a) above, if a Benchmark Trigger Event occurs, the Calculation Agent shall elect to take one of the actions described in sub-paragraphs (i), (ii) or (iii) below, or to the extent that the Calculation Agent does not consider it commercially reasonable or possible to apply any one of those options or any of the outcomes produced from those options, the Calculation Agent may elect to apply the option in sub-paragraph (iv) below, and if no election is made by the Calculation Agent, Rate Linked Asset Condition 3(e) below shall apply, in each case with the applied option taking effect from the Business Day following the Cut-Off Date:
 - (i) If an Impacted Index and an Alternative Pre-nominated Index have been specified in the applicable Final Terms, (A) the Relevant Rate Benchmark will be replaced with the Alternative Pre-nominated Index, (B) the Calculation Agent shall apply the Adjustment Spread to the Alternative Pre-nominated Index and (C) the Calculation Agent may, after taking into account any Adjustment Spread, make such other adjustments to any of the Conditions as are necessary to account for the effect on the Securities of referencing the Alternative Pre-nominated Index.

- (ii) If there is an Alternative Post-nominated Index, (A) the Relevant Rate Benchmark will be replaced with the Alternative Post-nominated Index, (B) the Calculation Agent shall apply the Adjustment Spread to the Alternative Post-nominated Index and (C) the Calculation Agent may, after taking into account any Adjustment Spread, make such other adjustments to any of the Conditions as are necessary to account for the effect on the Securities of referencing the Alternative Post-nominated Index. Notwithstanding the above, if, in respect of a Relevant Rate Benchmark, more than one Relevant Nominating Body formally designates, nominates or recommends (I) an Alternative Post-nominated Index or (II) in respect of the same Alternative Post-nominated Index, a spread or methodology for calculating a spread in relation to the replacement of the Relevant Rate Benchmark with that Alternative Post Nominated Index, in each case by Close of Business on the Cut-off Date, then the Calculation Agent cannot elect to apply the option described in this Rate Linked Asset Condition 3(b)(ii).
 - (iii) If there is a Calculation Agent Nominated Replacement Index, (A) the Relevant Rate Benchmark will be replaced with the Calculation Agent Nominated Replacement Index, (B) the Calculation Agent shall apply the Adjustment Spread to the Calculation Agent Nominated Replacement Index and (C) the Calculation Agent may, after taking into account any Adjustment Spread, make such other adjustments to any of the Conditions as are necessary to account for the effect on the Securities of referencing the Calculation Agent Nominated Replacement Index.
 - (iv) Upon giving notice to the Securityholders in accordance with General Condition 14 (*Notices*), the relevant Issuer shall redeem all but not some only of the Securities, each Security being redeemed by payment of an amount equal to the Fair Market Value Redemption Amount.
- (c) If an Index Cessation Event occurs, the Cut-off Date will be the later of (i) 15 Business Days following the day on which the public statement is made or the information is published (in each case, as referred to in the definition of "Index Cessation Event") and (ii) the first day on which the Relevant Rate Benchmark is no longer available, provided that, if more than one Relevant Nominating Body formally designates, nominates or recommends an Alternative Post-nominated Index or a spread or methodology for calculating a spread in accordance with Rate Linked Asset Condition 3(b)(ii) and one or more of those Relevant Nominating Bodies does so on or after the day that is three Business Days before such date, then the Cut-off Date will instead be the second Business Day following the date that, but for this proviso, would have been the Cut-off Date.
- (d) If an Administrator/Benchmark Event occurs, the Cut-off Date will be the later of (i) 15 Business Days following the day on which the notice contemplated in the definition of "Administrator/Benchmark Event" is effective, and (ii) the Administrator/Benchmark Event Date, provided that, if more than one Relevant Nominating Body formally designates, nominates or recommends an Alternative Post-nominated Index or a spread or methodology for calculating a spread in accordance with Rate Linked Asset Condition 3(b)(ii) and one or more of those Relevant Nominating Bodies does so on or after the day that is three Business Days before such date, then the Cut-off Date will instead be the second Business Day following the date that, but for this proviso, would have been the Cut-off Date.
- (e) If, following a Benchmark Trigger Event, the Relevant Rate Benchmark is required for any determination in respect of the Securities and, at that time, the Calculation Agent has not elected to take one of the actions in Rate Linked Asset Condition 3(b), then, for the purposes of that determination:
- (i) if:
 - (A) in relation to an Index Cessation Event, the Relevant Rate Benchmark is still available; or

(B) in relation to an Administrator/Benchmark Event, the Administrator/Benchmark Event Date has not yet occurred,

the level of the Relevant Rate Benchmark shall be determined pursuant to the terms that would apply to the determination of the Relevant Rate Benchmark as if no Benchmark Trigger Event had occurred;

- (ii) if (A) the Relevant Benchmark is no longer available or (B) the Administrator/Benchmark Event Date has occurred, the level of the Relevant Rate Benchmark shall be determined pursuant to the fallback(s), if any, provided in the Conditions of the Securities (including any applicable Asset Linked Conditions) to determine a level for the Relevant Rate Benchmark in circumstances in which the Relevant Rate Benchmark is not available and no Benchmark Trigger Event has occurred; or
 - (iii) if a level for the Relevant Rate Benchmark cannot be determined under subparagraph (i) or (ii) above, as applicable, the level of the Relevant Rate Benchmark shall be determined by reference to the rate published in respect of the Relevant Rate Benchmark at the time at which the Relevant Rate Benchmark is ordinarily determined on (A) the day on which the Relevant Rate Benchmark ceased to be available or (B) the Administrator/Benchmark Event Date, as applicable or, if no rate is published at that time or that rate cannot be used in accordance with applicable law or regulation, by reference to the rate published at that time on the last day on which the rate was published or can be used in accordance with applicable law or regulation, as applicable.
- (f) If, in respect of a Relevant Rate Benchmark, (i) an event or circumstance which would otherwise constitute or give rise to an Administrator/Benchmark Event also constitutes an Index Cessation Event or (ii) an Index Cessation Event and an Administrator/Benchmark Event would otherwise be continuing at the same time, it will, in either case, constitute an Index Cessation Event and will not constitute or give rise to an Administrator/Benchmark Event, provided that, if the date that would otherwise have been the Administrator/Benchmark Event Date would have occurred before the Relevant Rate Benchmark is no longer available, Rate Linked Condition 3(e) shall apply as if an Administrator/Benchmark Event had occurred.
- (g) For the purposes of Rate Linked Condition 3(b), the Adjustment Spread shall be determined by the Calculation Agent, provided that, in relation to an Alternative Post-nominated Index, if a spread or methodology for calculating a spread has been formally designated, nominated or recommended by any Relevant Nominating Body in relation to the replacement of the Relevant Rate Benchmark with the Alternative Post-nominated Index, then that spread shall apply or that methodology shall be used to determine the Adjustment Spread, as applicable.
- (h) Whenever the Calculation Agent is required to act, make a determination or to exercise judgement in any way under this Rate Linked Asset Condition 3, it will do so in good faith, in a commercially reasonable manner and by reference to any Relevant Market Data.
- (i) If, in respect of the Securities:
- (i) it is or would be unlawful at any time under any applicable law or regulation to determine the Relevant Benchmark in accordance with any applicable fallback (or it would be unlawful were a determination to be made at such time);
 - (ii) it would contravene any applicable licensing requirements to determine the Relevant Benchmark in accordance with any applicable fallback (or it would contravene those licensing requirements were a determination to be made at such time); or
 - (iii) the Calculation Agent determines that the Adjustment Spread is or would be a benchmark, index or other price source whose production, publication, methodology or

governance would subject the Calculation Agent or the relevant Issuer to material additional regulatory obligations,

then the Relevant Benchmark shall be determined in accordance with the next applicable fallback (applied in accordance with its terms) provided that, in respect of sub-paragraph (i) and (ii) above, the next applicable fallback shall be the first applicable fallback that complies with the applicable law, regulation or licensing requirements.

- (j) Following a Benchmark Trigger Event, the relevant Issuer shall give notice as soon as practicable to the Securityholders in accordance with General Condition 14 (*Notices*) stating the occurrence of the Benchmark Trigger Event, giving details thereof and the action that the Calculation Agent propose to take in relation thereto in accordance with this Rate Linked Asset Condition 3.
- (k) Notwithstanding the foregoing, if Essential Trigger is specified in the applicable Final Terms as being applicable, the General Conditions 6.8 and 12.3(f) will apply.

4 OTHER EVENTS

This Condition will apply to the Securities unless specified as being not applicable in the applicable Final Terms. Notwithstanding the foregoing provisions of these Rate Linked Asset Conditions, if any other event occurs which the Calculation Agent determines, acting in good faith, has a material effect on the Securities, then:

- (a) the Calculation Agent may make such adjustments to any of the Conditions as it considers appropriate to account for any such event and determine the date(s) on which any such adjustments will be effective; or

3 EVENTS RELATING TO ETF LINKED SECURITIES

3.1 Market Disruption Events, Disrupted Days and Consequences

(a) Definitions

Market Disruption Event means, in respect of an ETF, the occurrence or existence of (i) a Trading Disruption, (ii) an Exchange Disruption, which, in either case, the Calculation Agent determines, is material, at any time during the one-hour period that ends at the relevant Valuation Time or (iii) an Early Closure, each as defined below:

- (i) **Trading Disruption** means, in respect of an ETF, any suspension of or limitation imposed on trading by the relevant Exchange or Related Exchange or otherwise and whether by reason of movements in price exceeding limits permitted by the relevant Exchange or Related Exchange or otherwise (A) relating to the ETF on the Exchange or (B) in futures or options contracts relating to the ETF on any relevant Related Exchange.
- (ii) **Exchange Disruption** means, in respect of an ETF, any event (other than an Early Closure) that disrupts or impairs (as determined by the Calculation Agent) the ability of market participants in general to effect transactions in, or obtain market values for (A) the ETF on the Exchange, or (B) futures or options contracts relating to the ETF on any relevant Related Exchange.
- (iii) **Early Closure** means, the closure on any Exchange Business Day of (A) the relevant Exchange, or (B) any Related Exchange, prior to its Scheduled Closing Time unless such earlier closing is announced by such Exchange or Related Exchange (as the case may be) at least one hour prior to the earlier of (I) the actual closing time for the regular trading session on such Exchange or Related Exchange (as the case may be) on such Exchange Business Day and (II) the submission deadline for orders to be entered into the Exchange or Related Exchange system for execution at the relevant Valuation Time on such Exchange Business Day.

(b) Consequences of the occurrence of Disrupted Days

If an Observation Date is a Disrupted Day, then:

- (i) in the case of ETF Linked Securities relating to a single ETF, the Calculation Agent may:
 - (A) postpone the Observation Date, in which case the Observation Date will be the first immediately succeeding Scheduled Trading Day that is not a Disrupted Day (the **ETF Determination Date**), unless each consecutive Scheduled Trading Day up to and including the Disruption Longstop Date is a Disrupted Day, in which case (I) the Disruption Longstop Date shall be deemed to be the Observation Date, notwithstanding the fact that such day is a Disrupted Day and (II) the Calculation Agent shall determine its good faith estimate of the ETF Closing Price as of the Valuation Time for such Disruption Longstop Date; or
 - (B) determine the relevant ETF Closing Price (or a method for determining an ETF Closing Price) for such day, taking into consideration the latest available relevant ETF Closing Price and any other information that in good faith it deems relevant,
- (ii) in the case of ETF Linked Securities relating to a Basket of ETFs:
 - (A) for each ETF not affected by the occurrence of a Disrupted Day, the Observation Date shall be the Scheduled Observation Date; and
 - (B) for each ETF affected (each an **Affected ETF**) by the occurrence of a Disrupted Day, the Calculation Agent may:
 - (I) postpone the Observation Date, in which case the Observation Date will be the ETF Determination Date relating to such Affected ETF, unless each consecutive Scheduled Trading Day up to and including the Disruption Longstop Date is a Disrupted Day relating to such Affected ETF, in which case (1) the Disruption Longstop Date shall be deemed to be the Observation Date, notwithstanding the fact that such day is a Disrupted Day relating to the relevant Affected ETF and (2) the Calculation Agent shall determine its good faith estimate of the ETF Closing Price for the relevant Affected ETF as of the Valuation Time for such Disruption Longstop Date; in case of multiple Affected ETFs, the latest ETF Determination Date will be the ETF Determination Date for the purpose of ETF Linked Asset Condition 1(a) above; or
 - (II) determine the ETF Closing Price (or a method for determining an ETF Closing Price) of the Affected ETF for such day, taking into consideration the latest available quotation for the relevant ETF Closing Price and any other information that in good faith it deems relevant,
- (iii) if the Calculation Agent is not able to or does not determine the ETF Closing Price in accordance with ETF Linked Asset Condition 3.1(b)(i) or ETF Linked Asset Condition 3.1(b)(ii) above, as the case may be, or if such determination would not, in the opinion of the Calculation Agent, account for the occurrence of the Disrupted Day:
 - (A) the Calculation Agent may make such adjustments to any of the Conditions as it considers appropriate to account for any such Disrupted Day and determine the date(s) on which any such adjustments will be effective. In making any

such adjustments, the Calculation Agent may take into account the equivalent adjustment(s) which would be made to an exchange traded fund derivative transaction in the interbank market following the relevant event occurring and where the Calculation Agent deems appropriate (in its sole and absolute discretion), adjust the Conditions to give effect to such adjustment(s); or

- (B) if the Calculation Agent is not able to or does not determine any adjustments for the purposes of sub-paragraph (iii)(A), the Issuer may, in its sole and absolute discretion, upon giving notice to the Securityholders in accordance with General Condition 14 (*Notices*), redeem all but not some only of the Securities, each Security being redeemed by payment of an amount equal to the Fair Market Value Redemption Amount. Payments will be made in such manner as shall be notified to the Securityholders in accordance with General Condition 14 (*Notices*); and
- (iv) the Calculation Agent shall give notice as soon as practicable to the Securityholders in accordance with General Condition 14 (*Notices*) of the occurrence of a Disrupted Day on an Observation Date. Such notice shall give the details of such Disrupted Day and the action proposed to be taken by the Calculation Agent in relation thereto.

Notwithstanding the foregoing, if "Essential Trigger" is specified in the applicable Final Terms as being applicable, the General Conditions 6.8 and 12.3(f) will apply.

(c) Averaging Date Disruption

If any Averaging Date is a Disrupted Day, then, where the consequence specified for "Averaging Date Disruption" in the applicable Final Terms is:

- (i) "Omission", then such Averaging Date will be deemed not to be a relevant Averaging Date for purposes of determining the relevant ETF Closing Price, and if through the operation of this provision no Averaging Date would occur with respect to the relevant Observation Date, ETF Linked Asset Condition 3.1(b) will apply for purposes of determining the relevant price or amount on the final Averaging Date in respect of that Observation Date as if such final Averaging Date were an Observation Date that was a Disrupted Day;
- (ii) "Postponement", then ETF Linked Asset Condition 3.1(b) will apply for purposes of determining the relevant price or amount on that Averaging Date as if such Averaging Date were an Observation Date that was a Disrupted Day, irrespective of whether, pursuant to such determination, that deferred Averaging Date would fall on a date that already is or is deemed to be an Averaging Date for the relevant ETF; or
- (iii) "Modified Postponement", then:
 - (A) in the case of a Basket of ETFs, the Averaging Date for each ETF not affected by the occurrence of a Disrupted Day shall be the date specified in the applicable Final Terms as an Averaging Date in respect of the relevant Observation Date and the Averaging Date for any ETF affected by the occurrence of a Disrupted Day shall be the first succeeding Scheduled Trading Day in relation to such ETF, and if the first succeeding Scheduled Trading Day has not occurred prior to the Averaging Disruption Longstop Date, then (I) the Averaging Disruption Longstop Date shall be deemed the Averaging Date (irrespective of whether such day is already an Averaging Date), and (II) the Calculation Agent shall determine the relevant price or amount for that Averaging Date in accordance with ETF Linked Asset Condition 3.1(b); and

- (B) otherwise, the Averaging Date shall be the first succeeding Scheduled Trading Day, and if the first succeeding Scheduled Trading Day has not occurred prior to the Averaging Disruption Longstop Date, then (I) the Averaging Disruption Longstop Date shall be deemed the Averaging Date (irrespective of whether such day is already an Averaging Date), and (II) the Calculation Agent shall determine the relevant price or amount for that Averaging Date in accordance with ETF Linked Asset Condition 3.1(b).

3.2 Potential Adjustment Events

- (a) Definitions

Potential Adjustment Event means the occurrence of any of the following at any time on or after the Trade Date:

- (b) a distribution, issue or dividend to existing holders of the relevant ETF Units of (i) an additional quantity of such ETF Units or (ii) other share capital or securities granting the right to payment of dividends and/or the proceeds of liquidation of the ETF equally or proportionately with such payments to holders of such ETF Units or (iii) share capital or other securities of another issuer acquired or owned (directly or indirectly) by the ETF as a result of a spin-off or other similar transaction or (iv) any other type of securities, rights or warrants or other assets, in any case for payment (in cash or otherwise) at less than the prevailing market price as determined by the Calculation Agent;
- (c) an extraordinary dividend paid by the ETF;
- (d) a repurchase by the ETF of relevant ETF Units whether the consideration for such repurchase is cash, securities or otherwise, other than in respect of a redemption of ETF Units initiated by an investor in such ETF that is consistent with the ETF Documents; or
- (e) any other event that may have a diluting or concentrative effect on the theoretical value of the ETF or quantity of ETF Units.

- (b) Consequences of the occurrence of a Potential Adjustment Event

Following the occurrence of any Potential Adjustment Event, the Calculation Agent will, in its sole and absolute discretion, determine whether such Potential Adjustment Event has a diluting or concentrative effect on the theoretical value of the ETF or Basket of ETF and, if so:

- (i) the Calculation Agent may make such adjustments to any of the Conditions as it considers appropriate to preserve the economic equivalent of the obligations of the relevant Issuer under the Securities and determine the date(s) on which any such adjustments will be effective. In making any such adjustments, the Calculation Agent may take into account the equivalent adjustment(s) which would be made to an exchange traded fund derivative transaction in the interbank market following the relevant event occurring and where the Calculation Agent deems appropriate (in its sole and absolute discretion), adjust the Conditions to give effect to such adjustment(s); or
- (ii) if the Calculation Agent is not able to or does not determine any adjustments for the purposes of sub-paragraph (i) above, the Issuer may, in its sole and absolute discretion, upon giving notice to the Securityholders in accordance with General Condition 14 (*Notices*), redeem all but not some only of the Securities, each Security being redeemed

by payment of an amount equal to the Fair Market Value Redemption Amount. Payments will be made in such manner as shall be notified to the Securityholders in accordance with General Condition 14 (*Notices*);

Upon the occurrence of a Potential Adjustment Event, the relevant Issuer shall give notice as soon as practicable to the Securityholders in accordance with General Condition 14 (*Notices*) stating the occurrence of the Potential Adjustment Event, giving details thereof and the action proposed to be taken in relation thereto.

(c) Adjustments to Certain ETF Linked Securities in European Currencies

In respect of any ETF originally quoted, listed and/or dealt as of the Trade Date in a currency of a member state of the European Union that has not adopted the single currency in accordance with the Treaty, if such ETF are at any time after the Trade Date quoted, listed and/or dealt exclusively in Euro on the relevant Exchange or, where no Exchange is specified, the principal market on which those ETF are traded, then the Calculation Agent may make the corresponding adjustment, if any, to any relevant term(s) of the ETF Linked Securities as the Calculation Agent determines appropriate to preserve the economic terms of the ETF Linked Security. The Calculation Agent will make any conversion necessary for the purposes of any such adjustment as of the Valuation Time at the appropriate mid-market spot rate of exchange determined by the Calculation Agent prevailing as of the Valuation Time. No adjustments under this paragraph will affect the currency denomination of any payment obligation arising out of the ETF Linked Security.

(d) Notwithstanding the foregoing, if "Essential Trigger" is specified in the applicable Final Terms as being applicable, General Conditions 6.8 and 12.3(f) will apply.

In the event the Number of ETF Units comprises any Fractional ETF Unit, the Physical Settlement Amount to be Delivered in respect of each Security will include only the Number of ETF Units to be Delivered and a Fractional ETF Unit Amount will be payable by the Issuer to the relevant Securityholder in lieu of such Fractional ETF Unit.

- (b) If "Cash or Physical Settlement" is specified as being applicable in the relevant Final Terms, ETF Linked Asset Condition 4.1(a) shall only apply in the circumstances in which Physical Settlement is deemed to apply in the manner set out in Redemption Method Condition 5 (as set out in Annex 9 (*Redemption Method Conditions*)).
- (c) If (i) either "Physical Settlement" or "Cash and Physical Settlement" is specified as being applicable in the applicable Final Terms and (ii) the Issuer determines (in its sole discretion) that there is a Dividend Amount, the Issuer will, in addition to Delivery of the Physical Settlement Amount and payment of any Fractional ETF Unit Amount in accordance with ETF Linked Asset Condition 4.1(a) above, pay to each Securityholder the Dividend Pass-through Amount on, or as soon as practicable after, the date on which such Delivery takes place.

Dividend Pass-through Amount means an amount, per Specified Denomination, equal to a *pro rata* share of the Dividend Amount provided that (a) where the Securities are due to be redeemed by way of payment of the Final Redemption Amount or Instalment Redemption Amount, the Dividend Pass-through Amount shall be zero and (b) where some or all of the Securities are redeemed by payment of the Partial Cash Settlement Amount, the Dividend Pass-through Amount shall be zero.

respect to the ETF Unit(s) and, accordingly, the relevant Issuer shall pay the relevant Securityholders an amount equal to the Partial Cash Settlement Amount to be apportioned *pro rata* amongst the relevant Securityholders on the Partial Cash Settlement Date.

Notwithstanding the foregoing, if "Essential Trigger" is specified in the applicable Final Terms as being applicable, General Condition 12.3(f) will apply.

4.3 Non-Delivery of ETF Units

If the relevant Issuer does not Deliver any ETF Unit other than as a result of an event or circumstance contemplated in ETF Linked Asset Condition 4.2 (*Partial Cash Settlement Due to Impossibility, Impracticality or Illegality*) or the Securityholder fails to comply with the procedures set out in this ETF Linked Asset Condition 4, such failure shall not constitute an event of default for the purpose of the Securities and the relevant Issuer may continue to attempt to Deliver the ETF Unit until the Latest Permissible Physical Settlement Date.

If, at the relevant Latest Permissible Physical Settlement Date, the relevant ETF Unit has not been Delivered, then partial cash settlement shall apply with respect to such ETF Unit and the relevant Issuer shall pay to the Securityholders an amount equal to the Partial Cash Settlement Amount to be apportioned *pro rata* amongst the Securityholders on the Partial Cash Settlement Date.

- (A) for each Share not affected by the occurrence of a Disrupted Day, the Observation Date shall be the Scheduled Observation Date; and

- (B) for each Share affected (each an **Affected Share**) by the occurrence of a Disrupted Day, the Calculation Agent may:

- (iii) if the Calculation Agent is not able to or does not determine the Share Price in accordance with Share Linked Asset Condition 3.1(b)(i) or Share Linked Asset Condition 3.1(b)(ii) above, as the case may be, or if such determination would not, in the opinion of the Calculation Agent, account for such Market Disruption Event:
 - (A) the Calculation Agent may make such adjustments to any of the Conditions as it considers appropriate to account for any such Disrupted Day and determine the date(s) on which any such adjustments will be effective. In making any such adjustments, the Calculation Agent may take into account the equivalent adjustment(s) which would be made to an equity derivative transaction in the market following the relevant event occurring and where the Calculation Agent deems appropriate (in its sole and absolute discretion), adjust the Conditions to give effect to such adjustment(s); or

(c) Averaging Date Disruption

If any Averaging Date is a Disrupted Day, then, where the consequence specified for "Averaging Date Disruption" in the applicable Final Terms is:

- (i) "Omission", then such Averaging Date will be deemed not to be a relevant Averaging Date for purposes of determining the relevant Share Price, and if through the operation of this provision no Averaging Date would occur with respect to the relevant Observation Date, Share Linked Asset Condition 3.1(b) will apply for purposes of determining the relevant price or amount on the final Averaging Date in respect of that Observation Date as if such final Averaging Date were an Observation Date that was a Disrupted Day;
- (ii) "Postponement", then Share Linked Asset Condition 3.1(b) will apply for purposes of determining the relevant price or amount on that Averaging Date as if such Averaging Date were an Observation Date that was a Disrupted Day, irrespective of whether, pursuant to such determination, that deferred Averaging Date would fall on a date that already is or is deemed to be an Averaging Date for the relevant Share; or

- (iii) "Modified Postponement", then:
- (A) in the case of a Basket of Shares, the Averaging Date for each Share not affected by the occurrence of a Disrupted Day shall be the date specified in the applicable Final Terms as an Averaging Date in respect of the relevant Observation Date and the Averaging Date for any Share affected by the occurrence of a Disrupted Day shall be the first succeeding Scheduled Trading Date in relation to such Share, and if the first succeeding Scheduled Trading Date has not occurred prior to the Averaging Disruption Longstop Date, then (I) the Averaging Disruption Longstop Date shall be deemed the Averaging Date (irrespective of whether such day is already an Averaging Date), and (II) the Calculation Agent shall determine the relevant price or amount for that Averaging Date in accordance with Share Linked Asset Condition 3.1(b); and
 - (B) otherwise, the Averaging Date shall be the first succeeding Scheduled Trading Date, and if the first succeeding Scheduled Trading Date has not occurred prior to the Averaging Disruption Longstop Date, then (I) the Averaging Disruption Longstop Date shall be deemed the Averaging Date (irrespective of whether such day is already an Averaging Date), and (II) the Calculation Agent shall determine the relevant price or amount for that Averaging Date in accordance with Share Linked Asset Condition 3.1(b).

3.2 Adjustment and Redemption Events

(a) **Potential Adjustment Events**

(i) Definitions

Potential Adjustment Event means the occurrence of any of the following at any time on or after the Trade Date:

- (B) a distribution, issue or dividend (whether ordinary or extraordinary) to existing holders of the relevant Shares of (I) such Shares or (II) other share capital or securities granting the right to payment of dividends and/or the proceeds of liquidation of the Basket Company or Share Company, as the case may be, equally or proportionately with such payments to holders of such Shares or (III) share capital or other securities of another issuer acquired or owned (directly or indirectly) by the Basket Company or Share Company, as the case may be, as a result of a spin-off or other similar transaction or (IV) any other type of securities, rights or certificates or other assets, in any case for payment (in cash or in other consideration) at less than the prevailing market price as determined by the Calculation Agent;
- (C) an extraordinary dividend;
- (D) a call by a Basket Company or Share Company, as the case may be, in respect of relevant Shares that are not fully paid;
- (E) a repurchase by the Basket Company or any of its subsidiaries or Share Company or any of its subsidiaries, as the case may be, of relevant Shares whether out of profits or capital and whether the consideration for such repurchase is cash, securities or otherwise;

- (F) in respect of a Basket Company or Share Company, as the case may be, an event that results in any shareholder rights being distributed or becoming separated from shares of common stock or other shares of the capital stock of such Basket Company or Share Company, as the case may be, pursuant to a shareholder rights plan or arrangement directed against hostile takeovers that provides upon the occurrence of certain events for a distribution of preferred stock, certificates, debt instruments or stock rights at a price below their market value as determined by the Calculation Agent, provided that any adjustment effected as a result of such an event shall be readjusted upon any redemption of such rights; or
 - (G) any other event having, in the opinion of the Calculation Agent, a diluting or concentrative effect on the theoretical value of the relevant Shares.
- (ii) Consequences of the occurrence of a Potential Adjustment Event

Following the declaration by the Basket Company or Share Company, as the case may be, of the terms of any Potential Adjustment Event, the Calculation Agent will, in its sole and absolute discretion, determine whether such Potential Adjustment Event has a diluting or concentrative effect on the theoretical value of the Shares and, if so:

- (A) the Calculation Agent may (I) make the corresponding adjustment, if any, to any relevant term(s) of the Securities, as the Calculation Agent in its sole and absolute discretion determines appropriate to account for that diluting or concentrative effect (provided that no adjustments will be made to account solely for changes in volatility, expected dividends, stock loan rate or liquidity relative to the relevant Share) and (II) determine the effective date of that adjustment; the Calculation Agent may, but need not, determine the appropriate adjustment by reference to the adjustment in respect of such Potential Adjustment Event made by an options exchange to options on the Shares traded on that options exchange;
- (B) if the Calculation Agent is not able to or does not determine any adjustments for the purposes of sub-paragraphs (A) above, the Issuer may, in its sole and absolute discretion, upon giving notice to the Securityholders in accordance with General Condition 14 (*Notices*), redeem all but not some only of the Securities, each Security being redeemed by payment of an amount equal to the Fair Market Value Redemption Amount; payments will be made in such manner as shall be notified to the Securityholders in accordance with General Condition 14 (*Notices*).

Upon the making of any such adjustment by the Calculation Agent, the Calculation Agent shall give notice as soon as practicable to the Securityholders in accordance with General Condition 14 (*Notices*), stating the adjustment to any relevant term(s) of the Securities and giving brief details of the Potential Adjustment Event.

Notwithstanding the foregoing, if "Essential Trigger" is specified in the applicable Final Terms as being applicable, General Conditions 6.8 and 12.3(f) will apply.

In respect of any Shares originally quoted, listed and/or dealt as of the Trade Date in a currency of a member state of the European Union that has not adopted the single currency in accordance with the EU Treaty, if such Shares are at any time after the Trade Date quoted, listed and/or dealt exclusively in Euro on the relevant Exchange or, where no Exchange is specified, the principal market on which those Shares are traded, then the Calculation Agent may make the corresponding adjustment, if any, to any relevant

term(s) of the Securities as the Calculation Agent determines appropriate to preserve the economic terms of the Share Linked Security. The Calculation Agent will make any conversion necessary for the purposes of any such adjustment as of the Valuation Time at an appropriate mid-market spot rate of exchange determined by the Calculation Agent prevailing as of the Valuation Time. No adjustments under this paragraph will affect the currency denomination of any payment obligation arising out of the Share Linked Security.

In the event the Number of Shares comprises any Fractional Share, the Physical Settlement Amount to be Delivered in respect of each Security will include only the Number of

Shares to be Delivered and a Fractional Share Amount will be payable by the Issuer to the relevant Securityholder in lieu of such Fractional Share.

- (b) If "Cash or Physical Settlement" is specified as being applicable in the relevant Final Terms, Share Linked Asset Condition 4.1(a) shall only apply in the circumstances in which Physical Settlement is deemed to apply in the manner set out in Redemption Method Condition 5 (as set out in Annex 9 (*Redemption Method Conditions*)).
- (c) If (i) either "Physical Settlement" or "Cash and Physical Settlement" is specified as being applicable in the applicable Final Terms and (ii) the Issuer determines (in its sole discretion) that there is a Dividend Amount, the Issuer will, in addition to Delivery of the Physical Settlement Amount and payment of any Fractional Share Amount in accordance with Share Linked Asset Condition 4.1(a) above, pay to each Securityholder the Dividend Pass-through Amount on, or as soon as practicable after, the date on which such Delivery takes place.

If, as at the relevant Latest Permissible Physical Settlement Date, the relevant Share has not been Delivered, then partial cash settlement shall apply with respect to such Share and the relevant Issuer shall pay to the Securityholders an amount equal to the Partial Cash Settlement Amount to be apportioned *pro rata* amongst the Securityholders on the Partial Cash Settlement Date.

(a) The definition of "Potential Adjustment Event" shall be amended so that it reads as follows:

"Potential Adjustment Event means any of the following at any time on or after the Trade Date:

(A) a subdivision, consolidation or reclassification of relevant Shares and/or Underlying Shares (unless resulting in a Merger Event), or a free distribution or dividend of any such Shares and/or Underlying Shares to existing holders by way of bonus, capitalisation or similar issue;

- (B) a distribution, issue or dividend (whether ordinary or extraordinary) to existing holders of the relevant Shares and/or Underlying Shares of (I) such Shares and/or Underlying Shares, or (II) other share capital or securities granting the right to payment of dividends and/or the proceeds of liquidation of the Basket Company, the Share Company or Underlying Share Company, as the case may be, equally or proportionately with such payments to holders of such Shares and/or Underlying Shares, or (III) share capital or other securities of another issuer acquired or owned (directly or indirectly) by the Basket Company, Share Company or Underlying Share Company, as the case may be, as a result of a spin-off or other similar transaction, or (IV) any other type of securities, rights or certificates or other assets, in any case for payment (in cash or in other consideration) at less than the prevailing market price as determined by the Calculation Agent;
 - (C) in respect of a Share and/or Underlying Share, an amount per Share and/or Underlying Share is determined by the Calculation Agent to be an extraordinary dividend;
 - (D) a call by the Basket Company, Share Company or Underlying Share Company, as the case may be, in respect of relevant Shares and/or Underlying Shares that are not fully paid;
 - (E) a repurchase by the Basket Company, the Share Company or the Underlying Share Company, or any of their respective subsidiaries, as the case may be, of relevant Shares and/or Underlying Shares whether out of profits or capital and whether the consideration for such repurchase is cash, securities or otherwise;
 - (F) in respect of a Basket Company, Share Company or Underlying Share Company, as the case may be, an event that results in any shareholder rights being distributed or becoming separated from shares of common stock or other shares of the capital stock of such Basket Company, Share Company or Underlying Share Company, as the case may be, pursuant to a shareholder rights plan or arrangement directed against hostile takeovers that provides upon the occurrence of certain events for a distribution of preferred stock, certificates, debt instruments or stock rights at a price below their market value, as determined by the Calculation Agent, provided that any adjustment effected as a result of such an event shall be readjusted upon any redemption of such rights;
 - (G) any other event having, in the opinion of the Calculation Agent, a diluting or concentrative effect on the theoretical value of the relevant Shares and/or Underlying Shares; or
 - (H) the making of any amendment or supplement to the terms of the Deposit Agreement,
- provided that an event under (A) to (G) (inclusive) above in respect of the Underlying Shares shall not constitute a Potential Adjustment Event unless, in the determination of the Calculation Agent, such event has a diluting or concentrative effect on the theoretical value of the Shares."
- (b) Following the declaration by the Basket Company, Share Company or Underlying Share Company, as the case may be, of the terms of any Potential Adjustment Event, the Calculation Agent will, in its sole and absolute discretion, determine whether:
 - (i) in the case of an event under (A) to (G) (inclusive) of the definition of "Potential Adjustment Event" occurring in respect of any Underlying Share, such Potential Adjustment Event has a diluting or concentrative effect on the theoretical value of the relevant Shares; or
 - (ii) in the case of an event under (H) of the definition of "Potential Adjustment Event", such Potential Adjustment Event has an economic effect on the Securities,

and, in each case, the Calculation Agent may (I) make the corresponding adjustment(s), if any, to any relevant term(s) of the Securities, as the Calculation Agent in its sole and absolute discretion determines appropriate to account for (1) in respect of an event under (A) to (G) (inclusive) of the definition of "Potential Adjustment Event", that diluting or concentrative effect, and (2) in respect of an event under (H) of the definition of "Potential Adjustment Event", such economic effect on the Securities, as the case may be (provided that no adjustments will be made to account solely for changes in volatility, expected dividends, stock loan rate or liquidity relative to the relevant Share) and (II) determine the effective date of that adjustment. The Calculation Agent may, but need not, (amongst other factors) determine the appropriate adjustment by reference to the adjustment in respect of such Potential Adjustment Event made by an options exchange to options on the Shares and/or Underlying Shares traded on that options exchange, or made by the Depository under the Deposit Agreement, as applicable.

If the Calculation Agent is not able to, or does not, determine any adjustments for the purposes of the sub-paragraph above, the Issuer may, in its sole and absolute discretion, upon giving notice to the Securityholders in accordance with General Condition 14 (*Notices*), redeem all but not some only of the Securities, each Security being redeemed by payment of an amount equal to the Fair Market Value Redemption Amount; payments will be made in such manner as shall be notified to the Securityholders in accordance with General Condition 14 (*Notices*).

Upon the making of any such adjustment by the Calculation Agent, the Calculation Agent shall give notice as soon as practicable to the Securityholders in accordance with General Condition 14 (*Notices*), stating the adjustment to any relevant term(s) of the Securities and giving brief details of the Potential Adjustment Event.

Notwithstanding the foregoing, if "Essential Trigger" is specified in the applicable Final Terms as being applicable, General Conditions 6.8 and 12.3(f) will apply.

- (c) The definitions of "Merger Event" and "Tender Offer" shall be amended in accordance with the DR Amendment.
- (d) If the Calculation Agent determines that a Merger Event or Tender Offer has occurred in respect of an Underlying Share, then where the Calculation Agent makes an adjustment to the Securities in connection with a Merger Event or Tender Offer, the Calculation Agent may (amongst other factors) have reference to any adjustment made by the Depository under the Deposit Agreement.
- (e) The definitions of "Nationalisation", "Insolvency" and "De-Listing" shall be amended in accordance with the DR Amendment.
- (f) Notwithstanding anything to the contrary in the definition of "De-Listing", a De-Listing shall not occur in respect of the Underlying Shares if the Underlying Shares are immediately re-listed, re-traded or re-quoted on an exchange or quotation system regardless of the location of such exchange or quotation system.
- (g) Share Linked Asset Condition 3.2(b)(ii) shall be amended so that it reads as follows:
 - "(ii) Consequences of the occurrence of an Extraordinary Event
 - (A) If an Extraordinary Event occurs in relation to a Share and/or Underlying Share, as the case may be, on or after the Trade Date, the Issuer in its sole and absolute discretion may take, if applicable, any of the actions described in (I), (II), (III) or (IV) below:
 - (I) require the Calculation Agent to determine in its sole and absolute discretion the appropriate adjustment, if any, to be made to any of the Conditions of the Securities to account for the Merger Event, Tender Offer, De-Listing, Nationalisation, Insolvency or Deposit Agreement Termination, as the case may be, and determine the effective date of

that adjustment; the relevant adjustments may include, without limitation, adjustments to account for changes in volatility, expected dividends, stock loan rate or liquidity relevant to the Shares and/or the Underlying Shares, as the case may be, or to the Securities; the Calculation Agent may (but need not) determine the appropriate adjustment by reference to the adjustment in respect of the Merger Event, Tender Offer, De-Listing, Nationalisation, Insolvency or Deposit Agreement Termination, as the case may be, made by any options exchange to options on the Shares and/or Underlying Shares, as the case may be, traded on that options exchange; or

- (II) by giving notice to Securityholders in accordance with General Condition 14 (*Notices*), redeem all but not some only of the Securities, each Security being redeemed by payment of an amount equal to the Fair Market Value Redemption Amount of a Security taking into account the relevant Extraordinary Event(s); or
- (III) in the case of Share Linked Securities relating to a Basket of Shares, on or after the relevant Merger Date, Tender Offer Date, or the date of the Nationalisation, Insolvency, De-Listing or Deposit Agreement Termination (as the case may be), require the Calculation Agent to adjust the Basket of Shares by including shares selected by it in accordance with the criteria for share selection set out in (B) below (the **Substitute Shares**) in place of the Affected Share(s) and the Substitute Shares will be deemed to be Shares and the relevant issuer of such shares, a Share Company or a Basket Company for the purposes of the Securities, and the Calculation Agent will make such adjustment, if any, to the Conditions of the Securities as the Calculation Agent in its sole and absolute discretion determines appropriate; such substitution and the relevant adjustment to the Basket of Shares will be deemed to be effective as of the date selected by the Calculation Agent (the **Substitution Date**) in its sole and absolute discretion and specified in the notice referred to below which may, but need not, be the Merger Date or Tender Offer Date or the date of the Nationalisation, Insolvency, De-Listing or Deposit Agreement Termination, as applicable.

The Weighting of each Substitute Share (if any) will be equal to the Weighting of the relevant Affected Share.

- (B) In order to be selected as a Substitute Share, the relevant share must be a share which, in the sole and absolute discretion of the Calculation Agent:
 - (I) is not already comprised in the Basket of Shares;
 - (II) the issuer of which belongs to (1) a similar economic sector as the Share Company or Basket Company in respect of the Affected Share, or (2) in the case of an Extraordinary Event affecting an Underlying Share, a similar economic sector as the Underlying Share Company; and
 - (III) the issuer of which is (1) of comparable market capitalisation, international standing and exposure as the Share Company or Basket Company in respect of the Affected Share, or (2) in the case of an Extraordinary Event affecting an Underlying Share, of comparable market capitalisation, international standing and exposure as the Underlying Share Company.

- (C) For the purpose of this Share Linked Asset Condition 3.2(b)(ii), the definition of "Extraordinary Event" shall include a Deposit Agreement Termination."
- (h) The definition of "Insolvency Filing" shall be amended in accordance with the DR Amendment.
- (i) The definition of "Hedging Disruption" shall be amended so that it reads as follows:

"Hedging Disruption means, unless Hedging Disruption is specified as not applicable in the applicable Final Terms, that:

- (a) in respect of Securities which are not Italian Listed Securities, the relevant Issuer, the Guarantor (if applicable) and/or any of their respective Affiliates is unable, after using commercially reasonable efforts, to: (i) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) it deems necessary to hedge any relevant price risk including but not limited to the currency risk and equity price of the relevant Issuer, the Guarantor, (if applicable), and/or any of their respective Affiliates in issuing and performing its obligations with respect to the Securities (including, in the case of Securities for which the applicable Final Terms specifies that the "Partial Lookthrough Depositary Receipt Provisions" shall be applicable to one or more Share(s), such Share(s)) or (ii) realise, recover, remit, receive, repatriate or transfer the proceeds of any such transaction(s) or asset(s) (including, in the case of Securities for which the applicable Final Terms specifies that the "Partial Lookthrough Depositary Receipt Provisions" shall be applicable to one or more Share(s), such Share(s)); or
- (b) in respect of Securities which are Italian Listed Securities, that the relevant Issuer, the Guarantor (if applicable) and/or any of their respective Affiliates is unable, after using commercially reasonable efforts and as a result of an event which is beyond the control of such Issuer, Guarantor (if applicable) and/or Affiliate(s) (including, without limitation, any force majeure, act of state, change in any applicable law or regulation (including, without limitation, any tax law), promulgation of or any change in the interpretation by any court, tribunal or regulatory authority with competent jurisdiction of any applicable law or regulation (including any action taken by a taxing authority), to (i) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) it deems necessary to hedge any relevant price risk including but not limited to the currency risk and equity price of the relevant Issuer, the Guarantor (if applicable) and/or any of their respective Affiliates, (if applicable), issuing and performing its obligations with respect to the Italian Listed Securities (including, in the case of Italian Listed Securities for which the applicable Final Terms specifies that the "Partial Lookthrough Depositary Receipt Provisions" shall be applicable to one or more Share(s), such Share(s)), or (ii) freely realise, recover, remit, receive, repatriate or transfer the proceeds of any such transaction(s) or asset(s) (including, in the case of Italian Listed Securities for which the applicable Final Terms specifies that the "Partial Lookthrough Depositary Receipt Provisions" shall be applicable to one or more Share(s), such Share(s))."
- (j) The definition of "Increased Cost of Hedging" shall be amended so that it reads as follows:

"Increased Cost of Hedging means, unless Increased Cost of Hedging is specified as not applicable in the applicable Final Terms, that the relevant Issuer, the Guarantor (if applicable) and/or any of their respective Affiliates would incur a materially increased (as compared with circumstances existing on the Trade Date) amount of tax, duty, expense or fee (other than brokerage commissions) to (a) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) it deems necessary to hedge the equity risk, foreign exchange risk and interest rate risk of the relevant Issuer, the Guarantor (if applicable) and/or any of their respective Affiliates, in issuing and performing its obligations with respect to the Securities (including, in the case of Securities for which the applicable Final Terms specifies that

the "Partial Lookthrough Depositary Receipt Provisions" shall be applicable to one or more Share(s), such Share(s)), or (b) realise, recover or remit the proceeds of any such transaction(s) or asset(s) (including, in the case of Securities for which the applicable Final Terms specifies that the "Partial Lookthrough Depositary Receipt Provisions" shall be applicable to one or more Share(s), such Share(s)), provided that any such materially increased amount that is incurred solely due to the deterioration of the creditworthiness of the relevant Issuer, the Guarantor, (if applicable) and/or any of their respective Affiliates shall not be deemed an Increased Cost of Hedging."

For the avoidance of doubt, where a provision is amended pursuant to this Share Linked Asset Condition 5.1 in accordance with the DR Amendment, if the event described in such provision occurs in respect of an Underlying Shares or an Underlying Share Company, then the consequence of such event shall be interpreted consistently with the DR Amendment and such event.

Notwithstanding the foregoing, if "Essential Trigger" is specified in the applicable Final Terms as being applicable, General Conditions 6.8 and 12.3(f) will apply.

5.2 Full Lookthrough Depositary Receipt Provisions

Where the applicable Final Terms specify that the "Full Lookthrough Depositary Receipt Provisions" shall be applicable to a Share, then the provisions set out below shall apply, and, in relation to such Share, the other provisions of these Share Linked Asset Conditions shall be deemed to be amended and modified as set out in this Share Linked Asset Condition 5.2.

(a) The definition of "Potential Adjustment Event" shall be amended so that it reads as follows:

"Potential Adjustment Event means any of the following at any time on or after the Trade Date:

- (A) a subdivision, consolidation or reclassification of relevant Shares and/or Underlying Shares (unless resulting in a Merger Event), or a free distribution or dividend of any such Shares and/or Underlying Shares to existing holders by way of bonus, capitalisation or similar issue;
- (B) a distribution, issue or dividend (whether ordinary or extraordinary) to existing holders of the relevant Shares and/or Underlying Shares of (I) such Shares and/or Underlying Shares, or (II) other share capital or securities granting the right to payment of dividends and/or the proceeds of liquidation of the Basket Company, the Share Company or Underlying Share Company, as the case may be, equally or proportionately with such payments to holders of such Shares and/or Underlying Shares, or (III) share capital or other securities of another issuer acquired or owned (directly or indirectly) by the Basket Company, Share Company or Underlying Share Company, as the case may be, as a result of a spin-off or other similar transaction, or (IV) any other type of securities, rights or certificates or other assets, in any case for payment (in cash or in other consideration) at less than the prevailing market price as determined by the Calculation Agent;
- (C) in respect of a Share and/or Underlying Share, an amount per Share and/or Underlying Share is determined by the Calculation Agent to be an extraordinary dividend;
- (D) a call by the Basket Company, Share Company or Underlying Share Company, as the case may be, in respect of relevant Shares and/or Underlying Shares that are not fully paid;
- (E) a repurchase by the Basket Company, the Share Company or the Underlying Share Company, or any of their respective subsidiaries, as the case may be, of relevant Shares and/or Underlying Shares whether out of profits or capital and whether the consideration for such repurchase is cash, securities or otherwise;

- (b) Following the declaration by the Basket Company, Share Company or Underlying Share Company, as the case may be, of the terms of any Potential Adjustment Event, the Calculation Agent will, in its sole and absolute discretion, determine whether:
 - (i) in the case of an event under (A) to (G) (inclusive) of the definition of "Potential Adjustment Event" occurring in respect of any Underlying Share, such Potential Adjustment Event has a diluting or concentrative effect on the theoretical value of the relevant Shares; or

and, in each case, the Calculation Agent may (I) make the corresponding adjustment(s), if any, to any relevant term(s) of the Securities, as the Calculation Agent in its sole and absolute discretion determines appropriate to account for (1) in respect of an event under (A) to (G) (inclusive) of the definition of "Potential Adjustment Event", that diluting or concentrative effect, and (2) in respect of an event under (H) of the definition of "Potential Adjustment Event", such economic effect on the Securities, as the case may be (provided that no adjustments will be made to account solely for changes in volatility, expected dividends, stock loan rate or liquidity relative to the relevant Share) and (II) determine the effective date of that adjustment. The Calculation Agent may, but need not, (amongst other factors) determine the appropriate adjustment by reference to the adjustment in respect of such Potential Adjustment Event made by an options exchange to options on the Shares and/or Underlying Shares traded on that options exchange, or made by the Depository under the Deposit Agreement, as applicable.

If the Calculation Agent is not able to, or does not, determine any adjustments for the purposes of the sub-paragraph above, the Issuer may, in its sole and absolute discretion, upon giving notice to the Securityholders in accordance with General Condition 14 (*Notices*), redeem all but not some only of the Securities, each Security being redeemed by payment of an amount equal to the Fair Market Value Redemption Amount; payments will be made in such manner as shall be notified to the Securityholders in accordance with General Condition 14 (*Notices*).

Notwithstanding the foregoing, if "Essential Trigger" is specified in the applicable Final Terms as being applicable, General Conditions 6.8 and 12.3(f) will apply.

- (c) The definitions of "Merger Event" and "Tender Offer" shall be amended in accordance with the DR Amendment.
- (d) If the Calculation Agent determines that a Merger Event or Tender Offer has occurred in respect of an Underlying Share, then where the Calculation Agent makes an adjustment to the Securities in connection with a Merger Event or Tender Offer, the Calculation Agent may (amongst other factors) have reference to any adjustment made by the Depository under the Deposit Agreement.
- (e) The definitions of "Nationalisation", "Insolvency" and "De-Listing" shall be amended in accordance with the DR Amendment.
- (f) Share Linked Asset Condition 3.2(b)(ii) shall be amended so that it reads as follows:

"(ii) Consequences of the occurrence of an Extraordinary Event

(A) If an Extraordinary Event occurs in relation to a Share and/or Underlying Share, as the case may be, on or after the Trade Date, the Issuer in its sole and absolute discretion may take, if applicable, any of the actions described in (I), (II), (III) or (IV) below:

- (I) require the Calculation Agent to determine in its sole and absolute discretion the appropriate adjustment, if any, to be made to any of the Conditions of the Securities to account for the Merger Event, Tender Offer, De-Listing, Nationalisation, Insolvency or Deposit Agreement Termination, as the case may be, and determine the effective date of that adjustment; the relevant adjustments may include, without limitation, adjustments to account for changes in volatility, expected dividends, stock loan rate or liquidity relevant to the Shares and/or the Underlying Shares, as the case may be, or to the Securities; the Calculation Agent may (but need not) determine the appropriate adjustment by reference to the adjustment in respect of the Merger Event, Tender Offer, De-Listing, Nationalisation, Insolvency or Deposit Agreement Termination, as the case may be, made by any options exchange to options on the Shares and/or Underlying Shares, as the case may be, traded on that options exchange; or

- (III) in the case of Share Linked Securities relating to a Basket of Shares where a Weighting is specified as being applicable to each Share in the Basket in the relevant Final Terms, redeem the Securities in part by giving notice to Securityholders in accordance with General Condition 14 (*Notices*); if the Securities are so redeemed in part, the portion of each Security representing the aggregate Weightings of the Share(s) (the **Affected Share(s)**) for which such Share(s) and/or the Underlying Share(s), as the case may be, were affected by the Extraordinary Event, shall be redeemed at an amount (the **Redeemed Amount**) equal to the Fair Value Market Redemption Amount of the Security multiplied by the aggregate Weightings of the Affected Share(s); the Calculation Agent will determine in its sole and absolute

discretion and make the appropriate adjustments, if any, to the Conditions of the Securities to account for such redemption in part; for the avoidance of doubt the remaining part of each Security after such redemption and adjustment shall remain outstanding with full force and effect; payments will be made in such manner as shall be notified to the Securityholders in accordance with General Condition 14 (*Notices*); or

- (IV) in the case of Share Linked Securities relating to a Basket of Shares, on or after the relevant Merger Date, Tender Offer Date, or the date of the Nationalisation, Insolvency, De-Listing or Deposit Agreement Termination (as the case may be), require the Calculation Agent to adjust the Basket of Shares by including shares selected by it in accordance with the criteria for share selection set out in (B) below (the **Substitute Shares**) in place of the Affected Share(s) and the Substitute Shares will be deemed to be Shares and the relevant issuer of such shares, a Share Company or a Basket Company for the purposes of the Securities, and the Calculation Agent will make such adjustment, if any, to the Conditions of the Securities as the Calculation Agent in its sole and absolute discretion determines appropriate; such substitution and the relevant adjustment to the Basket of Shares will be deemed to be effective as of the date selected by the Calculation Agent (the **Substitution Date**) in its sole and absolute discretion and specified in the notice referred to below which may, but need not, be the Merger Date or Tender Offer Date or the date of the Nationalisation, Insolvency, De-Listing or Deposit Agreement Termination, as applicable.

- (C) For the purpose of this Share Linked Asset Condition 3.2(b)(ii), the definition of "Extraordinary Event" shall include a Deposit Agreement Termination.
- (D) Notwithstanding the foregoing, if "Essential Trigger" is specified in the applicable Final Terms as being applicable, General Conditions 6.8 and 12.3(f) will apply."
- (g) The definition of "Insolvency Filing" shall be amended in accordance with the DR Amendment.

- (h) For the purpose of determining whether a Market Disruption Event has occurred in respect of a Share to which the applicable Final Terms specify that the "Full Lookthrough Depository Receipt Provisions" shall be applicable, the following amendments shall be deemed to be made to the Share Asset Linked Conditions:

3 EVENTS RELATING TO FUND LINKED SECURITIES

3.1 Disrupted Days and Consequences

- (a) Consequences of the occurrence of Disrupted Days

The Calculation Agent shall, as soon as reasonably practicable under the circumstances, notify the relevant Issuer of the occurrence of a Disrupted Day on any day that, but for the occurrence or continuance of a Disrupted Day, would have been an Observation Date. Without limiting the obligation of the Calculation Agent to notify the parties as set forth in the preceding sentence, failure by the Calculation Agent to notify the parties of the occurrence of a Disrupted Day shall not affect the validity of the occurrence and the effect of such Disrupted Day. In addition, if any Observation Date is a Disrupted Day, then:

- (i) in the case of Fund Linked Securities relating to a single Fund Interest, the Calculation Agent may:
 - (A) postpone the Observation Date, in which case:
 - (I) in respect of a Fund Interest where the Fund Price is to be determined in accordance with sub-paragraph (b)(i) of the definition thereof, the

Observation Date will be the first immediately succeeding Fund Business Day that is not a Disrupted Day (the **Fund Determination Date**), unless each consecutive Fund Business Day up to and including the Disruption Longstop Date is a Disrupted Day, in which case (1) the Disruption Longstop Date shall be deemed to be the Observation Date, notwithstanding the fact that such day is a Disrupted Day and (2) the Calculation Agent shall determine its good faith estimate of the value for the Fund Interest as of the Valuation Time and the Disruption Longstop Date; and

- (II) in respect of a Fund Interest where the Fund Price is to be determined in accordance with sub-paragraphs (b)(ii) – (v) of the definition thereof, the Observation Date will be the first immediately succeeding Currency Business Day that is not a Disrupted Day (the **Fund Determination Date**), unless each consecutive Currency Business Day up to and including the Disruption Longstop Date is a Disrupted Day, in which case (1) the Disruption Longstop Date shall be deemed to be the Observation Date, notwithstanding the fact that such day is a Disrupted Day and (2) the Calculation Agent shall determine its good faith estimate of the value for the Fund Interest as of the Valuation Time and the Disruption Longstop Date; or

- (B) determine its good faith estimate of the net asset value for the relevant Fund Interest Unit for such day, taking into consideration any information that in good faith it deems relevant,

with each such value so determined being used as the relevant Fund Price;

- (ii) in the case of Fund Linked Securities relating to a Basket of Fund Interests:

- (A) for each Fund Interest not affected by the occurrence of a Disrupted Day, the Observation Date shall be the Scheduled Observation Date; and

- (B) for each Fund Interest affected (each an **Affected Fund Interest**) by the occurrence of a Disrupted Day, the Calculation Agent may:

- (I) postpone the Observation Date, in which case:

- (1) in respect of a Fund Interest where the Fund Price is to be determined in accordance with sub-paragraph (b)(i) of the definition thereof, the Observation Date will be the Fund Determination Date relating to such Affected Fund Interest, unless each consecutive Fund Business Day up to and including the Disruption Longstop Date is a Disrupted Day relating to such Affected Fund Interest, in which case (aa) the Disruption Longstop Date shall be deemed to be the Observation Date, notwithstanding the fact that such day is a Disrupted Day relating to the relevant Affected Fund Interest and (bb) the Calculation Agent shall determine its good faith estimate of the value for the relevant Affected Fund Interest as of the Valuation Time on the Disruption Longstop Date; in case of multiple Affected Fund Interests, the latest Fund Determination Date will be the Fund Determination Date for the purpose of Fund Linked Asset Condition 3.1(a)(i)(A)(I) above; and

- (2) in respect of a Fund Interest where the Fund Price is to be determined in accordance with sub-paragraphs (b)(ii) – (v) of the definition thereof, the Observation Date will be the Fund Determination Date relating to such Affected Fund Interest, unless each consecutive Currency Business Day up to and including the Disruption Longstop Date is a Disrupted Day relating to such Affected Fund Interest, in which case (aa) the Disruption Longstop Date shall be deemed to be the Observation Date, notwithstanding the fact that such day is a Disrupted Day relating to the relevant Affected Fund Interest and (bb) the Calculation Agent shall determine its good faith estimate of the value for the relevant Affected Fund Interest as of the Valuation Time on the Disruption Longstop Date; in case of multiple Affected Fund Interests, the latest Fund Determination Date will be the Fund Determination Date for the purpose of Fund Linked Asset Condition 3.1(a)(i)(A)(II) above; or

- (II) determine its good faith estimate of the net asset value for the relevant Fund Interest Unit of each Affected Fund Interest (or a method for determining such value) for such day, taking into consideration any information that in good faith it deems relevant,

with each such value so determined being used as the Fund Price for the relevant Affected Fund Interest;

- (iii) if the Calculation Agent is not able to or does not determine the relevant Fund Price in accordance with Fund Linked Asset Condition 3.1(a)(i) or Fund Linked Asset Condition 3.1(a)(ii) above, as the case may be, or if such determination would not, in the opinion of the Calculation Agent, account for such Disrupted Day:
- (A) the Calculation Agent may make such adjustments to any of the Conditions as it considers appropriate to account for such Disrupted Day and determine the date(s) on which any such adjustments will be effective (in its sole and absolute discretion); or
- (B) if the Calculation Agent is not able to or does not determine any adjustments for the purposes of sub-paragraph (iii)(A) above, the relevant Issuer may, in its sole and absolute discretion, upon giving notice to the Securityholders in accordance with General Condition 14 (*Notices*), redeem all but not some only of the Securities, each Security being redeemed by payment of an amount equal to the Fair Market Value Redemption Amount, where payments will be made in such manner as shall be notified to the Securityholders in accordance with General Condition 14 (*Notices*); and
- (iv) the Calculation Agent shall give notice as soon as practicable to the Securityholders in accordance with General Condition 14 (*Notices*) of the occurrence of a Disrupted Day on an Observation Date. Such notice shall give the details of such Disrupted Day and the action proposed to be taken by the Calculation Agent in relation thereto.
- (v) Notwithstanding the foregoing, if "Essential Trigger" is specified in the applicable Final Terms as being applicable, the General Conditions 6.8 and 12.3(f) will apply.

Following the occurrence of any Potential Adjustment Event:

- (A) the Calculation Agent may (I) make such adjustments, to any relevant term(s) of the Securities, as the Calculation Agent may determine in its sole and absolute discretion to preserve the economic equivalent of the obligations of the relevant Issuer under the Securities, and (II) determine the effective date of any such adjustments; or
- (B) if the Calculation Agent is not able to or does not determine any adjustments for the purposes of sub-paragraph (A) above, the Issuer may, in its sole and absolute discretion, upon giving notice to the Securityholders in accordance with General Condition 14 (*Notices*), redeem all but not some only of the Securities, each Security being redeemed by payment of an amount equal to the Fair Market Value Redemption Amount; payments will be made in such manner as shall be notified to the Securityholders in accordance with General Condition 14 (*Notices*).

Upon the making of any such adjustment by the Calculation Agent, the Calculation Agent shall give notice as soon as practicable to the Securityholders in accordance with General Condition 14 (*Notices*), stating the adjustment to any relevant term(s) of the Securities and giving brief details of the Potential Adjustment Event.

- (ii) "Postponement", then Fund Linked Asset Condition 3.1(a) will apply for purposes of determining the relevant price or amount on that Averaging Date as if such Averaging Date were an Observation Date that was a Disrupted Day, irrespective of whether, pursuant to such determination, that deferred Averaging Date would fall on a date that already is or is deemed to be an Averaging Date for the relevant Fund Interest; or
- (iii) "Modified Postponement", then:
 - (A) in the case of a Basket of Fund Interests, the Averaging Date for each Fund Interest not affected by the occurrence of a Disrupted Day shall be the date specified in the applicable Final Terms as an Averaging Date in respect of the relevant Observation Date and the Averaging Date for any Fund Interest affected by the occurrence of a Disrupted Day shall be the first succeeding Valid Date in relation to such Fund Interest, and if the first succeeding Valid Date has not occurred prior to the Averaging Disruption Longstop Date, then (I) the Averaging Disruption Longstop Date shall be deemed the Averaging Date (irrespective of whether such day is already an Averaging Date), and (II) the Calculation Agent shall determine the relevant price or amount for that Averaging Date in accordance with Fund Linked Asset Condition 3.1(a); and
 - (B) otherwise, the Averaging Date shall be the first succeeding Valid Date, and if the first succeeding Valid Date has not occurred prior to the Averaging Disruption Longstop Date, then (I) the Averaging Disruption Longstop Date shall be deemed the Averaging Date (irrespective of whether such day is already an Averaging Date), and (II) the Calculation Agent shall determine the relevant price or amount for that Averaging Date in accordance with Fund Linked Asset Condition 3.1(a).

Hypothetical Hedge Positions means any purchase, sale, entry into or maintenance, by a Hypothetical Investor, of one or more (a) positions or contracts in Fund Interest Units, options, futures, derivatives, interest rate transactions or foreign exchange transactions, (b) securities lending/borrowing transactions, (c) cash deposits or cash borrowings or (d) other instruments, arrangements, assets or liabilities, howsoever described, in order to hedge individually or on a portfolio basis, the part of the relevant Issuer's obligations under the Securities linked to or indexed to the relevant Fund Interest Unit due on the Redemption Date apportioned *pro rata* to each outstanding Security, where (i) if the Intermediate Full Liquidation Date has not occurred on or before the fourth Business Day preceding the Redemption Date, the Hypothetical Hedge Positions will include the Intermediate Hypothetical Hedge Positions, and (ii) such reference to the word "fourth" may be deemed to be a reference to another time limit as determined by the Calculation Agent pursuant to rules applicable to the relevant Clearing System.

Intermediate Full Liquidation Date means, in respect of any Intermediate Payment Date, the date on which the liquidation proceeds of the Intermediate Hypothetical Hedge Positions (including *inter alia* by satisfying any obligations or liabilities in place with respect to or part of such Intermediate Hypothetical Hedge Positions, if any, with the liquidation proceeds of the assets of such Intermediate Hypothetical

Hedge Positions) are deemed, as determined by the Calculation Agent, to be fully received by the Hypothetical Investor.

Intermediate Hypothetical Hedge Positions means any purchase, sale, entry into or maintenance, by a Hypothetical Investor, of one or more (a) positions or contracts in Fund Interest Units, options, futures, derivatives, interest rate transactions or foreign exchange transactions, (b) securities lending/borrowing transactions, (c) cash deposits or cash borrowings or (d) other instruments, arrangements, assets or liabilities, howsoever described, in order to hedge individually or on a portfolio basis, the part of the Issuer's obligations under the Securities linked to or indexed to the relevant Fund Interest Unit due on an Intermediate Payment Date, apportioned *pro rata* to each outstanding Security.

Intermediate Payment Date means, in respect of a Series of Securities, either an Interest Payment Date or an Instalment Date specified as such in the applicable Final Terms.

Postponed Scheduled Redemption Date means the date that falls on the second anniversary of the Redemption Date, or if such day is not a Business Day, the immediately following Business Day.

(b) Consequences of the occurrence of Disrupted Days

If an Observation Date is a Disrupted Day, then:

(i) In the case of Future Linked Securities relating to a single Future, the Calculation Agent may:

- (A) postpone the Observation Date, in which case the Observation Date will be the first immediately succeeding Scheduled Trading Day that is not a Disrupted Day (the **Future Determination Date**), unless each consecutive Scheduled Trading Day up to and including the Disruption Longstop Date is a Disrupted Day, in which case (I) the Disruption Longstop Date shall be deemed to be the Observation Date, notwithstanding the fact that such day is a Disrupted Day and (II) the Calculation Agent shall determine its good faith estimate of the value for the relevant Future as of the Daily Fixing Time on the Disruption Longstop Date; or
- (B) determine the value for the relevant Future (or a method for determining an such value) for such day, taking into consideration the latest available quotation for the relevant Future and any other information that in good faith it deems relevant,

with each such value so determined being used as the relevant Future Price.

(ii) In the case of Future Linked Securities relating to a Basket of Futures:

- (A) for each Future not affected by the occurrence of a Disrupted Day, the Observation Date shall be the Scheduled Observation Date; and
- (B) for each Future affected (each an **Affected Future**) by the occurrence of a Disrupted Day, the Calculation Agent may:
 - (I) postpone the Observation Date, in which case the Observation Date will be the Future Determination Date relating to such Affected Future, unless each consecutive Scheduled Trading Day up to and including the Disruption Longstop Date is a Disrupted Day relating to such Affected Future, in which case (1) the Disruption Longstop Date shall be deemed to be the Observation Date, notwithstanding the fact that such day is a Disrupted Day relating to the relevant Affected Future and (2) the Calculation Agent shall determine its good faith estimate of the value for the relevant Affected Future as of the Daily Fixing Time on the Disruption Longstop Date; in case of multiple Affected Futures, the latest Future Determination Date will be the Future Determination Date for the purpose of Future Linked Asset Condition 1(a) above; or

- (II) determine the value for the relevant Affected Futures (or a method for determining such value) for such day, taking into consideration the latest available quotation for the relevant Future and any other information that in good faith it deems relevant,

with each such value so determined being used as the value for the relevant Affected Future.

- (iii) If the Calculation Agent is not able to or does not determine the Future Price in accordance with Future Linked Asset Condition 3.1(b)(i) or Future Linked Asset Condition 3.1(b)(ii) above, as the case may be, or if such determination would not, in the opinion of the Calculation Agent, account for such Market Disruption Event:
 - (A) the Calculation Agent may make such adjustments to any of the Conditions as it considers appropriate to account for any such Disrupted Day and determine the date(s) on which any such adjustments will be effective. In making any such adjustments, the Calculation Agent may take into account the equivalent adjustment(s) which would be made to an equity derivative transaction in the market following the relevant event occurring and where the Calculation Agent deems appropriate (in its sole and absolute discretion), adjust the Conditions to give effect to such adjustment(s); or
 - (B) if the Calculation Agent is not able to or does not determine any adjustments for the purposes of sub-paragraph (iii)(A) above, the Issuer may, in its sole and absolute discretion, upon giving notice to the Securityholders in accordance with General Condition 14 (*Notices*), redeem all but not some only of the Securities, each Security being redeemed by payment of an amount equal to the Fair Market Value Redemption Amount. Payments will be made in such manner as shall be notified to the Securityholders in accordance with General Condition 14 (*Notices*).
- (iv) The Calculation Agent shall give notice as soon as practicable to the Securityholders in accordance with General Condition 14 (*Notices*) of the occurrence of a Disrupted Day on an Observation Date. Such notice shall give the details of such Disrupted Day and the action proposed to be taken by the Calculation Agent in relation thereto.
- (v) Notwithstanding the foregoing, if "Essential Trigger" is specified in the applicable Final Terms as being applicable, General Conditions 6.8 and 12.3(f) will apply.

(c) Averaging Date Disruption

If any Averaging Date is a Disrupted Day, then, where the consequence specified for "Averaging Date Disruption" in the applicable Final Terms is:

- (i) "Omission", then such Averaging Date will be deemed not to be a relevant Averaging Date for purposes of determining the relevant Future Price, and if through the operation of this provision no Averaging Date would occur with respect to the relevant Observation Date, Future Linked Asset Condition 3.1(b) will apply for purposes of determining the relevant price or amount on the final Averaging Date in respect of that Observation Date as if such final Averaging Date were an Observation Date that was a Disrupted Day;
- (ii) "Postponement", then Future Linked Asset Condition 3.1(b) will apply for purposes of determining the relevant price or amount on that Averaging Date as if such Averaging Date were an Observation Date that was a Disrupted Day, irrespective of whether, pursuant to such determination, that deferred Averaging Date would fall on a date that already is or is deemed to be an Averaging Date for the relevant Future; or

- (iii) "Modified Postponement", then:
- (A) in the case of a Basket of Futures, the Averaging Date for each Future not affected by the occurrence of a Disrupted Day shall be the date specified in the applicable Final Terms as an Averaging Date in respect of the relevant Observation Date and the Averaging Date for any Future affected by the occurrence of a Disrupted Day shall be the first succeeding Scheduled Trading Date in relation to such Future, and if the first succeeding Scheduled Trading Date has not occurred prior to the Averaging Disruption Longstop Date, then (I) the Averaging Disruption Longstop Date shall be deemed the Averaging Date (irrespective of whether such day is already an Averaging Date), and (II) the Calculation Agent shall determine the relevant price or amount for that Averaging Date in accordance with Future Linked Asset Condition 3.1(b); and
 - (B) otherwise, the Averaging Date shall be the first succeeding Scheduled Trading Date, and if the first succeeding Scheduled Trading Date has not occurred prior to the Averaging Disruption Longstop Date, then (I) the Averaging Disruption Longstop Date shall be deemed the Averaging Date (irrespective of whether such day is already an Averaging Date), and (II) the Calculation Agent shall determine the relevant price or amount for that Averaging Date in accordance with Future Linked Asset Condition 3.1(b).

3.2 Adjustment and Redemption Events

(a) Potential Adjustment Events

(i) Definitions

Potential Adjustment Event means, in relation to a Future, any event having, in the opinion of the Calculation Agent, a diluting or concentrative effect on the theoretical value of such Future and which is not anticipated in terms of such Future or the occurrence of which is not scheduled to occur, in each case as at the Trade Date.

(ii) Consequences of the occurrence of a Potential Adjustment Event

Following the occurrence of any Potential Adjustment Event in relation to a Future, the Calculation Agent will, in its sole and absolute discretion, determine whether such Potential Adjustment Event has a diluting or concentrative effect on the theoretical value of the Future or Basket of Futures.

- (A) If so, the Calculation Agent may (I) make the corresponding adjustment, if any, to be made to the elements relating to the Future used to determine any settlement or payment terms under the Securities and/or adjust any other terms of the Securities as it determines appropriate to preserve the economic equivalent of the obligations of the Issuer under the Securities and (II) determine the effective date of that adjustment. The Calculation Agent may, but need not, determine the appropriate adjustment by reference to the adjustment in respect of such Potential Adjustment Event made by the relevant Exchange.
- (B) If the Calculation Agent is not able to or does not determine any adjustments for the purposes of sub-paragraphs (A) above, the Issuer may, in its sole and absolute discretion, upon giving notice to the Securityholders in accordance with General Condition 14 (*Notices*), redeem all but not some only of the Securities, each Security being redeemed by payment of an amount equal to the Fair Market Value Redemption Amount; payments will be made in such

manner as shall be notified to the Securityholders in accordance with General Condition 14 (*Notices*).

Upon the occurrence of a Potential Adjustment Event, the relevant Issuer shall give notice as soon as practicable to the Securityholders in accordance with General Condition 14 (*Notices*) stating the occurrence of the Potential Adjustment Event, giving details thereof and the action proposed to be taken in relation thereto.

Notwithstanding the foregoing, if "Essential Trigger" is specified in the applicable Final Terms as being applicable, General Conditions 6.8 and 12.3(f) will apply.

Cancellation of Future Contract means that the publisher of a Future announces that it will permanently cancel such Future.

Change of Future Contract means that the Future is replaced by a successor futures contract that is not acceptable to the Calculation Agent.

Change of Futures Exchange means that the Future is no longer negotiated on the Exchange and/or under a market-standard format as of the Trade Date but after such date becomes negotiated instead on an exchange and/or under a format that is not acceptable to the Calculation Agent.

Illiquidity Event means that in the determination of the Calculation Agent, the liquidity of the Future has decreased significantly since the Trade Date, such decrease of liquidity being likely to have a material impact on the hedge of the relevant Issuer, the Guarantor (if applicable) and/or any of their respective Affiliates in connection with the Securities.

Modification of Futures Contract means that the publisher of the documentation governing the Future announces that it will make a material change in the formula for or the method of calculating such Future or in any other way materially modifies that Future.

(ii) Consequences of the occurrence of an Extraordinary Event

(A) If an Extraordinary Event occurs in relation to a Future on or after the Trade Date, the Issuer in its sole and absolute discretion may take, if applicable, any of the actions described in (I), (II) or (III) below:

(I) require the Calculation Agent to determine in its sole and absolute discretion the appropriate adjustment, if any, to be made to any of the Conditions of the Securities to account for the relevant Extraordinary Event and determine the effective date of that adjustment. The Calculation Agent may (but need not) determine the appropriate adjustment by reference to the adjustment in respect of the relevant

Extraordinary Event made by any options exchange to options on the Futures traded on that options exchange.

- (II) By giving notice to Securityholders in accordance with General Condition 14 (*Notices*), redeem all but not some only of the Securities, each Security being redeemed by payment of an amount equal to the Fair Market Value Redemption Amount of a Security taking into account the relevant Extraordinary Event(s).
- (III) In the case of Future Linked Securities relating to a Basket of Futures, on or after the date of the relevant Extraordinary Event, require the Calculation Agent to adjust the Basket of Futures by including futures selected by it in its sole and absolute discretion (the **Substitute Futures**) in place of the Affected Future(s), and the Substitute Futures will be deemed to be Futures for the purposes of the Securities, and the Calculation Agent will make such adjustment, if any, to the Conditions of the Securities as the Calculation Agent in its sole and absolute discretion determines appropriate; such substitution and the relevant adjustment to the Basket of Futures will be deemed to be effective as of the date selected by the Calculation Agent (the **Substitution Date**) in its sole and absolute discretion and specified in the notice referred to below which may, but need not, be the date of the relevant Extraordinary Event. Without prejudice to the foregoing, the Weighting of each Substitute Future (if any) will, to the extent practicable, be set equal to the Weighting of the relevant Affected Future.

- (B) Upon the occurrence of an Extraordinary Event, the Issuer shall give notice as soon as practicable to the Securityholders in accordance with General Condition 14 (*Notices*) stating the occurrence of the relevant Extraordinary Event, giving details thereof and the action proposed to be taken in relation thereto, including, in the case of a substitution of Futures, the identity of the Substitute Futures and the Substitution Date. As the case may be, payments will be made in such manner as shall be notified to the Securityholders in accordance with General Condition 14 (*Notices*).

- (iii) Notwithstanding the foregoing, if "Essential Trigger" is specified in the applicable Final Terms as being applicable, General Conditions 6.8 and 12.3(f) will apply.

(c) Correction of Future Price

With the exception of any corrections published after the day which is four Exchange Business Days prior to the due date for any payment under the Securities that is calculated by reference to the price of a Future, if the price of the relevant Future published on a given day and used or to be used by the Calculation Agent to make any determination under the Securities is subsequently corrected and the correction published by the relevant Exchange, the price to be used shall be the price of the relevant Future as so corrected. Corrections published after the day which is four Exchange Business Days prior to a due date for payment under the Securities that is calculated by reference to the price of a Future will be disregarded by the Calculation Agent for the purposes of determining the relevant amount to be paid.

Notwithstanding the foregoing, if "Essential Trigger" is specified in the applicable Final Terms as being applicable, General Condition 12.3(f) will apply.

Where the Securities are Nth-to-Default CLSs and the Conditions to Settlement are satisfied with respect to more than one Reference Entity on the same day, the Calculation Agent shall determine in its sole discretion the order in which such Conditions to Settlement were satisfied.

Credit Linked Securities redeemed pursuant to this Credit Linked Condition 2.7 will be redeemed at their Fair Market Value Redemption Amount.

2.8 Redemption following a Merger Event

If this Credit Linked Condition 2.8 is specified as applicable in the applicable Final Terms, in the event that in the determination of the Calculation Agent a Merger Event has occurred, the relevant Issuer may give notice to the Securityholders in accordance with General Condition 14 (*Notices*) and redeem all but not some only of the Credit Linked Securities at the Fair Market Value Redemption Amount (determined in accordance with General Condition 6.8 (*Redemption Amounts*)) on the Merger Event Redemption Date.

2.9 Suspension of Obligations

If a Credit Event Resolution Request Date occurs or if a notice is delivered to ISDA as contemplated in the definition of "Credit Event Resolution Request Date" in relation to any Reference Entity, then (unless the relevant Issuer otherwise elects by notice to the Calculation Agent and the Securityholders) from such Credit Event Resolution Request Date or, as applicable, the date that delivery of such notice is effective (and notwithstanding that the relevant Credit Derivatives Determinations Committee has yet to determine whether Publicly Available Information is available or that a Credit Event has occurred), any obligation of the relevant Issuer to redeem any Credit Linked Security (including pursuant to Credit Linked Condition 2.2 (*Redemption following satisfaction of Conditions to Settlement*)) or pay any amount of interest which would otherwise be due thereon shall, insofar as it relates to the relevant Reference Entity, be and remain suspended until such time as ISDA subsequently publicly announces that the relevant Credit Derivatives Determinations Committee has Resolved with respect to such Reference Entity:

- (a) the matters described in the definition of "DC Credit Event Question" in Credit Linked Condition 10 (*Definitions*); or
- (b) not to determine such matters.

During such suspension period, the relevant Issuer shall not be obliged to, nor be entitled to, take any action in connection with the settlement of any Credit Linked Securities, in each case insofar as they relate to the relevant Reference Entity. Once ISDA has publicly announced that the relevant Credit Derivatives Determinations Committee has Resolved the matters set out in paragraphs (a) or (b) above, such suspension shall terminate and any obligations so suspended shall resume on the basis of such resolution on the CLS Business Day following such public announcement by ISDA, with the relevant Issuer having the benefit of the full day notwithstanding when the suspension began. Any amount of interest so suspended shall, subject always to Credit Linked Condition 3.1 (*Cessation of Interest Accrual*), become due on the date determined by the Calculation Agent, in its sole discretion but not later than fifteen Business Days following such public announcement by ISDA. Any amount of nominal so suspended shall also, subject always to Credit Linked Condition 2.2 (*Redemption following satisfaction of Conditions to*

Settlement), become due on the date determined by the Calculation Agent, in its sole discretion but not later than fifteen Business Days following such public announcement by ISDA.

Where payment of interest or nominal is suspended in accordance with this Credit Linked Condition 2.9, no interest shall accrue on such interest or nominal.

2.10 Redemption following an Additional Disruption Event

If the Calculation Agent determines that an Additional Disruption Event has occurred, the relevant Issuer may redeem the Securities by giving notice to Securityholders in accordance with General Condition 14 (*Notices*). If the Securities are so redeemed, the relevant Issuer will pay an amount to each Securityholder in respect of each Security as shall be determined to be the Fair Market Value Redemption Amount (determined in accordance with General Condition 6.8 (*Redemption Amounts*)). Payments will be made in such manner as shall be notified to the Securityholders in accordance with General Condition 14 (*Notices*).

In determining the fair market value of the Credit Linked Securities, the Calculation Agent shall take into consideration all information, which it deems relevant (including, without limitation, market conditions).

This Credit Linked Condition 2.10 shall not apply if the Final Terms specify that none of the "Additional Disruption Events" shall apply.

2.11 Miscellaneous provisions relating to Redemption

If the Credit Linked Securities are partially redeemed (or the aggregate nominal amount of the Credit Linked Securities is otherwise reduced in accordance with the provisions of these Credit Linked Conditions) and the relevant Credit Linked Securities or, if the Credit Linked Securities are represented by a Global Security, such Global Security, shall be endorsed to reflect such partial redemption (or, as applicable, such reduction of the aggregate nominal amount). Accordingly, upon such partial redemption (or, as applicable, such reduction of the aggregate nominal amount), the outstanding nominal amount of each Security shall be reduced for all purposes (including accrual of interest thereon) accordingly but where the relevant redemption occurs pursuant to Credit Linked Condition 2.2 (*Redemption following satisfaction of Conditions to Settlement*), the amount of interest due shall be determined in accordance with Credit Linked Condition 3 (*Interest*) and, where applicable, subject to Credit Linked Condition 3.4 (*Guaranteed Interest*). In the case of Partly Paid Securities, the outstanding nominal amount of each Security shall be the aggregate amount paid up.

Redemption of any Credit Linked Security in accordance with Credit Linked Condition 2 (*Redemption*), together with payment of interest, if any, due thereon shall discharge all or the relevant portion of the obligations of the relevant Issuer in relation thereto.

Any amount payable under Credit Linked Condition 2 (*Redemption*) shall be rounded downwards to the nearest sub-unit of the relevant currency.

2.12 Extension Notice

The Calculation Agent may deliver an Extension Notice to the Issuer and the Securityholders in the following circumstances:

- (a) a Credit Event has occurred or may occur on or prior to the Scheduled Redemption Date;
- (b) a Potential Failure to Pay has occurred or may occur on or prior to the Scheduled Redemption Date (determined by reference to the Relevant Time);
- (c) a Potential Repudiation/Moratorium has occurred or may occur on or prior to the Scheduled Redemption Date (determined by reference to the Relevant Time); or
- (d) a Credit Event Resolution Request Date has occurred or may occur on or prior to the last day of the Notice Delivery Period.

3 INTEREST

3.1 Cessation of Interest Accrual

- (a) Upon the satisfaction of the Conditions to Settlement in respect of any Credit Linked Securities, interest on such Credit Linked Securities (or, in the case of Linear Basket CLSs, the relevant portion thereof determined in accordance with Credit Linked Condition 2.4 (*Linear Basket CLSs*)) shall cease to accrue with effect from and including either:
- (i) the Interest Period Date immediately preceding the related Event Determination Date (or, in the case of the first Interest Accrual Period, the Interest Commencement Date) (**CIA Type 1**);
 - (ii) the related Event Determination Date (in which case such Event Determination Date shall be deemed to be an Observation Date for the purposes of determining the interest accrued to (but excluding) such Event Determination Date)) (**CIA Type 2**); or
 - (iii) the Scheduled Redemption Date (**CIA Type 3**),
- as specified in the applicable Final Terms.
- (b) If (i) Credit Linked Condition 2.8 is specified as applicable in the applicable Final Terms and the Calculation Agent determines that a Merger Event has occurred or (ii) the relevant Issuer elects to redeem the Securities pursuant to Credit Linked Condition 2.10 following a determination by the Calculation Agent that an Additional Disruption Event has occurred, in each case in respect of any Credit Linked Securities, interest on such Credit Linked Securities shall cease to accrue with effect from and including, the Interest Payment Date immediately preceding such determination.

3.2 Interest following Scheduled Redemption

Notwithstanding Credit Linked Condition 3.1 (*Cessation of Interest Accrual*), each Credit Linked Security shall only accrue interest up to (but excluding) the Scheduled Redemption Date.

3.3 Interest Payment Dates

If the Credit Linked Securities are redeemed pursuant to the General Conditions or these Credit Linked Conditions, the Scheduled Redemption Date, the Redemption Date (if not the Scheduled Redemption Date), the Auction Settlement Date, the Cash Settlement Date or the last Delivery Date, as the case may be, shall be an Interest Payment Date in respect of each Credit Linked Security (or, in the case of Linear Basket CLSs, the relevant portion thereof determined in accordance with Credit Linked Condition 2.4 (*Linear Basket CLSs*)) and the relevant Issuer shall pay any interest that has accrued in respect of each Credit Linked Security (or, as applicable, the relevant portion thereof determined in accordance with Credit Linked Condition 2.4 (*Linear Basket CLSs*)) on such Interest Payment Date, subject to Credit Linked Condition 3.1 (*Cessation of Interest Accrual*) above.

3.4 Guaranteed interest

Where CIA Type 3 is specified as being applicable in the Final Terms, the last Interest Accrual Period will end on, but exclude, the Scheduled Redemption Date, notwithstanding the occurrence of a Credit Event, any subsequent satisfaction of the Conditions to Settlement and any redemption of the Securities in accordance with Credit Linked Condition 2.2 (*Redemption following satisfaction of Conditions to Settlement*) or Credit Linked Condition 4 (*Physical Settlement*). Notwithstanding General Condition 4 (*Interest*), interest will be calculated by reference to the Calculation Amount (whether or not the Securities are then represented by a Global Security) applicable to each Security for each relevant Interest Accrual Period regardless of the nominal amount then outstanding of such Security.

4 PHYSICAL SETTLEMENT

4.1 Delivery and payment

If Physical Settlement applies to any Credit Linked Security, then, upon the satisfaction of the related Conditions to Settlement, the relevant Issuer, or any third party appointed at its discretion, shall, on or prior to the related Physical Settlement Date and subject to Credit Linked Condition 4.2 (*Partial Cash Settlement Due to Impossibility, Impracticality or Illegality*), Credit Linked Condition 4.3 (*Non-Delivery of Deliverable Obligations*) and Credit Linked Condition 4.6 (*Asset Transfer Notice*), redeem such Credit Linked Security or, in the case of Linear Basket CLSs, the relevant portion thereof determined in accordance with Credit Linked Condition 2.4 (*Linear Basket CLSs*), in each case, by:

- (a) delivering a *pro rata* share of the Deliverable Obligations specified in the related Notice of Physical Settlement (the **Physical Settlement Amount**);
- (b) paying such Security's *pro rata* portion of the related Physical Settlement Adjustment Rounding Amount; and
- (c) if the Hedge Amount is expressed as a negative number, paying such Security's *pro rata* portion of the absolute value of such Hedge Amount.

4.2 Partial Cash Settlement Due to Impossibility, Impracticality or Illegality

If, due to an event beyond the control of the relevant Issuer, it is in the opinion of the Calculation Agent, impossible, impractical (including, without limitation, due to the relevant Issuer receiving insufficient or incorrect account or transfer information) or illegal for the relevant Issuer to Deliver or, due to an event beyond the control of the relevant Issuer or any Securityholder, it is in the opinion of the Calculation Agent impossible, impractical or illegal for the relevant Issuer or the relevant Securityholder to accept Delivery of any of the Deliverable Obligations specified in a Notice of Physical Settlement on the related Physical Settlement Date, then on such date the relevant Issuer shall Deliver any of the Deliverable Obligations specified in the Notice of Physical Settlement for which it is possible, practicable and legal to take Delivery. If any Undeliverable Obligations have not been delivered on or prior to the Latest Permissible Physical Settlement Date, then Partial Cash Settlement shall apply with respect to such Undeliverable Obligations and, accordingly, the relevant Issuer shall pay the relevant Securityholders an amount equal to the Partial Cash Settlement Amount to be apportioned *pro rata* amongst the relevant Securityholders on the Partial Cash Settlement Date.

4.3 Non-Delivery of Deliverable Obligations

If the relevant Issuer does not Deliver any Deliverable Obligation specified in a Notice of Physical Settlement other than as a result of an event or circumstance contemplated in Credit Linked Condition 4.2 (*Partial Cash Settlement Due to Impossibility, Impracticality or Illegality*) (including following the occurrence of a Hedge Disruption Event), such failure shall not constitute an event of default for the purpose of the Securities and the relevant Issuer may continue to attempt to Deliver the Deliverable Obligations that are Bonds or Loans until the Extended Physical Settlement Date.

If, as at the relevant Extended Physical Settlement Date, any such Deliverable Obligations have not been Delivered, then Partial Cash Settlement shall apply with respect to such Deliverable Obligations and the relevant Issuer shall pay to the Securityholders an amount equal to the Partial Cash Settlement Amount to be apportioned *pro rata* amongst the Securityholders on the Partial Cash Settlement Date.

4.4 Aggregation and Rounding

Where a Securityholder holds Credit Linked Securities in an aggregate nominal amount greater than the Specified Denomination, the Outstanding Principal Balance of the Deliverable Obligations to be Delivered in respect of the Credit Linked Securities shall be aggregated for the purposes of this Credit Linked Condition 4. If the Outstanding Amount of the Deliverable Obligations to be Delivered in respect of each Credit Linked Security to be redeemed pursuant to this Credit Linked Condition 4.4 on any occasion is not equal to an authorised denomination (or integral multiple thereof) of such Deliverable

Obligations then the Outstanding Amount of Deliverable Obligations to be Delivered will be rounded down to the nearest authorised denomination or multiple thereof, or, if none, to zero. In such circumstances, the Deliverable Obligations that were not capable of being Delivered shall, if and to the extent practicable, be sold by the relevant Issuer or such other agent as may be appointed by the relevant Issuer for such purpose and, if they are so sold, the relevant Issuer shall make payment in respect of each Credit Linked Security in an amount equal to its *pro rata* share of the related net sale proceeds as soon as reasonably practicable following receipt thereof which date shall not in any event fall earlier than the Partial Cash Settlement Date.

4.5 Delivery and Fees

The Delivery of any of the Deliverable Obligations pursuant to the provisions of this Credit Linked Condition 4 shall be made in such commercially reasonable manner as the relevant Issuer shall, in its sole discretion, determine to be appropriate for such Delivery. Subject as set out in the definition of "Deliver":

- (a) any recordation, processing or similar fee reasonably incurred by the relevant Issuer and/or any of its Affiliates and payable to the agent under a Loan in connection with an assignment (where Deliverable Obligations include Assignable Loans or Consent Required Loans) shall be payable by the relevant Securityholders, and if any stamp tax is payable in connection with the Delivery of any Deliverable Obligations, payment thereof shall be made by the relevant Securityholders; and
- (b) any other expenses arising from the Delivery and/or transfer of the Deliverable Obligations shall be for the account of the Securityholders, determined in accordance with then current market conventions.

Delivery and/or transfer of the Deliverable Obligations shall be delayed until all expenses relating to such Delivery or transfer payable by the Securityholders have been paid to the satisfaction of the relevant Issuer.

4.6 Asset Transfer Notice

A Securityholder will not be entitled to any of the amounts or assets specified as being due to it in this Credit Linked Condition 4 upon the satisfaction of the Conditions to Settlement unless it has complied with Credit Linked Condition 4.7 (*Physical Settlement Procedures*). For so long as the Credit Linked Securities are held in any clearing system, any communication from such clearing system on behalf of the Securityholder containing the information required in an Asset Transfer Notice will be treated as an Asset Transfer Notice. For as long as Bearer Securities are represented by a Global Security, surrender of Credit Linked Securities for such purpose will be effected by presentation of the Global Security and its endorsement to note the nominal amount of Credit Linked Securities to which the relevant Asset Transfer Notice relates.

4.7 Physical Settlement Procedures

- (a) Procedure by Securityholders

If any Credit Linked Security falls to be redeemed and Physical Settlement is specified to be the Settlement Method or the Fallback Settlement Method in the applicable Final Terms, any delivery of the Physical Settlement Amount shall be in accordance with any applicable securities laws and the provisions set out in this Credit Linked Condition 4.7.

- (i) In order to receive the Physical Settlement Amount, the relevant Securityholder shall (or shall procure that a depository, custodian or entity with which it has a similar relationship in respect of the Securities shall on its behalf), (I) at least three (3) Business Days, or such other number of Business Days as may be specified in the applicable Final Terms or (II) such lesser number of Business Days determined by the Issuer in its sole discretion and notified to Securityholders in respect of the relevant Series of Securities, in each case prior to the Physical Settlement Date:

- (A) if the Credit Linked Securities are represented by a Global Security, present a notice to DTC and/or Euroclear and/or Clearstream, Luxembourg, as the case may be, with a copy to any Paying Agent or the Registrar, as the case may be, and the relevant Issuer, via the EUCLID System or any equivalent or successor system (a **EUCLID Notice**); or
 - (B) if the Credit Linked Security is in definitive form, surrender to the Paying Agent or the Registrar, as the case may be, the Definitive Security (which expression shall, for the purposes of this Credit Linked Condition 4.7, include Receipt(s) and, if applicable, all unmatured Coupons, in accordance with the provisions of General Condition 5 (*Payments*)), a completed Asset Transfer Notice substantially in the form set out in the Agency Agreement (the **Asset Transfer Notice**) (a copy of which may be obtained from the specified office of any of the Paying Agents) with a copy to the relevant Issuer.
- (ii) Each of a EUCLID Notice and an Asset Transfer Notice, as the case may be, is referred to herein as a **Notice**.
 - (iii) The EUCLID Notice referred to above must:
 - (A) specify the name and address of the relevant Securityholder and the person from whom the Delivery Agent may obtain details for the delivery of the Physical Settlement Amount;
 - (B) specify the number of Credit Linked Securities which are the subject of such notice and the number of the Securityholder's account at DTC, Euroclear or Clearstream, Luxembourg, as the case may be, to be debited with such Credit Linked Securities;
 - (C) irrevocably instruct and authorise DTC, Euroclear or Clearstream, Luxembourg, as the case may be, to debit the relevant Securityholder's account with such Credit Linked Securities on the date on which such Credit Linked Securities are redeemed in accordance with Credit Linked Condition 4.1 (*Delivery and payment*);
 - (D) provide the Securityholder's certification whether it is a U.S. person, or a person acting on behalf of a U.S. person, or a person within the United States (as such terms are defined in Regulation S under the Securities Act); and
 - (E) authorise the production of such notice in any applicable administrative or legal proceedings.
 - (iv) The Asset Transfer Notice referred to above must:
 - (A) specify the name and address of the person from whom the Delivery Agent may obtain details for delivery of the Physical Settlement Amount;
 - (B) authorise the production of such notice in any applicable administrative or legal proceedings; and
 - (C) provide the Securityholder's certification whether it is a U.S. person, or a person acting on behalf of a U.S. person, or a person within the United States (as such terms are defined in Regulation S under the Securities Act).
 - (v) No Notice may be withdrawn after receipt thereof by DTC, Euroclear or Clearstream, Luxembourg, the Paying Agent, the Registrar or the relevant Issuer, as the case may be.
 - (vi) After delivery of such Notice, the relevant Securityholder may not transfer the Credit Linked Securities, which are the subject of such Notice, and no transfers of the Credit

Linked Securities specified therein represented by a Global Security will be effected by DTC and/or Euroclear and/or Clearstream, Luxembourg.

- (vii) Any determination as to whether a notice is valid and has been properly completed and delivered as provided in this Credit Linked Condition 4.7 shall be made by DTC, Euroclear or Clearstream, Luxembourg or the relevant Issuer, as the case may be, after consultation with the Delivery Agent and shall be conclusive and binding on the relevant Issuer and the relevant Securityholder.

- (b) Procedure by the relevant Issuer and others

Upon receipt of a duly completed Notice and (in the case of Credit Linked Securities in definitive form) the Definitive Security to which such Notice relates, the relevant Paying Agent or the Registrar, as the case may be, DTC, Euroclear or Clearstream, Luxembourg, as the case may be, shall verify that the person specified therein as the accountholder is the holder of the Credit Linked Securities referred to therein according to its books.

Subject as provided herein, in relation to each Credit Linked Security, the Physical Settlement Amount will be delivered at the risk of the relevant Securityholder in such commercially reasonable manner as the Delivery Agent shall, in its sole discretion, determine to be appropriate for such delivery on the due date for redemption for the Credit Linked Securities, provided that the relevant Credit Linked Security in definitive form and the Notice are delivered not later than the close of business in Luxembourg on the date (the **Notice Cut-Off Date**) which is five (5) Business Days (or such other number of Business Days as may be specified in the applicable Final Terms) before the due date for redemption of the Credit Linked Securities.

- (c) Delay or Failure to Deliver Notice

If the Notice and, in the case of Credit Linked Securities in definitive form, the Definitive Security to which such Notice relates are delivered to the relevant Issuer later than close of business on the Notice Cut-Off Date, then the Physical Settlement Amount will be delivered as soon as practicable after the due date for redemption of the Credit Linked Securities, at the risk of such Securityholder.

For the avoidance of doubt, without prejudice to Credit Linked Condition 4.1(b) and 4.1(c), such Securityholder shall not be entitled to any payment or other assets, whether of interest or otherwise, in the event of the delivery of the Physical Settlement Amount falling after the due date for redemption of the Credit Linked Securities pursuant to the provisions of this Credit Linked Condition 4.7 or otherwise due to circumstances beyond the control of the relevant Issuer.

If the relevant Securityholder fails to validly deliver a Notice, or procure that a Notice is validly delivered on its behalf, in the manner set out in these Conditions or delivers a Notice, or procures that a Notice is delivered, on any day falling after the day that is 180 calendar days after the Notice Cut-Off Date or, in the case of Credit Linked Securities in definitive form, fails to deliver the Definitive Security related thereto, or procure that such Definitive Security is delivered, or fails to pay the expenses referred to in Credit Linked Condition 4.5 (*Delivery and Fees*), the relevant Issuer shall be discharged from its obligation in respect of such Credit Linked Security and shall have no further obligation or liability whatsoever in respect thereof.

- (d) Delivery at risk of Securityholder

Delivery of the Physical Settlement Amount by the relevant Issuer to the Securityholder shall be at the risk of the Securityholder and no additional payment or delivery will be due to a Securityholder where the Physical Settlement Amount is delivered after its due date in circumstances beyond the control of either the relevant Issuer or the Delivery Agent.

(e) No further liability of Issuer

After delivery of the Physical Settlement Amount by the relevant Issuer to a Securityholder pursuant to this Credit Linked Condition 4.7 but prior to the time when the Securityholder (or his designee) becomes registered as a holder or lender of record (as the case may be) of the relevant Deliverable Obligation (the **Intervening Period**), neither the relevant Issuer nor its agent or nominee shall (i) be under any obligation to deliver to such Securityholder or any subsequent beneficial owner of such relevant Deliverable Obligation any letter, certificate, notice, circular, dividend or any other document or payment whatsoever received by the relevant Issuer or its agent or nominee in its capacity as the registered holder or lender of record (as the case may be) of such relevant Deliverable Obligation, (ii) exercise any or all rights (including voting rights) attaching to such relevant Deliverable Obligation during the Intervening Period without the prior written consent of the relevant Securityholder, provided that neither the relevant Issuer nor its agent or nominee shall be under any obligation to exercise any such rights during the Intervening Period, or (iii) be under any liability to such Securityholder or any subsequent beneficial owner of such relevant Deliverable Obligation in respect of any loss or damage which such Securityholder or subsequent beneficial owner may sustain or suffer as a result, whether directly or indirectly, of the relevant Issuer or its agent or nominee being registered during such Intervening Period as legal owner of such relevant Deliverable Obligation.

5 PROVISIONS RELATING TO TIMING AND FRUSTRATION**5.1 No frustration**

In the absence of other reasons, performance of the Issuer's obligations under the Securities will not be considered frustrated, or otherwise void or voidable (whether for mistake or otherwise) solely because:

- (a) a Reference Entity does not exist on, or ceases to exist on or following, the Issue Date; and/or
- (b) Obligations, Valuation Obligations, Deliverable Obligations, Specified Deliverable Obligations or Reference Obligations do not exist on, or cease to exist on or following, the Issue Date.

5.2 Timing

Subject to the paragraph below and the provisions relating to Notices set out herein, in order to determine the day on which an event occurs, the demarcation of days shall be made by reference to Greenwich Mean Time (or, if the Calculation Agent determines that the Transaction Type of the relevant Reference Entity is Japan Corporate or Japan Sovereign, Tokyo time), irrespective of the time zone in which such event occurred. Any event occurring at midnight shall be deemed to have occurred immediately prior to midnight.

If a payment is not made by the Reference Entity on its due date or, as the case may be, on the final day of the relevant Grace Period, then such failure to make a payment shall be deemed to have occurred on such day prior to midnight by reference to Greenwich Mean Time (or, if the Calculation Agent determines that the Transaction Type of the relevant Reference Entity is Japan Corporate or Japan Sovereign, Tokyo time), irrespective of the time zone of its place of payment.

6 SUCCESSION EVENT**6.1 Single Reference Entity**

Where the Securities are Single Reference Entity CLSs and a Succession Event has occurred and more than one Successor has been identified (each a **Successor Reference Entity**):

- (a) each Successor Reference Entity will be a Reference Entity for the purposes of each Credit Linked Security;

- (b) in respect of each Successor Reference Entity, the Floating Rate Payer Calculation Amount will be the Floating Rate Payer Calculation Amount applicable to the original Reference Entity divided by the number of Successor Reference Entities; and
- (c) all other terms and conditions of the original Credit Linked Securities will be replicated in each deemed new Credit Linked Security except to the extent that modification is required, as determined by the Calculation Agent in its sole discretion, to preserve the economic effects of the original Credit Linked Securities in the deemed new Credit Linked Securities (considered in the aggregate).

6.2 Nth-to-Default CLSs

Where the Securities are Nth-to-Default CLSs:

- (a) where a Succession Event has occurred in respect of a Reference Entity (other than a Reference Entity in respect of which a Credit Event has occurred) and more than one Successor has been identified, each Credit Linked Security will be deemed for all purposes to have been divided into a number of new Credit Linked Securities equal to the number of Successors. Each such new Credit Linked Security shall include a Successor and each and every one of the Reference Entities unaffected by such Succession Event and the provisions of Credit Linked Conditions 6.1(a) to 6.1(c) (inclusive) shall apply thereto;
- (b) if "Substitution" is specified as not being applicable in the Final Terms, where any Reference Entity (the **Surviving Reference Entity**) (other than a Reference Entity that is subject to the Succession Event) would be a Successor to any other Reference Entity (the **Legacy Reference Entity**) pursuant to a Succession Event, such Surviving Reference Entity shall be deemed to be a Successor to the Legacy Reference Entity; and
- (c) if "Substitution" is specified as being applicable in the Final Terms, where the Surviving Reference Entity (other than a Reference Entity that is subject to the Succession Event) would be a Successor to a Legacy Reference Entity pursuant to a Succession Event:
 - (i) such Surviving Reference Entity shall be deemed not to be a Successor to the Legacy Reference Entity; and
 - (ii) the Replacement Reference Entity shall be deemed to be a Successor to the Legacy Reference Entity. For the avoidance of doubt, the deemed new Credit Linked Securities will continue to be represented by the original Credit Linked Securities.

6.3 Linear Basket CLSs

Where the Credit Linked Securities are Linear Basket CLSs, and one or more Successors have been identified in respect of a Reference Entity that has been the subject of a related Succession Event (the **Affected Entity**):

- (a) the Affected Entity will no longer be a Reference Entity (unless it is a Successor as described in paragraph (b) below);
- (b) each Successor will be deemed a Reference Entity (in addition to each Reference Entity which is not an Affected Entity);
- (c) the Floating Rate Payer Calculation Amount for each such Successor will equal the Floating Rate Payer Calculation Amount of the Affected Entity divided by the number of Successors; and
- (d) the Calculation Agent may, at its discretion, make any modifications to the terms of the Securities, which may be required to preserve the economic effects of the Securities prior to the Succession Event (considered in the aggregate).

6.4 Substitute Reference Obligations

With respect to a Non-Standard Reference Obligation to which a Substitution Event has occurred, the Calculation Agent will identify the obligation (the **Substitute Reference Obligation**) that will replace one or more Reference Obligations, in accordance with the following procedures:

- (a) The Calculation Agent shall identify the Substitute Reference Obligation in accordance with paragraph (c) and (d) below to replace the Non-Standard Reference Obligation; provided that the Calculation Agent will not identify an obligation as the Substitute Reference Obligation if, at the time of determination, such obligation has already been rejected as the Substitute Reference Obligation by the relevant Credit Derivatives Determinations Committee and such obligation has not changed materially since the date of the relevant DC Resolution.
- (b) If any of the events set forth under paragraph (a) or (c) of the definition of Substitution Event have occurred with respect to the Non-Standard Reference Obligation, the Non-Standard Reference Obligation will cease to be the Reference Obligation (other than for purposes of the "Not Subordinated" Obligation Characteristic or "Not Subordinated" Deliverable Obligation Characteristic and paragraph (c)(ii) below). If the event set forth in paragraph (b) of the definition of Substitution Event has occurred with respect to the Non-Standard Reference Obligation and no Substitute Reference Obligation is available, the Non-Standard Reference Obligation will continue to be the Reference Obligation until the Substitute Obligation is identified or, if earlier, until any of the events set forth under paragraphs (a) or (c) of the definition of Substitution Event occur with respect to such Non-Standard Reference Obligation.
- (c) The Substitute Reference Obligation shall be an obligation that on the Substitution Date:
 - (i) is a Borrowed Money obligation of the Reference Entity (either directly or as provider of a guarantee);
 - (ii) satisfies the "Not Subordinated" Deliverable Obligation Characteristic as of the date it was issued or incurred (without reflecting any change to the priority of payment after such date) and on the Substitution Date; and
 - (iii) (A) if the Non-Standard Reference Obligation was a Conforming Reference Obligation when issued or incurred and immediately prior to the Substitution Event Date:
 - (I) is a Deliverable Obligation (other than a Loan) determined in accordance with paragraph (b) of the definition of Deliverable Obligation;
 - (II) is a Loan (other than a Private-side Loan) which constitutes a Deliverable Obligation determined in accordance with paragraph (b) of the definition of Deliverable Obligation;
 - (B) if the Non-Standard Reference Obligation was a Bond (or any other Borrowed Money obligation other than a Loan) which was a Non-Conforming Reference Obligation when issued or incurred and/or immediately prior to the Substitution Event Date:
 - (I) is a Non-Conforming Substitute Reference Obligation (other than a Loan); or if no such obligation is available,
 - (II) is a Deliverable Obligation (other than a Loan) determined in accordance with paragraph (b) of the definition of Deliverable Obligation; or if no such obligation is available,

- (III) is a Non-Conforming Substitute Reference Obligation which is a Loan (other than a Private-side Loan) or, if no such obligation is available,
 - (IV) is a Loan (other than a Private-side Loan) which constitutes a Deliverable Obligation determined in accordance with paragraph (b) of the definition of Deliverable Obligation; or
- (C) if the Non-Standard Reference Obligation was a Loan, which was a Non-Conforming Reference Obligation when incurred and/or immediately prior to the Substitution Event Date:
- (I) is a Non-Conforming Substitute Reference Obligation which is a Loan (other than a Private-side Loan); or if no such obligation is available,
 - (II) is a Non-Conforming Substitute Reference Obligation (other than a Loan) or if no such obligation is available,
 - (III) is a Deliverable Obligation (other than a Loan) determined in accordance with paragraph (b) of the definition of Deliverable Obligation; or if no such obligation is available,
 - (IV) is a Loan (other than a Private-side Loan) which constitutes a Deliverable Obligation determined in accordance with paragraph (b) of the definition of Deliverable Obligation.
- (d) If more than one specific Substitute Reference Obligation is identified pursuant to the process described in in paragraph (c) above, the Substitute Reference Obligation will be the potential Substitute Reference Obligation that most closely preserves the economic equivalent of the delivery and payment obligations of the relevant Issuer under the Securities, as determined by the Calculation Agent. The Substitute Reference Obligation will replace the Non-Standard Reference Obligation on such date as determined by the Calculation Agent, which is expected to be as soon as reasonably practicable after it has been identified in accordance with paragraph (c) above. Information about the occurrence of a Substitute Reference Obligation with a description in reasonable detail of the facts relevant to the determination of the Substitute Reference Obligation, including the identity thereof and the date of substitution, may be requested at any time by the Securityholders at the specified office of the Calculation Agent (subject to proof of ownership of such Securities in a form acceptable to the Calculation Agent).
- (e) If a Substitution Event has occurred with respect to the Non-Standard Reference Obligation and the Calculation Agent determines that no Substitute Reference Obligation is available for the Non-Standard Reference Obligation, then, subject to paragraph (a) above and notwithstanding the fact that the Non-Standard Reference Obligation may have ceased to be the Reference Obligation in accordance with paragraph (b) above, the Calculation Agent shall continue to attempt to identify the Substitute Reference Obligation. For the purposes of identification of a Reference Obligation, any change in the Reference Obligation's CUSIP or ISIN number or other similar identifier will not, in and of itself, convert such Reference Obligation into a different Obligation.

7 ADDITIONAL PROVISIONS

7.1 Provisions relating to LPN Reference Entities

The following provisions shall apply if the applicable Final Terms provide that "LPN Reference Entity" is applicable:

- (a) Multiple Holder Obligations will not be applicable with respect to any Reference Obligation and any Underlying Loan;

- (b) each Reference Obligation will be an Obligation notwithstanding anything to the contrary in these Credit Linked Conditions, and in particular, that the obligation is not an obligation of the Reference Entity;
- (c) each Reference Obligation will be a Deliverable Obligation notwithstanding anything to the contrary in these Credit Linked Conditions, and in particular, that the obligation is not an obligation of the Reference Entity;
- (d) with respect to any LPN Reference Obligation that specifies an Underlying Loan or an Underlying Finance Instrument, the Outstanding Principal Balance shall be determined by reference to the Underlying Loan or Underlying Finance Instrument (as applicable) relating to such LPN Reference Obligation;
- (e) each LPN Reference Obligation is issued for the purpose of providing funds for the LPN Issuer to finance its loan to the Reference Entity. For the purposes of the Securities, each such loan shall be an Underlying Loan; and
- (f) the "Not Subordinated" Obligation Characteristic and Deliverable Obligation Characteristic shall be construed as if no Reference Obligation was specified in respect of the Reference Entity.

7.2 Additional provisions applicable if a Reference Entity in the applicable Final Terms is a "Monoline Insurer"

The following provisions will apply if the applicable Final Terms provide that "Monoline Insurer" is applicable:

- (b) second, by subtracting all or any portion of such amount which, pursuant to the terms of the obligation, (A) is subject to any Prohibited Action, or (B) may otherwise be reduced as a result of the effluxion of time or the occurrence or non-occurrence of an event or circumstance (other than by way of (I) payment or (II) a Permitted Contingency) (the amount determined in paragraph (a) above less any amounts subtracted in accordance with this paragraph (b), the **Non-Contingent Amount**); and

in each case, determined:

- (A) unless otherwise specified in the Final Terms, in accordance with the terms of the obligation in effect on either (I) the NOPS Effective Date (or if the terms are amended after such date but on or prior to the Delivery Date, the Delivery Date) or (II) the Relevant Valuation Date, as applicable; and
- (B) with respect to the Quantum of the Claim only, in accordance with any applicable laws (insofar as such laws reduce or discount the size of the claim to reflect the original issue price or accrued value of the obligation).

For the purposes of paragraph (B) above, "**applicable laws**" shall include any bankruptcy or insolvency law or other law affecting creditors' rights to which the relevant obligation is, or may become, subject.

If "**Fallback Discounting**" is specified as applicable in the applicable Final Terms, then notwithstanding the above, if (i) the Outstanding Principal Balance of an obligation is not reduced or discounted under paragraph (B) above, (ii) that obligation is either a Bond that has an issue price less than ninety-five per cent of the principal redemption amount or a Loan where the amount advanced is less than ninety-five per cent of the principal repayment amount, and (iii) such Bond or Loan does not include provisions relating to the accretion over time of the amount which would be payable on an early redemption or repayment of such Bond or Loan that are customary for the applicable type of Bond or Loan as the case may be, then the Outstanding Principal Balance of such Bond or Loan shall be the lesser of (a) the Non-Contingent Amount; and (b) an amount determined by straight line interpolation between the issue price of the Bond or the amount advanced under the Loan and the principal redemption amount or principal repayment amount, as applicable.

For the purposes of determining whether the issue price of a Bond or the amount advanced under a Loan is less than ninety-five per cent of the principal redemption amount or principal repayment amount (as applicable) or, where applicable, for applying straight line interpolation:

- (x) where such Bond or Loan was issued as a result of an exchange offer, the issue price or amount advanced of the new Bond or Loan resulting from the exchange shall be deemed to be equal to the aggregate Outstanding Principal Balance of the original

obligation(s) that were tendered or exchanged (the **Original Obligation(s)**) at the time of such exchange (determined without regard to market or trading value of the Original Obligation(s)); and

- (y) in the case of a Bond or Loan that is fungible with a prior debt obligation previously issued by the Reference Entity, such Bond or Loan shall be treated as having the same issue price or amount advanced as the prior debt obligation.

In circumstances where a holder would have received more than one obligation in exchange for the Original Obligation(s), the Calculation Agent will determine the allocation of the aggregate Outstanding Principal Balance of the Original Obligation(s) amongst each of the resulting obligations for the purpose of determining the issue price or amount advanced of the relevant Bond or Loan. Such allocation will take into account the interest rate, maturity, level of subordination and other terms of the obligations that resulted from the exchange and shall be made by the Calculation Agent in accordance with the methodology (if any) determined by the relevant Credit Derivatives Determinations Committee or, if none, as determined by the Calculation Agent in such manner and by reference to such sources as it determines appropriate.

ANNEX 3 – BOND LINKED CONDITIONS

This annex sets out additional terms and conditions for Securities that are Bond Linked Securities. It is only applicable to Securities that are specified to be Bond Linked Securities in the applicable Final Terms.

The terms and conditions applicable to Bond Linked Securities shall comprise the General Conditions and the Additional Conditions, in each case subject to completion in the applicable Final Terms.

In the event of any inconsistency between the General Conditions and the Additional Conditions, the Additional Conditions shall prevail.

*The following terms and conditions (the **Bond Linked Conditions**) shall apply to the Securities if the applicable Final Terms indicate that Bond Linked Securities is applicable. These Bond Linked Conditions are subject to completion in accordance with the applicable Final Terms.*

1 GENERAL

Bond Terms

The Final Terms shall specify:

- (a) the type of Bond Linked Securities, being Single Bond BLSs or Basket BLSs;
- (b) the Settlement Method;
- (c) the Bond(s) and Bond Issuer;
- (d) the Trade Date and the Scheduled Redemption Date;
- (e) the Bond Nominal Amount in respect of each Bond; and
- (f) the principal amount outstanding as at the Trade Date in respect of each Bond.

2 REDEMPTION

2.1 Redemption absent the occurrence of a Bond Event Determination Date

The relevant Issuer will redeem each Bond Linked Security on the related Redemption Date (as such date may be extended in accordance with the definition thereof) by payment of an amount equal to the Final Redemption Amount (together with interest, if any, payable thereon) unless:

- (a) the Bond Linked Securities have been previously redeemed or purchased and cancelled in full (including pursuant to Bond Linked Condition 2.4 (*Early redemption following a Fair Market Value Trigger Event*), Bond Linked Condition 2.5 (*Redemption following a Merger Event*) or 2.6 (*Redemption following an Additional Disruption Event*)); or
- (b) one or more Bond Event Determination Dates have occurred, in which event the relevant Issuer shall redeem the proportion of each Bond Linked Security that relates to such Bond Event Determination Date(s) in accordance with Bond Linked Condition 2.2 (*Redemption following the occurrence of a Bond Event Determination Date*) provided that, in each case, any proportion of each Bond Linked Security that is not so redeemed shall redeem on the related Redemption Date (as such date may be extended in accordance with the definition thereof) by payment of an amount equal to the aggregate outstanding nominal amount (or, if they are Partly Paid Securities, the aggregate amount paid up) of such Bond Linked Security (together with interest, if any, payable thereon).

2.2 Redemption following the occurrence of a Bond Event Determination Date

Subject to Bond Linked Condition 2.3 (*Basket BLSs*), upon the occurrence of a Bond Event Determination Date in relation to any Bond, each Bond Linked Security will be subject to redemption:

- (a) if the applicable Settlement Method is "Physical Settlement", in accordance with Bond Linked Condition 4 (*Physical Settlement*); and
- (b) if the applicable Settlement Method is "Cash Settlement", in whole or in part, by payment on the relevant Cash Settlement Date of an amount, subject to a minimum of zero, equal to (i) such Bond Linked Security's *pro rata* share of the Realisable Amount *minus* (ii) such Bond Linked Security's *pro rata* share of the Hedge Amount (if applicable).

In the case of a partial redemption of the Bond, the proportion of each Bond Linked Security to be redeemed in respect of such Bond Event shall equal the proportion of the outstanding Bond Nominal Amount being partially redeemed.

Any partial redemption shall occur in accordance with Bond Linked Condition 2.8.

2.3 Basket BLSs

If the Bond Linked Securities are Basket BLSs, then the provisions of these Bond Linked Conditions relating to redemption of Bond Linked Securities following the occurrence of a Bond Event Determination Date, extension of maturity of Bond Linked Securities on delivery of an Extension Notice, cessation or suspension of accrual of interest or accrual and payment of interest following the Scheduled Redemption Date shall apply to each Bond Linked Security with respect to each Bond separately and to such Bond Linked Security's *pro rata* share of the relevant Bond Nominal Amount. As a result, the Bond Linked Securities will be redeemed in part in respect of each such Bond Event, such part to be determined by reference to the proportion that the Bond Nominal Amount of the affected Bond has to the aggregate Bond Nominal Amounts of such Bond and all the Bonds in respect of which a Bond Event has yet to occur. The remaining provisions of these Bond Linked Conditions shall be construed accordingly.

2.4 Early redemption following a Fair Market Value Trigger Event

If Fair Market Value Trigger is specified as being applicable in the relevant Final Terms, upon the occurrence of a Fair Market Value Trigger Event, the Bond Linked Securities may be redeemed at the Fair Market Value Redemption Amount (determined in accordance with General Condition 6.8 (*Redemption Amounts*)) at the option of the Issuer in whole, but not in part, at any time, on giving not less than the minimum period and not more than the maximum period of notice specified in the applicable Final Terms to the Principal Paying Agent or the Registrar, as the case may be, and, in accordance with General Condition 14 (*Notices*), the Securityholders (which notice shall be irrevocable). The Fair Market Value Trigger need not be continuing at the time any notice is delivered under this Bond Linked Condition 2.4.

Bond Linked Securities redeemed pursuant to this Bond Linked Condition 2.4 will be redeemed at their Fair Market Value Redemption Amount.

For the purpose of this Bond Linked Condition 2.4, **Fair Market Value Trigger Event** means that, on any day, the Fair Market Value Redemption Amount expressed as a percentage of the aggregate nominal amount of a Bond Linked Security of the relevant Series would, assuming that such Series of Bond Linked Securities would be redeemed in full on such day at the applicable Fair Market Value Redemption Amount, be less than or equal to the "Fair Market Value Trigger" specified in the applicable Final Terms, as determined by the Calculation Agent in its sole and absolute discretion.

2.5 Redemption following a Merger Event

If this Bond Linked Condition 2.5 is specified as applicable in the applicable Final Terms, in the event that, in the determination of the Calculation Agent, a Merger Event has occurred, the relevant Issuer may give notice to the Securityholders in accordance with General Condition 14 (*Notices*) and redeem all but not some only of the Bond Linked Securities at the Fair Market Value Redemption Amount (determined in accordance with General Condition 6.8 (*Redemption Amounts*)) on the Merger Event Redemption Date or, if the applicable Settlement Method is "Physical Settlement", in accordance with Bond Linked Condition 4 (*Physical Settlement*).

2.6 Redemption following an Additional Disruption Event

If the Calculation Agent determines that an Additional Disruption Event has occurred, the relevant Issuer may redeem all, but not some of, the Securities by giving notice to Securityholders in accordance with General Condition 14 (*Notices*). If the Securities are so redeemed, the relevant Issuer will pay an amount to each Securityholder in respect of each Security as shall be determined to be the Fair Market Value Redemption Amount (determined in accordance with General Condition 6.8 (*Redemption Amounts*)) or, if the applicable Settlement Method is "Physical Settlement", the Securities will be redeemed in accordance with Bond Linked Condition 4 (*Physical Settlement*).

2.7 Suspension of Obligations

If a Potential Failure to Pay occurs with respect to a Bond, then (unless the relevant Issuer otherwise elects by notice to the Calculation Agent and the Securityholders), from the date of such Potential Failure to Pay any obligation of the relevant Issuer to redeem any Bond Linked Security (including pursuant to Bond Linked Condition 2.2 (*Redemption following the occurrence of a Bond Event Determination Date*)) or pay any amount of interest which would otherwise be due thereon shall, insofar as it relates to the relevant Bond, be and remain suspended until such time as the Calculation Agent determines either that a Failure to Pay has occurred with respect to such Bond or the relevant Potential Failure to Pay has been cured.

The Issuer will give notice to the Securityholders of any such suspension in accordance with General Condition 14 (*Notices*) within 14 days of becoming aware of the same.

If the Calculation Agent determines that the relevant Potential Failure to Pay has been cured, then all obligations of the relevant Issuer that have been suspended in accordance with this Bond Linked Condition 2.7 shall resume and shall be paid to the holders of the Bond Linked Securities no later than three Business Days following the Calculation Agent making such determination.

Where payment of interest or nominal is suspended in accordance with this Bond Linked Condition 2.7, no interest shall accrue on such interest or nominal.

2.8 Miscellaneous provisions relating to Redemption

If the Bond Linked Securities are partially redeemed, the relevant Bond Linked Securities or, if the Bond Linked Securities are represented by a Global Security, such Global Security, shall be endorsed to reflect such partial redemption. Accordingly, upon such partial redemption, the outstanding nominal amount of each Security shall be reduced for all purposes (including accrual of interest thereon) accordingly. In the case of Partly Paid Securities, the outstanding nominal amount of each Security shall be the aggregate amount paid up.

Redemption of any Bond Linked Security in accordance with Bond Linked Condition 2 (*Redemption*), together with payment of interest, if any, due thereon shall discharge all or the relevant portion of the obligations of the relevant Issuer in relation thereto.

Any amount payable under Bond Linked Condition 2 (*Redemption*) shall be rounded downwards to the nearest sub-unit of the relevant currency.

3.1 Cessation of Interest Accrual

- (a) Upon the occurrence of a Bond Event Determination Date in respect of any Bond Linked Securities, interest on such Bond Linked Securities (or the relevant portion thereof that is subject to a Bond Event, as applicable, or, in the case of Basket BLSs, the relevant portion thereof determined in accordance with Bond Linked Condition 2.3 (*Basket BLSs*)) shall cease to accrue with effect from and including, the Interest Period Date immediately preceding the relevant Bond Event Determination Date (or, in the case of the first Interest Accrual Period, the Interest

Commencement Date). For the avoidance of doubt, the accrual of interest on the portion (if any) of each Bond Linked Security that is not subject to such Bond Event shall not be affected.

- (b) Upon the Calculation Agent determining that a Merger Event or Additional Disruption Event has occurred in respect of any Bond Linked Securities, interest on such Bond Linked Securities shall cease to accrue with effect from and including, the Interest Payment Date immediately preceding such determination.

3.2 Interest following Scheduled Redemption

Notwithstanding Bond Linked Condition 3.1 (*Cessation of Interest Accrual*), each Bond Linked Security shall only accrue interest up to (but excluding) the Scheduled Redemption Date.

3.3 Interest Payment Dates

If the Bond Linked Securities are redeemed early, in whole or in part, pursuant to a Bond Event, Merger Event or Additional Disruption Event, the Scheduled Redemption Date, the Redemption Date (if not the Scheduled Redemption Date), the Cash Settlement Date or the Delivery Date(s), as the case may be, shall not be Interest Payment Dates in respect of each Bond Linked Security (or the relevant portion thereof that is subject to a Bond Event, as applicable, or, in the case of Basket BLSs, the relevant portion thereof determined in accordance with Bond Linked Condition 2.3 (*Basket BLSs*)).

4 PHYSICAL SETTLEMENT

4.1 Delivery and payment

If Physical Settlement applies to any Bond Linked Security, then, upon the occurrence of a Bond Event Determination Date or the Calculation Agent determining that a Merger Event or Additional Disruption Event has occurred, the relevant Issuer, or any third party appointed at its discretion, shall, on or prior to the related Physical Settlement Date and subject to Bond Linked Condition 4.2 (*Partial Cash Settlement Due to Impossibility, Impracticality or Illegality*), Bond Linked Condition 4.3 (*Non-Delivery of Bonds*) and Bond Linked Condition 4.6 (*Asset Transfer Notice*), redeem such Bond Linked Security or, in the case of Basket BLSs, the relevant portion thereof determined in accordance with Bond Linked Condition 2.3 (*Basket BLSs*), respectively, by:

If any Undeliverable Bonds have not been Delivered on or prior to the Latest Permissible Physical Settlement Date, then Partial Cash Settlement shall apply with respect to Bond and, accordingly, the relevant Issuer shall pay the relevant Securityholders an amount equal to the Partial Cash Settlement Amount to be apportioned *pro rata* amongst the relevant Securityholders on the Partial Cash Settlement Date.

4.3 Non-Delivery of Bonds

If the relevant Issuer does not Deliver any Bond other than as a result of an event or circumstance contemplated in Bond Linked Condition 4.2 (*Partial Cash Settlement Due to Impossibility, Impracticality or Illegality*), such failure shall not constitute an event of default for the purpose of the Securities and the relevant Issuer may continue to attempt to Deliver the Bond until the Extended Physical Settlement Date.

If, as at the relevant Extended Physical Settlement Date, the relevant Bond has not been Delivered, then Partial Cash Settlement shall apply with respect to such Bond and the relevant Issuer shall pay to the Securityholders an amount equal to the Partial Cash Settlement Amount to be apportioned *pro rata* amongst the Securityholders on the Partial Cash Settlement Date.

4.4 Rounding

If the principal amount outstanding of the Bond to be Delivered in respect of each Bond Linked Security to be redeemed pursuant to this Bond Linked Condition 4 (*Physical Settlement*) on any occasion is not equal to an authorised denomination (or integral multiple thereof) of such Bonds then the Bond Nominal Amount of the Bond to be Delivered will be rounded down so that the principal amount outstanding of the Bond being Delivered is equal to the nearest authorised denomination or multiple thereof, or, if none, to zero. In such circumstances, the Bonds that were not capable of being Delivered shall, if and to the extent practicable, be sold by the relevant Issuer or such other agent as may be appointed by the relevant Issuer for such purpose and, if they are so sold, the relevant Issuer shall make payment in respect of each Bond Linked Security in an amount equal to its *pro rata* share of the related net sale proceeds as soon as reasonably practicable following receipt thereof.

All capitalised terms that are not defined in these Standard Floater Interest Payoff Conditions or elsewhere in the Terms and Conditions (including, without limitation, in the Definitions Conditions) will have the meanings given to them in the applicable Final Terms.

3 STANDARD FLOATER INTEREST

The Linked Interest Rate is calculated as the product of $Leverage_1$ by the lesser of (a) Cap and (b) the greater of (i) Floor and (ii) Margin added to the result of $Leverage_2$ multiplied by Underlying Value_{xy}. The Underlying Value_{xy} is calculated by reference to the price, level or rate of the Underlying, or if a combination of an Underlying_x and an Underlying_y is specified in the Final Terms, the price, level or rate of the Underlying_x and of the Underlying_y at the relevant time, as applicable. The value of the Underlying (or, as applicable, the relevant Underlying_x and Underlying_y) will be used as a component in this calculation and may therefore affect the Linked Interest Rate, subject to $Leverage_1$, $Leverage_2$, the Margin, the Cap and the Floor.

3.1 Linked Interest Rate

- (a) The Linked Interest Rate applicable to an Interest Accrual Period for Securities for which Standard Floater Interest is applicable in respect of such Interest Accrual Period shall be calculated as follows:

$$Leverage_1 \times \text{Min} \left(\text{Cap}, \text{Max} \left(\text{Floor}, \text{Leverage}_2 \times \text{Underlying Value}_{xy} + \text{Margin} \right) \right)$$

and expressed as a percentage.

- (b) The Linked Interest Rate applicable to an Interest Accrual Period for Securities for which Standard Floater Interest is applicable as a relevant General Interest Payoff_x, for the purposes of any applicable Combination Payoff Condition shall be calculated in accordance with such Combination Payoff Condition and the Linked Interest Rate determined in accordance with Standard Floater Interest Payoff Condition 3.1(a) shall be used in the relevant Combination Payoff Condition as the relevant General Interest Payoff_x.

For the avoidance of doubt, the Underlying Value may have a positive value, negative value or may be equal to zero (0) and will be expressed without regard to the currency of denomination of the Underlying Value (if any).

Underlying Value_{xy} means:

- (a) the Underlying Value of the Underlying; or
- (b) if a combination of an Underlying_x and an Underlying_y is specified in the applicable Final Terms:
 - (i) the sum of the Underlying Value of such Underlying_x and the Underlying Value of such Underlying_y, if "Addition" is specified in the applicable Final Terms as the relevant formula for the combination of Underlying_x and Underlying_y; or

4 STANDARD INVERSE FLOATER INTEREST

The Linked Interest Rate is calculated as the lesser of (a) Cap and (b) the greater of (i) Floor and (ii) the result of Leverage multiplied by Underlying Value_{xy} subtracted from Fixed Rate. The Underlying Value_{xy} is calculated by reference to the price, level or rate of the Underlying or, if a combination of an Underlying_x and an Underlying_y is specified in the Final Terms, is calculated by reference to the price, level or rate of the Underlying_x and of the Underlying_y at the relevant time, as applicable. The value of the Underlying (or, as applicable, the relevant Underlying_x and Underlying_y) will be used as a component in this calculation and may therefore affect the Linked Interest Rate, subject to the Leverage, the Fixed Rate, the Cap and the Floor.

4.1 Linked Interest Rate

- (a) The Linked Interest Rate applicable to an Interest Accrual Period for Securities for which Standard Inverse Floater Interest is applicable in respect of such Interest Accrual Period shall be calculated as follows:

and expressed as a percentage.

- (b) The Linked Interest Rate applicable to an Interest Accrual Period for Securities for which Standard Inverse Floater Interest is applicable as a relevant General Interest Payoff_x for the purposes of any applicable Combination Payoff Condition shall be calculated in accordance with such Combination Payoff Condition and the Linked Interest Rate determined in accordance with Standard Inverse Floater Interest Payoff Condition 4.1(a) shall be used in the relevant Combination Payoff Condition as the relevant General Interest Payoff_x.

For the purposes of these Standard Inverse Floater Interest Payoff Conditions, the following terms shall have the following meanings:

Interest Observation Date means, in respect of an Interest Accrual Period, each date specified as such in the applicable Final Terms or, alternatively, each date falling such number of Business Days immediately preceding the first or last day of such Interest Accrual Period as specified in the applicable

Final Terms, and each such date shall be deemed to be an "Observation Date" for the purposes of the relevant Asset Conditions.

Underlying Value means, with respect to an Interest Observation Date or a Relevant Timing, as the case may be:

- (a) in respect of an Underlying which is a Commodity, the Commodity Reference Price;

Standard Payoff Conditions: Part A: Chapter 5: Standard Participation Interest

This chapter sets out additional terms and conditions for Securities for which the applicable Final Terms specify Standard Participation Interest to be applicable.

*The following terms and conditions (the **Standard Participation Interest Payoff Conditions**) shall apply to the Securities if the applicable Final Terms indicate that Standard Participation Interest (the **Standard Participation Interest**) is applicable. These Standard Participation Interest Payoff Conditions are subject to completion in accordance with the applicable Final Terms.*

All capitalised terms that are not defined in these Standard Participation Interest Payoff Conditions or elsewhere in the Terms and Conditions (including, without limitation, in the Definitions Conditions) will have the meanings given to them in the applicable Final Terms.

5 STANDARD PARTICIPATION INTEREST

The Linked Interest Rate is calculated as the sum of P and the lesser of (a) C and (b) the greater of (i) F and (ii) L multiplied by the sum of S and the result of the Underlying Value_{ti} divided by the Underlying Value_{ti}.

5.1 Linked Interest Rate

- (a) The Linked Interest Rate applicable to an Interest Accrual Period for Securities for which Standard Participation Interest is applicable in respect of such Interest Accrual Period shall be calculated as follows:

$$P + \text{Min} \left(C, \text{Max} \left(F, L \times \left(\frac{\text{Underlying Value}_{ti}}{\text{Underlying Value}_{ti}} + S \right) \right) \right)$$

and expressed as a percentage.

- (b) The Linked Interest Rate applicable to an Interest Accrual Period for Securities for which Standard Participation Interest is applicable as a relevant General Interest Payoff_x for the purposes of any applicable Combination Payoff Condition shall be calculated in accordance with such Combination Payoff Condition and the Linked Interest Rate determined in accordance with Standard Participation Interest Payoff Condition 5.1(a) shall be used in the relevant Combination Payoff Condition as the relevant General Interest Payoff_x.

Standard Payoff Conditions: Part A: Chapter 6: Standard Range Accrual Interest

This chapter sets out additional terms and conditions for Securities for which the applicable Final Terms specify Standard Range Accrual Interest to be applicable.

*The following terms and conditions (the **Standard Range Accrual Interest Payoff Conditions**) shall apply to the Securities if the applicable Final Terms indicate that Standard Range Accrual Interest (the **Standard Range Accrual Interest**) is applicable. These Standard Range Accrual Interest Payoff Conditions are subject to completion in accordance with the applicable Final Terms.*

All capitalised terms that are not defined in these Standard Range Accrual Interest Payoff Conditions or elsewhere in the Terms and Conditions (including, without limitation, in the Definitions Conditions) will have the meanings given to them in the applicable Final Terms.

6 STANDARD RANGE ACCRUAL INTEREST

The Linked Interest Rate is calculated as the Accrual Factor (if "Accrual Factor OUT" applies) or 1 multiplied by an amount equal to the lesser of (a) Cap and (b) the greater of (i) Floor and (ii) Margin₂ added to the result of the product of (A) Accrual Factor (if "Accrual Factor IN" applies) or 1 and (B) the result of Leverage multiplied by Global Underlying Value on the relevant Interest Observation Date and added to Margin₁. The Accrual Factor is a number determined by reference to, among other things, the Underlying Value. The Global Underlying Value is calculated by reference to the price, level or rate of the Global Underlying or, if a combination of a Global Underlying_x and a Global Underlying_y is specified in the Final Terms, the price, level or rate of the Global Underlying_x and of the Global Underlying_y, as applicable. The Underlying Value_i is calculated by reference to the price, level or rate of the Underlying_i or, if a combination of an Underlying_{ix} and an Underlying_{iy} is specified in the Final Terms, the price, level or rate of the Underlying_{ix} and of the Underlying_{iy} at the relevant time, as applicable. The value of the Underlying will therefore affect the Linked Interest Rate since (i) the value of the Underlying_i (or, as applicable, the relevant Underlying_{ix} and Underlying_{iy}) affects the value of the Accrual Factor which is used as a component of the formula used to calculate the Linked Interest Rate and (ii) the value of the Global Underlying (or, as applicable, the Global Underlying_x and the Global Underlying_y) is used as a separate component in the formula used to calculate the Linked Interest Rate.

6.1 Linked Interest Rate

- (a) The Linked Interest Rate applicable to an Interest Accrual Period for Securities for which Standard Range Accrual Interest is applicable in respect of such Interest Accrual Period shall be calculated as follows:

$$\text{Accrual Factor OUT} \times \text{Min} \left(\text{Cap}, \text{Max} \left(\text{Floor}, \left(\text{Leverage} \times \text{Global Underlying Value} + \text{Margin}_1 \right) \times \text{Accrual Factor IN} + \text{Margin}_2 \right) \right)$$

and expressed as a percentage.

- (b) The Linked Interest Rate applicable to an Interest Accrual Period for Securities for which Standard Range Accrual Interest is applicable as a relevant General Interest Payoff_x for the purposes of any applicable Combination Payoff Condition shall be calculated in accordance with such Combination Payoff Condition and the Linked Interest Rate determined in accordance with Standard Range Accrual Interest Payoff Condition 6.1(a) shall be used in the relevant Combination Payoff Condition as the relevant General Interest Payoff_x as applicable.

6.2 Relevant Observation

Where, in relation to these Standard Range Accrual Interest Payoff Conditions, the applicable Final Terms provides that "Relevant Observation" is applicable in respect of the Global Underlying Value or Underlying Value_i, references in these Standard Range Accrual Interest Payoff Conditions to "Underlying Value" (save for the definition of such term in Standard Range Accrual Interest Payoff Condition 6.3

below) shall, for the purposes of determining the Global Underlying Value or Underlying Value_i be deemed to be references to the applicable Relevant Observation.

*The following terms and conditions (the **Standard Power Interest Payoff Conditions**) shall apply to the Securities if the applicable Final Terms indicate that Standard Power Interest (the **Standard Power Interest**) is applicable. These Standard Power Interest Payoff Conditions are subject to completion in accordance with the applicable Final Terms.*

All capitalised terms that are not defined in these Standard Power Interest Payoff Conditions or elsewhere in the Terms and Conditions (including, without limitation, in the Definitions Conditions) will have the meanings given to them in the applicable Final Terms.

7 STANDARD POWER INTEREST

The Linked Interest Rate is calculated as the lesser of (a) Cap and (b) the greater of (i) Floor and (ii) Margin added to the result, exponentiated to the power of x , of 1 plus Leverage multiplied by Underlying Value_{xy}. The Underlying Value_{xy} is calculated by reference to the price, level or rate of the Underlying or, if a combination of an Underlying_x and an Underlying_y is specified in the Final Terms, is calculated by reference to the price, level or rate of the Underlying_x and of the Underlying_y at the relevant time, as applicable. The value of the Underlying (or, as applicable, Underlying_x and Underlying_y) will be used as a component in this calculation and will therefore affect the Linked Interest Rate, subject to the Leverage, Margin, Cap, Floor and the exponential part of the formula.

7.1 Linked Interest Rate

- (a) The Linked Interest Rate applicable to an Interest Accrual Period for Securities for which Standard Power Interest is applicable in respect of such Interest Accrual Period shall be calculated as follows:

$$\text{Min} \left(\text{Cap}, \text{Max} \left(\text{Floor}, \left(1 + \text{Leverage} \times \text{Underlying Value}_{xy} \right)^x + \text{Margin} \right) \right)$$

8 STANDARD DIGITAL TO PARTICIPATION INTEREST

The Linked Interest Rate is calculated as either (a) if the Underlying Value_{xy} reaches the relevant Barrier or is within the relevant Range either on the Interest Observation Date(s) or during the Interest Observation Period, being a Fixed Rate or (b) otherwise, being the sum of P and the lesser of (i) C and (ii) the greater of (A) F and (B) L multiplied by the sum of S and the result of the Underlying Value_{ii} divided by Underlying Value_{ii}.

Standard Payoff Conditions: Part A: Chapter 9: Standard Fixed Range Accrual Interest

This chapter sets out additional terms and conditions for Securities for which the applicable Final Terms specify Standard Fixed Range Accrual Interest to be applicable.

*The following terms and conditions (the **Standard Fixed Range Accrual Interest Payoff Conditions**) shall apply to the Securities if the applicable Final Terms indicate that Standard Fixed Range Accrual Interest (the **Standard Fixed Range Accrual Interest**) is applicable. These Standard Fixed Range Accrual Interest Payoff Conditions are subject to completion in accordance with the applicable Final Terms.*

All capitalised terms that are not defined in these Standard Fixed Range Accrual Interest Payoff Conditions or elsewhere in the Terms and Conditions (including, without limitation, in the Definitions Conditions) will have the meanings given to them in the applicable Final Terms.

9 STANDARD FIXED RANGE ACCRUAL INTEREST

The Linked Interest Rate is calculated as (A) in the case of Linear type of Range Accrual payoff, Fixed Rate multiplied by Accrual Factor and as (B) in the case of Non-linear type of Range Accrual payoff, the Fixed Rate (n) applicable to the n calculated for the relevant Interest Observation Period. The Accrual Factor is a number calculated by reference to, among other things, each Underlying Value_i. The Underlying Value_i is calculated by reference to the price, level or rate of the relevant Underlying_i or, if a combination of an Underlying_{ix} and an Underlying_{iy} is specified in the Final Terms, is calculated by reference to the price, level or rate of the relevant Underlying_{ix} and of the relevant Underlying_{iy} at the relevant time, as applicable. The value of each Underlying_i or, as applicable, each Underlying_{ix} and Underlying_{iy}, will therefore affect the value of the Accrual Factor which is used as a component of the formula used to calculate the Linked Interest Rate.

9.1 Linked Interest Rate

- (a) The Linked Interest Rate applicable to an Interest Accrual Period for Securities for which Standard Fixed Range Accrual Interest is applicable in respect of such Interest Accrual Period and
- (i) in respect to which Linear is specified as applicable in the Final Terms shall be calculated as follows:
- Fixed Rate × Accrual Factor
- and expressed as a percentage; and
- (ii) in respect to which Non-linear is specified as applicable in the Final Terms shall be calculated as follows:
- Fixed Rate (n) for the n applicable in respect of such Interest Accrual Period.
- (b) The Linked Interest Rate applicable to an Interest Accrual Period for Securities for which Standard Fixed Range Accrual Interest is applicable as a relevant General Interest Payoff_x for the purposes of any applicable Combination Payoff Condition shall be calculated in accordance with such Combination Payoff Condition and the Linked Interest Rate determined in accordance with Standard Fixed Range Accrual Interest Payoff Condition 9.1(a) shall be used in the relevant Combination Payoff Condition as the relevant General Interest Payoff_x.

9.2 Relevant Observation

Where, in relation to these Standard Fixed Range Accrual Interest Payoff Conditions, the applicable Final Terms provides that "Relevant Observation" is applicable in respect of the Underlying Value, references in these Standard Fixed Range Accrual Interest Payoff Conditions to "Underlying Value" (save for the definition of such term in Standard Fixed Range Accrual Interest Payoff Condition 9.3 below) shall, for

the purposes of determining the Underlying Value of the Underlying, be deemed to be references to the applicable Relevant Observation.

9.3 Definitions and Interpretation

For the purposes of these Standard Fixed Range Accrual Interest Payoff Conditions, the following terms shall have the following meanings:

a means the number specified as such in the applicable Final Terms. If a is specified as "Not Applicable", a shall be 1.

Accrual Factor means, with respect to an Interest Accrual Period:

$$\frac{a \times n - b \times N}{N}$$

b means the number specified as such in the applicable Final Terms. If b is specified as "Not Applicable", b shall be 0.

Lower Limit_i means, in respect of a Range Accrual Day in an Interest Observation Period, the percentage, number or a percentage of a previous Underlying Value as specified in the applicable Final Terms and corresponding to an Underlying_i (or, as applicable, to Underlying_{ix} and Underlying_{iy}), which specification may be of the following type:

Range Accrual Day	Lower Limit _i
First Range Accrual Day	[Fixed percentage or number]
Subsequent Range Accrual Days	[percentage] of Underlying Value _i on the immediately preceding Range Accrual Day

n means, in respect of an Interest Observation Period, the number of Range Accrual Days in the relevant Interest Observation Period in respect of which each Underlying Value_i is within the Underlying Value_i Range, as determined by the Calculation Agent. For the purposes hereof, (and where Range Accrual Days are expressed in the applicable Final Terms as falling on calendar days which may not be Business Days) the Underlying Value in respect of any Range Accrual Day which is not a Business Day shall be deemed to be the Underlying Value in respect of either the immediately preceding or the immediately following Business Day, as specified in the applicable Final Terms.

N means the total number of Range Accrual Days in the relevant Interest Observation Period, as determined by the Calculation Agent.

Range Accrual Day means, with respect to an Interest Observation Period and an Underlying_i (or, as applicable, an Underlying_{ix} and an Underlying_{iy}), each date specified as a Range Accrual Day in the applicable Final Terms, which may be each Business Day, each calendar day, each calendar day or Business Day within a week, each calendar day or Business Day within a month, or any other day, falling within such Interest Observation Period. Each Range Accrual Day shall be deemed to be an "Observation Date" for the purposes of the relevant Asset Conditions.

Underlying_i means an Underlying corresponding to an i, as specified in the applicable Final Terms. For the avoidance of doubt, all Underlying_i and (as applicable) all Underlying_{ix} and Underlying_{iy} together constitute a Basket or a Multi-Asset Basket, as applicable (each as defined in the applicable Asset Conditions).

Underlying_{ix} or Underlying_{iy} means an Underlying bearing the subscript "x" or an Underlying bearing the subscript "y" respectively, each corresponding to an i, specified as such in the applicable Final Terms, if applicable. For the avoidance of doubt, all Underlying_i (as applicable) and all Underlying_{ix} and Underlying_{iy} together constitute a Basket or a Multi-Asset Basket, as applicable (each as defined in the applicable Asset Conditions).

Underlying Value means, with respect to a Range Accrual Day or a Relevant Timing, as the case may be:

Standard Payoff Conditions: Part A: Chapter 10: Standard ABF Interest

This chapter sets out additional terms and conditions for Securities for which the applicable Final Terms specify Standard ABF Interest to be applicable.

*The following terms and conditions (the **Standard ABF Interest Payoff Conditions**) shall apply to the Securities if the applicable Final Terms indicate that Standard ABF Interest (the **Standard ABF Interest**) is applicable. These Standard ABF Interest Payoff Conditions are subject to completion in accordance with the applicable Final Terms.*

All capitalised terms that are not defined in these Standard ABF Interest Payoff Conditions or elsewhere in the Terms and Conditions (including, without limitation, in the Definitions Conditions) will have the meanings given to them in the applicable Final Terms.

10 STANDARD ABF INTEREST

The Linked Interest Rate is calculated as the product of (a) Global Leverage, (b) the FX Conversion Factor and (c) the sum of (i) the result of Accrual Factor₁ multiplied by Leverage₁ and (ii) the result of Accrual Factor₂ multiplied by Leverage₂.

An Accrual Factor is calculated by reference to the relevant Underlying Value_{xy}. The Underlying Value_{xy} is calculated by reference to the price, level or rate of the Underlying or, if a combination of an Underlying_x and an Underlying_y is specified in the Final Terms, is calculated by reference to the price, level or rate of the Underlying_x and of the Underlying_y at the relevant time, as applicable. The value of the Underlying (or, as applicable, the relevant Underlying_x and Underlying_y) may therefore affect the Linked Interest Rate since the value of the Underlying affects the value of the Accrual Factor, which is used as a component of the formula used to calculate the Linked Interest Rate.

10.1 Linked Interest Rate

- (a) The Linked Interest Rate applicable to an Interest Accrual Period for Securities for which Standard ABF Interest is applicable in respect of such Interest Accrual Period shall be calculated as follows:

$$\text{Global Leverage} \times \text{FX Conversion Factor} \times \left((\text{Leverage}_1 \times \text{Accrual Factor}_1) + (\text{Leverage}_2 \times \text{Accrual Factor}_2) \right)$$

and expressed as a percentage.

- (b) The Linked Interest Rate applicable to an Interest Accrual Period for Securities for which Standard ABF Interest is applicable as a relevant General Interest Payoff_x for the purposes of any applicable Combination Payoff Condition shall be calculated in accordance with such Combination Payoff Condition and the Linked Interest Rate determined in accordance with Standard ABF Interest Payoff Condition 10.1(a) shall be used in the relevant Combination Payoff Condition as the relevant General Interest Payoff_x.

10.2 Relevant Observation

Where, in relation to these Standard ABF Interest Payoff Conditions, the applicable Final Terms provides that "Relevant Observation" is applicable in respect of the Underlying Value, references in these Standard ABF Interest Payoff Conditions to "Underlying Value" (save for the definition of such term in Standard ABF Interest Payoff Condition 10.3 below) shall, for the purposes of determining the Underlying Value of the Underlying, be deemed to be references to the applicable Relevant Observation.

10.3 Definitions and Interpretation

For the purposes of these Standard ABF Interest Payoff Conditions, the following terms shall have the following meanings:

a means the number specified as such in the applicable Final Terms. If a is specified as "Not Applicable", a shall be 1.

N means the total number of Range Accrual Days in the relevant Interest Observation Period, as determined by the Calculation Agent.

Range_a or **Range_b** means the Range specified as such in the applicable Final Terms.

Each Range Accrual Day shall be deemed to be an "Observation Date" for the purposes of the relevant Asset Conditions.

Reference Currency has the meaning set out in Annex 1 Chapter 3 (*Asset Conditions: FX Linked Asset Conditions*).

Specified Rate has the meaning set out in Chapter 3 (*FX Linked Asset Conditions*) of Annex 1 (*Asset Conditions*).

Underlying Value means, with respect to a Range Accrual Day, an Interest Observation Date or a Relevant Timing, as the case may be:

provided that if an Interest Observation Period Cut-Off Date is specified in the applicable Final Terms, the Underlying Value in respect of any Range Accrual Day falling on or after the Interest Observation Period Cut-Off Date shall be deemed to be the Underlying Value in respect of the Range Accrual Day falling on such Interest Observation Period Cut-Off Date.

For the avoidance of doubt, the Underlying Value may have a positive value, negative value or may be equal to zero (0) and will be expressed without regard to the currency of denomination of the Underlying Value (if any).

The Linked Interest Rate is calculated for each Interest Accrual Period_n from (and including) the Final Reserve Accrual Period as the sum of Steepener_n and Reserve_{n-1} for the relevant Interest Accrual Period. The Underlying Value_{xy} is calculated by reference to the price, level or rate of the Underlying or, if a combination of an Underlying_x and an Underlying_y is specified in the applicable Final Terms, the price, level or rate of the Underlying_x and of the Underlying_y at the relevant time, as applicable. The value of the Underlying (or, as applicable, the relevant Underlying_x and Underlying_y) observed on each of the relevant days in the relevant Interest Accrual Period may therefore each be used as a component in this calculation and may therefore affect the Linked Interest Rate, subject to the Cap₁, if applicable.

 - (ii) the algebraical difference between the Underlying Value of such Underlying_{1x} and the Underlying Value of such Underlying_{1y}, if "Subtraction" is specified in the applicable Final Terms as the relevant formula for the combination of Underlying_{1x} and Underlying_{1y}; or
 - (iii) the product of the Underlying Value of such Underlying_{1x} by the Underlying Value of such Underlying_{1y}, if "Multiplication" is specified in the applicable Final Terms as the relevant formula for the combination of Underlying_{1x} and Underlying_{1y}; or
 - (iv) the quotient of the Underlying Value of such Underlying_{1x} by the Underlying Value of such Underlying_{1y}, if "Division" is specified in the applicable Final Terms as the relevant formula for the combination of Underlying_{1x} and Underlying_{1y}.
 - (v) the result of Applicable Formula(Underlying_{1x}, Underlying_{1y}), if "Applicable Formula" is specified in the applicable Final Terms as the relevant formula for the combination of Underlying_{1x} and Underlying_{1y}.

Underlying Value₂ means the Underlying Value_{2xy} on the Interest Observation Date or, where Underlying Value₂ is specified in the applicable Final Terms as being determined by reference to a Relevant Observation, the Underlying Value_{2xy} determined in accordance with Standard Steepener with Reserve Interest Payoff Condition 14.2 above.

Underlying Value_{2xy} means:

- (a) the Underlying Value of the Underlying₂; or
- (b) if a combination of an Underlying_{2x} and an Underlying_{2y} is specified in the applicable Final Terms:
 - (i) the sum of the Underlying Value of such Underlying_{2x} and the Underlying Value of such Underlying_{2y}, if "Addition" is specified in the applicable Final Terms as the relevant formula for the combination of Underlying_{2x} and Underlying_{2y}; or

 - (v) the result of Applicable Formula(Underlying_{2x}, Underlying_{2y}), if "Applicable Formula" is specified in the applicable Final Terms as the relevant formula for the combination of Underlying_{2x} and Underlying_{2y}.

Standard Payoff Conditions: Part A: Chapter 15: Standard Memory Digital/Performance Interest

This chapter sets out additional terms and conditions for Securities for which the applicable Final Terms specify Standard Memory Digital/Performance Interest to be applicable.

*The following terms and conditions (the **Standard Memory Digital/Performance Interest Payoff Conditions**) will apply to the Securities if the applicable Final Terms indicate that Standard Memory Digital/Performance Interest (the **Standard Memory Digital/Performance Interest**) is applicable. These Standard Memory Digital/Performance Interest Payoff Conditions are subject to completion in accordance with the applicable Final Terms.*

All capitalised terms not defined in these Standard Memory Digital/Performance Interest Payoff Conditions or elsewhere in the Terms and Conditions (including, without limitation, in the Definitions Conditions) will have the meanings given to them in the applicable Final Terms.

15 STANDARD MEMORY DIGITAL/PERFORMANCE INTEREST

The Linked Interest Rate is calculated as either (a) if the Performance_I reaches the relevant barrier or is within the relevant Range either on the Interest Observation Date(s) or during the Interest Observation Period, being the sum of the Fixed Rates corresponding to the previous Interest Payment Dates or Interest Accrual Periods in respect of which the relevant Fixed Rates have not been paid, or (b) otherwise, being the sum of P and the lesser of (i) C and (ii) the greater of (A) F and (B) L multiplied by the sum of S and Performance_IA.

15.1 Linked Interest Rate

(a) The Linked Interest Rate applicable to an Interest Accrual Period for Securities for which Standard Memory Digital/Performance Interest is applicable for such Interest Accrual Period will be calculated as follows:

(i) if the Performance_I is [higher than IB] [higher than or equal to IB] [lower than IB] [lower than or equal to IB] [within Range] [outside Range] either (A) on [the] [the current] [each] [at least one previous] [each previous] Interest Observation Date, or (B) [at least one time] [on at least one Scheduled Trading Day] [at all times] [on all Scheduled Trading Days] [on all Scheduled Trading Days which are not Disrupted Days] during the Interest Observation Period, equal to:

$$\sum_{t=n+1}^N \text{Fixed Rate (t)}$$

(ii) otherwise, if the Performance_I is [higher than IB1] [higher than or equal to IB1] [lower than IB1] [lower than or equal to IB1] [within Range₁] [outside Range₁] either (A) on [the] [the current] [each] [at least one previous] [each previous] Interest Observation Date, or (B) [at least one time] [on at least one Scheduled Trading Day] [at all times] [on all Scheduled Trading Days] [on all Scheduled Trading Days which are not Disrupted Days] during the Interest Observation Period, equal to:

$$\sum_{t=n+1}^N \text{Fixed Rate}_1 (t)$$

(iii) otherwise, if the Performance_I is [higher than IB2] [higher than or equal to IB2] [lower than IB2] [lower than or equal to IB2] [within Range₂] [outside Range₂], either (A) on [the] [the current] [each] [at least one previous] [each previous] Interest Observation Date, or (B) [at least one time] [on at least one Scheduled Trading Day] [at all times] [on all Scheduled Trading Days] [on all Scheduled Trading Days which are not Disrupted Days] during the Interest Observation Period, equal to:

$$\sum_{t=n+1}^N \text{Fixed Rate}_2 (t)$$

- (iv) otherwise, if the Performance_I is [higher than IB3] [higher than or equal to IB3] [lower than IB3] [lower than or equal to IB3] [within Range₃] [outside Range₃], either (A) on [the] [the current] [each] [at least one previous] [each previous] Interest Observation Date, or (B) [at least one time] [on at least one Scheduled Trading Day] [at all times] [on all Scheduled Trading Days] [on all Scheduled Trading Days which are not Disrupted Days] during the Interest Observation Period, equal to:

$$\sum_{t=n+1}^N \text{Fixed Rate}_3 (t)$$

- (v) otherwise, if the Performance_I is [higher than IB4] [higher than or equal to IB4] [lower than IB4] [lower than or equal to IB4] [within Range₄] [outside Range₄], either (A) on [the] [the current] [each] [at least one previous] [each previous] Interest Observation Date, or (B) [at least one time] [on at least one Scheduled Trading Day] [at all times] [on all Scheduled Trading Days] [on all Scheduled Trading Days which are not Disrupted Days] during the Interest Observation Period, equal to:

$$\sum_{t=n+1}^N \text{Fixed Rate}_4 (t)$$

- (vi) otherwise, if the Performance_I is [higher than IB5] [higher than or equal to IB5] [lower than IB5] [lower than or equal to IB5] [within Range₅] [outside Range₅], either (A) on [the] [the current] [each] [at least one previous] [each previous] Interest Observation Date, or (B) [at least one time] [on at least one Scheduled Trading Day] [at all times] [on all Scheduled Trading Days] [on all Scheduled Trading Days which are not Disrupted Days] during the Interest Observation Period, equal to:

- (vii) otherwise, if the Performance_I is [higher than IB6] [higher than or equal to IB6] [lower than IB6] [lower than or equal to IB6] [within Range₆] [outside Range₆], either (A) on [the] [the current] [each] [at least one previous] [each previous] Interest Observation Date, or (B) [at least one time] [on at least one Scheduled Trading Day] [at all times] [on all Scheduled Trading Days] [on all Scheduled Trading Days which are not Disrupted Days] during the Interest Observation Period, equal to:

$$\sum_{t=n+1}^N \text{Fixed Rate}_6 (t)$$

- (viii) in other cases it will be equal to:

$$P \pm \text{Min} \left(C, \text{Max} \left(F, L \times (\pm \text{Performance IA} \pm S) \right) \right)$$

If several of the above conditions are satisfied (because the Ranges or Barriers overlap), the Linked Interest Rate will be the [highest] [lowest] of the Fixed Rates applicable to these satisfied conditions.

- (b) The Linked Interest Rate applicable to an Interest Accrual Period for Securities for which Standard Memory Digital/Performance Interest is applicable as a relevant General Interest Payoff_x will, for the purposes of any applicable Combination Payoff Condition, be calculated in accordance with such Combination Payoff Condition, and the Linked Interest Rate determined in accordance with Standard Memory Digital/Performance Interest Payoff Condition 12.1(a) will be used in the relevant Combination Payoff Condition as the relevant General Interest Payoff_x.

15.2 Definitions and Interpretation

For the purposes of these Memory Interest Payoff Feature Conditions, the following terms shall have the following meanings:

n is the number of the last Interest Payment Date or Interest Accrual Period in respect of which the relevant Fixed Rate has been paid, as specified in the applicable Final Terms. If no Fixed Rate has been paid prior to the current Interest Payment Date or Interest Accrual Period, the value of “n” will be equal to zero.

N is the number of the current Interest Payment Date or Interest Accrual Period.

Fixed Rate(t), Fixed Rate₁(t), Fixed Rate₂(t), Fixed Rate₃(t), Fixed Rate₄(t), Fixed Rate₅(t) and Fixed Rate₆(t) mean the percentages payable in respect of the relevant Interest Payment Date “t” or Interest Accrual Period “t”, as specified in the applicable Final Terms.

Standard Payoff Conditions: Part B: Chapter 1: Standard Fixed Redemption

This chapter sets out additional terms and conditions for Securities for which the applicable Final Terms specify Standard Fixed Redemption to be applicable.

*The following terms and conditions (the **Standard Fixed Redemption Payoff Conditions**) shall apply to the Securities if the applicable Final Terms indicate that Standard Fixed Redemption (the **Standard Fixed Redemption**) is applicable. These Standard Fixed Redemption Payoff Conditions are subject to completion in accordance with the applicable Final Terms.*

All capitalised terms that are not defined in these Standard Fixed Redemption Payoff Conditions or elsewhere in the Terms and Conditions (including, without limitation, in the Definitions Conditions) will have the meanings given to them in the applicable Final Terms.

1 STANDARD FIXED REDEMPTION

The Redemption Payoff is calculated as equal to the Fixed Percentage and is not affected by the value of any underlying.

1.1 Redemption Payoff

- (a) The Redemption Payoff applicable to a Redemption Determination Date for Securities for which Standard Fixed Redemption is applicable shall be equal to the Fixed Percentage.
- (b) The Redemption Payoff applicable to a Redemption Determination Date for Securities for which Standard Fixed Redemption is applicable as a relevant General Redemption Payoff_x for the purposes of any applicable Combination Payoff Condition shall be calculated in accordance with such Combination Payoff Condition and the Redemption Payoff determined in accordance with Standard Fixed Redemption Payoff Condition 1.1(a) shall be used in the relevant Combination Payoff Condition as the relevant General Redemption Payoff_x.

Standard Payoff Conditions: Part B: Chapter 2: Standard Floater Redemption

This chapter sets out additional terms and conditions for Securities for which the applicable Final Terms specify Standard Floater Redemption to be applicable.

*The following terms and conditions (the **Standard Floater Redemption Payoff Conditions**) shall apply to the Securities if the applicable Final Terms indicate that Standard Floater Redemption (the **Standard Floater Redemption**) is applicable. These Standard Floater Redemption Payoff Conditions are subject to completion in accordance with the applicable Final Terms.*

All capitalised terms that are not defined in these Standard Floater Redemption Payoff Conditions or elsewhere in the Terms and Conditions (including, without limitation, in the Definitions Conditions) will have the meanings given to them in the applicable Final Terms.

2 STANDARD FLOATER REDEMPTION

The Redemption Payoff is calculated on the Redemption Determination Date as the product of Leverage₁ and the lesser of (a) Cap and (b) the greater of (i) Floor and (ii) Margin added to the result of Leverage₂ multiplied by Underlying Value_{xy}. The Underlying Value_{xy} is calculated by reference to the price, level or rate of the Underlying or, if a combination of an Underlying_x and an Underlying_y is specified in the Final Terms, is calculated by reference to the price, level or rate of the Underlying_x and of the Underlying_y at the relevant time, as applicable. The value of the Underlying (or, as applicable, the relevant Underlying_x and Underlying_y) will be used as a component in this calculation and may therefore affect the Redemption Payoff, subject to the Leverage₁, Leverage₂, Margin, Cap and Floor.

2.1 Redemption Payoff

- (a) The Redemption Payoff applicable to a Redemption Determination Date for Securities for which Standard Floater Redemption is applicable shall be calculated on such Redemption Determination Date as follows:

$$\text{Leverage}_1 \times \left(\text{Min} \left(\text{Cap}, \text{Max} \left(\text{Floor}, \text{Leverage}_2 \times \text{Underlying Value}_{xy} + \text{Margin} \right) \right) \right)$$

and expressed as a percentage.

- (b) The Redemption Payoff applicable to a Redemption Determination Date for Securities for which Standard Floater Redemption is applicable as a relevant General Redemption Payoff_x for the purposes of any applicable Combination Payoff Condition shall be calculated in accordance with such Combination Payoff Condition and the Redemption Payoff determined in accordance with Standard Floater Redemption Payoff Condition 2.1(a) shall be used in the relevant Combination Payoff Condition as the relevant General Redemption Payoff_x.

2.2 Relevant Observation

Where, in relation to these Standard Floater Redemption Payoff Conditions, the applicable Final Terms provides that "Relevant Observation" is applicable in respect of the Underlying Value, references in these Standard Floater Redemption Payoff Conditions to "Underlying Value" (save for the definition of such term in Standard Floater Redemption Payoff Condition 2.3 below) shall, for the purposes of determining the Underlying Value of the Underlying, be deemed to be references to the applicable Relevant Observation.

2.3 Definitions and Interpretation

For the purposes of these Standard Floater Redemption Payoff Conditions, the following terms shall have the following meanings:

Leverage₁ or **Leverage₂** means the percentage or number specified as such in the applicable Final Terms. For the avoidance of doubt, this may have a positive or a negative value or, in the case of a number, may be one (1).

Redemption Determination Date has the meaning set out in Annex 9 (*Redemption Method Conditions*).

Redemption Observation Date means, with respect to a Redemption Determination Date, each date specified as such in the applicable Final Terms or, alternatively, each date falling such number of Business Days specified in the applicable Final Terms immediately preceding the Redemption Determination Date, and each such date shall be deemed to be an "Observation Date" for the purposes of the relevant Asset Conditions.

Underlying Value means, with respect to a Redemption Observation Date or a Relevant Timing, as the case may be:

- (a) in respect of an Underlying which is a Commodity, the Commodity Reference Price;
- (b) in respect of an Underlying which is a Benchmark Rate, the Benchmark Rate Level;
- (c) in respect of an Underlying which is an Index, the Index Level;
- (d) in respect of an Underlying which is an Inflation Index, the Inflation Index Level;
- (e) in respect of an Underlying which is a FX Rate, the relevant rate of exchange;

- (g) in respect of an Underlying which is a Share, the Share Price; or
- (h) in respect of an Underlying which is a Fund Interest, the Fund Price.
- (i) in respect of an Underlying which is a Future, the Future Price.

For the avoidance of doubt, the Underlying Value may have a positive value, negative value or may be equal to zero (0) and will be expressed without regard to the currency of denomination of the Underlying Value (if any).

Underlying Value_{xy} means:

- (a) the Underlying Value of the Underlying; or
- (b) if a combination of an Underlying_x and an Underlying_y is specified in the applicable Final Terms:
 - (i) the sum of the Underlying Value of such Underlying_x and the Underlying Value of such Underlying_y, if "Addition" is specified in the applicable Final Terms as the relevant formula for the combination of Underlying_x and Underlying_y; or
 - (ii) the algebraical difference between the Underlying Value of such Underlying_x and the Underlying Value of such Underlying_y, if "Subtraction" is specified in the applicable Final Terms as the relevant formula for the combination of Underlying_x and Underlying_y; or
 - (iii) the product of the Underlying Value of such Underlying_x by the Underlying Value of such Underlying_y, if "Multiplication" is specified in the applicable Final Terms as the relevant formula for the combination of Underlying_x and Underlying_y; or
 - (iv) the quotient of the Underlying Value of such Underlying_x by the Underlying Value of such Underlying_y, if "Division" is specified in the applicable Final Terms as the relevant formula for the combination of Underlying_x and Underlying_y; or

This chapter sets out additional terms and conditions for Securities for which the applicable Final Terms specify Standard Participation Redemption to be applicable.

*The following terms and conditions (the **Standard Participation Redemption Payoff Conditions**) shall apply to the Securities if the applicable Final Terms indicate that Standard Participation Redemption (the **Standard Participation Redemption**) is applicable. These Standard Participation Redemption Payoff Conditions are subject to completion in accordance with the applicable Final Terms.*

All capitalised terms that are not defined in these Standard Participation Redemption Payoff Conditions or elsewhere in the Terms and Conditions (including, without limitation, in the Definitions Conditions) will have the meanings given to them in the applicable Final Terms.

3 STANDARD PARTICIPATION REDEMPTION

The Redemption Payoff is calculated on the Redemption Determination Date as the sum of P and the lesser of (a) C and (b) the greater of (i) F and (ii) L multiplied by the sum of S and the result of the Underlying Value_{2i} divided by the Underlying Value_{1i}.

3.1 Redemption Payoff

- (a) The Redemption Payoff applicable to a Redemption Determination Date for Securities for which Standard Participation Redemption is applicable shall be calculated on such Redemption Determination Date as follows: $P \pm \text{Max} \left(C, \text{Max} \left(F, L \times \left(\pm \frac{\text{Underlying Value}_{2i}}{\text{Underlying Value}_{1i}} \pm S \right) \right) \right)$

and expressed as a percentage.

- (b) The Redemption Payoff applicable to a Redemption Determination Date for Securities for which Standard Participation Redemption is applicable as a relevant General Redemption Payoff_x for the purposes of any applicable Combination Payoff Condition shall be calculated in accordance with such Combination Payoff Condition and the Redemption Payoff determined in accordance with Standard Participation Redemption Payoff Condition 3.1(a) shall be used in the relevant Combination Payoff Condition as the relevant General Redemption Payoff_x.

Standard Payoff Conditions: Part B: Chapter 4: Standard Digital to Participation Redemption

This chapter sets out additional terms and conditions for Securities for which the applicable Final Terms specify Standard Digital to Participation Redemption to be applicable.

These Standard Digital to Participation Redemption Payoff Conditions are subject to completion in accordance with the applicable Final Terms.*

All capitalised terms that are not defined in these Standard Digital to Participation Redemption Payoff Conditions or elsewhere in the Terms and Conditions (including, without limitation, in the Definitions Conditions) will have the meanings given to them in the applicable Final Terms.

4 STANDARD DIGITAL TO PARTICIPATION REDEMPTION

The Redemption Payoff is calculated on the Redemption Determination Date as either (a) if the Underlying Value_{xy} reaches the relevant Barrier or is within the relevant Range on the Redemption Observation Date(s) or during the Redemption Observation Period, being a Fixed Percentage or (b) otherwise, being the sum of P and the lesser of (i) C and (ii) the greater of (A) F and (B) L multiplied by the sum of S and the result of the Underlying Value_{2i} divided by Underlying Value_{1i}.

4.1 Redemption Payoff

- (a) The Redemption Payoff applicable to a Redemption Determination Date for Securities for which Standard Digital to Participation Redemption is applicable shall be calculated on such Redemption Determination Date as:
- (i) if the Underlying Value_{xy} is [higher than FRB] [higher than or equal to FRB] [lower than FRB] [lower than or equal to FRB] [within Range] [outside Range] either (A) on [the] [the last] [each] [at least one previous] [each previous] Redemption Observation Date, or (B) [at least one time] [on at least one Scheduled Trading Day] [at all times] [on all Scheduled Trading Days] [on all Scheduled Trading Days which are not Disrupted Days] during the Redemption Observation Period,

Standard Payoff Conditions: Part B: Chapter 5: Standard ABF Redemption

This chapter sets out additional terms and conditions for Securities for which the applicable Final Terms specify Standard ABF Redemption to be applicable.

*The following terms and conditions (the **Standard ABF Redemption Payoff Conditions**) shall apply to the Securities if the applicable Final Terms indicate that Standard ABF Redemption (the **Standard ABF Redemption**) is applicable. These Standard ABF Redemption Payoff Conditions are subject to completion in accordance with the applicable Final Terms.*

All capitalised terms that are not defined in these Standard ABF Redemption Payoff Conditions or elsewhere in the Terms and Conditions (including, without limitation, in the Definitions Conditions) will have the meanings given to them in the applicable Final Terms.

5 STANDARD ABF REDEMPTION

The Redemption Payoff is calculated as (a) one (1), minus (b) Global Leverage multiplied by the sum of (i) the result of Accrual Factor₁ multiplied by Leverage₁ and (ii) the result of Accrual Factor₂ multiplied by Leverage₂.

An Accrual Factor is calculated by reference to, among other things, the relevant Underlying Value_{xy}. The Underlying Value_{xy} is calculated by reference to the price, level or rate of the Underlying or, if a combination of an Underlying_x and an Underlying_y is specified in the Final Terms, is calculated by reference to the price, level or rate of the Underlying_x and of the Underlying_y at the relevant time, as applicable. The value of the Underlying, or (as applicable) of Underlying_x and Underlying_y, may therefore affect the Redemption Payoff since the value of the Underlying affects the value of the Accrual Factor, which is used as a component of the formula used to calculate the Redemption Payoff.

5.1 Redemption Payoff

- (a) The Redemption Payoff applicable to a Redemption Observation Date for Securities for which Standard ABF Redemption is applicable shall be calculated on such Redemption Determination Date as follows:

$$1 - (\text{Global Leverage} \times ((\text{Leverage}_1 \times \text{Accrual Factor}_1) + (\text{Leverage}_2 \times \text{Accrual Factor}_2)))$$

and expressed as a percentage.

- (b) The Redemption Payoff applicable to a Redemption Determination Date for Securities for which Standard ABF Redemption is applicable as a relevant General Redemption Payoff_x for the purposes of any applicable Combination Payoff Condition shall be calculated in accordance with such Combination Payoff Condition and the Redemption Payoff determined in accordance with Standard ABF Redemption Payoff Condition 5.1(a) shall be used in the relevant Combination Payoff Condition as the relevant General Redemption Payoff_x.

5.2 Relevant Observation

Where, in relation to these Standard ABF Redemption Payoff Conditions, the applicable Final Terms provides that "Relevant Observation" is applicable in respect of the Underlying Value, references in these Standard ABF Redemption Payoff Conditions to "Underlying Value" (save for the definition of such term in Standard ABF Redemption Payoff Condition 5.3 below) shall, for the purposes of determining the Underlying Value of the Underlying, be deemed to be references to the applicable Relevant Observation.

5.3 Definitions and Interpretation

For the purposes of these Standard ABF Redemption Payoff Conditions, the following terms shall have the following meanings:

Accrual Factor₁ means, with respect to a Redemption Observation Period, the number of Range Accrual Days in the relevant Redemption Observation Period in respect of which the Underlying Value_{xy} was within Range_a, divided by the total number of Range Accrual Days in such Redemption Observation Period, in each case as determined by the Calculation Agent. For the purposes hereof, (and where Range Accrual Days are expressed in the applicable Final Terms as falling on calendar days which may not be Business Days) the Underlying Value_{xy} in respect of any Range Accrual Day which is not a Business Day shall be deemed to be the Underlying Value_{xy} in respect of either the immediately preceding or the immediately following Business Day, as specified in the applicable Final Terms.

Accrual Factor₂ means, with respect to a Redemption Observation Period, the number of Range Accrual Days in the relevant Redemption Observation Period in respect of which the Underlying Value_{xy} was within Range_b, divided by the total number of Range Accrual Days in such Redemption Observation Period, in each case as determined by the Calculation Agent. For the purposes hereof, (and where Range Accrual Days are expressed in the applicable Final Terms as falling on calendar days which may not be Business Days) the Underlying Value_{xy} in respect of any Range Accrual Day which is not a Business Day shall be deemed to be the Underlying Value_{xy} in respect of either the immediately preceding or the immediately following Business Day, as specified in the applicable Final Terms.

Leverage₁ or **Leverage₂** means the percentage or number specified as such in the applicable Final Terms. For the avoidance of doubt, this may have a positive or a negative value or, in the case of a number, may be one (1).

Lower Range Accrual Level means the percentage or number specified as such in the applicable Final Terms.

Range_a means the Range specified as such in the applicable Final Terms.

Range_b means the Range specified as such in the applicable Final Terms.

Range Accrual Day means, with respect to a Redemption Observation Period, each date specified as a Range Accrual Day in the applicable Final Terms, which may be each Business Day, each calendar day, each calendar day or Business Day within a week, each calendar day or Business Day within a month, or any other day, falling within such Redemption Observation Period. Each Range Accrual Day shall be deemed to be an "Observation Date" for the purposes of the relevant Asset Conditions.

Redemption Observation Date means, with respect to a Redemption Observation Period, each date specified as such in the applicable Final Terms or, alternatively, each date falling such number of Business Days immediately preceding the first or last day of such Redemption Observation Period as specified in the applicable Final Terms, and each such date shall be deemed to be an "Observation Date" for the purposes of the relevant Asset Conditions.

Redemption Observation Period means:

- (a) with respect to Securities, other than Instalment Securities or for the purposes of calculating an Early Redemption Amount, the period specified as the Redemption Observation Period in the applicable Final Terms; or
- (b) with respect to Instalment Securities, the period from and including the Commencement Date to but excluding the date falling such number of Business Days specified in the applicable Final Terms immediately preceding the first Instalment Date and each successive period beginning on but excluding the date falling such number of Business Days specified in the applicable Final Terms immediately preceding an Instalment Date to and including the date falling such number of Business Days specified in the applicable Final Terms immediately preceding the following Instalment Date; or
- (c) for the purposes of calculating an Early Redemption Amount, the period from and including the Commencement Date to and including the date falling such number of Business Days as specified in the applicable Final Terms prior to the Early Redemption Date.

Redemption Observation Period Cut-Off Date means the date as specified in the applicable Final Terms.

Underlying Value means, with respect to a Range Accrual Day, a Redemption Observation Date or a Relevant Timing, as the case may be:

- (a) in respect of an Underlying which is a Commodity, the Commodity Reference Price;
- (b) in respect of an Underlying which is a Benchmark Rate, the Benchmark Rate Level;
- (c) in respect of an Underlying which is an Index, the Index Level;
- (d) in respect of an Underlying which is an Inflation Index, the Inflation Index Level;
- (e) in respect of an Underlying which is a FX Rate, the relevant rate of exchange;

All capitalised terms that are not defined in these Standard Fixed Range Accrual Redemption Payoff Conditions or elsewhere in the Terms and Conditions will have the meanings given to them in the applicable Final Terms.

8 STANDARD FIXED RANGE ACCRUAL REDEMPTION

The Redemption Payoff is calculated as (a) in the case of Linear type of Range Accrual payoff, Fixed Percentage multiplied by Accrual Factor and as (b) in the case of Non-linear type of Range Accrual payoff, the Fixed Percentage_n for the "n" applicable in respect of the Redemption Observation Period. The Accrual Factor is a number calculated by dividing (i) the product of "a" and "n" minus the product of "b" and "N" by (ii) "N". "a" and "b" are numbers specified in the applicable Final Terms, "n" is the number of Range Accrual Days during the relevant Redemption Observation Period on which each Underlying Value_i is within the Underlying Value_i Range and "N" is the total number of Range Accrual Days in the relevant Redemption Observation Period. Subject as provided below, the Underlying Value_i reflects the price, level or rate of the relevant Underlying_i or (if a combination of an Underlying_{ix} and an Underlying_{iy} is specified in the Final Terms) the sum of, algebraical difference between, product of or quotient of, the price, level or rate of the relevant Underlying_{ix} and the price, level or rate of the relevant Underlying_{iy} (without regard to any currency of denomination of such price, level or rate, as the case may be) at the relevant time. The value of the Underlying_i or, as applicable, each Underlying_{ix} and Underlying_{iy}, will therefore affect the value of the Accrual Factor which is used as a component of the formula used to calculate the Redemption Payoff.

8.1 Redemption Payoff

- (a) The Redemption Payoff applicable to a Redemption Determination Date for Securities for which Standard Fixed Range Accrual Redemption is applicable on such Redemption Determination Date and:
- (i) in respect to which "Linear" is specified as applicable in the applicable Final Terms, shall be calculated as follows:
- Fixed Percentage × Accrual Factor
- and expressed as a percentage; and
- (ii) in respect to which "Non-linear" is specified as applicable in the Final Terms, shall be calculated as follows:
- Fixed Percentage_n for the n applicable in respect of the Redemption Observation Period.
- (b) The Redemption Payoff applicable to a Redemption Determination Date for Securities for which Standard Fixed Range Accrual Redemption is applicable as a relevant General Redemption Payoff_x for the purposes of any applicable Combination Payoff Condition shall be calculated in accordance with such Combination Payoff Condition and the Redemption Payoff determined in accordance with Standard Fixed Range Accrual Redemption Payoff Condition 8.1(a) shall be used in the relevant Combination Payoff Condition as the relevant General Redemption Payoff_x.

8.2 Relevant Observation

Where, in relation to these Standard Fixed Range Accrual Redemption Payoff Conditions, the applicable Final Terms provides that "Relevant Observation" is applicable in respect of the Underlying Value₁, references in these Standard Fixed Range Accrual Redemption Payoff Conditions to "Underlying Value" (save for the definition of such term in Standard Fixed Range Accrual Redemption Payoff Condition 8.3 below) shall, for the purposes of determining the Underlying Value of the Underlying, be deemed to be references to the applicable Relevant Observation. For the purposes of these Standard Fixed Range Accrual Redemption Payoff Conditions:

The Linked Interest Rate applicable to the Securities is calculated as the lesser of (a) Cap and (b) the greater of (i) Floor and (ii) the result of adding together the Linked Interest Rate calculated using General Interest Payoff₁, the Linked Interest Rate calculated using General Interest Payoff₂ and the Linked Interest Rate calculated using General Interest Payoff₃. You should also refer to the relevant General Payoff Conditions for an explanation of how to calculate the Linked Interest Rate (and, if applicable, the Floor and/or the Cap) calculated using the relevant General Interest Payoff used as a component for this Combination Payoff Condition.

1.1 Linked Interest Rate

- (a) The Linked Interest Rate applicable to an Interest Accrual Period for Securities for which Combination Addition Interest is applicable in respect of such Interest Accrual Period shall be calculated as follows:

$$\text{Min}[\text{Cap}; \text{Max}(\text{Floor}, \text{General Interest Payoff}_1 + \text{General Interest Payoff}_2 + \text{General Interest Payoff}_3)]$$

and expressed as a percentage.

- (b) The Linked Interest Rate applicable to an Interest Accrual Period for Securities for which Combination Addition Interest is applicable as a relevant General Interest Payoff_x for the purposes of any applicable Combination Payoff Condition (the **Primary Combination Payoff Condition**) shall be calculated in accordance with such Primary Combination Payoff Condition and the Linked Interest Rate determined in accordance with Combination Addition Interest Payoff Condition 1.1(a) shall be used in the Primary Combination Payoff Condition as the relevant General Interest Payoff_x, as applicable, provided that Combination Addition Interest may only be applicable as a relevant General Interest Payoff_x for the purposes of any applicable Combination Payoff Condition for Securities when each of General Interest Payoff₁, General Interest Payoff₂, General Interest Payoff₃, General Interest Payoff₄, General Interest Payoff₅, General Interest Payoff₆, General Interest Payoff₇, General Interest Payoff₈ and General Interest Payoff₉ is a Standard Interest Payoff.

Combination Payoff Conditions: Part A: Chapter 7: Combination Range Interest

This chapter sets out additional terms and conditions for Securities for which the applicable Final Terms specify Combination Range Interest to be applicable.

*The following terms and conditions (the **Combination Range Interest Payoff Conditions**) shall apply to the Securities if the applicable Final Terms indicate that Combination Range Interest (the **Combination Range Interest**) is applicable. These Combination Range Interest Payoff Conditions are subject to completion in accordance with the applicable Final Terms.*

All capitalised terms that are not defined in these Combination Range Interest Payoff Conditions or elsewhere in the Terms and Conditions (including, without limitation, in the Definitions Conditions) will have the meanings given to them in the applicable Final Terms.

7 COMBINATION RANGE INTEREST

The Linked Interest Rate applicable to the Securities is calculated as the lesser of (a) Cap and (b) the greater of (i) Floor and (ii) the Linked Interest Rate calculated using General Interest Payoff₁ multiplied by the Accrual Factor. The Accrual Factor is calculated by reference to, among other things, each Underlying Value. The value of the Underlying will therefore affect the Accrual Factor, which is used as a component of the formula used to calculate the Linked Interest Rate. You should also refer to the relevant General Payoff Conditions for an explanation of how to calculate the Linked Interest Rate calculated using the relevant General Interest Payoff₁ used as a component for this Combination Payoff Condition.

7.1 Linked Interest Rate

- (a) The Linked Interest Rate applicable to an Interest Accrual Period for Securities for which Combination Range Interest is applicable in respect of such Interest Accrual Period shall be calculated as follows:

$$\text{Min}(\text{Cap}, \text{Max}(\text{Floor}, \text{General Interest Payoff}_1 \times \text{Accrual Factor}))$$

and expressed as a percentage.

- (b) The Linked Interest Rate applicable to an Interest Accrual Period for Securities for which Combination Range Interest is applicable as a relevant General Interest Payoff_x for the purposes of any applicable Combination Payoff Condition (the **Primary Combination Payoff Condition**) shall be calculated in accordance with such Primary Combination Payoff Condition and the Linked Interest Rate determined in accordance with Combination Range Interest Payoff Condition 7.1(a) shall be used in the Primary Combination Payoff Condition as the relevant General Interest Payoff_x, as applicable, provided that Combination Range Interest may only be applicable as a relevant General Interest Payoff_x for the purposes of any applicable Combination Payoff Condition for Securities when General Interest Payoff₁ is a Standard Interest Payoff.

7.2 Relevant Observation

Where, in relation to these Combination Range Interest Payoff Conditions, the applicable Final Terms provides that "Relevant Observation" is applicable, references in these Combination Range Interest Payoff Conditions to "Underlying Value" (save for the definition of such term in Combination Range Interest Payoff Condition 7.3 below) shall be deemed to be references to the applicable Relevant Observation.

7.3 Definitions and Interpretation

For the purposes of these Combination Range Interest Payoff Conditions, the following terms shall have the following meanings:

Accrual Factor means, with respect to an Interest Accrual Period, the number of Range Accrual Days in the relevant Interest Observation Period in respect of which Underlying Value_i is within the Underlying Value_i Range, divided by the total number of Range Accrual Days in such Interest Observation Period, in each case as determined by the Calculation Agent. For the purposes hereof, (and where Range Accrual Days are expressed in the applicable Final Terms as falling on calendar days which may not be Business Days) the Underlying Value in respect of any Range Accrual Day which is not a Business Day shall be deemed to be the Underlying Value in respect of either the immediately preceding or the immediately following Business Day, as specified in the applicable Final Terms.

General Interest Payoff_i means the General Interest Payoff specified as such in the applicable Final Terms.

Lower Limit_i means the percentage or number specified as such in the applicable Final Terms and corresponding to an Underlying_i (or, as applicable, an Underlying_{ix} and an Underlying_{iy}).

This chapter sets out additional terms and conditions for Securities for which the applicable Final Terms specify Combination Snowrange Interest to be applicable.

*The following terms and conditions (the **Combination Snowrange Interest Payoff Conditions**) shall apply to the Securities if the applicable Final Terms indicate that Combination Snowrange Interest (the **Combination Snowrange Interest**) is applicable. These Combination Snowrange Interest Payoff Conditions are subject to completion in accordance with the applicable Final Terms.*

All capitalised terms that are not defined in these Combination Snowrange Interest Payoff Conditions or elsewhere in the Terms and Conditions (including, without limitation, in the Definitions Conditions) will have the meanings given to them in the applicable Final Terms.

8 COMBINATION SNOWRANGE INTEREST

The Linked Interest Rate applicable to the Securities is calculated as the lesser of (a) Cap and (b) the greater of (i) Floor and (ii) the Previous Interest Amount multiplied by the Accrual Factor. The Previous Interest Amount is calculated, in the case of the first Interest Accrual Period, by reference to General Interest Payoff₁ and, in the case of each subsequent Interest Accrual Period, by reference to the Interest Amount calculated for the previous Interest Accrual Period. The Accrual Factor is calculated by reference to, among other things, each Underlying Value_i. The value of the Underlying will therefore affect the value of the Accrual Factor, which is used as a component of the formula used to calculate the Linked Interest Rate. You should also refer to the relevant General Payoff Conditions for an explanation of how to calculate the Linked Interest Rate calculated using the relevant General Interest Payoff₁ used as a component for this Combination Payoff Condition.

8.1 Linked Interest Rate

- (a) The Linked Interest Rate applicable to an Interest Accrual Period for Securities for which Combination Snowrange Interest is applicable in respect of such Interest Accrual Period shall be calculated as follows:

For the purposes hereof, (and where Range Accrual Days are expressed in the applicable Final Terms as falling on calendar days which may not be Business Days) the Underlying Value in respect of any Range Accrual Day which is not a Business Day shall be deemed to be the Underlying Value in respect of either the immediately preceding or the immediately following Business Day, as specified in the applicable Final Terms.

12 COMBINATION PAYOFF-LINKED DIGITAL REDEMPTION

The Redemption Payoff applicable to the Securities is calculated as either (a) if the General Redemption Payoff₂ is within the Range, the Redemption Payoff calculated using General Redemption Payoff₁ or (b) otherwise, the Fixed Percentage. The value of the General Redemption Payoff₂, which may depend on the value of an Underlying, will therefore affect which rate is used to calculate the Redemption Payoff applicable to the Securities. You should also refer to the relevant General Payoff Conditions for an explanation of how to calculate the Redemption Payoff calculated using the relevant General Redemption Payoff used as a component for this Combination Payoff Condition.

12.1 Redemption Payoff

- (a) The Redemption Payoff applicable to a Redemption Determination Date for Securities for which Combination Payoff-Linked Digital Redemption is applicable shall be calculated on such Redemption Determination Date as follows:

 - (ii) otherwise, be equal to the Fixed Percentage.
- (b) The Redemption Payoff applicable to a Redemption Determination Date for Securities for which Combination Payoff-Linked Digital Redemption is applicable as a relevant General Redemption Payoff_x for the purposes of any applicable Combination Payoff Condition (the **Primary Combination Payoff Condition**) shall be calculated in accordance with such Primary Combination Payoff Condition and the Redemption Payoff determined in accordance with Combination Payoff-Linked Digital Redemption Condition 12.1(a) shall be used in the Primary Combination Payoff Condition as the relevant General Redemption Payoff_x, as applicable, provided that Combination Payoff-Linked Digital Redemption may only be applicable as a relevant General Redemption Payoff_x for the purposes of any applicable Combination Payoff Condition for Securities when each of General Redemption Payoff₁ and General Redemption Payoff₂ is a Standard Redemption Payoff.

Payoff Feature Conditions: Part A: Chapter 1: Investor Interest Switch Payoff Feature Conditions

This chapter sets out additional terms and conditions for Securities in respect of which the applicable Final Terms specify Investor Interest Switch Payoff Feature to be applicable.

*The following terms and conditions (the **Investor Interest Switch Payoff Feature Conditions**) shall apply to the Securities if the applicable Final Terms indicate that Investor Interest Switch Payoff Feature (**Investor Interest Switch Payoff Feature**) is applicable. These Investor Interest Switch Payoff Feature Conditions are subject to completion in accordance with the applicable Final Terms.*

1 INVESTOR INTEREST SWITCH PAYOFF FEATURE

All Securityholders acting together may, at their option, request or, as applicable, elect to switch the basis on which interest is calculated from (i) calculation of the Linked Interest Rate using Linked Interest₁ to (ii) calculation of the Linked Interest Rate using Linked Interest₂, by sending a notice on or prior to an Investor Interest Switch Expiry Date. You should also refer to the relevant Standard Payoff Conditions or Combination Payoff Conditions for an explanation of how to calculate the Linked Interest Rate calculated using the relevant Standard Interest Payoff or Combination Interest Payoff referred to for this Payoff Feature Condition.

1.1 Methodology

- (a) If Investor Interest Switch Payoff Feature is specified in the applicable Final Terms to be applicable, the Qualifying Securityholders may request, in respect of an Interest Accrual Period, to switch the basis on which interest is calculated from Linked Interest₁ to Linked Interest₂ in accordance with these Investor Interest Switch Payoff Feature Conditions (the **Investor Interest Switch Option**). On any Business Day during the Interest Accrual Period to which the Investor Interest Switch Option applies, on or after the Investor Interest Switch Notice Time on the Investor Interest Switch Notice Date and on or before the Investor Interest Switch Expiry Time on the Investor Interest Switch Expiry Date, the Qualifying Securityholders, at their option, may deliver an Investor Interest Potential Switch Notice (with a copy to the Principal Paying Agent) specifying (as the case may be) Linked Interest₂. An Investor Interest Potential Switch Notice must include (i) evidence reasonably satisfactory to the Issuer that the Securities to which the Investor Interest Potential Switch Notice relates are held by the relevant Securityholder and (ii) confirmation from the relevant clearing system that such Securities are blocked in the relevant Securityholder's account together with the Securityholder's undertaking that such Securities shall remain so blocked until five Business Days (inclusive) after the date on which such Investor Interest Potential Switch Notice is delivered by the Securityholder.
- (b) On or before the second Business Day following receipt of an Investor Interest Potential Switch Notice, the relevant Issuer will deliver an Investor Interest Switch Notification. The delivery of an Investor Interest Switch Notification does not, under any circumstances, constitute an undertaking or firm offer by the Issuer to effect a switch of the basis on which interest is calculated as set out in the Investor Interest Switch Notification. Following delivery of an Investor Interest Switch Notification and in the absence of an Investor Interest Switch Acceptance in accordance with paragraph 1.1(e) below, the relevant Issuer will have no obligation to effect the switch of the basis on which interest is calculated as set out in the Investor Interest Switch Notification, including where the Qualifying Securityholders deliver an Investor Interest Switch Notice in accordance with paragraph 1.1(e) below.
- (c) Qualifying Securityholders, at their option, may send a notice (an **Investor Interest Switch Notice**) to the relevant Issuer (with a copy to the Principal Paying Agent), no later than thirty (30) minutes (or such other time specified in the Final Terms) following receipt of an Investor Interest Switch Notification, requiring the exercise of the Investor Interest Switch Option, in

accordance with the Investor Interest Switch Notification. An Investor Interest Switch Notice must include (i) evidence reasonably satisfactory to the Issuer that the Securities to which the Investor Interest Switch Notice relates are held by the relevant Securityholder and (ii) confirmation from the relevant clearing system that such Securities are blocked in the relevant Securityholder's account together with the Securityholder's undertaking that such Securities shall remain so blocked until five Business Days (inclusive) after the date on which the Investor Interest Potential Switch Notice was delivered by the relevant Securityholder.

- (d) If the relevant Issuer notifies the Qualifying Securityholders of its acceptance of the Investor Interest Switch Notification on or before the Business Day following receipt of the Investor Interest Switch Notification (an **Investor Interest Switch Acceptance**), until the Qualifying Securityholders deliver a new Investor Interest Potential Switch Notice, the Linked Interest Rate applicable to the Securities will be determined by the Calculation Agent as follows:
- (i) if "Effective Interest Accrual Period" is specified as being "Current Investor Interest Switch" in the applicable Final Terms:
 - (A) in respect of each Interest Accrual Period prior to the Interest Accrual Period during which the relevant Issuer sent a valid Investor Interest Switch Acceptance, on the basis of Linked Interest₁; and
 - (B) in respect of the Interest Accrual Period during which the relevant Issuer sent a valid Investor Interest Switch Acceptance and all subsequent Interest Accrual Periods, on the basis of Linked Interest₂; or
 - (ii) if "Following Investor Interest Switch" is specified as applicable in the relevant Final Terms:
 - (A) in respect of the Interest Accrual Period during which the relevant Issuer sent a valid Investor Interest Switch Acceptance and all Interest Accrual Periods prior to it, on the basis of Linked Interest₁; and
 - (B) in respect of all Interest Accrual Periods following that during which the relevant Issuer sent a valid Investor Interest Switch Acceptance, on the basis of Linked Interest₂; or
 - (iii) If "Other Investor Interest Switch" is specified as applicable in the relevant Final Terms:
 - (A) in respect of each Interest Accrual Period prior to the Interest Accrual Period during which the relevant Issuer sent a valid Investor Interest Switch Acceptance, on the basis of Linked Interest₁; and
 - (B) in respect of the Interest Accrual Period during which the relevant Issuer sent a valid Investor Interest Switch Acceptance and each subsequent Interest Accrual period commencing on an Interest Determination Date prior to the Interest Determination Date specified in the relevant Final Terms for this purpose, on the basis of Linked Interest₁; and
 - (C) in respect of each Interest Accrual Period following that during which the relevant Issuer sent a valid Investor Interest Switch Acceptance and commencing on an Interest Determination Date on or after the Interest Determination Date specified in the relevant Final Terms for this purpose, on the basis of Linked Interest₂; or
 - (iv) If "Current Single Investor Interest Switch" is specified as applicable in the relevant Final Terms:

- (A) in respect of each Interest Accrual Period prior to the Interest Accrual Period during which the relevant Issuer sent a valid Investor Interest Switch Acceptance, on the basis of Linked Interest₁; and
 - (B) in respect of the Interest Accrual Period during which the relevant Issuer sent a valid Investor Interest Switch Acceptance, on the basis of Linked Interest₂; and
 - (C) in respect of each Interest Accrual Period following that during which the relevant Issuer sent a valid Investor Interest Switch Acceptance, on the basis of Linked Interest₁; or
- (v) If "Following Single Investor Interest Switch" is specified as applicable in the relevant Final Terms:
- (A) in respect of the Interest Accrual Period during which the relevant Issuer sent a valid Investor Interest Switch Acceptance and all Interest Accrual Periods prior to it, on the basis of Linked Interest₁; and
 - (B) in respect of the Interest Accrual Period immediately following that on which the relevant Issuer sent a valid Investor Interest Switch Acceptance on the basis of Linked Interest₂; and
 - (C) in respect of each Interest Accrual Period following that referred to in sub-paragraph (B) above, on the basis of Linked Interest₁; or
- (vi) If "Current Limited Single Investor Interest Switch" is specified as applicable in the relevant Final Terms:
- (A) in respect of each Interest Accrual Period prior to the Interest Accrual Period during which the relevant Issuer sent a valid Investor Interest Switch Acceptance, on the basis of Linked Interest₁; and
 - (B) in respect of the Interest Accrual Period during which the relevant Issuer sent a valid Investor Interest Switch Acceptance and each subsequent Interest Accrual period commencing on an Interest Determination Date specified in the relevant Final Terms for this purpose, on the basis of Linked Interest₂; and
 - (C) in respect of each Interest Accrual Period subsequent to that during which the relevant Issuer sent a valid Investor Interest Switch Acceptance and not covered by sub-paragraph (B) above, on the basis of Linked Interest₁; or
- (vii) If "Following Limited Single Investor Interest Switch" is specified as applicable in the relevant Final Terms:
- (A) in respect of the Interest Accrual Period during which the relevant Issuer sent a valid Investor Interest Switch Acceptance and all Interest Accrual Periods prior to it, on the basis of Linked Interest₁; and
 - (B) in respect of the Interest Accrual Period immediately following that on which the relevant Issuer sent a valid Investor Interest Switch Acceptance, on the basis of Linked Interest₂; and
 - (C) in respect of each Interest Accrual Period following that on which the relevant Issuer sent a valid Investor Interest Switch Acceptance and commencing on the Interest Determination Date specified in the relevant Final Terms for this purpose, on the basis of Linked Interest₂; and

- (D) in respect of each Interest Accrual Period subsequent to that during which the relevant Issuer sent a valid Investor Interest Switch Acceptance and not covered by sub-paragraph (B) above, on the basis of Linked Interest₁; or
- (viii) If "Limited Investor Interest Switch" is specified as applicable in the relevant Final Terms:
 - (A) in respect of the Interest Accrual Period during which the relevant Issuer sent a valid Investor Interest Switch Acceptance and all Interest Accrual Periods prior to it, on the basis of Linked Interest₁; and
 - (B) in respect of each Interest Accrual Period following that on which the relevant Issuer sent a valid Investor Interest Switch Acceptance and commencing on each Interest Determination Date specified in the relevant Final Terms for this purpose, on the basis of Linked Interest₂; and
 - (C) in respect of each Interest Accrual Period subsequent to that during which the relevant Issuer sent a valid Investor Interest Switch Acceptance and not covered by sub-paragraph (B) above, on the basis of Linked Interest₁.
- (e) If the relevant Issuer does not send an Investor Interest Switch Acceptance to the Qualifying Securityholders in accordance with paragraph 1.1(c) above, the Linked Interest Rate applicable to the Securities will be determined by the Calculation Agent on the basis of Linked Interest₁, until the Qualifying Securityholders deliver a new Investor Interest Potential Switch Notice.

Qualifying Securityholders may exercise the Investor Interest Switch Option as many times as the Investor Interest Switch Number during the life of the Securities, subject to the Investor Interest Switch Frequency. For the avoidance of doubt, where Qualifying Securityholders have exercised the Investor Interest Switch Option a number of times equal to the Investor Interest Switch Number, interest on the Securities will be calculated in accordance with the last Investor Interest Switch Option validly exercised.

*The following terms and conditions (the **Issuer Interest Switch Payoff Feature Conditions**) shall apply to the Securities if the applicable Final Terms indicate that Issuer Interest Switch Payoff Feature (the **Issuer Interest Switch Payoff Feature**) is applicable. These Issuer Interest Switch Payoff Feature Conditions are subject to completion in accordance with the applicable Final Terms.*

All capitalised terms that are not defined in these Issuer Interest Switch Payoff Feature Conditions or elsewhere in the Terms and Conditions (including, without limitation, in the Definitions Conditions) will have the meanings given to them in the applicable Final Terms.

2 ISSUER INTEREST SWITCH PAYOFF FEATURE

The relevant Issuer may at its option (once during the life of the Securities) elect to switch the basis on which interest is calculated from (i) calculation of the Linked Interest Rate using Linked Interest₁ to (ii) calculation of the Linked Interest Rate using Linked Interest₂, by sending a notice on or prior to an Issuer Interest Switch Expiry Date. You should also refer to the relevant Standard Payoff Conditions or Combination Payoff Conditions for an explanation of how to calculate the Linked Interest Rate calculated using the relevant Standard Interest Payoff or Combination Payoff Conditions referred to for this Payoff Feature Condition.

2.1 Methodology

If Issuer Interest Switch Payoff Feature is specified in the applicable Final Terms to be applicable, the relevant Issuer may elect to switch the basis on which interest is calculated from Linked Interest₁ to Linked Interest₂ in accordance with these Issuer Interest Switch Payoff Feature Conditions (the **Issuer Interest Switch Option**).

- (a) The relevant Issuer may, at its option, deliver an Issuer Interest Switch Notice to Securityholders (with a copy to the Principal Paying Agent), specifying (as relevant) Linked Interest₂, on any Business Day during the Interest Accrual Period to which the Issuer Interest Switch Option applies, on or after the Issuer Interest Switch Notice Time on the Issuer Interest Switch Notice Date and on or before the Issuer Interest Switch Expiry Time on the Issuer Interest Switch Expiry Date.
- (b) If the relevant Issuer sends the Qualifying Securityholders an Issuer Interest Switch Notice in accordance with paragraph (a) above, the Linked Interest Rate applicable to the Securities shall be determined by the Calculation Agent as follows:
 - (i) if "Current Issuer Interest Switch" is specified as applicable in the relevant Final Terms:
 - (A) in respect of each Interest Accrual Period prior to the Interest Accrual Period during which the relevant Issuer sent a valid Issuer Interest Switch Notice to Securityholders, on the basis of Linked Interest₁; and
 - (B) in respect of the Interest Accrual Period during which the relevant Issuer sent a valid Issuer Interest Switch Notice and for all subsequent Interest Accrual Periods, on the basis of Linked Interest₂; or
 - (ii) if "Following Issuer Interest Switch" is specified as applicable in the relevant Final Terms:
 - (A) in respect of the Interest Accrual Period during which the relevant Issuer sent a valid Issuer Interest Switch Notice and all Interest Accrual Periods prior to it, on the basis of Linked Interest₁; and

- (B) in respect of all Interest Accrual Periods following that during which the relevant Issuer sent a valid Issuer Interest Switch Notice, on the basis of Linked Interest₂; or
- (iii) if "Other Issuer Interest Switch" is specified as applicable in the relevant Final Terms:
 - (A) in respect of each Interest Accrual Period prior to the Interest Accrual Period during which the relevant Issuer sent a valid Issuer Interest Switch Notice, on the basis of Linked Interest₁; and
 - (B) in respect of the Interest Accrual Period during which the relevant Issuer sent a valid Issuer Interest Switch Notice and each subsequent Interest Accrual period commencing on an Interest Determination Date prior to the Interest Determination Date specified in the relevant Final Terms for this purpose, on the basis of Linked Interest₁; and
 - (C) in respect of each Interest Accrual Period following that during which the relevant Issuer sent a valid Issuer Interest Switch Notice and commencing on an Interest Determination Date on or after the Interest Determination Date specified in the relevant Final Terms for this purpose, on the basis of Linked Interest₂; or
- (iv) If "Current Single Issuer Interest Switch" is specified as applicable in the relevant Final Terms:
 - (A) in respect of each Interest Accrual Period prior to the Interest Accrual Period during which the relevant Issuer sent a valid Issuer Interest Switch Notice, on the basis of Linked Interest₁; and
 - (B) in respect of the Interest Accrual Period during which the relevant Issuer sent a valid Issuer Interest Switch Notice, on the basis of Linked Interest₂; and

- (c) If the relevant Issuer does not send an Issuer Interest Switch Notice to the Qualifying Securityholders in accordance with paragraph (b) above, the Linked Interest Rate applicable to the Securities will be determined by the Calculation Agent on the basis of Linked Interest₁.
- (d) The relevant Issuer may exercise the Issuer Interest Switch Option once only during the life of the Securities.
- (e) Notwithstanding the foregoing, if "Essential Trigger" is specified in the applicable Final Terms as being applicable, General Condition 12.3(f) will apply.

2.2 Definitions and Interpretation

For the purposes of these Issuer Interest Switch Payoff Feature Conditions, the following terms shall have the following meanings:

Payoff Feature Conditions: Part A: Chapter 3: Knock-out Interest Switch Payoff Feature Conditions

This chapter sets out additional terms and conditions for Securities in respect of which the applicable Final Terms specify Knock-out Interest Switch Payoff Feature to be applicable.

*The following terms and conditions (the **Knock-out Interest Switch Payoff Feature Conditions**) shall apply to the Securities if the applicable Final Terms indicate that Knock-out Interest Switch Payoff Feature (the **Knock-out Interest Switch Payoff Feature**) is applicable. These Knock-out Interest Switch Payoff Feature Conditions are subject to completion in accordance with the applicable Final Terms.*

All capitalised terms that are not defined in these Knock-out Interest Switch Payoff Feature Conditions or elsewhere in the Terms and Conditions (including, without limitation, in the Definitions Conditions) will have the meanings given to them in the applicable Final Terms.

3 KNOCK-OUT INTEREST SWITCH PAYOFF FEATURE

The basis on which interest is calculated will automatically switch from (i) calculation of the Linked Interest Rate using Linked Interest₁ to (ii) calculation of the Linked Interest Rate using Linked Interest₂ if either on the Knock-out Interest Switch Observation Date(s) or during the Knock-out Interest Switch Observation Period, the Underlying Value reaches the relevant Knock-out Barrier or is within the relevant Range. For the avoidance of doubt, a Knock-out Interest Switch can occur once only during the life of the Securities. You should also refer to the relevant Standard Payoff Conditions or Combination Payoff Conditions for an explanation of how to calculate the Linked Interest Rate calculated using the relevant Standard Interest Payoff or Combination Interest Payoff referred to for this Payoff Feature Condition.

3.1 Methodology

If Knock-out Interest Switch Payoff Feature is specified to be applicable in the applicable Final Terms, the basis on which interest is calculated will automatically switch from Linked Interest₁ to Linked Interest₂ (a **Knock-out Interest Switch**) if, during the life of the Securities, a Knock-out Interest Switch Event occurs. The relevant Issuer shall, as soon as reasonably practical following the occurrence of a Knock-out Interest Switch Event, deliver a Knock-out Interest Switch Notice. For the avoidance of doubt, a Knock-out Interest Switch can occur once only during the life of the Securities.

The Linked Interest Rate applicable to the Securities shall be determined by the Calculation Agent:

- (a) if a Knock-out Interest Switch Event has not occurred in accordance with these Knock-out Interest Switch Payoff Feature Conditions, in accordance with Linked Interest₁; or
- (b) if a Knock-out Interest Switch Event has occurred in accordance with these Knock-out Interest Switch Payoff Feature Conditions:
 - (i) on each Interest Determination Date up to (but excluding) the Knock-out Interest Switch Date, in respect of each corresponding Interest Accrual Period, in accordance with Linked Interest₁; and
 - (ii) on each Interest Determination Date from (and including) the Knock-out Interest Switch Date, in respect of each corresponding Interest Accrual Period, in accordance with Linked Interest₂.

3.2 Definitions and Interpretation

For the purposes of these Knock-out Interest Switch Payoff Feature Conditions, the following terms shall have the following meanings:

Knock-out Barrier means a percentage of the Initial Underlying Value(i), as specified in the applicable Final Terms.

Knock-out Interest Switch Date means (a) the Interest Determination Date immediately following the occurrence of a Knock-out Interest Switch Event or (b) the date specified as such in the applicable Final Terms.

Knock-out Interest Switch Event means that the Underlying Value is [higher than the Knock-out Barrier] [higher than or equal to the Knock-out Barrier] [lower than the Knock-out Barrier] [lower than or equal to the Knock-out Barrier] [within Range] [outside Range] either (A) on [the] [the current][each] [at least one previous] [each previous] Knock-out Interest Switch Observation Date, or (B) [at least one time] [on at least one Scheduled Trading Day] [at all times] [on all Scheduled Trading Days] [on all Scheduled Trading Days which are not Disrupted Days] during the Knock-out Interest Switch Observation Period.

Knock-out Interest Switch Notice means a written notice given by the relevant Issuer to the Securityholders (with a copy to the Principal Paying Agent) in accordance with General Condition 14 (*Notices*) informing the Securityholders of the occurrence of a Knock-out Interest Switch Event.

Knock-out Interest Switch Observation Date means each date specified as such in the applicable Final Terms and each such date shall be deemed to be an "Observation Date" for the purposes of the relevant Asset Conditions.

Knock-out Interest Switch Observation Period means the period specified as a Knock-out Interest Switch Observation Period in the applicable Final Terms.

Linked Interest₁ means the Standard Interest Payoff or Combination Interest Payoff specified as such in the applicable Final Terms.

Linked Interest₂ means the Standard Interest Payoff or Combination Interest Payoff specified as such in the applicable Final Terms.

Payoff Feature Conditions: Part A: Chapter 4: Target Interest Switch Payoff Feature Conditions

This chapter sets out additional terms and conditions for Securities in respect of which the applicable Final Terms specify Target Interest Switch Payoff Feature to be applicable.

*The following terms and conditions (the **Target Interest Switch Payoff Feature Conditions**) shall apply to the Securities if the applicable Final Terms indicate that Target Interest Switch Payoff Feature (the **Target Interest Switch Payoff Feature**) is applicable. These Target Interest Switch Payoff Feature Conditions are subject to completion in accordance with the applicable Final Terms.*

All capitalised terms that are not defined in these Target Interest Switch Payoff Feature Conditions or elsewhere in the Terms and Conditions (including, without limitation, in the Definitions Conditions) will have the meanings given to them in the applicable Final Terms.

4 TARGET INTEREST SWITCH PAYOFF FEATURE

The basis on which interest is calculated will automatically switch from (i) calculation of the Linked Interest Rate using Linked Interest₁ to (ii) calculation of the Linked Interest Rate using Linked Interest₂ if a Target Interest Switch Event occurs. A Target Interest Switch Event occurs if the payment of the Interest Amount on an Interest Payment Date results in the aggregate of all Interest Amounts (paid in respect of the aggregate outstanding nominal amount of the Securities (if a Global Security) or the product of the Calculation Amount and the Calculation Amount Factor (if a Definitive Security)) paid up to and including such Interest Payment Date is greater than or equal to the Aggregate Interest Amount Cap. For the avoidance of doubt, a Target Interest Switch can occur once only during the life of the Securities. You should also refer to the relevant Standard Payoff Conditions or Combination Payoff Conditions for an explanation of how to calculate the Linked Interest Rate calculated using the relevant Standard Interest Payoff or Combined Interest Payoff referred to for this Payoff Feature Condition.

4.1 Methodology

If Target Interest Switch Payoff Feature is specified in the applicable Final Terms to be applicable, the basis on which interest is calculated will automatically switch from Linked Interest₁ to Linked Interest₂ (**Target Interest Switch**) if during the life of the Securities a Target Interest Switch Event occurs. The relevant Issuer shall, as soon as reasonably practicable following the occurrence of a Target Interest Switch Event, deliver a Target Interest Switch Notice. For the avoidance of doubt, a Target Interest Switch can occur once only during the life of the Securities.

The Linked Interest Rate applicable to Securities shall be determined by the Calculation Agent:

- (a) If a Target Interest Switch Event has not occurred in accordance with these Target Interest Switch Payoff Feature Conditions, in accordance with Linked Interest₁; and
- (b) if a Target Interest Switch Event has occurred in accordance with these Target Interest Switch Payoff Feature Conditions:
 - (i) on each Interest Determination Date up to (and including) the Target Interest Switch Date, in respect of each corresponding Interest Accrual Period, in accordance with Linked Interest₁; and
 - (ii) on each Interest Determination Date from (but excluding) the Target Interest Switch Date, in respect of each corresponding Interest Accrual Period, in accordance with Linked Interest₂.

4.2 Definitions and Interpretation

For the purposes of these Target Interest Switch Payoff Feature Conditions, the following terms shall have the following meanings:

Aggregate Interest Amount Cap means an amount in the Specified Currency per Calculation Amount specified as such in the applicable Final Terms, which shall be multiplied by:

- (a) in the case of Securities represented by a Global Security, the Global Security Calculation Amount Factor; or
- (b) in the case of a Security in definitive form, the Calculation Amount Factor.

Global Security Calculation Amount Factor means a number equal to the aggregate outstanding nominal amount of the Securities divided by the Calculation Amount.

Linked Interest₁ means the Standard Interest Payoff or Combination Interest Payoff specified as such in the applicable Final Terms.

Linked Interest₂ means the Standard Interest Payoff or Combination Interest Payoff specified as such in the applicable Final Terms.

Target Interest Switch Date means (a) the Interest Payment Date on which a Target Interest Switch Event occurs or (b) the date specified as such in the applicable Final Terms.

Target Interest Switch Event means the payment of the Interest Amount on an Interest Payment Date results in the aggregate of all Interest Amounts (paid in respect of (a) in the case of Securities represented by a Global Security, the aggregate outstanding nominal amount of the Securities and (b) in the case of each Security in definitive form, the product of the Calculation Amount and the Calculation Amount Factor) paid in respect of the Securities up to and including that Interest Payment Date being greater than or equal to the Aggregate Interest Amount Cap.

Target Interest Switch Notice means a written notice given by the relevant Issuer to the Securityholders (with a copy to the Principal Paying Agent) in accordance with General Condition 14 (*Notices*) informing the Securityholders of the occurrence of a Target Interest Switch Event.

Payoff Feature Conditions: Part A: Chapter 5: Memory Interest Payoff Feature Conditions

This chapter sets out additional terms and conditions for Securities in respect of which the applicable Final Terms specify Memory Interest Payoff Feature to be applicable.

*The following terms and conditions (the **Memory Interest Payoff Feature Conditions**) shall apply to the Securities if the applicable Final Terms indicate that Memory Interest Payoff Feature (the **Memory Interest Payoff Feature**) is applicable. These Memory Interest Payoff Feature Conditions are subject to completion in accordance with the applicable Final Terms.*

All capitalised terms that are not defined in these Memory Interest Payoff Feature Conditions or elsewhere in the Terms and Conditions (including, without limitation, in the Definitions Conditions) will have the meanings given to them in the applicable Final Terms.

5 MEMORY INTEREST PAYOFF FEATURE

The Interest Amount payable on an Interest Payment Date, in respect of an Interest Accrual Period in respect of which this Memory Interest Payoff Feature applies, shall be equal to, if the Interest Amount payable in respect of an Interest Accrual Period calculated in accordance with the Linked Interest and the applicable Conditions, prior to application of the Memory Interest Payoff Feature is (i) greater than zero (0), then at the Interest Amount payable in respect of the relevant Interest Accrual Period calculated using the Interest Amounts of previous consecutive Interest Payment Dates for which no Interest Amount was paid (if any), or (ii) equal to zero (0), then zero (0). You should also refer to the relevant Standard Payoff Conditions or Combination Payoff Conditions for an explanation of how to calculate the Linked Interest Rate calculated using the relevant Standard Interest Payoff or Combination Interest Payoff referred to for this Payoff Feature Condition.

5.1 Methodology

If Memory Interest Payoff Feature is specified in the applicable Final Terms to be applicable in respect of an Interest Accrual Period, the Interest Amount payable in respect of that Interest Accrual Period on the related Interest Payment Date shall be calculated as follows:

- (a) if the Interest Amount payable in respect of that Interest Accrual Period calculated in accordance with the Linked Interest and the applicable Conditions, prior to application of the Memory Interest Payoff Feature, is greater than zero (0):

$$\sum_{t=n+1}^N \text{Fixed Rate (t)}$$

- (b) if the Interest Amount payable in respect of that Interest Accrual Period calculated in accordance with the Linked Interest and the applicable Conditions, prior to application of the Memory Interest Payoff Feature, is equal to zero (0):

zero (0)

5.2 Definitions and Interpretation

For the purposes of these Memory Interest Payoff Feature Conditions, the following terms shall have the following meanings:

n is the number of the last Interest Payment Date or Interest Accrual Period in respect of which an Interest Amount has been paid, as specified in the applicable Final Terms. If no Interest Amount has been paid prior to the current Interest Payment Date or Interest Accrual Period, the value of “n” will be equal to zero.

N is the number of the current Interest Payment Date or Interest Accrual Period.

Fixed Rate(t) means the Linked Interest Rate payable in respect of the relevant Interest Payment Date “t” or Interest Accrual Period “t” calculated in accordance with the Linked Interest and the applicable Conditions.

Linked Interest means the Standard Interest Payoff or Combination Interest Payoff specified as such in the applicable Final Terms.

Payoff Feature Conditions: Part A: Chapter 6: Dual Currency (Interest) Payoff Feature Conditions

This chapter sets out additional terms and conditions for Securities in respect of which the applicable Final Terms specify Dual Currency (Interest) Payoff Feature to be applicable.

*The following terms and conditions (the **Dual Currency (Interest) Payoff Feature Conditions**) shall apply to the Securities if the applicable Final Terms indicate that Dual Currency (Interest) Payoff Feature (the **Dual Currency (Interest) Payoff Feature**) is applicable. These Dual Currency (Interest) Payoff Feature Conditions are subject to completion in accordance with the applicable Final Terms.*

All capitalised terms that are not defined in these Dual Currency (Interest) Payoff Feature Conditions or elsewhere in the Terms and Conditions (including, without limitation, in the Definitions Conditions) will have the meanings given to them in the applicable Final Terms.

6 DUAL CURRENCY (INTEREST) PAYOFF FEATURE

If Dual Currency (Interest) Payoff Feature is applicable the interest amounts (if any) will be paid in any one of the Interest Currencies.

6.1 Methodology

If Dual Currency (Interest) Payoff Feature is specified as applicable in the applicable Final Terms:

- (a) the interest amount payable on each Interest Payment Date (or, as applicable, on any other relevant payment date) will be payable in any one of the Interest Currencies;
- (b) the Calculation Agent will determine the interest amount to be paid in accordance with the Dual Currency Method on the relevant Interest Determination Date (or, as applicable, any other relevant determination date); and
- (c) any reference to the Specified Currency for the purpose of payment of interest on the Securities will be deemed to be a reference to any of the Interest Currencies.

6.2 Definitions and Interpretation

For the purposes of these Dual Currency (Interest) Payoff Feature Conditions, the following terms shall have the following meanings:

Dual Currency Method means (a) if "multiplication" is specified in the applicable Final Terms, multiplying the interest amount by the relevant Dual Currency (Interest) Exchange Rate or (b) if "division" is specified in the applicable Final Terms, dividing the interest amount by the relevant Dual Currency (Interest) Exchange Rate.

Dual Currency (Interest) Exchange Rate means, with respect to an Interest Currency, the rate determined in accordance with the definition of "FX Rate" provided for in the FX Linked Asset Conditions unless otherwise specified in the applicable Final Terms. For this purpose, the FX Linked Asset Conditions are incorporated in, and apply *mutatis mutandis* (as though such provisions were set out in full herein) to, these Dual Currency (Interest) Payoff Feature Conditions subject to the following:

- (a) references to the FX Rate shall be deemed to be references to the Dual Currency (Interest) Exchange Rate;
- (b) references to the Base Currency shall be deemed to be references to the Specified Currency;
- (c) references to the Reference Currency shall be deemed to be references to the relevant Interest Currency; and
- (d) references to a relevant Observation Date shall be deemed to be references to the relevant Interest Determination Date.

Interest Currency means each currency specified as such in the applicable Final Terms.

Payoff Feature Conditions: Part A: Chapter 7: Reset Option Interest Payoff Feature Conditions

This chapter sets out additional terms and conditions for Securities in respect of which the applicable Final Terms specify Reset Option Interest Payoff Feature to be applicable.

*The following terms and conditions (the **Reset Option Interest Payoff Feature Conditions**) shall apply to the Securities if the applicable Final Terms indicate that Reset Option Interest Payoff Feature (the **Reset Option Interest Payoff Feature**) is applicable. These Reset Option Interest Payoff Feature Conditions are subject to completion in accordance with the applicable Final Terms.*

All capitalised terms that are not defined in these Reset Option Interest Payoff Feature Conditions or elsewhere in the Terms and Conditions (including, without limitation, in the Definitions Conditions) will have the meanings given to them in the applicable Final Terms.

7 RESET OPTION INTEREST PAYOFF FEATURE

All Securityholders acting together may request to change the basis on which interest is calculated. Following receipt of such request, the Issuer will notify the Qualifying Securityholders of the manner in which it would propose to change the basis on which interest is calculated and the Qualifying Securityholders may agree with the Issuer in implementing such changes, or not. There is no guarantee that any change in the basis on which interest is calculated will be beneficial for Securityholders.

7.1 Methodology

- (a) If Reset Option Interest Payoff Feature is specified in the applicable Final Terms to be applicable, the Qualifying Securityholders may, at their option, elect to switch the basis on which interest is calculated in accordance with these Reset Option Interest Payoff Feature Conditions (the **Reset Option**).

The Qualifying Securityholders may, at their option, deliver a Potential Reset Switch Notice (with a copy to the Principal Paying Agent) on any Business Day during the Interest Accrual Period to which the Reset Option applies, on or after the Reset Switch Notice time on the Reset Switch Notice Date and on or before the Reset Switch Expiry time on the Reset Switch Expiry Date. A Potential Reset Switch Notice must include (i) evidence reasonably satisfactory to the Issuer of the relevant Securityholder's holding of the Securities to which the Potential Reset Switch Notice relates and (ii) confirmation from the relevant clearing system that such Securities are blocked in the relevant Securityholder's account together with the Securityholder's undertaking that such Securities shall remain so blocked until the fifth Business Day (inclusive) after the date on which a Potential Reset Switch Notice is delivered by the relevant Securityholder.

On or before the second Business Day following receipt of a Potential Reset Switch Notice, the relevant Issuer will deliver Reset Switch Notification. The delivery of a Reset Switch Notification does not, under any circumstances, constitute an undertaking or firm offer by the Issuer to effect a switch of the basis on which interest is calculated as set out in the Reset Switch Notification. Following delivery of a Reset Switch Notification and in the absence of a Reset Switch Acceptance in accordance with paragraph (b) below, the relevant Issuer will have no obligation to effect the switch of the basis on which interest is calculated as set out in the Reset Switch Notification, including where the Qualifying Securityholders deliver Reset Switch Notice in accordance with paragraph (b) below.

- (b) Qualifying Securityholders, at their option, may send a notice (an **Reset Switch Notice**) to the relevant Issuer (with a copy to the Principal Paying Agent) on or before the second Business Day following receipt of a Reset Switch Notification, requiring the exercise of the Reset Switch Option in accordance with the Reset Switch Notification. A Reset Switch Notice must include (i) evidence reasonably satisfactory to the Issuer of the relevant Securityholder's holding of the Securities to which the Potential Reset Switch Notice relates and (ii) confirmation from the relevant clearing system that such Securities are blocked in the relevant Securityholder's account

together with the Securityholder's undertaking that such Securities shall remain so blocked until five Business Days (inclusive) after the date on which the Reset Switch Notice was delivered by the relevant Securityholder to which the Reset Switch Notification relates.

- (c) If the relevant Issuer notifies the Qualifying Securityholders of its acceptance of the Reset Switch Notification on or before the Business Day following receipt of the Reset Switch Notification (a **Reset Switch Acceptance**) by such Issuer, until the Qualifying Securityholders deliver a new Potential Reset Switch Notice (as the case may be), the Linked Interest Rate applicable to the Securities will be determined on the basis described in the Reset Switch Notification as follows:
- (i) if "Current Reset Switch" is specified as applicable in the relevant Final Terms:
 - (A) in respect of each Interest Accrual Period prior to the Interest Accrual Period during which the relevant Issuer sent a valid Reset Switch Acceptance to Securityholders, on the basis of the calculation for the Interest Amount already being used; and
 - (B) in respect of the Interest Accrual Period during which the relevant Issuer sent a valid Reset Switch Acceptance and for all subsequent Interest Accrual Periods, on the basis of the calculation for the Interest Amount set out in the Reset Switch Notification; or
 - (ii) if "Following Reset Switch" is specified as applicable in the relevant Final Terms:
 - (A) in respect of the Interest Accrual Period during which the relevant Issuer sent a valid Reset Switch Acceptance and all Interest Accrual Periods prior to it, on the basis of the calculation for the Interest Amount already being used; and
 - (B) in respect of all Interest Accrual Periods following that during which the relevant Issuer sent a valid Reset Switch Acceptance, on the basis of the calculation for the Interest Amount set out in the Reset Switch Notification; or
 - (iii) if "Other Reset Switch" is specified as applicable in the relevant Final Terms:
 - (A) in respect of each Interest Accrual Period prior to the Interest Accrual Period during which the relevant Issuer sent a valid Reset Switch Acceptance, on the basis of the calculation for the Interest Amount already being used; and
 - (B) in respect of the Interest Accrual Period during which the relevant Issuer sent a valid Reset Switch Acceptance and each subsequent Interest Accrual period commencing on an Interest Determination Date prior to the Interest Determination Date specified in the relevant Final Terms for this purpose, on the basis of the calculation for the Interest Amount already being used; and
 - (C) in respect of each Interest Accrual Period following that during which the relevant Issuer sent a valid Reset Switch Acceptance and commencing on an Interest Determination Date on or after the Interest Determination Date specified in the relevant Final Terms for this purpose, on the basis of the calculation for the Interest Amount set out in the Reset Switch Notification; or
 - (iv) if "Current Single Reset Switch" is specified as applicable in the relevant Final Terms:
 - (A) in respect of each Interest Accrual Period prior to the Interest Accrual Period during which the relevant Issuer sent a valid Reset Switch Acceptance, on the basis of the calculation for the Interest Amount already being used; and
 - (B) in respect of the Interest Accrual Period during which the relevant Issuer sent a valid Reset Switch Acceptance, on the basis of the calculation for the Interest Amount set out in the Reset Switch Notification; and

- (C) in respect of each Interest Accrual Period subsequent to that during which the relevant Issuer sent a valid Reset Switch Acceptance, on the basis of the calculation for the Interest Amount already being used; or
- (v) if "Following Single Reset Switch" is specified as applicable in the relevant Final Terms:
 - (A) in respect of the Interest Accrual Period during which the relevant Issuer sent a valid Reset Switch Acceptance and all Interest Accrual Periods prior to it, on the basis of the calculation for the Interest Amount already being used; and
 - (B) in respect of the Interest Accrual Period immediately following that on which the relevant Issuer sent a valid Reset Switch Acceptance, on the basis of the calculation for the Interest Amount set out in the Reset Switch Notification; and
 - (C) in respect of each Interest Accrual Period following that referred to in subparagraph (B) above, on the basis of the calculation for the Interest Amount already being used; or
- (vi) if "Current Limited Single Reset Switch" is specified as applicable in the relevant Final Terms:
 - (A) in respect of each Interest Accrual Period prior to the Interest Accrual Period during which the relevant Issuer sent a valid Reset Switch Acceptance, on the basis of the calculation for the Interest Amount already being used; and
 - (B) in respect of the Interest Accrual Period during which the relevant Issuer sent a valid Reset Switch Acceptance and each subsequent Interest Accrual period commencing on an Interest Determination Date specified in the relevant Final Terms for this purpose, on the basis of the calculation for the Interest Amount set out in the Reset Switch Notification; and
 - (C) in respect of each Interest Accrual Period subsequent to that during which the relevant Issuer sent a valid Reset Switch Acceptance and not covered by subparagraph (B) above, on the basis of the calculation for the Interest Amount already being used; or
- (vii) if "Following Limited Single Reset Switch" is specified as applicable in the relevant Final Terms:
 - (A) in respect of the Interest Accrual Period during which the relevant Issuer sent a valid Reset Switch Acceptance and all Interest Accrual Periods prior to it, on the basis of the calculation for the Interest Amount already being used; and
 - (B) in respect of the Interest Accrual Period immediately following that on which the relevant Issuer sent a valid Reset Switch Acceptance, on the basis of the calculation for the Interest Amount set out in the Reset Switch Notification; and
 - (C) in respect of each Interest Accrual Period following that on which the relevant Issuer sent a valid Reset Switch Acceptance and commencing on the Interest Determination Date specified in the relevant Final Terms for this purpose, on the basis of the calculation for the Interest Amount set out in the Reset Switch Notification; and
 - (D) in respect of each Interest Accrual Period subsequent to that during which the relevant Issuer sent a valid Reset Switch Acceptance and not covered by sub-

paragraph (B) above, on the basis of the calculation for the Interest Amount already being used; or

- (viii) if "Limited Reset Switch" is specified as applicable in the relevant Final Terms:
 - (A) in respect of the Interest Accrual Period during which the relevant Issuer sent a valid Reset Switch Acceptance and all Interest Accrual Periods prior to it, on the basis of the calculation for the Interest Amount already being used; and
 - (B) in respect of each Interest Accrual Period (i) following that on which the relevant Issuer sent a valid Reset Switch Acceptance and (ii) commencing on each Interest Determination Date specified in the relevant Final Terms for this purpose, on the basis of the calculation for the Interest Amount set out in the Reset Switch Notification; and
 - (C) in respect of each Interest Accrual Period subsequent to that during which the relevant Issuer sent a valid Reset Switch Acceptance and not covered by subparagraph (B) above, on the basis of the calculation for the Interest Amount already being used.

If the relevant Issuer does not send an Reset Switch Acceptance to the Qualifying Securityholders in accordance with paragraph (b) above, the Linked Interest Rate applicable to the Securities will be determined by the Calculation Agent on the basis of the calculation for the Interest Amount already being used.

Qualifying Securityholders may exercise the Reset Switch Option as many times as the Reset Switch Number during the life of the Securities, subject to the Reset Switch Frequency. For the avoidance of doubt, where Qualifying Securityholders have exercised the Reset Switch Option a number of times equal to the Reset Switch Number interest on the Securities will be calculated in accordance with the last Reset Switch Option validly exercised.

Payoff Feature Conditions: Part A: Chapter 8: Single Interest Payment Date Payoff Feature Conditions

This chapter sets out additional terms and conditions for Securities in respect of which the applicable Final Terms specify Single Interest Payment Date Payoff Feature to be applicable.

*The following terms and conditions (the **Single Interest Payment Date Payoff Feature Conditions**) shall apply to the Securities if the applicable Final Terms indicate that Single Interest Payment Date Payoff Feature (the **Single Interest Payment Date Payoff Feature**) is applicable. These Single Interest Payment Date Payoff Feature Conditions are subject to completion in accordance with the applicable Final Terms.*

All capitalised terms that are not defined in these Single Interest Payment Date Payoff Feature Conditions or elsewhere in the Terms and Conditions (including, without limitation, in the Definitions Conditions) will have the meanings given to them in the applicable Final Terms. You should also refer to the relevant Conditions for an explanation of how to calculate the Interest Amount.

8 SINGLE INTEREST PAYMENT DATE PAYOFF FEATURE

The sum of all Interest Amounts (if any) will be paid on the Single Interest Payment Date. For the avoidance of doubt, the investor will not be entitled to any interest on any Interest Amount determined on an Interest Determination Date for the relevant Interest Accrual Period provided that the Single Interest Amount is paid in full on the Single Interest Payment Date.

8.1 Methodology

If Single Interest Payment Date Payoff Feature is specified in the applicable Final Terms to be applicable, notwithstanding that multiple Interest Payment Dates are specified in the Final Terms and used in the determination of the Interest Amount, (a) each Interest Amount will not be paid on the relevant Interest Payment Date, and (b) an amount equal to the sum of all Interest Amounts (the **Single Interest Amount**) will be paid on the Single Interest Payment Date. For the avoidance of doubt, the investor will not be entitled to any interest on any Interest Amount determined on an Interest Determination Date for the relevant Interest Accrual Period provided that the Single Interest Amount is paid in full on the Single Interest Payment Date.

8.2 Definitions and Interpretation

For the purposes of these Single Interest Payment Date Payoff Feature Conditions, the following terms shall have the following meanings:

Payoff Feature Conditions: Part A Chapter 9: Knock-out Performance Interest Switch Payoff Feature Conditions

This chapter sets out additional terms and conditions for Securities for which the applicable Final Terms specify a Knock-out Performance Interest Switch Payoff Feature to be applicable.

*The following terms and conditions (the **Knock-out Performance Interest Switch Payoff Feature Conditions**) will apply to the Securities if the applicable Final Terms indicate that a Knock-out Performance Interest Switch Payoff Feature (a **Knock-out Performance Interest Switch Payoff Feature**) is applicable. These Knock-out Performance Interest Switch Payoff Feature Conditions are subject to completion in accordance with the applicable Final Terms.*

All capitalised terms not defined in these Knock-out Performance Interest Switch Payoff Feature Conditions or elsewhere in the Terms and Conditions (including, without limitation, in the Definitions Conditions) will have the meanings given to them in the applicable Final Terms.

9 KNOCK-OUT PERFORMANCE INTEREST SWITCH PAYOFF FEATURE

The basis on which interest is calculated will automatically switch from (a) calculation of the Linked Interest Rate using Linked Interest₁ to (b) calculation of the Linked Interest Rate using Linked Interest₂ if, either on the Knock-out Performance Interest Switch Observation Date(s) or during the Knock-out Performance Interest Switch Observation Period, the Performance_KOI reaches the relevant Knock-out Barrier or is within the relevant Range. For the avoidance of doubt, a Knock-out Performance Interest Switch can occur only once during the life of the Securities. You should also refer to the relevant Standard Payoff Conditions or Combination Payoff Conditions for an explanation of how to calculate the Linked Interest Rate calculated using the relevant Standard Interest Payoff or Combination Interest Payoff referred to for this Payoff Feature Condition.

9.1 Methodology

If Knock-out Performance Interest Switch Payoff Feature is specified to be applicable in the applicable Final Terms, the basis on which interest is calculated will automatically switch from Linked Interest₁ to Linked Interest₂ (the **Knock-out Performance Interest Switch**) if, during the life of the Securities, a Knock-out Performance Interest Switch Event occurs. The Issuer will, as soon as reasonably practical following the occurrence of a Knock-out Performance Interest Switch Event, issue a Knock-out Performance Interest Switch Notice. For the avoidance of doubt, a Knock-out Performance Interest Switch Event can occur only once during the life of the Securities.

The Linked Interest Rate applicable to the Securities will be determined by the Calculation Agent:

- (a) if a Knock-out Performance Interest Switch Event has not occurred in accordance with these Knock-out Performance Interest Switch Payoff Feature Conditions, in accordance with Linked Interest₁; and
- (b) if a Knock-out Performance Interest Switch Event has occurred in accordance with these Knock-out Performance Interest Switch Payoff Feature Conditions; and
 - (i) on each Interest Determination Date up to (but excluding) the Knock-out Performance Interest Switch Date, in respect of each corresponding Interest Accrual Period in accordance with Linked Interest₁; and
 - (ii) on each Interest Determination Date from (and including) the Knock-out Performance Interest Switch Date, in respect of each corresponding Interest Accrual Period, in accordance with Linked Interest₂.

Payoff Feature Conditions: Part A Chapter 10: Shout Option Performance Lock-in Interest Payoff Feature Conditions

This chapter sets out additional terms and conditions for Securities for which the applicable Final Terms specify a Shout Option Performance Lock-in Interest Payoff Feature to be applicable.

*The following terms and conditions (the **Shout Option Performance Lock-in Interest Payoff Feature Conditions**) shall apply to the Securities if the applicable Final Terms indicate that the Shout Option Performance Lock-in Interest Payoff Feature (the **Shout Option Performance Lock-in Interest Payoff Feature**) is applicable. These Shout Option Performance Lock-in Interest Payoff Feature Conditions are subject to completion in accordance with the applicable Final Terms.*

All capitalised terms that are not defined in these Shout Option Performance Lock-in Interest Payoff Feature Conditions or elsewhere in the Terms and Conditions (including, without limitation, in the Definitions Conditions) will have the meanings given to them in the applicable Final Terms.

10 SHOUT OPTION PERFORMANCE LOCK-IN INTEREST PAYOFF FEATURE

All Securityholders acting together may request to fix the Underlying Value of each relevant Underlying for the purposes of the determination of the Linked Interest Rate applicable to the Securities for the current Interest Accrual Period at the Shout Option Performance Lock-in Level by delivering a notice on or before a Shout Option Performance Lock-in Expiry Date. The relevant Issuer has discretion to decline such request or provide the relevant Shout Option Performance Lock-in Level. Each relevant Underlying Value reflects the price, level or rate of the relevant Underlying at the relevant time. Securityholders are entitled to make a request to fix the Underlying Value of the Underlying used to calculate the Linked Interest Rate applicable to the Securities on the date of their choice for the current Interest Accrual Period, regardless of whether the Issuer is able to decline this request or provide the Shout Option Performance Lock-in Level. The Qualifying Securityholders may exercise the Performance Lock-in Shout Option once only in respect of each Interest Accrual Period.

10.1 Methodology

- (a) If Shout Option Performance Lock-in Interest Payoff Feature is specified in the applicable Final Terms to be applicable, the Qualifying Securityholders may, at their option, request to fix the Underlying Value of each relevant Underlying for the purposes of the determination by the Calculation Agent of the Linked Interest Rate applicable to the Securities in accordance with these Shout Option Performance Lock-in Interest Payoff Feature Conditions (the **Performance Lock-in Shout Option**).

The Qualifying Securityholders may, at their option, deliver a Potential Shout Option Performance Lock-in Exercise Notice on or after a Shout Option Performance Lock-in Notice Time on a Shout Option Performance Lock-in Notice Date and before a Shout Option Performance Lock-in Expiry Time on a Shout Option Performance Lock-in Expiry Date.

A Potential Shout Option Performance Lock-in Exercise Notice must include (i) evidence reasonably satisfactory to the relevant Issuer of the relevant Securityholder's holding of the Securities to which the Potential Shout Option Performance Lock-in Exercise Notice relates and (ii) confirmation from the relevant clearing system that such Securities are blocked in the relevant Securityholder's account together with the Securityholder's undertaking that such Securities shall remain so blocked until five Business Days after the delivery of the Potential Shout Option Performance Lock-in Exercise Notice.

- (b) The relevant Issuer has discretion with respect to any Potential Shout Option Performance Lock-in Exercise Notice to either: (i) decline the request to provide a Shout Option Performance Lock-in Level for the relevant Shout Option Performance Date if, in its reasonable opinion, the relevant Issuer or its hedging affiliate will not be able to execute the request because of market conditions, the time of the request or other reasons (in which case the delivery of the Potential Shout Option Performance Lock-in Exercise Notice will not constitute an exercise of the Performance Lock-

in Shout Option), or (ii) provide a Shout Option Performance Lock-in Level for the relevant Shout Option Performance Date (in which case the receipt of a corresponding Shout Option Exercise Notice (as defined below) will constitute exercise of the Performance Lock-in Shout Option). In the case of Inflation Linked Securities, the relevant Issuer will deliver an Underlying Value Notification to the Qualifying Securityholders no later than two Business Days after receipt by such Issuer of the Potential Shout Option Performance Lock-in Exercise Notice, and in the case of all Asset Linked Securities other than Inflation Linked Securities, the relevant Issuer will deliver the Underlying Value Notification to the Qualifying Securityholders no later than one (1) hour prior to the final time by which the Shout Option Performance Lock-in Level for the relevant Shout Option Performance Lock-in Date is able to be determined in accordance with the relevant Asset Conditions.

The delivery by the relevant Issuer of an Underlying Value Notification does not, under any circumstances, constitute an undertaking or firm offer by the Issuer to provide the Shout Option Performance Lock-in Level for the relevant Shout Option Performance Lock-in Date specified in the Underlying Value Notification. Following delivery of an Underlying Value Notification and in the absence of a Shout Option Performance Lock-in Exercise Acceptance in accordance with the provisions below, the relevant Issuer will have no obligation to provide the Shout Option Performance Lock-in Level on the relevant Shout Option Performance Lock-in Date specified in the Underlying Value Notification, including where Qualifying Securityholders send a Shout Option Performance Lock-in Exercise Notice.

- (c) If, in the Underlying Value Notification, the relevant Issuer notifies the Qualifying Securityholders of the Shout Option Performance Lock-in Level for the Shout Option Performance Lock-in Date, the Qualifying Securityholders, at their option, no later than thirty (30) minutes (or such other time specified in the Final Terms) after receipt of such Underlying Value Notification, may deliver to the relevant Issuer (with a copy to the Principal Paying Agent) a notice (a **Shout Option Exercise Notice**) requiring the exercise of the Performance Lock-in Shout Option. A Shout Option Exercise Notice must include (i) evidence reasonably satisfactory to the Issuer of the relevant Securityholder's holding of the Securities to which the Shout Option Exercise Notice relates and (ii) confirmation from the relevant clearing system that such Securities are blocked in the relevant Securityholder's account together with the Securityholder's undertaking that such Securities shall remain so blocked until five Business Days (inclusive) after the date on which the Potential Shout Option Performance Lock-in Exercise Notice was delivered by the Securityholder to which the Shout Option Performance Lock-in Exercise Notice relates.

If the relevant Issuer notifies the Qualifying Securityholders of its acceptance of the Shout Option Performance Lock-in Exercise Notice (a **Shout Option Performance Lock-in Exercise Acceptance**), on or before the Business Day following its receipt of the Shout Option Performance Lock-in Exercise Notice, the Underlying Value of each Underlying, utilised by the Calculation Agent for the determination of the Linked Interest Payoff applicable to the Securities will be equal to the Shout Option Performance Lock-in Level for the relevant Shout Option Performance Lock-in Date.

The Qualifying Securityholders may exercise the Performance Lock-in Shout Option on multiple occasions throughout the life of the Securities, subject to their limit, which is equal to the Shout Option Number. For the avoidance of doubt, following the exercise by the Qualifying Securityholders of the Performance Lock-in Shout Option on such number of occasions equal to the Shout Option Number, the Securityholders may no longer exercise the Performance Lock-in Shout Option.

The Qualifying Securityholders may exercise the Performance Lock-in Shout Option once only in respect of each Interest Accrual Period.

If Reserve Interest Payoff Feature is specified in the applicable Final Terms to be applicable in respect of an Interest Accrual Period_n (which, for the avoidance of doubt, may be a specific Interest Accrual Period or a number of Interest Accrual Periods), the Linked Interest Rate_n applicable for such Interest Accrual Period shall be calculated as follows:

- (a) for each Interest Accrual Period_n from (and including) the Initial Reserve Accrual Period to (and excluding) the Final Reserve Accrual Period:

$$\text{Min}(\text{Cap}, (\text{Linked Interest}_{n-1} + \text{Reserve}_{n-1}))$$

Payoff Feature Conditions: Part B: Chapter 1: Global Cap Redemption Payoff Feature Conditions

This chapter sets out additional terms and conditions for Securities in respect of which the applicable Final Terms specify Global Cap Redemption Payoff Feature to be applicable.

*The following terms and conditions (the **Global Cap Redemption Payoff Feature Conditions**) shall apply to the Securities if the applicable Final Terms indicate that Global Cap Redemption Payoff Feature (the **Global Cap Redemption Payoff Feature**) is applicable. All capitalised terms that are not defined in these Global Cap Redemption Payoff Feature Conditions or elsewhere in the Terms and Conditions (including, without limitation, in the Definitions Conditions) will have the meanings given to them in the applicable Final Terms.

1 GLOBAL CAP REDEMPTION PAYOFF FEATURE

The amount payable on the Redemption Date or an Instalment Date may be reduced by (in the case of the Final Redemption Amount) an amount equal to the Global Cap Amount or (in the case of each Instalment Redemption Amount) the Instalment Cap. The value of an underlying may therefore affect the amount payable on the Redemption Date or an Instalment Date, as the case may be, if the interest amounts are calculated by reference to the value of an underlying.

1.1 Methodology

If Global Cap Redemption Payoff Feature is specified in the applicable Final Terms to be applicable

- (a) the Final Redemption Amount shall be an amount calculated following the subtraction of an amount equal to the Global Cap Amount, subject to a minimum of zero; or
- (b) each Instalment Redemption Amount shall be an amount calculated following the subtraction of an amount equal to the Instalment Cap, subject to a minimum of zero.

1.2 Definitions and Interpretation

For the purposes of these Global Cap Redemption Payoff Feature Conditions, the following terms shall have the following meanings:

Σ Previous Coupons means the sum of all Interest Amounts (paid in respect of (a) in the case of Securities represented by a Global Security, the aggregate outstanding nominal amount of the Securities and (b) in the case of each Security in definitive form, the product of the Calculation Amount and the Calculation Amount Factor) calculated up to and including the Redemption Date or the relevant Instalment Date, as the case may be.

$$\text{Max}(0, \Sigma \text{ Previous Coupons} - \text{Strike Price})$$

Global Security Calculation Amount Factor means a number equal to the aggregate outstanding nominal amount of the Securities divided by the Calculation Amount.

Instalment Cap means, (a) in respect of the first Instalment Redemption Amount, the Global Cap Amount and (b) in respect of each subsequent Instalment Redemption Amount, an amount equal to the Global Cap Amount minus the aggregate of all amounts that have been deducted from all previous Instalment Redemption Amounts pursuant to Global Cap Redemption Payoff Feature Condition 1.1(b), subject to a minimum of zero (0).

Strike Price means an amount in the Specified Currency per Calculation Amount specified as such in the applicable Final Terms, which shall be multiplied by:

Payoff Feature Conditions: Part B: Chapter 2: Global Floor Redemption Payoff Feature Conditions

This chapter sets out additional terms and conditions for Securities in respect of which the applicable Final Terms specify Global Floor Redemption Payoff Feature to be applicable.

*The following terms and conditions (the **Global Floor Redemption Payoff Feature Conditions**) shall apply to the Securities if the applicable Final Terms indicate that Global Floor Redemption Payoff Feature (the **Global Floor Redemption Payoff Feature**) is applicable. These Global Floor Redemption Payoff Feature Conditions are subject to completion in accordance with the applicable Final Terms.*

All capitalised terms that are not defined in these Global Floor Redemption Payoff Feature Conditions or elsewhere in the Terms and Conditions (including, without limitation, in the Definitions Conditions) will have the meanings given to them in the applicable Final Terms.

2 GLOBAL FLOOR REDEMPTION PAYOFF FEATURE

The amount payable on the Redemption Date or the final Instalment Date, as the case may be, may be increased by an amount equal to the Global Floor Amount. The value of an underlying may therefore affect the amount payable on the Redemption Date or the final Instalment Date, as the case may be, if the interest amounts are calculated by reference to the value of an underlying.

2.1 Methodology

If Global Floor Redemption Payoff Feature is specified in the applicable Final Terms to be applicable the Final Redemption Amount or final Instalment Redemption Amount, as the case may be, shall be an amount calculated following the addition of an amount equal to the Global Floor Amount.

2.2 Definitions and Interpretation

For the purposes of these Global Floor Redemption Payoff Feature Conditions, the following terms shall have the following meanings:

These Investor Redemption Switch Payoff Feature Conditions are subject to completion in accordance with the applicable Final Terms.*

All capitalised terms that are not defined in these Investor Redemption Switch Payoff Feature Conditions or elsewhere in the Terms and Conditions (including, without limitation, in the Definitions Conditions) will have the meanings given to them in the applicable Final Terms.

4 INVESTOR REDEMPTION SWITCH PAYOFF FEATURE

All Securityholders acting together may at their option (once during the life of the Securities) request or, as applicable, elect to switch the basis on which the Final Redemption Amount or the Instalment Redemption Amount, as the case may be, is calculated from (i) calculation of the Redemption Payoff using Linked Redemption₁ to (ii) calculation of the Redemption Payoff using Linked Redemption₂, by sending a notice on or prior to an Investor Redemption Switch Expiry Date. You should also refer to the relevant Standard Payoff Conditions or Combination Payoff Conditions for an explanation of how to calculate the Redemption Payoff calculated using the relevant Standard Redemption Payoff or Combination Redemption Payoff referred to for this Payoff Feature Condition.

4.1 Methodology

- (a) If Investor Redemption Switch Payoff Feature is specified in the applicable Final Terms to be applicable, the Qualifying Securityholders may, at their option, request to switch the basis on which the Final Redemption Amount or the Instalment Redemption Amount, as the case may be, is calculated from Linked Redemption₁ to Linked Redemption₂ (the **Investor Redemption Switch Option**)

The Qualifying Securityholders may, at their option, deliver an Investor Redemption Potential Switch Notice on or prior to an Investor Redemption Switch Expiry Date designating an Investor Redemption Switch Date and, if applicable, Linked Redemption₂. The Qualifying Securityholders may exercise the Investor Redemption Switch Option in accordance with the frequency provided for in the applicable Final Terms.

The Qualifying Securityholders, at their option, may deliver an Investor Redemption Potential Switch Notice (with a copy to the Principal Paying Agent), specifying Linked Redemption₂, on any Business Day, on or after the Investor Redemption Switch Notice Time on the Investor Redemption Switch Notice Date and on or before the Redemption Switch Expiry Time on the Investor Interest Switch Expiry Date. An Investor Redemption Potential Switch Notice must include (i) evidence reasonably satisfactory to the Issuer of the relevant Securityholder's holding of the Securities to which the Investor Redemption Potential Switch Notice relates and (ii) confirmation from the relevant clearing system that such Securities are blocked in the relevant Securityholder's account together with the Securityholder's undertaking that such Securities shall remain so blocked until five Business Days (inclusive) after the date on which such Investor Interest Potential Switch Notice is delivered by the Securityholder.

On or before the second Business Day following receipt of an Investor Redemption Potential Switch Notice, the relevant Issuer will deliver an Investor Redemption Switch Notification. The delivery of an Investor Redemption Switch Notification does not, under any circumstances, constitute an undertaking or firm offer by the Issuer to effect a switch of the basis on which interest is calculated as set out in the Investor Redemption Switch Notification. Following delivery of an Investor Redemption Switch Notification and in the absence of an Investor Redemption Switch Acceptance in accordance with paragraph (b) below, the relevant Issuer will

have no obligation to effect the switch of the basis on which redemption is calculated as set out in the Investor Interest Switch Notification, including where the Qualifying Securityholders deliver an Investor Interest Switch Notice in accordance with paragraph 4.1(b) below.

- (b) Qualifying Securityholders, at their option, may send a notice to the relevant Issuer (with a copy to the Principal Paying Agent) (an **Investor Redemption Switch Notice**), on or before the second Business Day following receipt of an Investor Redemption Switch Notification, requiring the exercise of the Investor Redemption Switch Option, in accordance with the Investor Redemption Switch Notification. An Investor Redemption Switch Notice must include (i) evidence reasonably satisfactory to the Issuer of the relevant Securityholder's holding of the Securities to which the Investor Redemption Potential Switch Notice relates and (ii) confirmation from the relevant clearing system that such Securities are blocked in the relevant Securityholder's account together with the Securityholder's undertaking that such Securities shall remain so blocked until five Business Days (inclusive) after the date on which the Investor Redemption Potential Switch Notice was delivered by the relevant Securityholder to which the Investor Potential Switch Notification relates.

If the relevant Issuer notifies the Qualifying Securityholders of its acceptance of the Investor Redemption Switch Notification on or before the Business Day following receipt of the Investor Redemption Switch Notification (an **Investor Redemption Switch Acceptance**), until the Qualifying Securityholders deliver a new Investor Redemption Potential Switch Notice (as the case may be), the Linked Redemption applicable to the Securities in respect of the Final Redemption Amount or the Instalment Redemption Amount, as the case may be, will be determined by the Calculation Agent as follows:

- (i) in the case of Securities other than Instalment Securities, in accordance with Linked Redemption₂; or
 - (ii) in the case of Instalment Securities:
 - (A) on each Instalment Date up to (but excluding) the Investor Redemption Switch Date, in accordance with Linked Redemption₁; and
 - (B) on each Instalment Date from (and including) the Investor Redemption Switch Date, in accordance with Linked Redemption₂
- (c) If the relevant Issuer does not send an Investor Redemption Switch Acceptance to the Qualifying Securityholders in accordance with paragraph (b) above, the Linked Redemption applicable to the Securities in respect of the Final Redemption Amount or the Instalment Redemption Amount, as the case may be, until the Qualifying Securityholders deliver a new Investor Interest Potential Switch Notice (as the case may be), will be determined by the Calculation Agent on the following basis:
- (i) in the case of Securities other than Instalment Securities, in accordance with Linked Redemption₁; or
 - (ii) in the case of Instalment Securities, on each Instalment Date in respect of each Redemption Determination Date, in accordance with Linked Redemption₁; and
 - (iii) on each Instalment Date from (and including) the Investor Redemption Switch Date, in accordance with Linked Redemption₂
- (d) Qualifying Securityholders may exercise the Investor Redemption Switch Option as many times as the Investor Redemption Switch Number during the life of the Securities, subject to the Investor Redemption Switch Frequency. For the avoidance of doubt, where Qualifying Securityholders have exercised the Investor Redemption Switch Option a number of times equal to the Investor Redemption Switch Number, the Redemption Amount or Instalment Amount on the Securities, as the case may be, will be calculated in accordance with the last Investor Redemption Switch Option validly exercised.

The Issuer has discretion to decline such request or provide the relevant Shout Option Performance Lock-in Level. Each relevant Underlying Value reflects the price, level or rate of the relevant Underlying at the relevant time. The Qualifying Securityholders may exercise the Performance Lock-in Shout Option once only in respect of each Redemption Determination Date in respect of the Final Redemption Amount or the relevant Instalment Redemption Amount, as the case may be.

If the relevant Issuer notifies the Qualifying Securityholders of its acceptance of the Shout Option Performance Lock-in Exercise Notice (a **Shout Option Performance Lock-in Exercise Acceptance**), on or before the Business Day following its receipt of the Shout Option Performance Lock-in Exercise Notice, the Underlying Value of each Underlying, utilised by the Calculation Agent for the determination of the Redemption Payoff applicable to the Securities in respect of the Final Redemption Amount or the Instalment Redemption Amount, as the case may be, will be equal to the Shout Option Performance Lock-in Level for the relevant Shout Option Performance Lock-in Date.

For the avoidance of doubt, following the exercise by the Qualifying Securityholders of the Performance Lock-in Shout Option on such number of occasions equal to the Shout Option Number of times, the Securityholders may no longer exercise the Performance Lock-in Shout Option.

8 RESET OPTION REDEMPTION PAYOFF FEATURE

All Securityholders acting together may request to change the basis on which the Final Redemption Amount or the Instalment Redemption Amount, as the case may be, is calculated. Following receipt of such request, the Issuer will notify the Qualifying Securityholders of the manner in which it would propose to change the Final Redemption Amount or the Instalment Amount, as the case may be, and the Qualifying Securityholders may agree with the Issuer in implementing such changes, or not. There is no guarantee that any change in the Final Redemption Amount or Instalment Redemption Amount, as the case may be, will be beneficial for Securityholders.

8.1 Methodology

- (a) If Reset Option Redemption Payoff Feature is specified in the applicable Final Terms to be applicable, the Qualifying Securityholders may, at their option, request to switch the basis on which the Final Redemption Amount or the Instalment Redemption Amount, as the case may be, is calculated in accordance with these Reset Option Redemption Payoff Feature Conditions (the **Reset Option**).

The Qualifying Securityholders may, at their option, deliver a Potential Switch Notice on any Business Day on or prior to a Reset Notice Date. A Potential Switch Notice must include (i) evidence reasonably satisfactory to the Issuer of the relevant Securityholder's holding of the Securities to which the Potential Switch Notice relates and (ii) confirmation from the relevant clearing system that such Securities are blocked in the relevant Securityholder's account together with the Securityholder's undertaking that such Securities shall remain so blocked until two Business Days after the date on which a Reset Notification is delivered by the Issuer.

If the Potential Switch Notice is received by the Issuer prior to the Reset Notice Time on the relevant Business Day, the Issuer will deliver a Reset Notification no later than the Reset Notification Time on that Business Day, otherwise, the Issuer will deliver a Reset Notification no later than the Reset Notice Time on the next following Business Day. If the Reset Notice Time or Reset Notification Time is specified as "Not Applicable" in the applicable Final Terms, no later than two (2) Business Days after receipt of the Potential Switch Notice, the relevant Issuer will deliver a Reset Notification.

- (b) The Qualifying Securityholders will, at their option, no later than two (2) Business Days after receipt of the Reset Notification, deliver to the relevant Issuer (with a copy to the Principal Paying Agent) a notice (a **Reset Switch Notice**) confirming the exercise of the Reset Option following which the basis for calculating the Final Redemption Amount or the Instalment Redemption Amount, as the case may be, set out in the Reset Notification will apply in respect of the following Redemption Determination Date unless the Qualifying Securityholders exercise the Reset Option again. A Reset Switch Notice must include (i) evidence reasonably satisfactory to the Issuer of the relevant Securityholder's holding of the Securities to which the Reset Switch Notice relates and (ii) confirmation from the relevant clearing system that such Securities are blocked in the relevant Securityholder's account together with the Securityholder's undertaking

that such Securities shall remain so blocked until two Business Days after the relevant Redemption Determination Date.

The Qualifying Securityholders may exercise the Reset Option Redemption Payoff Feature the Reset Option Number during the life of the Securities. For the avoidance of doubt, following the exercise by the Qualifying Securityholders of the Reset Option on such number of occasions equal to the Reset Option Number of times during the life of the Securities, the Final Redemption Amount or the Instalment Redemption Amount, as the case may be, will be calculated in accordance with the last validly exercised Reset Option.

Accordingly, if a Reset Switch Date occurs, the Final Redemption Amount or the Instalment Redemption Amount, as the case may be, shall be determined by the Calculation Agent on the immediately following Redemption Determination Date in accordance with the basis for calculating the Final Redemption Amount or the Instalment Redemption Amount, as the case may be, set out in the relevant Reset Notification, subject to any further exercise by the Qualifying Securityholders in accordance with these Reset Option Redemption Payoff Feature Conditions.

9 KNOCK-OUT PERFORMANCE REDEMPTION SWITCH PAYOFF FEATURE

Consequently, the Redemption Payoff applicable to the Securities in respect of the Final Redemption Amount or the Instalment Redemption Amount, as the case may be, will be determined by the Calculation Agent:

- (a) in the case of Securities (other than Instalment Redemption Securities), if a Knock-out Performance Redemption Switch Event has not occurred in accordance with these Knock-out Performance Redemption Switch Payoff Feature Conditions, in accordance with Linked Redemption₁;
- (b) in the case of Securities (other than Instalment Redemption Securities), if a Knock-out Performance Redemption Switch Event has occurred in accordance with these Knock-out Performance Redemption Switch Payoff Feature Conditions, in accordance with Linked Redemption₂;
- (c) in the case of Instalment Redemption Securities, if a Knock-out Performance Redemption Switch Event has not occurred in accordance with these Knock-out Performance Redemption Switch Payoff Feature Conditions, on each Redemption Determination Date and for each Instalment Redemption Date, in accordance with Linked Redemption₁

- (d) in the case of Instalment Redemption Securities, if a Knock-out Performance Redemption Switch Event has not occurred in accordance with these Knock-out Performance Redemption Switch Payoff Feature Conditions):
- (i) on each Redemption Determination Date up to (but excluding) the Knock-out Performance Redemption Switch Date, in respect of each corresponding Instalment Redemption Date, in accordance with Linked Redemption₁; or
 - (ii) on each Redemption Determination Date from (and including) the Knock-out Performance Redemption Switch Date, in respect of each corresponding Instalment Redemption Date in accordance with Linked Redemption₂.

All Securityholders acting together may request to substitute a Bond by delivering a notice on or before a Bond Switch Option Expiry Date. Following receipt of such request, the Issuer shall provide the relevant Bond Switch Option Pricing. Each relevant Bond Switch Option Pricing reflects the cost or gain of effecting the switch of Bonds requested by the Securityholders, the difference between the market value of the replaced Bond and the replacing Bond and the resulting adjusted Linked Interest Rate applicable to the Securities, in each case at the relevant time. The Securityholders have the ability to request to fix the Bond Switch Option Pricing at a particular level, although this is subject to the Issuer's discretion to decline such request. The Qualifying Securityholders may exercise the Bond Switch Option in accordance with the frequency provided for in the applicable Final Terms.

1.1 Methodology

- (a) If Bond Switch Option Payoff Feature is specified in the applicable Final Terms to be applicable, the Qualifying Securityholders may, at their option, request to substitute an existing Bond (the **Existing Bond**) by a replacing Bond (the **Replacing Bond**), by identifying, amongst other things, its ISIN or other securities identification number, nominal amount on issue and any applicable rate of interest, with the Bond Nominal Amount of the Replacing Bond being equal to the Bond Nominal Amount of the Existing Bond, in accordance with these Bond Switch Option Payoff Feature Conditions (the **Bond Switch Option**).

The delivery of a Bond Switch Option Pricing Notification does not, under any circumstances, constitute an undertaking or firm offer by the Issuer to effect a substitution of the Existing Bond with a Replacing Bond. Following delivery of Bond Switch Option Pricing Notification and in the absence of an Bond Switch Option Acceptance in accordance with paragraph (b) below, the relevant Issuer will have no obligation to effect the substitution of the Existing Bond with a

Replacing Bond, including where the Qualifying Securityholders deliver an Bond Switch Option Exercise Notice in accordance with paragraph (b) below.

A Bond Switch Option Exercise Notice must include (i) evidence reasonably satisfactory to the Issuer of the relevant Securityholder's holding of the Securities to which the Bond Switch Option Exercise Notice relates and (ii) confirmation from the relevant clearing system that such Securities are blocked in the relevant Securityholder's account together with the Securityholder's undertaking that such Securities shall remain so blocked until five Business Days (inclusive) after the date on which the Potential Bond Switch Option Exercise Notice, to which the Bond Switch Option Exercise Notice relates, was delivered by the Securityholder.
- (c) If the relevant Issuer notifies the Qualifying Securityholders of its acceptance of the Bond Switch Option Exercise Notice on or before the Business Day following receipt of the Bond Switch Option Exercise Notice (an **Bond Switch Option Acceptance**), then:
- (i) the Linked Interest Rate applicable to the Securities will be as set out in the Bond Switch Option Pricing Notification; and
 - (ii) the Existing Bond will be replaced by the Replacing Bond; if the Existing Bond was part of the Collateral Assets, Secured Security Condition 4.4(a) (*Substitution of Collateral Assets*) will apply to such replacement and, for the purpose of such replacement only, "Collateral Substitution" will be deemed to be applicable (whether or not specified as applicable in the applicable Final Terms) and the Collateral Test will be deemed to be satisfied on the Collateral Business Day immediately following the day on which the Issuer (or the Collateral Manager on its behalf) sent or cause to be sent a notice to the Collateral Monitoring Agent and the Custodian in accordance with Secured Security Condition 4.4(a) (*Substitution of Collateral Assets*), and

- (H) in respect of each Interest Accrual Period following that on which the relevant Issuer sent a valid Investor Interest Switch Acceptance and commencing on each Interest Determination Date specified in the relevant Final Terms for this purpose, if "Limited Interest Bond Switch" is specified as applicable in the relevant Final Terms.

The relevant Issuer shall give notice as soon as practicable to the Securityholders in accordance with General Condition 14 (*Notices*) of the amendments to the applicable Final Terms required to reflect the consequences of the exercise of the Bond Switch Option.

- (ii) a Security Trust Deed, pursuant to which the Issuer will grant a first ranking security interest over its right, benefit, interest and title, present and future, in, under and to the Charged Documents (to the extent they relate to the relevant Series of Secured Securities and save for any such rights secured pursuant to the Pledge Agreement),

in favour of the Pledgee and the Security Trustee, respectively, to hold on trust or as agent for itself and the relevant Securityholders and the other relevant Secured Parties.

- (b) No security will be created over any other assets of the Issuer, any interest distributions paid on any Collateral Assets or any other assets in the Collateral Account, which will remain the property of the relevant Issuer who shall be entitled to sell, dispose of, transfer or otherwise deal with such assets at any time.
- (c) Where the Custodian for a Series of Secured Securities is Euroclear, Clearstream or BNY, in the event that the Pledgee is subject to an insolvency or insolvency-like event that triggers a default for the purpose of the Custodian, the Security granted to the Pledgee pursuant to the Pledge Agreement will be released and the Collateral Assets returned to the Pledgor in accordance with the relevant Custodian Terms. Accordingly, there will be no assets pledged by way of security in favour of the Securityholders from such time until the time as a substitute Security Trustee is appointed to replace the defaulted Pledgee in accordance with the relevant Custodian Terms.

4.2 Collateral Pools

- (a) Single Series Collateral Pool

Where the applicable Final Terms in respect of a Series of Secured Securities specifies that the Collateral Pool Type is "Single Series Collateral Pool" (such Series, a **Series (Solo Collateral)**), such Series will be secured by a separate Collateral Pool comprising Collateral Assets in a segregated Collateral Account.

- (b) Multiple Series Collateral Pool

Where the applicable Final Terms in respect of a Series of Secured Securities specify that the Collateral Pool Type is "Multiple Series Collateral Pool" (such Series, a **Series (Shared Collateral)**), such Series may be secured by a Collateral Pool which secures one or more other Series of Secured Securities. In this case, following enforcement of the relevant Pledge Agreement, the proceeds of realisation of the Collateral Assets held in the Collateral Pool or, where "Physical Delivery of Collateral Assets on Enforcement" is specified as "Applicable" in the applicable Final Terms, the delivery of the Collateral Assets held in the Collateral Pool, in each case, would be distributed among all the holders of the Series of Secured Securities that are secured against such Collateral Pool.

Each Series (Shared Collateral) that is secured by a given Collateral Pool will (i) be subject to the same governing law, (ii) universally apply or disapply "Physical Delivery of Collateral Assets on Enforcement" (as described below), (iii) have the same Eligible Collateral Assets, (iv) be subject to the same Haircut value(s) for each type or class of Eligible Collateral Assets, (v) have the same Collateral Test Dates and (vi) have the same Type of Collateralisation, in each case, as each other Series (Shared Collateral) sharing that same Collateral Pool.

Securityholders acquiring and holding Secured Securities in relation to a Multiple Series Collateral Pool will be deemed to acknowledge, accept and agree to the rights of existing and future Securityholders of different Series of Secured Securities to share equally in the security created over the Collateral Assets in such Collateral Pool. Securityholders will not be notified of the issue of any future Series of Secured Securities that will benefit from the same Multiple Series Collateral Pool, nor have any consent rights in relation to the issue of such future Series of Secured Securities.

4.3 Initial Collateral Assets

On the Issue Date in respect of a Series of Secured Securities, the Pledgor will transfer (either directly or through the Collateral Monitoring Agent's collateral management service if applicable):

- (a) in the case of Secured Securities in respect of which Collateral Monitoring is applicable, Collateral Assets to the relevant Collateral Account such that the Collateral Test is satisfied on such Issue Date; and
- (b) in the case of Secured Securities in respect of which Collateral Monitoring is not applicable, the Collateral Assets specified in the applicable Final Terms.

4.4 Collateral Monitoring and Adjustments to Collateral Assets

- (a) The following provisions of this Secured Condition 4.4(a) apply only to Series of Secured Securities in respect of which Collateral Monitoring is applicable and CBNA is the applicable Collateral Monitoring Agent:
 - (i) The Valuation Agent will determine the Collateral Value and the aggregate Secured Security Market Value (if relevant) (the **VA Valuations**) on the Issue Date and each Collateral Test Date and will inform the Pledgor and the Collateral Monitoring Agent.
 - (ii) The Collateral Monitoring Agent will determine the Required Collateral Value (together with the VA Valuations, the **Relevant Valuations**) on the Issue Date and each Collateral Test Date and will inform the Pledgor and the Valuation Agent.
 - (iii) On each Collateral Test Date, the Collateral Monitoring Agent shall verify that the Collateral Test is satisfied on the basis of the Relevant Valuations and the Minimum Transfer Amount. The Relevant Valuations determined by the Valuation Agent shall be binding on the Collateral Monitoring Agent for the purposes of the Collateral Monitoring Agent's determination whether the Collateral Test is satisfied.
 - (iv) When determining whether the Collateral Test is satisfied, Collateral Assets for which instructions for the transfer to the relevant Collateral Account have been provided on or before such Collateral Test Date will be included for the purposes of such determination and Collateral Assets for which instructions for the removal from the relevant Collateral Account have been provided on or before such Collateral Test Date will be excluded for the purposes of such determination.
 - (v) The determination of the Required Collateral Value will be made on the Collateral Test Date for the purposes of the Collateral Test.
 - (vi) If, on the relevant Collateral Test Date, the Collateral Monitoring Agent determines that the Collateral Test will not be satisfied, the Collateral Monitoring Agent shall, on the Collateral Business Day immediately following the relevant Collateral Test Date, send a Collateral Monitoring Agent Notice to the Pledgor and the Pledgee.
 - (vii) The Pledgor shall ensure the Collateral Test is satisfied by transferring additional Collateral Assets into the Collateral Account, and withdrawing surplus or ineligible Collateral Assets from the Collateral Account (the **Required Adjustments**), provided that (A) withdrawal of surplus Collateral Assets is only permitted in circumstances where, immediately following such withdrawal, the Collateral Test would continue to be satisfied, and (B) a Required Adjustment shall only be made if the nominal amount of Collateral Assets to be deposited in or removed from the Collateral Account is at least equal to the Minimum Transfer Amount.
 - (viii) Without prejudice to the foregoing, in relation to any Series of Secured Securities in respect of which Collateral Monitoring is applicable, the Pledgor may request that

Collateral Assets are withdrawn from the Collateral Account provided that, following such withdrawal, the Collateral Test will be satisfied.

- (ix) Any requested adjustment under sub-paragraphs (vii) and (viii) shall be accompanied by a Collateral Adjustment Notice from the Collateral Manager to the Collateral Monitoring Agent and the Custodian (with a copy to the Issuer and the Guarantor).
- (b) The following provisions of this Secured Condition 4.4(b) apply only to Series of Secured Securities in respect of which Collateral Monitoring is applicable and Euroclear is the applicable Collateral Monitoring Agent:
- (i) For the purpose of the Collateral Monitoring Service Terms that apply to Euroclear, these Secured Security Conditions constitute a "Collateral Agreement" between the Pledgor and Pledgee (referred to thereunder), which defines the scope of the collateral management transfers required between the Pledgor and Pledgee in respect of each Series for which Euroclear is the Collateral Monitoring Agent.
 - (ii) On the Issue Date and each Collateral Test Date, the Collateral Monitoring Agent will calculate the Collateral Value using its pricing/valuation sources (unless "Alternative Valuation" has been specified in the applicable Final Terms, in which case this valuation will use the specified delegate or source for valuing the Collateral Assets in the Collateral Account). The Collateral Monitoring Agent will determine whether the Collateral Test is satisfied on that date on the basis of the specified Required Collateral Value and the calculated Collateral Value. If there is a shortfall, the Collateral Monitoring Agent shall notify both Pledgor and Pledgee of this in accordance with the Collateral Monitoring Service Terms.
 - (iii) If the Collateral Monitoring Agent determines the Collateral Value is lower than the Required Collateral Value, the Collateral Monitoring Agent will automatically select the Collateral Assets to transfer to the Collateral Account from the Pledgor's account in order to rectify such shortfall. If either party objects to, or revokes authorisation for, "AutoSelect", then the Collateral Monitoring Agent will revert to manual transactions, requiring both parties to provide matching instructions for each required transfer of Collateral Assets into and out of the Collateral Account.
 - (iv) If, on any date, the Required Collateral Value has changed, both the Pledgor and the Pledgee will notify the Collateral Monitoring Agent by providing matching notices specifying the updated Required Collateral Value, which will adjust the Required Collateral Value accordingly. The Required Collateral Value notified to the Collateral Monitoring Agent by matching instructions shall be binding on the Collateral Monitoring Agent for the purposes of the Collateral Monitoring Agent's determination whether the Collateral Test is satisfied.
- (c) The following provisions of this Secured Condition 4.4(c) apply only to Series of Secured Securities in respect of which Collateral Monitoring is applicable and Clearstream and BNY is the applicable Collateral Monitoring Agent:
- (i) On the Issue Date and each Collateral Test Date, the Collateral Monitoring Agent will calculate the Collateral Value using its pricing/valuation sources (unless "Alternative Valuation" has been specified in the applicable Final Terms, in which case this valuation will use the specified delegate or source for valuing the Collateral Assets in the Collateral Account). The Collateral Monitoring Agent will determine whether the Collateral Test is satisfied on that date, on the basis of the Required Collateral Value, as provided from time to time, and the calculated Collateral Value, and if there is a shortfall, notify both Pledgor and Pledgee of this in accordance with the Collateral Monitoring Service Terms.

- (ii) If the Collateral Monitoring Agent determines the Collateral Value is lower than the Required Collateral Value, the Collateral Monitoring Agent will automatically select the Collateral Assets to transfer from the Pledgor's source account, and if the Collateral Value is higher than the Required Collateral Value, excess Collateral Assets will be transferred back to the Pledgor's account.
- (iii) If, on any date, the Required Collateral Value has changed, both the Pledgor and the Pledgee will notify the Collateral Monitoring Agent by providing matching notices specifying the updated Required Collateral Value. The Required Collateral Value notified to the Collateral Monitoring Agent by matching instructions shall be binding on the Collateral Monitoring Agent for the purposes of the Collateral Monitoring Agent's determination whether the Collateral Test is satisfied.
- (d) Without prejudice to the foregoing, in relation to any Series of Secured Securities in respect of which Collateral Monitoring is applicable, the Pledgor may request that Collateral Assets are withdrawn from the Collateral Account, provided that, following such withdrawal, the Collateral Test will continue to be satisfied.

4.5 Substitution of Collateral Assets

If, in relation to any Series of Secured Securities in respect of which Collateral Monitoring is applicable and "Collateral Substitution" is specified as applicable in the applicable Final Terms, the Pledgor may withdraw and/or replace Collateral Assets from the relevant Collateral Account provided that following such adjustment the Collateral Test will be satisfied. Where CBNA is the Collateral Monitoring Agent, the Pledgor will send or cause to be sent a notice to the Collateral Monitoring Agent and the Custodian (if a different entity), copied to the Issuer where applicable, specifying the adjustments to be made to the Collateral Pool (including, *inter alia*, the type and quantity of any Collateral Assets to be deposited and/or removed). Where the Collateral Monitoring Agent is Euroclear, Clearstream or BNY, any such change will be effected under the relevant Collateral Monitoring Service Terms. The Collateral Business Day immediately following a day on which such notice is given by the Pledgor for the substitution of Collateral Assets as described above will be deemed to be a Collateral Test Date (if not already specified as a Collateral Test Date).

4.6 Crédit Agricole CIB as Securityholder

If "Waiver of Rights" is specified as applicable in the Final Terms relating to a Series of Secured Securities, Crédit Agricole CIB to the extent it intends to hold Secured Securities (including but not limited to, in its capacity as a market maker) may waive its rights by written notice to receive the proceeds of realisation of the Collateral Assets securing such Series of Secured Securities (or where Physical Delivery of Collateral Assets on Enforcement is specified as applicable in the applicable Final Terms, delivery of the Collateral Assets Series Entitlement) following the enforcement of the relevant Pledge Agreement (any such Secured Securities, being **Non-Placed Securities**).

In such circumstances, Crédit Agricole CIB as holder of the Non-Placed Securities is deemed to waive its rights to give written notice to the Issuer and the Guarantor that the Non-Placed Securities are immediately due and repayable at their Early Redemption Amount on the occurrence of an Event of Default following the delivery of a Required Collateral Default Notice (as described below). As a consequence, when calculating the Required Collateral Value in accordance with the provisions described below, the Collateral Agent and the Collateral Monitoring Agent shall only take into account the value of the Secured Securities that have not been subject to such waiver (any such Securities being **Placed Securities**). If "Waiver of Rights" is not expressed to be applicable in the relevant Final Terms, all Securities of the relevant Series shall be Placed Securities. If a notice of "Waiver of Rights" (to the extent applicable) is not delivered, all Secured Securities of the relevant Series shall be Placed Securities even if Crédit Agricole CIB is a holder of such Secured Securities.

Crédit Agricole CIB shall be required to (a) inform by written notice and, upon request from the Collateral Manager, provide evidence to, the Collateral Manager of the number of Non-Placed Securities that it holds on the Issue Date and on each Collateral Test Date and (b) notify the Collateral Manager following

any transfer of Non-Placed Securities. The Collateral Business Day following such notification will be deemed to be a Collateral Test Date and the Collateral Manager shall notify the Issuer and the Collateral Monitoring Agent of the same and of the revised Required Collateral Value.

None of the Issuer, the Guarantor, the Collateral Manager, the Collateral Monitoring Agent or the Security Trustee shall be responsible for any incorrect, inaccurate or incomplete information relating to the number of Non-Placed Securities relating to any one or more Series of Secured Securities that may have been provided to the Collateral Manager by or on behalf of Crédit Agricole CIB and none of the Issuer, the Guarantor, the Collateral Manager Agent, the Collateral Monitoring Agent or the Security Trustee shall be under any duty to verify or otherwise confirm the number of Non-Placed Securities so held.

4.7 Required Collateral Default

Following the occurrence of a Required Collateral Default, (i) where the Collateral Monitoring Agent is CBNA, the Collateral Monitoring Agent will be required to send a Required Collateral Default Notice to the Custodian (if a different entity), the Pledgor and the Pledgee, specifying that a Required Collateral Default has occurred, and (ii) otherwise, the Pledgor or Security Trustee will be required to notify the other parties of the Required Collateral Default. The Issuer shall give notice in accordance with General Condition 14 (*Notices*) as soon as reasonably practicable to all relevant Securityholders if such notice has been received.

4.8 Third Party Chargor

Where "Third Party Security" is specified as being applicable in the applicable Final Terms, the obligations of the relevant Issuer in respect of the Secured Securities will be secured (such security being Third Party Security) by:

- (a) a Pledge Agreement, pursuant to which an Affiliate of the Issuer (such Affiliate being a Third Party Chargor in respect of such Series of Secured Securities) will grant a first ranking security interest over all of its rights in and to the Collateral Assets that are held from time to time in the Collateral Account following transfer to the Custodian, together with all the Third Party Chargor's claims against the Custodian and receivables, claims, right, title, interest and benefit in, under and to the relevant Custodian Terms; and
- (b) a Security Trust Deed, pursuant to which the Issuer will grant a first ranking security interest over its right, benefit, interest and title, present and future, in, under and to the Charged Documents (to the extent they relate to the relevant Series of Secured Securities and save for any such rights secured pursuant to the Pledge Agreement),

in favour of the Pledgee and the Security Trustee, respectively, to hold on trust or as agent for itself and the relevant Securityholders and the other relevant Secured Parties.

Where the Custodian for a Series of Secured Securities is Euroclear or Clearstream, in the event that the Pledgee is subject to an insolvency or insolvency-like event that triggers a default for the purpose of the Custodian, the Security will be released and the Collateral Assets returned to the Pledgor. Accordingly, there will be no assets pledged by way of security in favour of the Securityholders from such time until the time as a substitute Security Trustee is appointed to replace CBNA.

No security will be created over any other assets of the Third Party Chargor, any interest distributions paid on any Collateral Assets or any other assets in the Collateral Account, which will remain the property of the relevant Third Party Chargor or the Issuer, as the case may be, who shall be entitled to sell, dispose of, transfer or otherwise deal with such assets at any time.

Where Third Party Security is applicable, references in this Secured Security Condition 4 to the "Issuer" shall be deemed to be references to the relevant Third Party Chargor, as the context requires. In addition, where any notice is required to be delivered to the Issuer pursuant to the applicable Terms and Conditions, such notice shall also be delivered to the relevant Third Party Chargor to the contact details specified in the applicable Final Terms.

5 COLLATERAL MANAGER, COLLATERAL MONITORING AGENT AND VALUATION AGENT

The Collateral Manager, the Collateral Monitoring Agent and the Valuation Agent act solely as agents of the Pledgor and do not assume any obligation or duty to, or any relationship of agency or trust for or with, the Securityholders.

All calculations and determinations made in respect of the Secured Securities by the Collateral Monitoring Agent and the Valuation Agent shall (save in the case of manifest error) be final, conclusive and binding on the Issuer, the Guarantor, the Securityholders and the Security Trustee.

Each of the Collateral Manager, the Collateral Monitoring Agent and the Valuation Agent may delegate any of their obligations and functions to a third party as provided for in the relevant agreement or these Secured Security Conditions, as applicable.

6 ACCELERATION, ENFORCEMENT AND REALISATION

6.1 Acceleration and Enforcement of Collateral

If, in relation to a Series of Secured Securities, a Secured Security Acceleration Notice is, or is deemed to be, served, a Secured Security Acceleration Event shall occur and all Secured Securities comprising that Series, as well as all Securities from every Series (Shared Collateral) that is secured on the same Collateral Pool as the Series in respect of which Secured Security Acceleration Notice was sent, will become immediately due and repayable at their Early Redemption Amount (or, where Physical Delivery of Collateral Assets on Enforcement is specified as being applicable in the applicable Final Terms, that all Secured Securities comprising that Series will be subject to settlement in accordance with Secured Security Condition 6.8). If a Secured Security Acceleration Event occurs, the Issuer or, failing which, the Security Trustee shall give notice thereof to all relevant Securityholders as soon as reasonably practicable following the occurrence of such event in accordance with General Condition 14 (*Notices*).

Where a Secured Security Acceleration Notice is sent in respect of a Series (Shared Collateral) it shall be deemed to have also been sent simultaneously in respect of every other Series (Shared Collateral) that is secured on the same Collateral Pool as the Series in respect of which the Secured Security Acceleration Notice was sent. In such circumstances, enforcement and realisation of the Collateral Assets relating to such Collateral Pool in accordance with this Secured Security Condition 6 shall take place in the same manner for all affected Series (Shared Collateral) which have the benefit of such Collateral Pool as if such Security was being enforced and realised for a single Series.

If neither the Issuer nor the Guarantor has paid all amounts due to Securityholders of a Series of Securities in relation to which a Secured Security Acceleration Event has occurred within the Pre-Enforcement Payment Period, any holder of Securities of such Series will be entitled to send a Collateral Enforcement Notice to the Security Trustee requesting that the security constituted by the relevant Pledge Agreement and Security Trust Deed be enforced.

The Security Trustee shall, following receipt of a Collateral Enforcement Notice, promptly give notice of the same to the Issuer, the Guarantor, the Collateral Manager, the Custodian and the other Securityholders whose Securities are secured on the Collateral Pool in relation to which such Collateral Enforcement Notice relates.

6.2 Enforcement and Realisation of Collateral Assets

Upon receipt of a Collateral Enforcement Notice, and subject always to the Security Trustee being indemnified and/or secured (including by way of prefunding) against any liability it may incur by so acting, the Security Trustee will enforce the security constituted by the relevant Pledge Agreement and Security Trust Deed in accordance with the terms thereof and these Secured Security Conditions (as completed by the applicable Final Terms) and will (a) give instructions to the Disposal Agent to liquidate or realise some or all of the Collateral Assets in each Collateral Pool which secures one or more Series of Secured Securities in accordance with Secured Security Condition 6.6 (*Method of realisation of Collateral Assets*) and subsequently distribute the relevant Collateral Enforcement Proceeds Share to

relevant holders of the Placed Securities in accordance with Secured Security Condition 6.5 (*Application and Distribution of Proceeds of Enforcement Where Physical Delivery of Collateral Assets on Enforcement is Not Applicable*) or (b) where Physical Delivery of Collateral Assets on Enforcement is specified as applicable in the applicable Final Terms, arrange for Delivery of the relevant Collateral Assets Entitlement to the relevant holders of the Placed Securities in accordance with Secured Security Condition 6.8 (*Physical Delivery of Collateral Assets on Enforcement*), in each case after payment of any amounts payable to the Secured Parties ranking prior to the holders of the Placed Securities in accordance with the Order of Priority specified in the applicable Final Terms (such amounts to be paid either out of the proceeds of such liquidation or realisation of Collateral Assets or out of the proceeds transferred by the holders of the Placed Securities in accordance with Secured Security Condition 6.8 (*Physical Delivery of Collateral Assets on Enforcement*)).

6.3 Liability of the Security Trustee

In the absence of any gross negligence, fraud or wilful default on the part of the Security Trustee, the Security Trustee shall not have any liability as to the consequence of any enforcement or realisation action and neither will have regard to the effect of such action on individual Securityholders.

6.4 Enforcement and Realisation by Securityholders

No Securityholder shall be entitled to enforce a Pledge Agreement or Security Trust Deed or to proceed directly against the Issuer or any Third Party Chargor to enforce the other provisions of a Pledge Agreement or Security Trust Deed.

6.5 Application and Distribution of Proceeds of Enforcement Where Physical Delivery of Collateral Assets on Enforcement is Not Applicable

Unless Physical Delivery of Collateral Assets on Enforcement is specified in the applicable Final Terms, following Enforcement and after the realisation and liquidation in full of all the Collateral Assets in a Collateral Pool in accordance with this Condition 5, the Security Trustee shall use the proceeds of such realisation and liquidation of the Collateral Assets and any other amounts available for distribution following such Enforcement to make payment of any amounts payable to the Secured Parties ranking prior to the holders of the Placed Securities for each Series of Secured Securities which are secured on such Collateral Pool in accordance with the Order of Priority specified in the applicable Final Terms. Following such payment the Security Trustee shall determine the Collateral Enforcement Proceeds Share in respect of each Placed Security and shall notify such amounts to the holders of the Placed Securities in accordance with General Condition 14 (*Notices*).

Subject as provided below, the remaining proceeds from the realisation of the Collateral Assets in a Collateral Pool will then be applied in meeting the claims of holders of the Placed Securities which are secured by the relevant Collateral Pool (which claim will be equal to the Amount Owed) *pro rata* to the Collateral Enforcement Proceeds Share of each such Secured Security.

- (a) Any excess of the Collateral Enforcement Proceeds over the amounts payable prior to Securityholders and to holders of the Placed Securities shall then be distributed to the Secured Parties ranking after the holders of the Placed Securities in accordance with the Order of Priority specified in the applicable Final Terms.
- (b) Where the Collateral Enforcement Proceeds Share for a particular Secured Security is less than the Amount Owed (such loss amount being a **Collateral Enforcement Loss Amount**), such Securityholder may claim any payment of such Collateral Enforcement Loss Amount from the Guarantor under the Guarantee.

6.6 Method of Realisation of Collateral Assets

- (a) Subject as may otherwise be provided for in these Secured Security Conditions or the Final Terms, in effecting the sales, the Disposal Agent (on behalf of the Security Trustee) may sell Collateral Assets in one single transaction or in a number of transactions as it considers appropriate in order to attempt reasonably to maximise the proceeds from such sale. The Disposal

Agent may effect sales of Collateral Assets (i) on any securities exchange or quotation service on which the Collateral Assets may be listed or quoted, (ii) in the over-the-counter market or (iii) in transactions otherwise than on such exchanges or in the over-the counter market.

- (b) Where the Disposal Agent is required or requested to dispose of any Collateral Assets other than on any securities exchange or quotation service on which the Collateral Assets may be listed or quoted then:
 - (i) the Disposal Agent shall seek firm bid quotations from at least three independent dealers in assets similar in nature to the relevant Collateral Assets (and, for such purpose, it may seek quotations in respect of such Collateral Assets in their entirety or in respect of a designated part or proportion thereof, as it considers appropriate in order to maximise the proceeds of the sale of such Collateral Assets);
 - (ii) for the purposes of obtaining the quotations referred to in (i) above, the Disposal Agent or any Third Party Bidder may itself provide a bid in respect of the relevant Collateral Assets or any part or proportion thereof; and
 - (iii) the Disposal Agent shall be authorised to accept in respect of each relevant part or proportion of the Collateral Assets or, as applicable, the entirety of the relevant Collateral Assets the highest quotation so obtained (which may be a quotation from the Disposal Agent (when providing such quotations itself, the Disposal Agent shall act in a commercially reasonable manner).
- (c) In circumstances where the Disposal Agent cannot act in accordance with this Secured Security Condition 6.6, or does not do so within a reasonable time, the Security Trustee shall effect any sales of the Collateral Assets in accordance with the Security Trust Deed (or may appoint an agent to do so on its behalf).

6.7 Inability to Realise Collateral Assets

If the Disposal Agent is unable to sell Collateral Assets on any securities exchange or quotation service on which such Collateral Assets may be listed or quoted or obtain the three quotations required for the sale of one or more Collateral Assets, in each case pursuant to Secured Security Condition 6.6 (*Method of realisation of Collateral Assets*), for a period of one year from the date of the relevant Secured Security Acceleration Event (such Collateral Assets being **Non-Realised Collateral Assets**), then in lieu of cash settlement of such Non-Realised Collateral Assets and notwithstanding any other provision hereof, the Security Trustee (itself or acting through an agent) shall be entitled to Deliver, or procure the Delivery of, such Non-Realised Collateral Assets to the relevant holders of the Placed Securities in accordance with Secured Security Condition 6.8 (*Physical Delivery of Collateral Assets on Enforcement*) and the Order of Priority specified in the applicable Final Terms.

If Delivery of any Non-Realised Collateral Assets is illegal, impossible or impracticable due to the occurrence of a Physical Delivery of Collateral Assets Disruption Event for a period of greater than 20 Collateral Business Days, (a) the Disposal Agent (or failing which the Security Trustee or an agent appointed on its behalf) shall be entitled to sell such Non-Realised Collateral Assets by accepting the first available price for such Non-Realised Collateral Assets or (b) the Security Trustee (itself or acting through an agent) shall Deliver such Non-Realised Collateral Assets if Delivery subsequently becomes possible, legal or practicable, as the case may be.

6.8 Physical Delivery of Collateral Assets on Enforcement

- (a) Where Physical Delivery of Collateral Assets on Enforcement is specified in the applicable Final Terms, following Enforcement, the Security Trustee (itself or acting through an agent) will determine the Collateral Assets Entitlement in respect of each Secured Security and shall notify such amounts to the Securityholders in accordance with General Condition 14 (*Notices*).
- (b) The Security Trustee will:

- (i) upon transfer by the holders of the Placed Securities to the Security Trustee of sufficient funds to pay amounts equal to (A) any amounts payable to the Secured Parties ranking prior to the holders in accordance with the Order of Priority specified in the applicable Final Terms and (B) where the Hedge Amount is a positive sum (as determined in accordance with General Condition 6.8 (*Redemption Amounts*)), the value of the Hedge Amount, in the case of the amounts at (A), pay such amounts to such Secured Parties in accordance with the Order of Priority specified in the applicable Final Terms and, in the case of the Hedge Amount, pay an amount equal to the absolute value of the Hedge Amount to the Issuer; or
- (ii) where holders of the Placed Securities have not elected to make a transfer for the purposes of Secured Security Condition 6.8(b)(i), realise, or procure that the Disposal Agent realises and liquidates sufficient Collateral Assets in accordance with Secured Security Condition 6.6 (*Method of realisation of Collateral Assets*) with a value equal to the amounts described in Secured Security Conditions 6.8(b)(i)(A) and (B) and pay such amounts to the Secured Parties and the Issuer, respectively, in accordance with the Order of Priority specified in the applicable Final Terms.

Following such payments, the Security Trustee will notify Securityholders of the relevant Collateral Delivery Date and, subject to Secured Security Condition 6.9 (*Physical Delivery of Collateral Assets Disruption Event*), will Deliver the Collateral Assets Entitlement to the holders of the Placed Securities secured by the relevant Collateral Pool in accordance with Secured Security Condition 6.9 (*Physical Delivery of Collateral Assets Disruption Event*) in lieu of the Amount Owed pursuant to Secured Security Condition 6.1 (*Acceleration and Enforcement of Collateral*).

- (c) A holder of Placed Securities is only entitled to receive its Collateral Assets Entitlement and Delivery thereof is subject to the provisions of Secured Security Condition 6.10 (*Physical Delivery Procedures*). Any remaining Collateral Assets will be liquidated by the Security Trustee and the proceeds thereof distributed in accordance with the Security Trust Deed to the Secured Parties ranking after the holders of the Placed Securities in accordance with the Order of Priority specified in the applicable Final Terms.
- (d) Where the Collateral Assets Entitlement for a particular Secured Security is less than the Amount Owed (such loss amount being a **Collateral Enforcement Loss Amount**), such holder of the Placed Securities may claim any payment of such Collateral Enforcement Loss Amount from the Guarantor under the Guarantee.

6.9 Physical Delivery of Collateral Assets Disruption Event

- (a) If, in the opinion of the Security Trustee, Delivery of all or some of the Collateral Assets forming part of the Collateral Assets Entitlement using the method of delivery specified in the applicable Final Terms, or such other commercially reasonable manner as the Security Trustee has determined, is not practicable by reason of a Physical Delivery of Collateral Assets Disruption Event having occurred and continuing on any Collateral Delivery Date, then such Collateral Delivery Date shall be postponed to the first following Collateral Business Day in respect of which there is no such Physical Delivery of Collateral Assets Disruption Event, provided that the Security Trustee may elect in its sole discretion to Deliver the Collateral Assets forming part of the Collateral Assets Entitlement in such other commercially reasonable manner as it may select and in such event the Collateral Delivery Date shall be such day as the Security Trustee deems appropriate in connection with delivery of the Collateral Assets forming part of the Collateral Assets Entitlement in such other commercially reasonable manner.

Where a Physical Delivery of Collateral Assets Disruption Event affects some but not all of the Collateral Assets forming part of the Collateral Assets Entitlement due to be Delivered to a holder of Placed Securities, the Collateral Delivery Date for those Collateral Assets forming part of the Collateral Assets Entitlement which are able to be Delivered will be the Collateral Delivery Date on which such Collateral Assets are Delivered.

- (b) If Delivery of any Collateral Assets forming part of the Collateral Assets Entitlement is not possible due to the occurrence of a Physical Delivery of Collateral Assets Disruption Event for a period of greater than 20 Collateral Business Days or such other period specified in the Final Terms (such Collateral Assets, the **Undeliverable Collateral Assets**), then in lieu of physical settlement and notwithstanding any other provision hereof, the Disposal Agent (or failing which the Security Trustee or an agent on its behalf) shall sell or realise the Undeliverable Collateral Assets and deliver the proceeds thereof to holders of the Placed Securities in the manner set out in Secured Security Condition 6.6 (*Method of Realisation of Collateral Assets*).
- (c) If (i) the Disposal Agent (or the Security Trustee or an agent on its behalf, as the case may be) is unable to sell the Collateral Assets on any securities exchange or quotation service on which the Collateral Assets may be listed or quoted or obtain the three quotations required for the sale of the Collateral Assets or (ii) the Security Trustee (itself or acting through an agent) is unable to Deliver such Collateral Assets due to the continuation of a Physical Delivery of Collateral Assets Disruption Event, for a period of one year from the date of the relevant Secured Security Acceleration Event, the Disposal Agent (or the Security Trustee or an agent on its behalf, as the case may be) shall be entitled to accept the first available price for such Collateral Assets.

The Security Trustee shall give notice as soon as practicable to the Securityholders in accordance with General Condition 14 (*Notices*) that a Physical Delivery of Collateral Assets Disruption Event has occurred. No Securityholder shall be entitled to any payment in respect of the relevant Secured Securities in the event of any delay in the Delivery of the Collateral Assets forming part of the Collateral Assets Entitlement due to the occurrence of a Physical Delivery of Collateral Assets Disruption Event and no liability in respect thereof shall attach to the Issuer, any Third Party Chargor, the Guarantor or the Security Trustee.

Notwithstanding the foregoing, if "Essential Trigger" is specified in the applicable Final Terms as being applicable, General Condition 12.3(f) will apply.

6.10 Physical Delivery Procedures

7 SEGREGATION OF COLLATERAL POOLS AND LIMITED RECOURSE

7.1 Limited Recourse

By acquiring and holding Secured Securities issued by either, Crédit Agricole CIB FS or Crédit Agricole CIB FL, Securityholders will be deemed to acknowledge and agree that the obligations of the relevant Issuer to the Securityholders are limited in recourse to the Collateral Assets contained in the relevant Collateral Pool securing such Series of Secured Securities (or in the case of a Series (Shared Collateral), the Series Proportion of the Collateral Assets contained in the relevant Pool) after application of any amounts to be paid in priority to the holders of the relevant Series in accordance with the Order of Priority. If:

- (a) there are no relevant Collateral Assets in the relevant Collateral Pool remaining, which are capable of being realised or otherwise converted into, cash;

- (b) all amounts available from the relevant Collateral Assets in the relevant Collateral Pool have been applied to meet or provide for the relevant obligations specified in, and in accordance with, the provisions of the relevant Pledge Agreement and these Secured Security Conditions; and
- (c) there are insufficient amounts available from the relevant Collateral Assets in the relevant Collateral Pool to pay in full, in accordance with the provisions of the relevant Pledge Agreement and these Secured Security Conditions, amounts outstanding under the Secured Securities (including payments of nominal, premium (if any) and interest),

then the Securityholders of Secured Securities issued by either, Crédit Agricole CIB FS or Crédit Agricole CIB FL shall have no further claim against the relevant Issuer or any Third Party Chargor in respect of any amounts owing to them which remain unpaid (including payments of nominal, premium (if any) and/or interest in respect of the Securities).

In particular, no Securityholder shall be entitled to have recourse to the Collateral Assets contained in a Collateral Pool other than, in the case of the holders of the Placed Securities, the Collateral Pool that secures the Secured Securities held by such Securityholder.

In such a scenario, Securityholders will continue to be able to claim under the terms of the Guarantee against the Guarantor for any unpaid amounts.

This Secured Condition 7 does not apply to Secured Securities issued by Crédit Agricole CIB and as such, does not limit any recourse Securityholders may have to Crédit Agricole CIB in respect of any such Secured Securities.

8 COLLATERAL DISRUPTION EVENTS

Upon the occurrence, as determined by the Issuer or the Collateral Manager, or the Collateral Monitoring Agent, in each case acting in good faith, of a Collateral Disruption Event, the Issuer shall give notice to the Securityholders in accordance with General Condition 14 (*Notices*) and may redeem all but not some only of the Secured Securities of the relevant Series at the Early Redemption Amount on the date specified by the Issuer in the notice to Securityholders.

If "Collateral Disruption Events – Securityholder Direction" is specified in the Final Terms as applying to a Series of Secured Securities, upon notification by the Issuer of the occurrence of a Collateral Disruption Event, the Securityholders of the affected Series of Secured Securities may, pursuant to an Extraordinary Resolution (or, in the case of a Series (Shared Collateral), pursuant to an Extraordinary Resolution from the Securityholders of each Series (Shared Collateral) which is secured on the same Collateral Pool) which is passed by no later than the 30th Business Day following the date of such notice from the Issuer, direct the Issuer to redeem the relevant Secured Securities. In such case, the Issuer will redeem all but not some only of the Secured Securities of the relevant Series (Solo Collateral) or Series (Shared Collateral) at the Early Redemption Amount on the date falling 15 Business Days after the date of the last such Extraordinary Resolution to be passed. If the Issuer fails to redeem the Secured Securities in such circumstances and a Series (Shared Collateral) is so accelerated and a Collateral Enforcement Notice is delivered to the Security Trustee, every Series (Shared Collateral) that is secured on the same Collateral Pool shall be immediately due and repayable and the security shall be enforced in respect of all such Series.

Notwithstanding the foregoing, if "Essential Trigger" is specified in the applicable Final Terms as being applicable, General Conditions 6.8 and 12.3(f) will apply.

9 RELEASE OF SECURITY

The security constituted by the Pledge Agreement and the Security Trust Deed will be released:

- (a) in relation to Collateral Assets that are withdrawn from the Collateral Account in accordance with Secured Security Condition 4.4 (*Collateral Monitoring and Adjustments to Collateral Assets*) or Secured Security Condition 4.5 (*Substitution of Collateral Assets*);

- (b) on satisfaction of the Issuer's obligations secured thereunder, provided that, where Physical Settlement applies with respect to any Credit Linked Security in accordance with Credit Linked Condition 4 (*Physical Settlement*) or with respect to any Bond Linked Security in accordance with Bond Linked Condition 4 (*Physical Settlement*) and the Issuer intends to Deliver some or all of the relevant Collateral Assets in satisfaction of its obligation to Deliver Deliverable Obligations under Credit Linked Condition 4 or Bonds under Bond Linked Condition 4, as the case may be, such security will be released simultaneously on Delivery of such Deliverable Obligations or Bonds, as the case may be; and
- (c) in the case of a partial redemption of the Bond Linked Securities pursuant to Bond Linked Condition 2.2 (*Redemption following the occurrence of a Bond Event Determination Date*), over the proportion of Collateral Assets that corresponds to the proportion of the outstanding Bond Nominal Amount being partially redeemed (such proportion the "**Released Collateral Assets**"). For the purposes of this Secured Security Condition 9(c): (i) such security shall be released concurrently with the partial redemption of the relevant Bond Linked Securities on the relevant Cash Settlement Date; and (ii) the Pledgor may withdraw the Released Collateral Assets from the relevant Collateral Account at any time from and including the release of such security.

2 DESCRIPTION OF THE PREFERENCE SHARE ISSUER AND THE PREFERENCE SHARES

The following is a summary description of the Preference Share Issuer and the Preference Shares.

2.1 The Preference Share Issuer

The Preference Share Issuer will be Broadwalk Investments Limited, a private company limited by shares incorporated under the Companies Act 2006 on 24 December 2019, with registered number 12377488. The registered office of the Preference Share Issuer is in England and Wales: 35 Great St. Helen's, London, EC3A 6AP, United Kingdom.

A copy of the Preference Share Issuer's constitutional documents, its audited, non-consolidated annual financial statements, when published, and the Terms of the Preference Shares (as defined below) are available (free of charge) from the registered office of the Preference Share Issuer and from the Principal Paying Agent. If specified in the Final Terms, the Terms of the Preference Shares will also be available from a website specified in the applicable Final Terms.

The sole business activity of the Preference Share Issuer is to issue redeemable preference shares. Accordingly, the Preference Share Issuer does not have any trading assets and does not generate any significant net income.

2.2 The Preference Shares

The Preference Share Issuer may issue redeemable preference shares of any kind, including but not limited to preference shares linked to a specified index or basket of indices, share or basket of shares, exchange traded funds, currency or basket of currencies, debt instrument or basket of debt instruments, commodity or basket of commodities or to such other underlying instruments, bases of reference or factors (the **Preference Share Underlying**) and on such terms as may be determined by the Preference Share Issuer and specified in the applicable specific terms and conditions of the relevant series of preference shares (the **Terms of the Preference Shares**).

The Terms of the Preference Shares provide that the applicable Preference Shares will be redeemable on their final redemption date at a defined amount as determined in accordance with these Preference Share Linked Conditions. Preference Shares do not carry voting rights except to consider any proposal to vary or amend the rights attached to the relevant Preference Shares or in relation to the winding up of the Preference Share Issuer.

The Terms of the Preference Shares may also provide that the Preference Share Issuer may redeem the Preference Shares early (a **Preference Share Early Termination Event**) if:

- (a) the determination agent for the Preference Shares (the **Preference Share Determination Agent**) determines that, for reasons beyond the Preference Share Issuer's control, the performance of the Preference Share Issuer's obligations under the Preference Shares has become illegal or impractical in whole or in part for any reason; or

- (b) the Preference Share Determination Agent determines that certain events which affect the Preference Share Issuer's hedging arrangements or the Preference Share Underlying(s) have occurred, as specified in the Terms of the Preference Shares; or
- (c) the Preference Share Determination Agent determines there is a change in applicable law or regulation that in the determination of the Preference Share Determination Agent results, or will result, by reason of the Preference Shares being outstanding, in the Preference Share Issuer being required to be regulated by any additional regulatory authority, or being subject to any additional legal requirement or regulation or tax considered by the Preference Share Determination Agent or the Preference Share Issuer to be onerous to the Preference Share Issuer.

If the Issuer receives a notice from the Preference Share Issuer of the early redemption of the Preference Shares, the Issuer will notify holders of the Preference Share Linked Securities in accordance with General Condition 14 (*Notices*) and each Preference Share Linked Security will be redeemed at its Early Redemption Amount.

The performance of the Preference Shares depends on the performance of the Preference Share Underlying to which the Preference Shares are linked. In determining the value of the Preference Shares, the Preference Share Determination Agent shall employ the calculation procedure and methodology set out in the applicable Terms of the Preference Shares.

The value of the Preference Shares will be published on an internationally recognised published or electronically displayed price source, as specified in the applicable Final Terms.

- (B) Each Issuer has executed an English law governed deed of covenant and an Irish law governed deed of covenant dated the Programme Date (referred to herein the **Deeds of Covenant**) relating to Global Securities issued pursuant to the Programme Agreement.
- (C) The Issuers and Crédit Agricole Corporate and Investment Bank (in its capacity as issuer and guarantor) have entered into an amended and restated agency agreement (the **Agency Agreement**, which expression includes the same as it may be amended, supplemented or restated from time to time) dated the Programme Date with the agents named therein.

NOW THIS DEED WITNESSES as follows:

1 Guarantee

In respect of Securities for which “English law” has been specified as governing law for the Guarantee in the Final Terms, the Guarantor irrevocably and unconditionally guarantees by way of deed poll to each Securityholder that, if for any reason, an Issuer does not pay any sum payable by it to such Securityholder in respect of any Security or Coupon or under the Deeds of Covenant or, in the event that any Physical Settlement Amount (as defined in ETF Linked Asset Condition 2 (*General Definitions relating to ETF Linked Securities*)) in respect of ETF Linked Securities, Share Linked Asset Condition 2 (*General*

Definitions relating to Share Linked Securities) in respect of Share Linked Securities, Credit Linked Condition 4 (*Physical Settlement*) in respect of Credit Linked Securities and Bond Linked Condition 6 (*Definitions*) in respect of Bond Linked Securities) falls to be delivered under the Conditions, fails to pay and deliver such Physical Settlement Amounts in accordance with the Conditions, as the case may be, (including any premium or any other amounts of whatever nature or additional amounts which may become payable under any of the foregoing) as and when the same shall become due under any of the foregoing, the Guarantor will within fourteen (14) Business Days after receipt of written notice pay to such Securityholder the amount payable by the relevant Issuer to such Securityholder, or deliver any Physical Settlement Amounts to be paid and delivered in accordance with the Conditions by the relevant Issuer to such Securityholder provided that, where such amounts relate to a Secured Security and are payable or deliverable, as the case may be, following a Secured Security Event of Default, such amounts shall only become payable or deliverable by the Guarantor under this Guarantee following distribution of the related Collateral Enforcement Proceeds Share or Collateral Assets Entitlement, as the case may be, by the Security Trustee in accordance with the applicable Order of Priority. This Guarantee shall apply to all Securities issued by the Issuer on or after the Programme Date for which “English law” has been specified as governing law for the Guarantee in the Final Terms and all references herein to Securities shall be construed accordingly. Securities issued by the Issuer prior to the Programme Date shall continue to have the benefit of the Previous Guarantee or, if applicable, any deed of guarantee preceding the Previous Guarantee.

2 GUARANTOR AS PRINCIPAL DEBTOR

Without affecting the relevant Issuer's obligations, the Guarantor will be liable under this Guarantee as if it were the sole principal debtor and not merely a surety. Accordingly, it will not be discharged, nor will its liability be affected, by anything which would not discharge it or affect its liability if it were the sole principal debtor (including (a) any time, indulgence, waiver or consent at any time given to the relevant Issuer or any other person, (b) any amendment to any Security, any Coupon or the Deeds of Covenant or to any security or other guarantee or indemnity, (c) the making or absence of any demand on the relevant Issuer or any other person for payment, (d) the enforcement or absence of enforcement of any Security, any Coupon, the Deeds of Covenant or of any security or other guarantee or indemnity, (e) the release of any such security, guarantee or indemnity, (f) the dissolution, amalgamation, reconstruction or reorganisation of the relevant Issuer or any other person or (g) the illegality, invalidity or unenforceability of or any defect in any provision of any Security, any Coupon or the Deeds of Covenant or any of the relevant Issuer's obligations under any of them).

3 GUARANTOR'S OBLIGATIONS CONTINUING

Subject as provided below, the Guarantor's obligations under this Guarantee are and will remain in full force and effect by way of continuing security until no sum remains payable under any Security, any Coupon or the Deeds of Covenant. Furthermore, these obligations of the Guarantor are additional to, and not instead of, any security or other guarantee or indemnity at any time existing in favour of a Securityholder, whether from the Guarantor or otherwise. The Guarantor irrevocably waives all notices and demands whatsoever. Notwithstanding the foregoing, the Guarantor's liability under this Guarantee in relation to any Series of Securities shall be extinguished automatically and in full following the replacement and substitution of the Issuer of such Series of Securities pursuant to General Condition 17 (*Substitution or Addition of an Issuer*) by a Substituted Debtor.

4 REPAYMENT TO THE RELEVANT ISSUER

If any payment received by a Securityholder is, on the subsequent liquidation or insolvency of the relevant Issuer, avoided under any laws relating to liquidation or insolvency, such payment will not be considered as having discharged or diminished the liability of the Guarantor and this Guarantee will continue to apply as if such payment had at all times remained owing by the relevant Issuer.

5 INDEMNITY

As a separate and alternative stipulation, the Guarantor unconditionally and irrevocably agrees that any sum expressed to be payable by the relevant Issuer under any Security, any Coupon or the Deeds of

Covenant but which is for any reason (whether or not now known or becoming known to the relevant Issuer, the Guarantor or any Securityholder) not recoverable from the Guarantor on the basis of a guarantee will nevertheless be recoverable from it as if it were the sole principal debtor and will be paid by it to the Securityholder within fourteen (14) Business Days after receipt of written notice. This indemnity constitutes a separate and independent obligation from the other obligations in this Guarantee, gives rise to a separate and independent cause of action and will apply irrespective of any indulgence granted by any Securityholder.

6 STATUS OF GUARANTEE

The Guarantee will constitute an unconditional and unsecured obligation of the Guarantor and ranks (save for statutorily preferred exceptions) *pari passu* with any other existing or future unsecured and senior preferred obligations of the Guarantor.

7 INCORPORATION OF CONDITIONS

So long as any of the Securities, Receipts or Coupons remains outstanding (as defined in the Agency Agreement) the Guarantor will comply with the provisions applicable to it in the Conditions of the Securities as though the same were set out in full herein.

8 POWER TO EXECUTE

The Guarantor hereby warrants, represents and covenants with each Securityholder that it has all corporate power, and has taken all necessary corporate or other steps, to enable it to execute, deliver and perform this Guarantee, and that this Guarantee constitutes a legal, valid and binding obligation of the Guarantor in accordance with its terms.

9 DEPOSIT OF GUARANTEE

This Guarantee shall take effect as a Deed Poll for the benefit of the Securityholders from time to time and for the time being. This Guarantee shall be deposited with and held by CACEIS Bank, Luxembourg Branch, for the benefit of the Securityholders until all the obligations of the Guarantor have been discharged in full.

10 PRODUCTION OF GUARANTEE

The Guarantor hereby acknowledges the right of every Securityholder to the production of, and the right of every Securityholder to obtain (upon payment of a reasonable charge) a copy of, this Guarantee, and further acknowledges and covenants that the obligations binding upon it contained herein are owed to, and shall be for the account of, each and every Securityholder, and that each Securityholder shall be entitled severally to enforce the said obligations against the Guarantor.

11 SUBROGATION

Until all amounts which may be payable under the Securities, the Coupons and/or the Deeds of Covenant have been irrevocably paid in full, the Guarantor shall not by virtue of this Guarantee be subrogated to any rights of any Securityholder or claim in competition with the Securityholders against the relevant Issuer.

12 CONTRACTS (RIGHTS OF THIRD PARTIES) ACT 1999

No rights are conferred on any person under the Contracts (Rights of Third Parties) Act 1999 to enforce any term of this Guarantee, but this does not affect any right or remedy of any person, which exists or is available apart from that Act.

13 GOVERNING LAW AND JURISDICTION

13.1 This Guarantee and any non-contractual obligations arising out of or in connection with the Guarantee are governed by and shall be construed in accordance with English law. The Guarantor and each

Securityholder hereby agree that the English courts are to have exclusive jurisdiction to settle any disputes which may arise out of or in connection with this Guarantee and that accordingly any suit, action or proceedings (together referred to as **Proceedings**) arising out of or in connection with this Guarantee shall be brought in such courts.

- 13.2** The Guarantor hereby appoints Crédit Agricole Corporate and Investment Bank, London branch, at its registered office for the time being in England (being presently at Broadwalk House, 5 Appold Street, London EC2A 2DA) as its agent for service of process in England in respect of any Proceedings and undertakes that in the event of it ceasing so to act it will appoint another person as its agent for that purpose.

14 BAIL-IN

14.1 Acknowledgement

As of 10 November 2020 (last rating action) Fitch Ratings has assigned the following Ratings:

- Short Term IDR: F1+

A short term issuer default rating (**IDR**) issued by Fitch reflects a financial institution's vulnerability to default in the short term. For financial institutions and most other issuers, the "short term" typically means up to 13 months. An 'F1' rating indicates the strongest intrinsic capacity for timely payment of financial commitments; may have an added "+" to denote any exceptionally strong credit feature.

- Long Term IDR: AA-, negative outlook

A long term IDR issued by Fitch in respect of a financial institution expresses Fitch's opinion on that institution's relative vulnerability to default on its financial obligations. In accordance with Fitch's rating definitions, the default risk addressed by the IDR is generally that of the financial obligations whose non-payment would "best reflect the uncured failure of that entity". Fitch considers that the obligations of financial institutions whose non-payment would best reflect uncured failure are usually senior obligations to third-party, non-government creditors. IDRs of financial institutions therefore typically opine on the probability of default on such obligations. An 'AA' rating denotes expectations of very low default risk. They indicate very strong capacity for payment of financial commitments. This capacity is not significantly vulnerable to foreseeable events.

The Fitch Ratings group of companies established in the EU, which includes Fitch Ratings Limited, was registered on 31 October 2011 in accordance with the CRA Regulation.

As of 19 September 2019 (last rating action) Moody's Investors Service Ltd has assigned the following Ratings:

- Short Term Debt: Prime-1
- Long Term Debt: Aa3, stable outlook

Ratings assigned on Moody's global long-term and short-term rating scales are forward-looking opinions of the relative credit risks of financial obligations issued by non-financial corporates, financial institutions, structured finance vehicles, project finance vehicles, and public sector entities. Long-term ratings are assigned to issuers or obligations with an original maturity of one year or more and reflect both on the likelihood of a default on contractually promised payments and the expected financial loss suffered in the event of default. Short-term ratings are assigned to obligations with an original maturity of thirteen months or less and reflect the likelihood of a default on contractually promised payments.

A 'Prime-1' rating reflects a superior ability to repay short-term obligations. Obligations rated 'Aa' are judged to be of high quality and are subject to very low credit risk. Moody's appends numerical modifiers 1, 2, and 3 to each generic rating classification from Aa through Caa. The modifier 1 indicates that the obligation ranks in the higher end of its generic rating category; the modifier 2 indicates a mid-range ranking; and the modifier 3 indicates a ranking in the lower end of that generic rating category.

Moody's Investors Service Ltd was registered on 31 October 2011 in accordance with the CRA Regulation.

As of 21 October 2020 (last rating action) S&P Rating Services, a division of S&P Global Ratings Europe Limited has assigned the following Ratings:

- Short Term Debt: A-1
- Long Term Debt: A+, negative outlook

S&P's credit ratings express S&P's opinion about the ability and willingness of an issuer to meet its financial obligations in full - and on time. Beyond that, credit ratings can also speak to the credit quality of an individual debt issue and the relative likelihood that the issue may default. Ratings are expressed as letter grades that range from 'AAA' to 'D' (in the case of long term ratings) or 'A-1' to 'D' (in the case of short term ratings) to communicate S&P's opinion of relative level of credit risk.

A short-term obligation rated 'A-1' is rated in the highest category by Standard & Poor's. The obligor's capacity to meet its financial commitment on the obligation is strong. This indicates that the obligor's capacity to meet its financial commitment on these obligations is extremely strong. An long term obligation rated 'A' is somewhat more susceptible to the adverse effects of changes in circumstances and economic conditions than obligations in higher-rated categories. However, the obligor's capacity to meet its financial commitment on the obligation is still strong. The ratings from 'AA' to 'CCC' may be modified by the addition of a plus (+) or minus (-) sign to show relative standing within the major rating categories.

S&P Global Ratings Europe Limited was registered on 31 October 2011 in accordance with the CRA Regulation.

BOOK-ENTRY CLEARANCE SYSTEMS

This section sets out the procedures relating to the clearing of certain Securities.

*The information set out below is subject to any change in or reinterpretation of the rules, regulations and procedures of DTC, Euroclear or Clearstream, Luxembourg (together, the **Clearing Systems**) currently in effect. The information in this section concerning the Clearing Systems has been obtained from sources that the Issuers and the Guarantor believe to be reliable, but none of the Issuers, the Guarantor nor any Dealer takes any responsibility for the accuracy thereof. Investors wishing to use the facilities of any of the Clearing Systems are advised to confirm the continued applicability of the rules, regulations and procedures of the relevant Clearing System. None of the Issuers, the Guarantor nor any other party to the Agency Agreement will have any responsibility or liability for any aspect of the records relating to, or payments made on account of, beneficial ownership interests in the Securities held through the facilities of any Clearing System or for maintaining, supervising or reviewing any records relating to such beneficial ownership interests.*

Book-entry Systems

DTC

DTC has advised the relevant Issuer that it is a limited purpose trust company organised under the New York Banking Law, a "banking organisation" within the meaning of the New York Banking Law, a "clearing corporation" within the meaning of the New York Uniform Commercial Code and a "clearing agency" registered pursuant to Section 17A of the Exchange Act. DTC holds securities that its participants (**Participants**) deposit with DTC. DTC also facilitates the settlement among Participants of securities transactions, such as transfers and pledges, in deposited securities through electronic computerised book-entry changes in Participants' accounts, thereby eliminating the need for physical movement of securities certificates. Direct Participants include securities brokers and dealers, banks, trust companies, clearing corporations and certain other organisations. DTC is owned by a number of its Direct Participants and by the New York Stock Exchange, Inc., the American Stock Exchange, Inc. and the National Association of Securities Dealers, Inc. Access to the DTC System is also available to others such as securities brokers and dealers, banks and trust companies that clear through or maintain a custodial relationship with a Direct Participant, either directly or indirectly (**Indirect Participants**).

Under the rules, regulations and procedures creating and affecting DTC and its operations (the **Rules**), DTC makes book-entry transfers of Registered Securities among Direct Participants on whose behalf it acts with respect to U.S. Securities accepted into DTC's book-entry settlement system (**DTC Securities**) as described below and receives and transmits distributions of nominal and interest on DTC Securities. The Rules are on file with the Securities and Exchange Commission. Direct Participants and Indirect Participants with which beneficial owners of DTC Securities (**Owners**) have accounts with respect to the DTC Securities similarly are required to make book-entry transfers and receive and transmit such payments on behalf of their respective Owners. Accordingly, although Owners who hold DTC Securities through Direct Participants or Indirect Participants will not possess Registered Securities, the Rules, by virtue of the requirements described above, provide a mechanism by which Direct Participants will receive payments and will be able to transfer their interest in respect of the DTC Securities.

Purchases of DTC Securities under the DTC system must be made by or through Direct Participants, which will receive a credit for the DTC Securities on DTC's records. The ownership interest of each actual purchaser of each DTC Security (**Beneficial Owner**) is in turn to be recorded on the Direct and Indirect Participant's records. Beneficial Owners will not receive written confirmation from DTC of their purchase, but Beneficial Owners are expected to receive written confirmations providing details of the transaction, as well as periodic statements of their holdings, from the Direct or Indirect Participant through which the Beneficial Owner entered into the transaction. Transfers of ownership interests in the DTC Securities are to be accomplished by entries made on the books of Participants acting on behalf of Beneficial Owners. Beneficial Owners will not receive certificates representing their ownership interests in DTC Securities, except in the event that use of the book-entry system for the DTC Securities is discontinued.

To facilitate subsequent transfers, all DTC Securities deposited by Participants with DTC are registered in the name of DTC's partnership nominee, Cede & Co. The deposit of DTC Securities with DTC and their registration in the name of Cede & Co. effect no change in beneficial ownership. DTC has no knowledge of the actual Beneficial Owners of the DTC Securities; DTC's records reflect only the identity of the Direct Participants to

whose accounts such DTC Securities are credited, which may or may not be the Beneficial Owners. The Participants will remain responsible for keeping account of their holdings on behalf of their customers.

Conveyance of notices and other communications by DTC to Direct Participants, by Direct Participants to Indirect Participants, and by Direct Participants and Indirect Participants to Beneficial Owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time.

Redemption notices shall be sent to Cede & Co. If less than all of the DTC Securities within an issue are being redeemed, DTC's practice is to determine by lot the amount of the interest of each Direct Participant in such issue to be redeemed.

Neither DTC nor Cede & Co. will consent or vote with respect to DTC Securities. Under its usual procedures, DTC mails an omnibus proxy to the relevant Issuer as soon as possible after the record date. The omnibus proxy assigns Cede & Co.'s consenting or voting rights to those Direct Participants to whose accounts the DTC Securities are credited on the record date (identified in a listing attached to the omnibus proxy).

Nominal and interest payments on the DTC Securities will be made to DTC. DTC's practice is to credit Direct Participants' accounts on the due date for payment in accordance with their respective holdings shown on DTC's records unless DTC has reason to believe that it will not receive payment on the due date. Payments by Participants to Beneficial Owners will be governed by standing instructions and customary practices, as is the case with securities held for the accounts of customers in bearer form or registered in "street name", and will be the responsibility of such Participant and not of DTC or the relevant Issuer, subject to any statutory or regulatory requirements as may be in effect from time to time. Payment of nominal and interest to DTC is the responsibility of the relevant Issuer, disbursement of such payments to Direct Participants is the responsibility of DTC, and disbursement of such payments to the Beneficial Owners is the responsibility of Direct and Indirect Participants.

Under certain circumstances, including if there is an Event of Default under the U.S. Securities, DTC will exchange the DTC Securities for Definitive Registered Securities, which it will distribute to its Participants in accordance with their proportionate entitlements and which, if representing interests in a Rule 144A Global Security, will be legended as set forth under "*Subscription and Sale*".

Since DTC may only act on behalf of Direct Participants, who in turn act on behalf of Indirect Participants, any Owner desiring to pledge DTC Securities to persons or entities that do not participate in DTC, or otherwise take actions with respect to such DTC Securities, will be required to withdraw its Registered Securities from DTC as described below.

The address of DTC is 55 Water Street, New York NY 10041-0099, USA.

Euroclear UK & Ireland Limited

Following their delivery into a clearing system, interests in Securities may be delivered, held and settled in Euroclear UK & Ireland Limited (formerly known as CRESTCo Limited) (**CREST**) by means of the creation of dematerialised depository interests (**CREST Depository Interests**) representing the interests in the relevant Securities (**Underlying Securities**). Such delivery, holding and settlement is governed, *inter alia*, by the terms of the CREST Manual issued by CREST (as the same may be amended, modified, varied or supplemented from time to time, the **CREST Manual**). The CREST Depository Interests will be issued by CREST Depository Limited or any successor thereto (the **CREST Depository**) to holders of the CREST Depository Interests and will be constituted and governed by English law. CREST International Nominees Limited or another entity appointed to act as nominee in accordance with the CREST Deed Poll (as defined below) (the **CREST Nominee**) will hold the legal title to the Underlying Securities and the direct enforcement right in respect of the Underlying Securities.

The CREST Depository Interests will represent indirect interests in the interest of the CREST Nominee in the Underlying Securities. Pursuant to the CREST Manual, Securities held in global form by the Common Depository may be settled through CREST, and the CREST Depository will issue CREST Depository Interests. The CREST Depository Interests will be independent securities which may be held and transferred through CREST.

Interests in the Underlying Securities will be credited to the CREST Nominee's account with Euroclear and the CREST Nominee will hold such interests as nominee for the CREST Depository which will issue CREST Depository Interests to the relevant CREST participants.

Each CREST Depository Interest will be treated by the CREST Depository as if it were one Underlying Security, for the purposes of determining all rights and obligations and all amounts payable in respect thereof. The CREST Depository will pass on to holders of CREST Depository Interests any interest or other amounts received by it as holder of the Underlying Securities on trust for such holder. Holders of CREST Depository Interests will also be able to receive from CREST notices of meetings of holders of Underlying Securities and other relevant notices issued by the Issuer.

Transfers of interests in Underlying Securities by a CREST participant to a participant of Euroclear or Clearstream, Luxembourg will be effected by cancellation of the CREST Depository Interests and transfer of an interest in such Securities underlying the CREST Depository Interests to the account of the relevant participant with Euroclear or Clearstream, Luxembourg. The CREST Depository Interests will have the same ISIN as the ISIN of the Underlying Securities and will not require a separate listing on the Official List of Euronext Dublin or the Official List of the FCA.

Holders of CREST Depository Interests are referred to Chapter 8 of the CREST International Manual (as contained in the CREST Manual) which contains the form of the CREST Deed Poll to be entered into by the CREST Depository (the **CREST Deed Poll**). The rights of the holder of CREST Depository Interests will be governed by the arrangements between CREST, Euroclear, Clearstream, Luxembourg and the Issuer including the CREST Deed Poll executed by the CREST Depository. These rights may be different from those of holders of Securities which are not represented by CREST Depository Interests.

If issued, CREST Depository Interests will be delivered, held and settled in CREST, by means of the CREST International Settlement Links Service (the **CREST International Settlement Links Service**). The settlement of the CREST Depository Interests by means of the CREST International Settlement Links Service has the following consequences for holders of CREST Depository Interests:

- (i) holders of CREST Depository Interests will not be the legal owners of the Underlying Securities. The CREST Depository Interests are separate legal instruments from the Underlying Securities to which they relate and represent an indirect interest in such Underlying Securities;
- (ii) the Underlying Securities themselves (as distinct from the CREST Depository Interests representing indirect interests in such Underlying Securities) will be held in an account with a custodian. The custodian will hold the Underlying Securities through a clearing system. Rights in the Underlying Securities will be held through custodial and depository links through the appropriate clearing systems. The legal title to the Underlying Securities or to interests in the Underlying Securities will depend on the rules of the clearing system in or through which the Underlying Securities are held;
- (iii) rights under the Underlying Securities cannot be enforced by holders of CREST Depository Interests except indirectly through the intermediary depositories and custodians described above. The enforcement of rights under the Underlying Securities will therefore be subject to the local law of the relevant intermediary. The rights of holders of CREST Depository Interests to the Underlying Securities are represented by the entitlements against the CREST Depository which (through the CREST Nominee) holds interests in the Underlying Securities. This could result in an elimination or reduction in the payments that otherwise would have been made in respect of the Underlying Securities in the event of any insolvency or liquidation of the relevant intermediary, in particular where the Underlying Securities held in clearing systems are not held in special purpose accounts and are fungible with other securities held in the same accounts on behalf of other customers of the relevant intermediaries;
- (iv) the CREST Depository Interests issued to holders of CREST Depository Interests will be constituted and issued pursuant to the CREST Deed Poll. Holders of CREST Depository Interests will be bound by all provisions of the CREST Deed Poll and by all provisions of or prescribed pursuant to, the CREST International Manual and the CREST Rules applicable to the CREST International Settlement Links Service (in each case as contained in the CREST Manual) and such holders must comply in full with all obligations imposed on them by such provisions;

- (v) the provisions of the CREST Deed Poll and the CREST Manual (including for the avoidance of doubt the provisions of the CREST International Manual and the CREST Rules) contain indemnities, warranties, representations and undertakings to be given by holders of CREST Depository Interests and limitations on the liability of the issuer of the CREST Depository Interests, the CREST Depository;
- (vi) holders of CREST Depository Interests may incur liabilities resulting from a breach of any such indemnities, warranties, representations and undertakings in excess of the money invested by them. The attention of holders is drawn to the terms of the CREST Deed Poll and the CREST Manual (including for the avoidance of doubt the provisions of the CREST International Manual and the CREST Rules), copies of which are available from CREST at 33 Cannon Street, London EC4M 5SB or by calling +44 (0) 207 849 0000 or from the CREST website at: <https://www.euroclear.com/en.html>;
- (vii) holders of CREST Depository Interests may be required to pay fees, charges, costs and expenses to the CREST Depository in connection with the use of the CREST International Settlement Links Service. These will include the fees and expenses charged by the CREST Depository in respect of the provision of services by it under the CREST Deed Poll and any taxes, duties, charges, costs or expenses which may be or become payable in connection with the holding of the Securities through the CREST International Settlement Links Service;
- (viii) neither the Issuer, the Dealers, the Guarantor or the EUI Agent will have any responsibility for the performance by any intermediaries or their respective direct or indirect participants or accountholders of their respective obligations under the rules and procedures governing their operations; and
- (ix) Securities issued in temporary global form exchangeable for a Permanent Global Bearer Security will not be eligible for CREST settlement as CREST Depository Interests. As such, investors investing in the Underlying Securities through CREST Depository Interests will only receive the CREST Depository Interests after such Temporary Bearer Global Security is exchanged for a Permanent Bearer Global Security, which could take up to 40 days after the issue of the Securities.

Book-entry Ownership of and Payments in respect of DTC Securities

The relevant Issuer may apply to DTC in order to have any Tranche of Securities represented by a Registered Global Security accepted in its book-entry settlement system. Upon the issue of any such Registered Global Security, DTC or its custodian will credit, on its internal book-entry system, the respective nominal amounts of the individual beneficial interests represented by such Registered Global Security to the accounts of persons who have accounts with DTC. Such accounts initially will be designated by or on behalf of the relevant Dealer. Ownership of beneficial interests in such a Registered Global Security will be limited to Direct Participants or Indirect Participants, including, in the case of any Regulation S Global Security, the respective depositories of Euroclear and Clearstream, Luxembourg. Ownership of beneficial interests in a Registered Global Security accepted by DTC will be shown on, and the transfer of such ownership will be effected only through, records maintained by DTC or its nominee (with respect to the interests of Direct Participants) and the records of Direct Participants (with respect to interests of Indirect Participants).

Payments in U.S. dollars of nominal and interest in respect of a Registered Global Security accepted by DTC will be made to the order of DTC or its nominee as the registered holder of such Security. In the case of any payment in a currency other than U.S. dollars, payment will be made to the Exchange Agent on behalf of DTC or its nominee and the Exchange Agent will (in accordance with instructions received by it) remit all or a portion of such payment for credit directly to the beneficial holders of interests in the Registered Global Security in the currency in which such payment was made and/or cause all or a portion of such payment to be converted into U.S. dollars and credited to the applicable Participants' account.

The relevant Issuer expects DTC to credit accounts of Direct Participants on the applicable payment date in accordance with their respective holdings as shown in the records of DTC unless DTC has reason to believe that it will not receive payment on such payment date. The relevant Issuer also expects that payments by Participants to beneficial owners of Securities will be governed by standing instructions and customary practices, as is the case with securities held for the accounts of customers, and will be the responsibility of such Participant and not the responsibility of DTC, the Principal Paying Agent, the Registrar or the relevant Issuer. Payment of nominal, premium, if any, and interest, if any, on Securities to DTC is the responsibility of the relevant Issuer.

Transfers of Securities Represented by Registered Global Securities

Transfers of any interests in Securities represented by a Registered Global Security within DTC, Euroclear and Clearstream, Luxembourg will be effected in accordance with the customary rules and operating procedures of the relevant clearing system. The laws in some States within the United States require that certain persons take physical delivery of securities in definitive form. Consequently, the ability to transfer Securities represented by a Registered Global Security to such persons may depend upon the ability to exchange such Securities for Securities in definitive form. Similarly, because DTC can only act on behalf of Direct Participants in the DTC system who in turn act on behalf of Indirect Participants, the ability of a person having an interest in Securities represented by a Registered Global Security accepted by DTC to pledge such Securities to persons or entities that do not participate in the DTC system or otherwise to take action in respect of such Securities may depend upon the ability to exchange such Securities for Securities in definitive form. The ability of any holder of Securities represented by a Registered Global Security accepted by DTC to resell, pledge or otherwise transfer such Securities may be impaired if the proposed transferee of such Securities is not eligible to hold such Securities through a direct or indirect participant in the DTC system.

Subject to compliance with the transfer restrictions applicable to the Registered Securities described under "Subscription and Sale", cross-market transfers between DTC, on the one hand, and directly or indirectly through Clearstream, Luxembourg or Euroclear accountholders, on the other, will be effected by the relevant clearing system in accordance with its rules and through action taken by the Registrar, the Fiscal Principal Paying Agent and any custodian (Custodian) with whom the relevant Registered Global Securities have been deposited.

On or after the Issue Date for any Series, transfers of Securities of such Series between accountholders in Clearstream, Luxembourg and Euroclear and transfers of Securities of such Series between participants in DTC will generally have a settlement date three (3) business days after the trade date (T+3). The customary arrangements for delivery versus payment will apply to such transfers.

Cross-market transfers between accountholders in Clearstream, Luxembourg or Euroclear and DTC participants will need to have an agreed settlement date between the parties to such transfer. Because there is no direct link between DTC, on the one hand, and Clearstream, Luxembourg and Euroclear, on the other, transfers of interests in the relevant Registered Global Securities will be effected through the Registrar, the Principal Paying Agent and the Custodian receiving instructions (and, where appropriate, certification) from the transferor and arranging for delivery of the interests being transferred to the credit of the designated account for the transferee. In the case of cross-market transfers, settlement between Euroclear or Clearstream, Luxembourg accountholders and DTC participants cannot be made on a delivery versus payment basis. The securities will be delivered on a free delivery basis and arrangements for payment must be made separately.

DTC, Clearstream, Luxembourg and Euroclear have each published rules and operating procedures designed to facilitate transfers of beneficial interests in Registered Global Securities among participants and accountholders of DTC, Clearstream, Luxembourg and Euroclear. However, they are under no obligation to perform or continue to perform such procedures, and such procedures may be discontinued or changed at any time. None of the Issuers, the Guarantor, the Agents or any Dealer will be responsible for any performance by DTC, Clearstream, Luxembourg, Euroclear or their respective direct or indirect participants or accountholders of their respective obligations under the rules and procedures governing their operations and none of them will have any liability for any aspect of the records relating to or payments made on account of beneficial interests in the Securities represented by Registered Global Securities or for maintaining, supervising or reviewing any records relating to such beneficial interests.

TAXATION

This section sets out an overview of certain taxation considerations relating to the Securities

The tax legislation of the Securityholders' member state and of the relevant Issuer's country of incorporation may have an impact on the income received from the Securities. All prospective Securityholders should seek independent advice as to their tax position.

In addition, certain provisions of U.S. law, commonly referred to as FATCA, require a 30% withholding tax on certain US source payments as well as certain payments made by non-US entities to persons that fail to meet certain certification, reporting or related requirements. Securityholders should consult their own tax advisers regarding how these rules may apply to their investment in the Securities.

GENERAL TAXATION

Exchange of tax information

The Organisation for Economic Co-operation and Development (**OECD**) has developed a common reporting standard (**CRS**) to achieve a comprehensive and multilateral automatic exchange of information (**AEOI**) on a global basis. On 9 December 2014, Council Directive 2014/107/EU amending Directive 2011/16/EU as regards mandatory automatic exchange of information in the field of taxation (the **Euro-CRS Directive**) was adopted in order to implement the CRS among the member states of the European Union.

Under the CRS Law, the exchange of information will be applied by 30 September of each year for information related to the preceding calendar year. Under the Euro-CRS Directive, the AEOI must be applied by 30 September of each year to the local tax authorities of the Member States for the data relating to the preceding calendar year. In addition, Luxembourg signed the OECD's multilateral competent authority agreement (**Multilateral Agreement**) to automatically exchange information under the CRS. The Multilateral Agreement aims to implement the CRS among non-Member States; it requires agreements on a country-by-country basis.

In the United Kingdom, provisions relating to the disclosure and reporting of information are set out in The International Tax Compliance Regulations 2015. These harmonise the requirements under the CRS, Euro-CRS Directive and FATCA, as discussed below.

DAC 6 Directive

On 25 May 2018, the Council of the European Union adopted the Council Directive 2018/822/EU (the **DAC 6 Directive**) introducing mandatory disclosure rules for intermediaries. Depending on the transposition of the DAC 6 Directive in the domestic laws, the Securities may qualify as "reportable arrangements" based on certain criteria defined by the DAC 6 Directive ("hallmarks") and may be subject to disclosure to the tax authorities.

The French and the other EU Member States' tax authorities can exchange the information automatically within the EU through a centralised database open to all EU Member States' tax authorities and the EU Commission.

TAXATION IN FRANCE

The following is an overview of certain tax considerations in France relating to the Securities that may be issued under the Programme by Crédit Agricole CIB and Crédit Agricole CIB FS only. This overview is based on the tax laws and regulations as in force in France and applied by the French tax authorities at the date of this Base Prospectus, all of which are subject to change or to different interpretation (with possible retroactive effect).

This overview is for general information and does not purport to address all French tax considerations that may be relevant to specific holders of Securities in light of their particular situation. Prospective holders or beneficial owners of the Securities are advised to consult their own appropriate independent and professionally qualified tax advisors as to the tax consequences of any investment in, ownership of, or transactions involving the Securities.

Withholding taxes on Securities issued by Crédit Agricole CIB and Crédit Agricole CIB FS

The withholding tax treatment of the Securities issued by Crédit Agricole CIB and Crédit Agricole CIB FS will depend on their nature and characterisation for French tax purposes.

- (a) *Securities issued by Crédit Agricole CIB or Crédit Agricole CIB FS constituting debt instruments for French tax purposes*
 - (i) *Withholding taxes on payments made outside France*

The following may be relevant to holders of Securities who do not concurrently hold shares in Crédit Agricole CIB or Crédit Agricole CIB FS.

Securities issued by Crédit Agricole CIB or Crédit Agricole CIB FS which are not consolidated (*assimilables* for the purposes of French law) and do not form a single series with securities issued before 1 March 2010

Payments of interest and assimilated income with respect to Securities issued by Crédit Agricole CIB or Crédit Agricole CIB FS which constitute debt instruments for French tax purposes (other than Securities which are consolidated (*assimilables* for the purposes of French law) and form a single series with securities issued prior to 1 March 2010 with the benefit of Article 131 *quater* of the French *Code général des impôts*) will not be subject to the withholding tax provided by Article 125 A III of the French *Code général des impôts* unless such payments are made outside France in a non-cooperative State or territory (*Etat ou territoire non coopératif*) within the meaning of Article 238-0 A of the French *Code général des impôts* (a **Non-Cooperative State**) other than those mentioned in Article 238-0 A, 2 bis, 2° of the French *Code général des impôts*. If such payments under such Securities are made outside France in a Non-Cooperative State other than those mentioned in Article 238-0 A, 2 bis, 2° of the French *Code général des impôts*, a 75 per cent. withholding tax will be applicable (regardless of the tax residence of the holders of Securities and subject to certain exceptions and to the provisions of an applicable double tax treaty) by virtue of Article 125 A, III of the French *Code général des impôts*. The list of Non-Cooperative States is published by a ministerial executive order and is generally updated on an annual basis.

Furthermore, according to Article 238 A of the French *Code général des impôts*, interest and assimilated income with respect to such Securities will not be deductible from Crédit Agricole CIB or Crédit Agricole CIB FS's taxable income if they are paid or accrued to persons domiciled or established in a Non-Cooperative State or paid to an account held with a financial institution established in a Non-Cooperative State (the **Deductibility Exclusion**). Under certain conditions, any such non-deductible interest and assimilated income may be recharacterised as constructive dividends pursuant to Articles 109 *et seq.* of the French *Code général des impôts*, in which case such non-deductible interest and assimilated income may be subject to the withholding tax provided by Article 119 bis 2 of the French *Code général des impôts*, at (a) a rate of 12.8 per cent. for payments benefiting individuals who are not French tax residents, (b) the standard corporate income tax rate set forth in the first sentence of the second paragraph of Article 219-I of the French *Code général des impôts* (i.e. 26.5 per cent. for fiscal years beginning as from 1 January 2021) for payments benefiting legal persons who are not French tax residents or (c) a rate of 75 per cent. for payments made outside France in a Non-Cooperative State other than those mentioned in Article 238-0 A, 2 bis, 2° of the French *Code général des impôts* (subject to certain exceptions and to the provisions of an applicable double tax treaty).

Notwithstanding the foregoing, neither the 75 per cent. withholding tax provided by Article 125 A III of the French *Code général des impôts* nor the Deductibility Exclusion will apply in respect of an issue of Securities if the relevant Issuer can prove that the main purpose and effect of such issue of such Securities were not that of allowing the payments of interest and assimilated income to be made in a Non-Cooperative State (the **Exception**). Pursuant to the official guidelines issued by the French tax authorities (BOI-INT-DG-20-50-30-24/02/2021, no. 150, BOI-RPPM-RCM-30-10-20-40-20/12/2019, BOI-IR-DOMIC-10-20-20-60-20/12/2019, no. 10), an issue of such Securities will benefit from the Exception without the relevant Issuer having to provide any proof of the purpose and effect of such issue of Securities, if such Securities are:

- (a) offered by means of a public offer within the meaning of Article L.411-1 of the French *Code monétaire et financier* or pursuant to an equivalent offer in a State other than a Non-Cooperative State. For this purpose, an "equivalent offer" means any offer requiring the registration or submission of an offer document by or with a foreign securities market authority; and/or

- (b) admitted to trading on a French or foreign regulated market or multilateral securities trading system provided that such market or system is not located in a Non-Cooperative State, and the operation of such market is carried out by a market operator or an investment services provider or any other similar foreign entity, provided further that such market operator, investment services provider or entity is not located in a Non-Cooperative State; and/or
- (c) admitted, at the time of their issue, to the operations of a central depository or of a securities delivery and payment systems operator as referred to in Article L.561-2 of the French *Code monétaire et financier*, or of one or more similar foreign depositories or operators provided that such depository or operator is not located in a Non-Cooperative State.

Securities issued by Crédit Agricole CIB or Crédit Agricole CIB FS which are consolidated (*assimilables* for the purposes of French law) and form a single series with securities issued before 1 March 2010

Payments of interest and assimilated income with respect to Securities issued by Crédit Agricole CIB or Crédit Agricole CIB FS which constitute debt instruments for French tax purposes and which are consolidated (*assimilables* for the purposes of French law) and form a single series with securities issued before 1 March 2010 with the benefit of Article 131 *quater* of the French *Code général des impôts* will be exempt from the withholding tax provided by Article 125 A, III of the French *Code général des impôts*.

Securities issued before 1 March 2010, whether denominated in euro or in any other currency, and constituting *obligations* under French law, or *titres de créances négociables* within the meaning of the official guidelines of the French tax authorities (BOI-RPPM-RCM-30-10-30-30-20/12/2019, no. 50), or other debt securities issued under French or foreign law and considered by the French tax authorities as falling into similar categories, are deemed to be issued outside France for the purpose of Article 131 *quater* of the French *Code général des impôts* pursuant to the above-mentioned guidelines.

In addition, payments of interest or assimilated income with respect to Securities issued by Crédit Agricole CIB or Crédit Agricole CIB FS which constitute debt instruments for French tax purposes, which are issued from 1 March 2010 and which are consolidated (*assimilables for the purpose of French law*) and form a single series with securities issued before 1 March 2010 will be subject neither to the Deductibility Exclusion nor as a result to the withholding tax set out in Article 119 bis 2 of the French *Code général des impôts* solely on account of their being paid to an account held with a financial institution established in a Non-Cooperative State or accrued or paid to persons established or domiciled in a Non-Cooperative State.

(i) *Withholding taxes on payments made to individuals fiscally domiciled in France*

Pursuant to Article 125 A, I of the French *Code général des impôts* (i.e. where the paying agent (*établissement payeur*) is established in France), subject to certain exceptions, interest and assimilated income received by individuals who are fiscally domiciled (*domiciliés fiscalement*) in France are subject to a 12.8 per cent. withholding tax, which is deductible from their personal income tax liability in respect of the year in which the payment has been made. Social contributions (CSG, CRDS and solidarity levy) are also levied by way of withholding at an aggregate rate of 17.2 per cent. on such interest and assimilated income received by individuals who are fiscally domiciled (*domiciliés fiscalement*) in France, subject to certain exceptions.

(b) ***Securities issued by Crédit Agricole CIB or Crédit Agricole CIB FS not constituting debt instruments for French tax purposes***

Payments with respect to Securities issued by Crédit Agricole CIB or Crédit Agricole CIB FS which do not constitute debt instruments for French tax purposes should not be subject to, or should be exempt from, withholding tax in France provided that the relevant holder of such Securities is resident or domiciled in a country which has entered into an appropriate double tax treaty with France and fulfils the relevant requirements set out in such double tax treaty.

Furthermore, payments in respect of such Securities may, in certain circumstances, be non-deductible (in whole or in part) for French tax purposes if they are paid or accrued to persons domiciled or established in a Non-Cooperative State or paid to an account held with a financial institution established in such a Non-Cooperative State. Under certain conditions, and subject to the more favourable provisions of an applicable double tax treaty,

such non-deductible payments may be recharacterised as constructive dividends pursuant to Articles 109 et seq. of the French Code général des impôts and subject to the withholding tax set out under Article 119 bis 2 of the French Code général des impôts at a rate of up to 75 per cent..

Potential purchasers of Securities who are resident or domiciled in a country which has not entered into an appropriate double tax treaty with France or who are domiciled or established in a Non-Cooperative State are advised to consult their own appropriate independent and professionally qualified tax advisors as to the tax consequences of any investment in, ownership of or transactions involving the Securities.

Transfer tax and other taxes

The following may be relevant in connection with Securities which may be settled or redeemed by way of physical delivery of (i) certain French listed shares (or certain assimilated securities) or (ii) securities representing such listed shares (or assimilated securities).

Pursuant to Article 235 ter ZD of the French *Code général des impôts*, a financial transaction tax (the **French FTT**) is applicable to any acquisition for consideration, resulting in a transfer of ownership, of (i) an equity security (*titre de capital*) as defined by Article L.212-1 A of the French *Code monétaire et financier* or an assimilated equity security (*titre de capital assimilé*) as defined by Article L.211-41 of the French *Code monétaire et financier*, admitted to trading on a recognised stock exchange where the said security is issued by a company whose registered office is located in France and whose market capitalisation exceeds 1 billion Euros on 1 December of the year preceding the year in which the imposition occurs (the **French Shares**) or (ii) a security (*titre*) representing the French Shares (irrespective of the location of the registered office of the issuer of such security). The French FTT could apply in certain circumstances to the acquisition of French Shares (or securities representing the French Shares) in connection with the exercise, settlement or redemption of any Securities.

There are a number of exemptions from the French FTT and investors should consult their counsel to identify whether they can benefit from them.

The rate of the French FTT is 0.3 per cent. of the acquisition value of the French Shares (or securities representing the French Shares).

If the French FTT applies to an acquisition of shares, this transaction is exempt from transfer taxes (*droits de mutation à titre onéreux*) which generally apply at a rate of 0.1 per cent. to the sale of shares issued by a company whose registered office is located in France, provided that in case of shares listed on a recognised stock exchange, transfer taxes are due only if the transfer is evidenced by a written deed or agreement.

TAXATION IN LUXEMBOURG

The statements herein regarding withholding tax considerations in Luxembourg are based on the laws in force in the Grand Duchy of Luxembourg as of the date of this Base Prospectus and are subject to any changes in law.

The following information is of a general nature only, is not intended to be, nor should it be construed to be, legal or tax advice, and does not purport to be a comprehensive description of all the Luxembourg tax considerations which may be relevant to a decision to purchase, own or dispose of the Securities. In particular, such information does not describe the tax consequences for a holder of Securities that are redeemable in exchange for, or convertible into, shares. Each prospective holder or beneficial owner of the Securities should consult its tax advisor with respect to particular circumstances, the effects of state, local or foreign laws, including Luxembourg law, to which they may be subject and as to their tax position, as a result of the purchase, ownership and disposition of the Securities.

Please be aware that the residence concept used under the respective headings below applies for Luxembourg income tax assessment purposes only. Any reference in the present section to a withholding tax or a similar tax, or to any other concepts, refers to Luxembourg tax law and/or concepts only.

Withholding tax

Under Luxembourg tax law currently in effect and with the possible exception of interest paid to Luxembourg resident individual holders of the Securities, there is no Luxembourg withholding tax on payments of interest

(including accrued but unpaid interest) or upon repayment of principal or premium in case of reimbursement, redemption, repurchase or exchange of the Securities.

Luxembourg non-residents

Under Luxembourg tax laws currently in effect, there is no Luxembourg withholding tax under the Securities on payments of interest (including accrued but unpaid interest) made to non-resident holders of Securities, nor is any Luxembourg withholding tax payable upon repayment of principal or premium in case of reimbursement, redemption, repurchase or exchange of the Securities.

Luxembourg residents

Subject to the Luxembourg law of 23 December 2005, as amended (the **Relibi Law**), there is under Luxembourg tax laws currently in effect no Luxembourg withholding tax under the Securities on payments of interest (including accrued but unpaid interest) made to resident holders of Securities, nor is any Luxembourg withholding tax payable upon repayment of principal or premium in case of reimbursement, redemption, repurchase or exchange of the Securities.

Under the Relibi Law, payments of interest or similar income made or ascribed by a paying agent established in Luxembourg to an individual beneficial owner who is a resident of Luxembourg are subject to a withholding tax of 20 per cent. as of 1 January 2017. Such withholding tax will be in full discharge of income tax if the beneficial owner is an individual acting in the course of the management of his/her private wealth. Responsibility for the withholding of the tax will be assumed by the Luxembourg paying agent.

ERISA CONSIDERATIONS

Each purchaser or holder of a Security shall be deemed to have represented by such purchase and/or holding that it is not a benefit plan investor, is not using the assets of a benefit plan investor to acquire the Securities, and shall not at any time hold such Securities for or on behalf of a benefit plan investor. For the purposes hereof, "benefit plan investor" means (a) an employee benefit plan (as defined in Section 3(3) of the U.S. Employee Retirement Income Security Act of 1974, as amended, (ERISA)), that is subject to Title I of ERISA (b) a plan described in Section 4975(e)(1) of the U.S. Internal Revenue Code of 1986, as amended, or (c) any entity whose underlying assets include plan assets by reason of a plan's investment in the entity under U.S. Department of Labor Regulations § 2510.3-101 (29 C.F.R. § 2510.3-101), as amended by Section 3(42) of ERISA.

SUBSCRIPTION AND SALE

This section sets out an overview of certain restrictions regarding who can purchase the Securities in certain jurisdictions.

The Dealers have, in an amended and restated programme agreement dated 7 May 2021 (the **Programme Agreement**), agreed with the relevant Issuer a basis upon which they or any of them may from time to time agree to purchase Securities. Any such agreement will extend to those matters stated under "*Form of the Securities*" and "*Terms and Conditions of the Securities*". In the Programme Agreement, the relevant Issuer has agreed to reimburse the Dealers for certain of their expenses in connection with the update of the Programme and the issue of Securities under the Programme and to indemnify the Dealers against certain liabilities incurred by them in connection therewith. For the avoidance of doubt, references to the Securities include both the Securities and the Guarantee, where applicable.

UNITED STATES TRANSFER RESTRICTIONS

As a result of the following restrictions, purchasers of Securities that are located in the United States or that are U.S. persons are advised to consult legal counsel prior to making any purchase, offer, sale, resale or other transfer of such Securities.

Each purchaser of Registered Securities or person wishing to transfer an interest from one Registered Global Security to another or from global to definitive form or *vice versa*, will be required to acknowledge, represent and agree as follows (terms used in this paragraph shall have the meaning assigned to them in Rule 144A, Regulation S or Section 3(c)(7) and, in each case, the rules and regulations thereunder, as applicable):

- (a) that it has received a copy of this Base Prospectus and any applicable supplement to this Base Prospectus relating to the Securities, has carefully read this Base Prospectus and any applicable supplement to this Base Prospectus and understands the risks relating to its purchase of the Securities. The purchaser has such knowledge and experience in business and financial matters as to be capable of evaluating the merits and risks of an investment in the Securities. The purchaser understands that its investment in the Securities is speculative and involves a high degree of risk, including the possible loss of the purchaser's entire investment, and the purchaser is financially able to bear such loss;

SELLING RESTRICTIONS

The following selling restrictions may be modified by the relevant Issuer and the relevant Dealers following a change in the relevant law, regulation or directive and in certain other circumstances as may be agreed between the relevant Issuer and the relevant Dealers. Any such modification may be set out in the subscription agreement (if applicable) in respect of the Tranche to which it is related or in a supplement to this Base Prospectus. For the avoidance of doubt, references to the Securities herein include both the Securities and the Guarantee.

United States

The Securities and any Guarantee have not been and will not be registered under the Securities Act, or with any securities regulatory authority of any state or other jurisdiction of the United States and trading in the Securities has not been approved by the Commodity Futures Trading Commission (**CFTC**) under the Commodity Exchange Act, as amended (**CEA**). The Securities have not been approved or disapproved by the United States Securities and Exchange Commission (**SEC**) or any other regulatory agency in the United States, nor has the SEC or any other regulatory agency in the United States passed upon the accuracy or adequacy of this document or the merits of the Securities. Any representation to the contrary is a criminal offence. Furthermore, the Securities do not constitute, and have not been marketed as, contracts for the sale of a commodity for future delivery (or options thereon) subject to the CEA, and neither trading in the Securities nor this document has been approved by the CFTC under the CEA.

Other than for certain U.S. Securities, the Securities may not at any time be offered, sold, pledged or otherwise transferred within the United States of America or to, or for the account or benefit of, any person that is (i) a "U.S. Person" as defined in Regulation S; (ii) a person other than a "Non-United States person" as defined in CFTC Rule 4.7 under the U.S. Commodity Exchange Act (excluding for purposes of CFTC Rule 4.7(a)(1)(iv)(D) the exception for qualified eligible persons who are not Non-United States persons); (iii) a "U.S. Person" as described in the "Interpretative Guidance and Policy Statement Regarding Compliance with Certain Swap Regulations" promulgated by the U.S. Commodity Futures Trading Commission; or (iv) any other "U.S. person" as such term may be defined in regulations or guidance adopted under the U.S. Commodity Exchange Act, in each case as such definition may be amended from time to time (each such person, a **Non-Permitted Transferee**). Transfers of Securities (other than U.S. Securities) within the United States or to any person other than a person who is a Permitted Transferee are prohibited. Any transfer of Securities (other than U.S. Securities) to a Non-Permitted Transferee will be void *ab initio* and of no legal effect whatsoever. Accordingly, any purported transferee of any legal or beneficial ownership interest in a Security in such a transaction will not be entitled to any rights as a legal or beneficial owner of such interest in such Security.

In addition, Crédit Agricole CIB FS and Crédit Agricole CIB FL, as applicable, has not been and will not be registered as an investment company under the Investment Company Act by virtue of Section 3(c)(7) of the Investment Company Act which, in general, excludes from the definition of an investment company any issuer whose outstanding securities are owned exclusively by persons who are "qualified purchasers" (as defined in Section 2(a)(51) of the Investment Company Act and the rules and regulations thereunder) and which has not made and does not propose to make a public offering of its securities. Accordingly, any transfer of U.S. Securities issued by Crédit Agricole CIB FS and Crédit Agricole CIB FL may also need to comply with the provisions of Section 3(c)(7) of the Investment Company Act.

In connection with any U.S. Securities issued by Crédit Agricole CIB which are offered or sold outside the United States in reliance on an exemption from the registration requirements of the Securities Act provided under Regulation S, each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that it has not offered, sold or delivered and will not offer, sell or deliver U.S. Securities (i) as part of their distribution at any time or (ii) otherwise until 40 days after the completion of the distribution of the Tranche of U.S. Securities of which such U.S. Securities are a part, as determined and certified by the relevant Dealer, in the case of a non-syndicated issue, or the Lead Manager, in the case of a syndicated issue, and except in either case in accordance with Regulation S under the Securities Act. Each Dealer has further agreed, and each further Dealer appointed under the Programme will be required to agree, that it will send to each dealer to which it sells any U.S. Securities during the Distribution Compliance Period a confirmation or other notice setting forth the restrictions on offers and sales of the U.S. Securities within the United States or to, or for the account or benefit of, U.S. persons. Terms used in this paragraph have the meanings given to them by Regulation S under the Securities Act.

Until 40 days after the commencement of the offering of a Tranche of U.S. Securities, an offer or sale of such U.S. Securities within the United States by any dealer (whether or not participating in the offering) may violate the registration requirements of the Securities Act if such offer or sale is made otherwise than in accordance with an available exemption from registration under the Securities Act.

Dealers may arrange for the resale of U.S. Securities to QIBs pursuant to Rule 144A of the Securities Act and, where required, in the case of Securities issued by Crédit Agricole CIB FS and Crédit Agricole CIB FL, to persons who are also QPs as defined for the purposes of Section 3(c)(7) of the Investment Company Act, and each such purchaser of U.S. Securities is hereby notified that the Dealers may be relying on the exemption from the registration requirements of the Securities Act provided by Rule 144A. The minimum aggregate nominal amount of U.S. Securities which may be purchased by a QIB pursuant to Rule 144A is U.S.\$100,000 (or the approximate equivalent thereof in any other currency). To the extent that each Issuer is not subject to or does not comply with the reporting requirements of Section 13 or 15(d) of the Exchange Act or the information furnishing requirements of Rule 12g3-2(b) thereunder, such Issuer has agreed to furnish to holders of U.S. Securities and to prospective purchasers designated by such holders, upon request, such information as may be required by Rule 144A(d)(4).

Each issuance of Securities, including physically settled Securities, Credit Linked Securities, Commodity Linked Securities or Index Linked Securities shall be subject to such additional U.S. selling and transfer restrictions as the relevant Issuer and the relevant Dealer may agree as a term of the issuance and purchase of such Securities.

U.S. Tax Selling Restrictions

Securities in bearer form are subject to U.S. tax law requirements and may not be offered, sold or delivered within the United States or its possessions or to a United States person, except in certain transactions permitted by U.S. tax regulations.

Securities that constitute "registration required obligations" under the United States Tax Equity and Fiscal Responsibility Act of 1982, the U.S. Tax Code, or U.S. Treasury regulations and are not considered to be in "registered form" for U.S. federal income tax purposes (**TEFRA Securities**) are subject to U.S. tax law requirements and may not be offered, sold or delivered within the United States or its possessions or to or for the account or benefit of a United States person except in certain circumstances, including compliance with (i) U.S. Treas. Reg. §1.163-5(c)(2)(i)(D) or any successor rules in substantially the same form that are applicable for purposes of Section 4701 of the U.S. Tax Code (the **TEFRA D Rules**), or (ii) U.S. Treas. Reg. §1.163-5(c)(2)(i)(C) or any successor rules in substantially the same form that are applicable for purposes of Section 4701 of the U.S. Tax Code (the **TEFRA C Rules**).

With respect to TEFRA Securities issued in compliance with the TEFRA D Rules, the Issuer and each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that:

- (a) except to the extent permitted under the TEFRA D Rules, (i) it has not offered or sold, and during the required restricted period it will not offer or sell such TEFRA Securities to a person who is within the United States or its possessions or to a United States person and (ii) it has not delivered and agrees that it will not deliver within the United States or its possessions Securities that are TEFRA Securities that will be sold during the restricted period;
- (b) it has and agrees that throughout the restricted period it will have in effect procedures reasonably designed to ensure that its employees or agents who are directly engaged in selling such TEFRA Securities are aware that such TEFRA Securities may not be offered or sold during the restricted period to a person who is within the United States or its possessions or to a United States person (except to the extent permitted under the TEFRA D Rules);
- (c) if it is a United States person, it is acquiring such TEFRA Securities for purposes of resale in connection with their original issuance, and if it retains such TEFRA Securities for its own account, it will do so in accordance with the requirements of the TEFRA D Rules; and
- (d) with respect to each affiliate or distributor that acquires such TEFRA Securities from the Issuer or a Dealer for the purpose of offering or selling such TEFRA Securities during the restricted period, the Issuer

or Dealer either repeats and confirms the representations and agreements contained in Paragraphs (a), (b) and (c) above on such affiliate's or distributor's behalf or agrees that it will obtain from such affiliate or distributor for the benefit of the Issuer or Dealer the representations and agreements contained in such Paragraphs.

With respect to TEFRA Securities issued in compliance with the TEFRA C Rules, the Issuer and each Dealer have represented and agreed that:

- (i) it has not offered, sold or delivered, and will not offer, sell or deliver, directly or indirectly, such TEFRA Securities within the United States or its possessions in connection with their original issuance; and
- (ii) it has not communicated, and will not communicate, directly or indirectly, with a prospective purchaser if it is within the United States or its possessions or otherwise involve its U.S. office, if any, in the offer or sale of such TEFRA Securities.

Terms used in this Section shall have the meanings given to them by the U.S. Internal Revenue Code of 1986, as amended, (**U.S. Tax Code**) and the U.S. Treasury regulations promulgated thereunder, including the TEFRA D and TEFRA C Rules.

The Hiring Incentives to Restore Employment Act of 2010 repealed the TEFRA D Rules for TEFRA Securities issued after 18 March 2012. However, in Notice 2012-20, the U.S. Department of Treasury and the U.S. Internal Revenue Service indicated that they intend to provide in regulations that rules identical to the TEFRA D Rules will apply to non-U.S. issuers of TEFRA Securities for purposes of establishing an exemption from the excise tax imposed by Section 4701 of the U.S. Tax Code. (The amount of the excise tax is one per cent. of the principal amount of the obligation, multiplied by the number of calendar years until the obligation reaches maturity.) Consequently, TEFRA Securities issued in accordance with the TEFRA D and TEFRA C Rules should continue to be treated as "foreign targeted obligations" that are exempt from the excise tax.

Any offering of Securities having a maturity of less than 12 months that qualify as money market instruments is conducted exclusively under applicable private placement exemptions and this Base Prospectus has therefore not been, and it is not expected that it will be, submitted for approval to the Belgian Financial Services and Markets Authority (*Autoriteit voor Financiële Diensten en Markten/Autorité des Services et Marchés Financiers*) (the **Belgian FSMA**). Accordingly, no action will be taken and each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that it shall refrain from taking any action that would require the publication of a prospectus pursuant to the Belgian law of 11 July 2018 on the offering of investment instruments to the public and the admission of investment instruments to trading on a regulated market.

Bearer securities (including, without limitation, definitive securities in bearer form and securities in bearer form underlying the Securities) shall not be physically delivered in Belgium, except to a clearing system, a depository or other institution for the purpose of their immobilisation in accordance with article 4 of the Belgian Law of 14 December 2005.

In the case of Fund Linked Securities, if the relevant underlying funds are not registered in Belgium with the Belgian FSMA in accordance with the Belgian law of 3 August 2012 on the collective investment undertakings satisfying the conditions set out in Directive 2009/65/EC and undertakings for investment in receivables, as amended or replaced from time to time (the **UCITS Law**) or the Belgian law of 19 April 2014 on alternative collective investment undertakings and their managers, as amended or replaced from time to time (the **AIFM Law**), as applicable, then such Fund Linked Securities cannot be offered in Belgium unless (i) Cash Settlement applies or (ii) if the underlying fund is a UCITS within the meaning of Directive 2009/65/EC, the Fund Linked Securities are offered to qualified investors only or to fewer than 150 natural or legal persons (other than qualified investors). The shares and other securities issued by these funds cannot be offered publicly in Belgium.

Each Dealer further acknowledges that dealing in investments, arranging deals in investments, managing securities and the giving of investment advice are regulated activities under the SMO and that such regulated activities (unless specifically exempted) may only be carried out in Brunei by a person who holds a capital market services licence issued by the Authority. Therefore, each Dealer represents and warrants that any offer for sale, or invitation for subscription or purchase of the Notes will be undertaken through a person who is licensed under the SMO and will cause and ensure that the relevant notification, as applicable, is made to the Authority by such licensed person.

Switzerland

Subject to the applicable transitory provisions under the Swiss Federal Financial Services Act (the **FinSA**) and the implementing Financial Services Ordinance (the **FinSO**), Securities may only be publicly offered or admitted to trading on a trading venue in Switzerland by means of publication of a prospectus pursuant to the FinSA. A review body (*Prüfstelle*) according to the FinSA may determine that prospectuses which have been approved under certain jurisdictions are also deemed to have been approved in Switzerland. According to article 70 FinSO, such foreign prospectus eligible for automatic approval must at the latest at the beginning of the public offer or the admission to trading on a trading venue in Switzerland be: (i) filed with a review body for entry on the list according to article 64(5) of the FinSA; (ii) deposited with a review body; (iii) published; and (iv) made available in paper form free of charge upon request.

Each Dealer has acknowledged and agreed and each further Dealer appointed under the Programme will be required to acknowledge and agree that, subject to the applicable transitional provisions under the FinSA and the FinSO:

- (a) they have only made and will only make an offer of Securities to the public in Switzerland, other than pursuant to an exemption under article 36(1) of the FinSA or where such offer does not qualify as a public offer in Switzerland, if and as from the date on which this Base Prospectus and the applicable Final Terms have been filed and deposited with a review body in Switzerland and entered on the list according to article 64(5) of the FinSA; or
- (b) they have not offered and will not offer, directly or indirectly, Securities to the public in Switzerland, and have not distributed or caused to be distributed and will not distribute or cause to be distributed to the public in Switzerland, this Base Prospectus, the applicable Final Terms or any other offering material relating to the Securities, other than pursuant to an exemption under article 36(1) of the FinSA or where such offer or distribution does not qualify as a public offer in Switzerland.

"Offer to the public", for these purposes, refers to the respective definitions in article 3(g) and (h) FinSA and as further detailed in the FinSO.

This Base Prospectus and the applicable Final Terms, if they have been filed and deposited with a review body in Switzerland pursuant to article 54(2) of the FinSA, may be obtained in electronic or printed form, free of charge, upon request from Crédit Agricole Corporate and Investment Bank, 12 place des États-Unis, CS 70052, 92 547 Montrouge Cedex, France (website: www.ca-cib.com).

Subject to the applicable transitional provisions under FinSA and FinSO, if Securities qualifying as debt instruments with a "derivative character" (as such expression is understood under the FinSA) are offered or recommended to private clients within the meaning of FinSA in Switzerland a key information document under article 58 FinSA (*Basisinformationsblatt für Finanzinstrumente*) or article 59(2) FinSA in respect of such Securities must be prepared and published. According to article 58(2) FinSA, no key information document is required for Securities that may only be acquired for private clients under an asset management agreement. Unless the relevant Final Terms in respect of any Securities specify the "Prohibition of Offer to Private Clients in Switzerland" to be "Not Applicable", the Securities may not be offered or recommended to private clients within the meaning of the FinSA in Switzerland. For these purposes, a private client means a person who is *not* one (or more) of the following: (i) a professional client as defined in article 4(3) FinSA (not having opted-in on the basis of article 5(5) FinSA) or article 5(1) FinSA; or (ii) an institutional client as defined in article 4(4) FinSA; or (iii) a private client with an asset management agreement according to article 58(2) FinSA. "Offer", for these purposes, refers to the interpretation of such term in article 58 FinSA, subject to the preceding paragraph.

Where Securities are linked to Underlying Assets which qualify as collective investment scheme units according to the definition of the Federal Act on Collective Investment Schemes (**CISA**) (including but not limited to shares of an Exchange Traded Fund), additional selling restrictions in line with the so-called "indirect fund distribution" practice of the Swiss Financial Market Supervisory Authority FINMA (**FINMA**) may exist as set out in the relevant Final Terms for such issue of Securities.

In the case where the relevant Final Terms in respect of any Securities specify the "Prohibition of Offer to Private Clients in Switzerland" to be "Not Applicable" but if for Securities qualifying as structured products only a simplified prospectus based on the transitional provision of article 111 of the FinSO has been prepared, the "Prohibition of Offer to Private Clients in Switzerland" as described above shall automatically apply as from the expiry of the applicable transition period.

Notwithstanding anything else in this Base Prospectus, for the purposes only of offers of Securities to the public in Switzerland other than pursuant to an exemption under Article 36(1) FinSA or where such offers do not qualify as a public offer in Switzerland, references in this Base Prospectus to "Non-exempt Offer" shall be deemed to refer to such non-exempt public offer in Switzerland, and references to Securities which are not Exempt Securities shall be deemed to refer to Securities which are the subject of such non-exempt public offer in Switzerland.

The registration status of any administrator under the Benchmarks Regulation is a matter of public record and, save where required by applicable law, the relevant Issuer does not intend to update the relevant Final Terms to reflect any change in the registration status of the administrator.

Potential conflicts of interest

In the ordinary course of its business, including, without limitation, in connection with its market making activities, the relevant Issuer and/or any of its Affiliates may effect transactions for its own account or for the account of its customers and hold long or short positions in any Underlying(s) or related derivatives. In addition, in connection with the offering of any Securities, the relevant Issuer and/or any of its Affiliates may enter into one or more hedging transactions with respect to any Underlying(s) or related derivatives.

The relevant Issuer and/or any of its Affiliates may have existing or future business relationships with any Underlying(s), any constituent thereof (in relation to Underlying(s) which are indices) or, if applicable, any of their

subsidiaries or Affiliates or any other person or entity having obligations relating to any Underlying(s) (including, but not limited to, dealing, lending, depositary, risk management, advisory and banking relationships), and will pursue actions and take steps that they or it deems necessary or appropriate to protect their and/or its interests arising therefrom without regard to the consequences for a Securityholder, regardless of whether any such action might have an adverse effect (including, without limitation, any action which might constitute or give rise to any breach, event of default, credit event or termination event) on any Underlying or any investor in Securities.

Where the relevant Issuer or Guarantor acts as Calculation Agent or the Calculation Agent is an Affiliate of the relevant Issuer or Guarantor, potential conflicts of interest may exist between the Calculation Agent and Securityholders, including with respect to certain determinations and judgements that the Calculation Agent may make pursuant to the Conditions that may influence the amount receivable upon settlement of the Securities.

As the Collateral Manager and Valuation Agent are affiliates of the relevant Issuer or their relevant successor, potential conflicts of interest may arise between the Collateral Manager, the Valuation Agent and the holders of Secured Securities, including with respect to the making of certain determinations and the exercise of certain discretions (including as to the calculation of the Secured Security Market Value of the Secured Securities and the Collateral Value).

The acquisition, holding or disposal of, or other dealings in the Securities may give rise to tax consequences for the Securityholders. The *Commission de Surveillance du Secteur Financier* (the **CSSF**) approved the Base Prospectus on 7 May 2021. Application has been made to the CSSF for approval of this First Supplement in its capacity as competent authority pursuant to the Prospectus Regulation.

This First Supplement constitutes a supplement to the Base Prospectus for the purposes of article 23 of the Prospectus Regulation.

Each Issuer accepts responsibility for the information contained in this First Supplement. To the best of the knowledge of each Issuer (who has taken all reasonable care to ensure that such is the case), the information contained herein is in accordance with the facts and does not omit anything likely to affect the import of such information.

Investors may contact the Authorised Offerors should they wish to exercise the right of withdrawal. The amendments included in this Supplement shall only apply to final terms the date of which falls on or after the approval of this supplement.

This First Supplement has been prepared for the purposes of updating the provisions of the Risk Factors, Annex 2 (*Credit Linked Conditions*) and Annex 3 (*Bond Linked Conditions*) to provide additional disclosure and transparency to investors in relation to any hedge amounts determined in connection with credit linked or bond linked securities.

1. AMENDMENTS TO THE PROVISIONS OF RISK FACTORS

1.1 The below risk factor is added following the sub-paragraph (x) (*Calculation Agent may modify terms of the Securities*) in paragraph 2.3(e) (*Risks related to Credit Linked Securities*) of the section headed "Risk Factors" on page 44 of the Base Prospectus:

(xi) *Risks associated with One-Way Hedge Amount*

When "One-Way Hedge Amount" is specified in the applicable Final Terms, Securityholders should understand that, although redemption of the Credit Linked Securities prior to the scheduled maturity date may cause the Issuer and/or its Affiliates to incur both costs as well as gains (particularly with respect to any Hedge Transaction), only the costs will be aggregated to reduce the redemption amount due to the relevant Securityholders. The gains to the Issuer and/or its Affiliates will be disregarded and will not off-set its costs. This may exacerbate losses to Securityholders on their investments, even if the Issuer and/or its Affiliates have not suffered a net loss, and instead have experienced a net gain.

1.2 The below risk factor is added following the sub-paragraph (v) (*Non-delivery of Bonds will not constitute an Event of Default*) in paragraph 2.3(f) (*Risks related to Bond Linked Securities*) of the section headed "Risk Factors" on page 46 of the Base Prospectus:

(vi) *Risks associated with One-Way Hedge Amount*

When "One-Way Hedge Amount" is specified in the applicable Final Terms, each Securityholders should understand that, although the redemption of the Bond Linked Securities prior to the scheduled maturity date may cause the Issuer and/or its Affiliates to incur both costs, as well as gains (particularly with respect to any Hedge Transaction), only the costs will be aggregated to reduce the redemption amount due to the relevant Securityholders. The gains to the Issuer and/or its Affiliates will be disregarded and will not off-set its costs. This may exacerbate losses to Securityholders on their investments, even if the Issuer and/or its Affiliates have not suffered a net loss, and instead have experienced a net gain.

2. AMENDMENTS TO THE PROVISIONS OF ANNEX 2 (CREDIT LINKED CONDITIONS)

2.1 The definitions of "Hedge Amount" and "Hedge Transaction" in Credit Linked Condition 10 (*Definitions*) on pages 571 and 572 of the Base Prospectus are deleted in their entirety and replaced with the following respectively:

Hedge Amount means:

- (a) if "One-Way Hedge Amount" is specified in the applicable Final Terms, an amount in the Settlement Currency (expressed as a positive number) determined by the Calculation Agent equal to the sum of (without duplication) all costs, expenses (including loss of funding), tax, duties and any other losses or liabilities incurred by the relevant Issuer (and/or its Affiliates) in connection with the redemption of the Credit Linked Securities and/or the termination, settlement or re-establishment of any Hedge Transaction on or around the Event Determination Date, provided that in the case of Leveraged CLSs the notional amount of each Hedge Transaction terminated, settled or re-established will reflect the leveraged Floating Rate Payer Calculation Amount of the Reference Entity affected by the Credit Event;
- (b) if "Two-Way Hedge Amount" is specified in the applicable Final Terms, an amount in the Settlement Currency (which may be expressed as a positive number or a negative number) determined by the Calculation Agent equal to the sum of (without duplication) all costs, expenses (including loss of funding), tax, duties and any other losses or liabilities incurred by the relevant Issuer (and/or its Affiliates) and gains incurred by the relevant Issuer and/or its Affiliates in connection with the redemption of the Credit Linked Securities and/or the termination, settlement or re-establishment of any Hedge Transaction on or around the Event Determination Date, provided that in the case of Leveraged CLSs the notional amount of each Hedge Transaction terminated, settled or re-established will reflect the leveraged Floating Rate Payer Calculation Amount of the Reference Entity affected by the Credit Event (where a cost will be expressed as a positive number and a gain as a negative number); or
- (c) if Hedge Amount is specified as "Not Applicable" in the applicable Final Terms, zero.

Hedge Transaction means any transaction, hedge or trading position entered into or held by the relevant Issuer and/or any of its Affiliates (including with its internal treasury function or other internal department of the Issuer and/or its Affiliates on an individually matched or portfolio hedged basis) to hedge, directly or indirectly, the relevant Issuer's obligations or positions (whether in whole or in part) in respect of the Credit Linked Securities (including, without limitation, any hedge or rate swap transaction, swap option, basis swap, forward rate transaction, commodity swap, commodity option, equity or equity index swap, interest rate option, currency transaction, asset swap transaction, credit derivative transaction, funding transaction such as, but not limited to, an internal funding arrangement or a repurchase transaction or bond position, and including, in the case of Credit Linked Securities that are also Bond Linked Securities, any such transaction, hedge or trading position entered into or held to hedge obligations or positions in respect of the relevant Bonds). Solely with respect to and for purpose of any Hedge Transactions that are credit derivative transactions or hedges, the relevant Issuer will be "Seller".

3. Amendments to the provisions of Annex 3 (Bond Linked Conditions)

3.1 The definitions of "Hedge Amount" and "Hedge Transaction" in Bond Linked Condition 6 (*Definitions*) on pages 617 and 618 of the Base Prospectus are deleted in their entirety and replaced with the following respectively:

As of 27 October 2021 (last rating action) Fitch Ratings has assigned the following Ratings:

- Short Term IDR: F1+

A short term issuer default rating (**IDR**) issued by Fitch reflects a financial institution's vulnerability to default in the short term. For financial institutions and most other issuers, the "short term" typically means up to 13 months. An 'F1' rating indicates the strongest intrinsic capacity for timely payment of financial commitments; may have an added "+" to denote any exceptionally strong credit feature.

- Long Term IDR: AA-, [stable](#) outlook

A long term IDR issued by Fitch in respect of a financial institution expresses Fitch's opinion on that institution's relative vulnerability to default on its financial obligations. In accordance with Fitch's rating definitions, the default risk addressed by the IDR is generally that of the financial obligations whose non-payment would "best reflect the uncured failure of that entity". Fitch considers that the obligations of financial institutions whose non-payment would best reflect uncured failure are usually senior obligations to third-party, non-government creditors. IDRs of financial institutions therefore typically opine on the probability of default on such obligations. An 'AA' rating denotes expectations of very low default risk. They indicate very strong capacity for payment of financial commitments. This capacity is not significantly vulnerable to foreseeable events.

The Fitch Ratings group of companies established in the EU, which includes Fitch Ratings Limited, was registered on 31 October 2011 in accordance with the CRA Regulation.

As of 19 September 2019 (last rating action) Moody's Investors Service Ltd has assigned the following Ratings:

- Short Term Debt: Prime-1
- Long Term Debt: Aa3, stable outlook

Ratings assigned on Moody's global long-term and short-term rating scales are forward-looking opinions of the relative credit risks of financial obligations issued by non-financial corporates, financial institutions, structured finance vehicles, project finance vehicles, and public sector entities. Long-term ratings are assigned to issuers or obligations with an original maturity of one year or more and reflect both on the likelihood of a default on contractually promised payments and the expected financial loss suffered in the event of default. Short-term ratings are assigned to obligations with an original maturity of thirteen months or less and reflect the likelihood of a default on contractually promised payments.

A 'Prime-1' rating reflects a superior ability to repay short-term obligations. Obligations rated 'Aa' are judged to be of high quality and are subject to very low credit risk. Moody's appends numerical modifiers 1, 2, and 3 to each generic rating classification from Aa through Caa. The modifier 1 indicates that the obligation ranks in the higher end of its generic rating category; the modifier 2 indicates a mid-range ranking; and the modifier 3 indicates a ranking in the lower end of that generic rating category.

Moody's Investors Service Ltd was registered on 31 October 2011 in accordance with the CRA Regulation.

As of [19 October 2021](#) (last rating action) S&P Rating Services, a division of S&P Global Ratings Europe Limited has assigned the following Ratings:

- Short Term Debt: A-1
- Long Term Debt: A+, [stable outlook](#)

S&P's credit ratings express S&P's opinion about the ability and willingness of an issuer to meet its financial obligations in full - and on time. Beyond that, credit ratings can also speak to the credit quality of an individual debt issue and the relative likelihood that the issue may default. Ratings are expressed as letter grades that range from 'AAA' to 'D' (in the case of long term ratings) or 'A-1' to 'D' (in the case of short term ratings) to communicate S&P's opinion of relative level of credit risk.

A short-term obligation rated 'A-1' is rated in the highest category by Standard & Poor's. The obligor's capacity to meet its financial commitment on the obligation is strong. This indicates that the obligor's capacity to meet its financial commitment on these obligations is extremely strong. A long term obligation rated 'A' is somewhat more susceptible to the adverse effects of changes in circumstances and economic conditions than obligations in higher-rated categories. However, the obligor's capacity to meet its financial commitment on the obligation is still strong. The ratings from 'AA' to 'CCC' may be modified by the addition of a plus (+) or minus (-) sign to show relative standing within the major rating categories.

S&P Global Ratings Europe Limited was registered on 31 October 2011 in accordance with the CRA Regulation.

Crédit Agricole CIB is dependent on the performance of its subsidiaries and affiliates.
